NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian Residential School for the Quarter ended December 31st 1944

Principal A. H. Flury, Secy.

Dated Jan 5th 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Robertson
Indian Agent

Dated at New Westminster
this 6th January 1945

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's I.R. School for the Quarter ended Mar. 31 1945

Principal A. H. Henry
Dated Apr. 12th 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at New Westminster
this Apr 12th 1945
[Signature]
Indian Agent

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian Res. School for the Quarter ended June 30 1945

Dated July 9th 1945 Principal G. H. Leary, Secy.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at New Westminster
this 12th July 1945
[Signature]
Indian Agent

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian Resid. School for the Quarter ended September 30 1945

Principal A. H. Henry

Dated Oct. 3 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

[Signature]
Indian Agent

Dated at New Westminster

this 4th October 1945

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Ind. Resid. School for the Quarter

ended June 30 1946

Principal

A. H. Hendy

Dated

July 8th. 1946

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

J. H. H. H.
Indian Agent

Dated at

New Westminster

this

July 9 1946

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

FILE

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Marys Indian School for the Quarter ended September 19 46

Dated Oct. 2nd 19 46
Principal A. H. Henry

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at New Westminster BC
this 3rd of October 19 46
X. M. Dynes
Indian Agent

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian School for the Quarter ended Jan 7 Dec 31 19 46

Principal A. H. Hendry

Dated Jan 7 19 47

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

X. M. Dyne
Indian Agent

Dated at New Westminster BC
this 11th of January 19 47

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the St. Mary's Indian School for the Quarter

ended March 31 19 47

Principal G. H. Flendy

Dated March 31 19 47

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

J. M. Lynes
Indian Agent

Dated at New Westminster, B.C.
this 1st of April 19 47

NOTE

Principals will please be guided by the instructions printed on the last page.

Form No. I. A. 403

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian School for the Quarter ended June 30 19 47

Principal A. H. Flendy Owl.
Dated July 2 19 47

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

X. M. Dyma
for Indian Agent
Dated at New Westminster BC
this 3rd of July 19 47

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Marys Ind. Resid. School for the Quarter ended Sept. 30 1947

Dated Oct 6 1947
Principal A. W. Fleming out.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at New Westminster B.C.
this 8th of October 1947
L. M. Dykes
for Indian Agent

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL
QUARTERLY RETURN

APR 5 1948
Indian Affairs Bt.

7/8

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian School for the Quarter ended March 31, 1948

Dated Mar. 31 1948
Principal A. H. Flansburg

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at New Westminster BC
this 31st of March 1948
Indian Agent J. H. H. H.

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian Res. School for the Quarter ended June 30th 1948

Principal John W. Hennessey

Dated.....19.....

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian Res. School for the Quarter ended June 30th 1948

Principal John W. Hennessey

Dated 19.....

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian School School for the Quarter ended Sept 30th 1948

Principal John W. Hennessy

Dated Sept 30th 1948

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian School School for the Quarter ended Sept 30th 1945

Dated Sept 30th 1945 Principal John W. Kennedy

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the..... School for the Quarter

ended..... Sept 30th..... 19.48

Principal.....

John W. Hennessy

Dated..... Sept 30th..... 19.48

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

J. G. Gault

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Marys Indian Res. School for the Quarter ended December 31st 1948

Dated December 30th 1948 Principal John W. Hennessy

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian School for the Quarter ended March 31st 1949

Dated March 31st 1949 Principal John W. Hummerby

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at New Westminster, BC this 4th day of April 1949
Indian Agent J. H. H. H.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the.....*ST. MARY'S SCHOOL*.....School for the Quarter

ended.....*June 30th*.....19*49*

Principal.....*John W. Kennedy M.*

Dated.....*June 30th*.....19*49*

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the ST. MARY'S SCHOOL School for the Quarter

ended June 30th 19 49
Principal John W. Cunningham
Dated June 30th 19 49

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the School for the Quarter ended 19.....

Principal.....

John W. Kennedy

Dated 19.....

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Marys Indian Residential School for the Quarter ended September 30th 19 49

Principal John W. Kennedy
Dated Oct 2nd 19 49

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Marys Indian Res. School for the Quarter

ended December 31st 19 49

Dated December 31st 19 49 Principal John W. Kennedy

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Marys Indian Res. School for the Quarter ended December 31st 1949

Principal John W. Kennedy
Dated December 31st 1949

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the New Westminster Indian School School for the Quarter ended March 31st 19 50

Principal John W. Hennessy
Dated March 31st 19 50

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods, ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the School for the Quarter ended 19.....

Dated July 2nd 1950
Principal John W. Kennedy me

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the School for the Quarter ended 19.....

Principal.....

John W. Kennedy, Mre.

Dated *July 2nd* 19.....

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Marys Indian Res. School for the Quarter ended Sept. 30th 19 50

Dated Oct. 2nd 19 50 Principal John W. Hemmery

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Marys Indian School School for the Quarter ended Sept. 30th 19 50

Dated Oct. 2nd 19 50 Principal John W. Kennedy

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian Res. School for the Quarter ended December 31st 1950

Dated Jan 1st 1951 Principal John W. Hennessey

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian School School for the Quarter ended March 31st 1951

Dated April 1st 1951 Principal John W. Hamrey

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the ST. MARY'S SCHOOL School for the Quarter

ended June 30th 1951

Dated June 30th 1951 Principal John W. Hannon, M.A.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at St. Mary's School Indian Agent

this June 30th 1951

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the _____ School for the Quarter

ended Sept 30th 19 57

Principal John Henry

Dated Oct. 1st 19 57

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the ST. MARY'S SCHOOL School for the Quarter

ended Sept 30th 19 57

Dated Oct 1st 19 57 Principal John H. Kennedy

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Indian Agent

Dated at this 19 57

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the School for the Quarter

ended Sept 30 1957

Principal John Hennessey

Dated Oct 1st 1957

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the _____ School for the Quarter

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods, ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the _____ School for the Quarter

ended Dec 31st 1951

Principal John H. Hunsley

Dated Jan 1st 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. H. Hunsley
Indian Agent

Dated at New Westminster BC

this January 2 1952

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods, ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the _____ School for the Quarter

ended March 31st 19 52

Principal

John W. Hennessy Esq.

Dated

April 1st 19 52

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the _____ School for the Quarter

ended March 31st 1952

Principal

Dated April 1st 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the ST. MARY'S SCHOOL School for the Quarter

ended June 30th 19 52

Principal John Hennessy mi

Dated July 1st 19 52

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the School for the Quarter ended June 30th 1952

Principal John W. Kennedy
Dated July 1st 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

J. Fletcher
Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the ST. MARY'S SCHOOL School for the Quarter

ended June 30th 1952

Principal John W. Kennedy

Dated July 1st 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Mary's Indian School School for the Quarter ended Sept. 30th 1952

Dated Oct. 2nd 1952 Principal John Hennessy

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at New Westminster this October 6 1952
Indian Agent Whitcher

5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the _____ School for the Quarter ended December 31 1953

Dated January 2 1953
Principal John Hennessey

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the School for the Quarter ended December 31st 1952

Principal John Henry
Dated January 2 1953

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Whitaker
Indian Agent
Dated at New Westminster
this January 5 1953

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Ottawa, January 4, 1937.

Dear Sir:-

re Requisition No. 18694

On the above Requisition there was ordered asbestos slate blackboard with necessary chalk trough and moulding 40' long by 3½' wide.

A letter dated December 21/37 from the Principal of the St. Mary's Mission Residential School reads in part as follows:

" The blackboards arrived a few days ago but in a damaged condition. Five pieces, totalling a weight of 400 lbs., were packed in a light frame and were all broken. They are unfit for use as each piece is cracked from top to bottom".

The above blackboards are urgently required at the St. Mary's Mission Residential School and I would therefore appreciate if you would take up the matter with the firm who supplied this blackboard and arrange with them to forward new blackboards at once. It will be advisable to point out to them that we have received several complaints regarding the manner in which the blackboard is packed and, consequently, in shipping new blackboards, it should be shipped in strong frames.

I presume that the firms will replace the damaged blackboards free of charge.

Yours truly,

Philip Phelan,
Chief, Training Division.

King's Printer,
O t t a w a.

Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa.

Dear Sir:

With reference to your letter of January 4th, 153-1-4, re blackboards supplied on requisition No. 18694, which were damaged in transit, I wish to advise you that the manufacturers have made shipment of blackboards to replace the damaged ones. They have filed a claim with the Canadian Pacific Railway, and they will look after the return of the damaged blackboards.

The matter is therefore considered closed.

Yours truly,

J.W. DRISCOLL

Requisition for School Material

Date June 30th., 1938.

For St. Mary's School School New Westminster, B.C. Agency

NOTE:—Teachers should secure from the Department of Education of the Province in which the Indian School is located, a list of the text books authorized for use in the white schools. In ordering text books only those authorized in this list should be requested.
To avoid delay, teachers should give full particulars regarding each article required.
The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.
When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.
Only one item should be specified on each line of this requisition and no entry should be made under heading "No. Authorized".

FILE 1-8-A.

New Westminster, B.C.
October 3rd, 1938.

SIR:-

I beg to forward you, in duplicate, a request from the Reverend Principal, St Mary's Indian Residential School, for an expenditure of \$92.40, for Soccer Balls, Basket Balls, Rugby Balls, and Playground Balls, for use by the pupils of that Institution.

This school has come greatly to the front in sport, under the present Principal, and I would recommend that the Department give all the encouragement possible under the circumstances.

Your obedient servant,

A.O.N. Daunt
A.O.N. Daunt,
Indian Agent.

Encl.

The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Gentlemen:

Please send to 503 Booth Building,
for the St. Mary's Mission Residential School:

5 foot balls
2 basket balls
7 play-ground balls.

These should be supplied at the price
usually charged this Department and your account in
triplicate forwarded to us.

Yours very truly,

Philip Philip,
Chief, Training Division.

The Joe Miller Sport Shop,
95 Bank Street,
Ottawa.

Supplies

The Secretary,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Sir;

Would you kindly arrange to have the following supplies forwarded to the School at your earliest convenience:

²⁵
~~100~~ Form #1A-181 for preventorium use.
(we use five each month)
~~9400~~ 3 Classroom registers for Indian Residential schools.

In both cases we are out of the above-mentioned supplies and would appreciate receiving them immediately.

Would you kindly advise me as to whom I should write regarding shortages on our school supplies requisition?

Very sincerely,

A. H. Henry. out.

Principal.

Schaffers

MISSION, B.C.

June 5th, 1940.

Mr. T.R.L. MacInnes,
Secretary,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Sir;

I have recently forwarded through the Indian Agent, the school supplies requisition for the coming year. Acting upon the instructions, contained in your letter of April 13th, I have made a serious effort to list only the school supplies that are essential. The items and the amounts requested have been curtailed to a minimum in an effort to co-operate with the department's desire to keep expenditures as low as possible. Last year it apparently happened that the amounts of several items were considerably reduced by the department with the result that I was obliged to purchase about forty dollars worth of text-books and equipment out of the regular school funds, which are not too plentiful. I do not believe that this is the intention of the department. Although the authorized pupilage for the school is 172, the actual number of pupils is 201 and estimation of the amounts should be based on this number. I would be greatly pleased therefore if an effort were made to supply the amounts and items, listed on the requisition.

Very sincerely,

A. H. Fleury, Ouel.

AIR MAIL

Dear Father Fleury:

Your letter of the 5th instant has been brought to my attention. It would appear from your letter that you forwarded quite a large requisition but all we have received is a two-page requisition the first item of which reads "48 Junior Nature & Language Work Books" and the last item on page 2 reads "200 sheets of wrapping paper". No scribblers, exercise books or ordinary lead pencils are included on the requisition. Before filling it I thought it advisable to write to you as possibly only part of the requisition has reached this office.

Yours truly,

Philip Phelan,
Chief, Training Division.

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B. C.

July 25th, 1940.

Mr. P. Phelan,
Chief, Training Division,
Indian Affairs, Ottawa.

Dear Mr. Phelan;

Many thanks for your kindness in writing me in regard to the School material requisition. There were only two sheets to our list and the first and last items were the same as noted in your letter. However item #4 calls for 3½ gross of scribblers and item #12 for 2 gross of lead pencils. This is according to the copy in the files here and these items should show on the list in your hands.

In my letter of June 5th, I did not intend to give the impression that the school requisition was large. All I wished to insist on was the fact that the items and the amounts on our requisition represented the essential minimum for the current year. I personally supervised the inventory of the supplies on hand before the requisition was made out. It sometimes happens that the amounts are reduced by the department in the thought that the amounts requested are only approximate. This is what I wished to avoid in our case. I might add that the St. Basil's hymn books are a very urgently needed item. I trust that this information will be of help to you and wish to thank you again for taking this matter up with me.

Very sincerely,

A. H. Fleury, O.M.I.

A.H. Fleury, O.M.I. Principal.

Indian Affairs Branch, Dept. of Mines & Resources, Ottawa.

I beg to enclose Requisition for School Material from the St. Mary's Indian Residential School, and would recommend that the articles specified therein be supplied.

You will note a blue pencil "tick", against a number of the items. These are specially recommended by Mr. H.H. MacKenzie, Provincial School Inspector, whose report upon this school is now in your hands. These items, together with others marked with ordinary black pencil, may be obtained from the B.C. Department of Education, Text Book Branch.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B. C.

November 12th,
1943

Major D.M. MacKay,
Indian Commissioner,
Vancouver, B.C.

Dear Sir;

I am listing herewith some text-books that are urgently needed in our classrooms. I had been hoping that they would arrive with the shipments from the Department, which have been rather late this year, but apparently they are not coming. For the most part these books are part of the list that Mr. MacKenzie, the school inspector insisted upon. Some we have received, but in insufficient quantities, others have not been received at all. The books are as follows:

See Reg # 24372 {
1 doz. Happy Days readers for Grade 1B. Cinn & Co. Toronto.
3 doz. Let's Play Pre-primers. " "
2 doz. Revised Corona Readers Gr.2. " "
1 doz. Paths of Grace Gr.3. " "
1 doz. Revised Corona Readers Gr.5 " "
1 doz. Revised Corona Readers Gr.6 " "
3 doz. Pat and Patsy pre-primers. J.M.Dent & Sons. Tor. & Vanc.

The lack of these books is a constant source of discouragement and difficulty to our teachers, who are very competent. As Mr. MacKenzie pointed out, the Indian children are handicapped from the start in language, and, consequently, if we wish to attain good results, they must have very good readers. I am sure that you see this point and will do your utmost to help us, as you have done so many times in the past. We are all well at the school and things are running nicely.

Very sincerely,

A.H. Fleury O.M.I.

A.H. Fleury, O.M.I. Principal.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B. C.

April 13th,
1944

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith school material requisition for the coming year. It has taken some time to prepare this list in order to incorporate the recommendations of the Inspector, Mr. MacKenzie. On the first three pages of the requisition, I have listed the texts and articles, which he said were absolutely necessary. These texts are the best and are standard in the Provincial Public Schools. It is essential that we receive them as ordered; there should be a copy for each child especially in regard to readers and workbooks. The texts in Health, Social Studies and Science have been reduced in number, because we can make one text do for two children. The remaining sheets of the requisition cover the ordinary supplies that will be needed for the coming year.

In conformity with the Department's wish, I have ordered only what is deemed necessary and in limited quantities. I would be glad if you would do all in your power to help us obtain the items and texts as ordered. It is so necessary, because most of our text books are quite ancient. This constitutes a handicap, which even the best teaching cannot overcome.

Very sincerely,

A.H. Fleury Oud

BRANCH

IN YOUR REPLY REFER TO
NO 215-9-1848
ALSO TO DATE OF THIS LETTER

P.O. BOX 70
VANCOUVER, B.C. Aug. 11, 1945.

Indian Affairs Branch, Dept. of Mines & Resources,
Ottawa, Ontario.

OK
for
F.P.
Some days ago Reverend Father Fleury,
Principal of St. Mary's Indian Residential School,
Mission, B.C., advised that the school was in need of
a duplicating machine and as the Department had supplied
one to the Sechelt School following representations made
by Reverend Father Dunlop that no doubt they would be
prepared to authorize purchase of a similar machine for
St. Mary's.

Nothing is known here of the machine supplied
to the Sechelt School, but if the Department is providing
these machines I should say that the need at St. Mary's
Mission is quite as great as at other schools. A copy of
a letter from Reverend Father Fleury regarding the matter
is attached.

D.M. MacKay,
Indian Commissioner for B.C.

ST. MARY'S INDIAN RESIDENTIAL SCHOOL

MISSION, B.C.

August 7th, 1945.

Major D.M. MacKay,
Indian Commissioner for B.C.
Vancouver, B.C.

Dear Major MacKay:

Confirming my telephone conversation to-day, I wish to request the Department to purchase for the St. Mary's Indian Residential School, one Gestetner Duplicating Machine, priced at \$225.00, from the Gestetner Machine Co. of Canada, 660 Seymour St. Vancouver, B.C.

Mr. Landry of the Gestetner Company has advised me that they have one machine now in stock. We have needed such a machine at the School for some time, but there have been none available for the past years. I would greatly appreciate whatever you can do to help us obtain this equipment for the School.

Very sincerely,

"A.H. Fleury, O.M.I."

A.H. Fleury, O.M.I. Principal.

Ottawa, August 22nd, 1946.

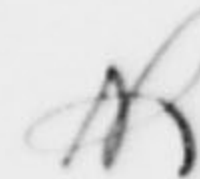

Dear Sir:

Ref: Publications.

Your letter of the 20th instant, addressed to the Chief of Supplies, has been referred to me for reply.

The cloth edition of the "Canada Year Book", ordered on Requisition No. 26766 to the Department of Public Printing & Stationery, will be satisfactory, but for any future orders we would prefer the paper edition, if it is available.

Yours truly,

Bernard F. Neary,
Supt. of Welfare and Training.

Ottawa, August 8th, 1947.

Dear Father Fleury:

We have received a long requisition from your school recently for school supplies for the academic year 1947-48. This is to inform you that the provision of these supplies may be delayed until sometime in September. The reason for this is that your requisition should have been forwarded to the Department by December 31st, 1946. Your attention is drawn to Item No. 21 of the December issue of the Bulletin. In this item, principals of residential schools were specially requested to complete and submit to the Department their requisitions for school supplies by the above date. Our records do not indicate that you did so.

We have approximately 300 Indian day school requisitions to be filled every summer, and we cannot handle this number during that time in addition to requisitions from the 76 residential schools; hence the reason for our request for the submission of residential school requisitions by the end of the calendar year.

Yours sincerely,

Bernard F. Neary,
Supt. of Welfare and Training.

Mr. Davis

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

August 12th, 1947.

P.O. BOX 494
MISSION, B.C.

Mr. Bernard F. Neary,
Sup't. Welfare & Training,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Neary;

I wish to thank you for your letter of August 8th, file #153-1-4WT, in regard to our school supplies requisition. I regret the delay in forwarding it; the more so, as it was due to a misunderstanding on our part. I had two unfortunate illnesses during the past term and while away in the hospital had left instructions for both the school requisition and the drug requisition to be sent forward. I did not realize that neither of the requisitions had been sent, until the end of the term. I quite understand the inconvenience this must cause you and I am very sorry. I have explained the reason for the delay to assure you that it was more an unfortunate error on our part, rather than disregard for your instructions.

I recall that on a visit to your office in January last, you mentioned that it would be in order for me to purchase directly, up to \$75.00 worth of science equipment, for the use of the higher grades. We were unable to obtain this equipment at the time and managed to finish the term without it. I would like to know what instructions I should follow in order to obtain the needed equipment for the coming term.

Very sincerely,

A.H. Fleury

Ottawa, September 2nd, 1947.

Dear Father Fleury:

I have for acknowledgement your letter of the 12th instant regarding school supplies.

An order has been forwarded to the Government Stationery Office for the supplies requested by you, and these should reach your school in due course.

You may expend the sum of \$75.00 in the purchase of science equipment for the use of the higher grades in the St. Mary's Residential School. An account, in duplicate, should be forwarded to the Department when these supplies have been received.

Yours truly,

Philip Phelan,
Chief, Training Division.

At Mary's Res.

With reference to the 24 copies
"History of Britain," on requisition No. 28068, our Agents advise
this is out of stock and the book is being bound. There is no
definite date for delivery but same will be supplied as soon as
available. Kindly note.

Referring to the 12 copies of "Lady
of the Lake," also included on the above-numbered requisition, the
Company state this is now available in their New Pocket Classics
edition, priced at approximately \$1.20, subject to their usual
educational discount. Kindly let me know if this edition would
meet your requirements.

POOR COPY

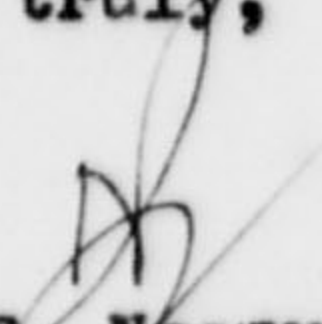

Ottawa, October 2, 1947.

Dear Sir:

With reference to your letter dated September 22nd, I would advise you that the eighteen copies Familiar Fields (McArthur) ordered on requisition # 28067 can be obtained from J.M. Dent and Sons or from the Text Book Branch, Department of Education, Victoria, British Columbia.

You may supply the twelve copies "Lady of the Lake" ordered on requisition # 28068, in the New Pocket Classics Edition.

Yours truly,

Bernard E. Neary,
Supt. of Welfare & Training.

Mr. J.W. Driscoll,
Supt. of Stationery,

ST. MARY'S INDIAN RESIDENTIAL SCHOOL

January 21, 1949.

Bernard F. Neary
Supt. Indian Education
Dept. Mines and Resources
Indian Affairs Branch
Ottawa, Ont.

Dear Sir:

For some time our Science course for Grades VII and IX has suffered due to lack of the necessary equipment. Requisitions sent for the past two years to normal source of supply proved unavailable. It was disappointing both to teacher and students to try and follow the course without the needed materials. Last spring, in answer to a direct appeal, your office sanctioned the spending of \$75.00 to obtain the basic science equipment needed. On the strength of this I have now obtained these needed materials for the course. I am enclosing the bills in triplicate and respectfully ask your department to honor them.

I remain,

Sincerely yours,

Sgd. John W. Hennessy, O.M.I.

I have your letter of April 29th returning
Cheque No. 81626 amounting to \$53.47 in payment of
invoices for St. Mary's School. We note your remarks that
these accounts were paid previously on March 14th 1949.
We would appreciate further information such as Cheque
number and date and the origin of the cheque under which
the first payment was made as our records do not appear
to disclose this payment.

Yours truly,

W. Lauchlan

, May 10, 1949.

Dear Father Hennessey:

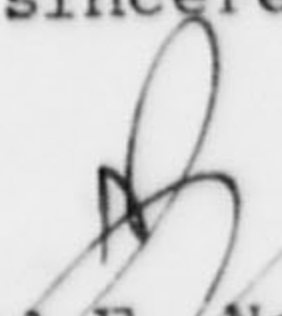

St. Mary's Mission Indian Residential School.

Your letter of January 21 concerning the science supplies from Cave and Company has caused some misunderstanding.

We sent a cheque to Cave and Company for \$53.47 and were advised by them that they had already received payment for this order. I presume that you paid this account, and that we should reimburse you in the amount of \$53.47.

Would you please confirm this fact, when a cheque will be sent to you.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

St. Mary's Indian Residential School
UNDER THE DIRECTION OF THE OBLATE FATHERS

P.O. BOX 494.
MISSION CITY, B.C.

May 17th 1949

Mr. Bernard H Neary
Supt. of Indian Education
Ottawa Ont.

Dear Mr. Neary:

In reply to your letter of May 10th, re School supplies received from Cave and Company. Having received no direct reply to my letter, after two months I felt it better that the bill be paid with the hope that some recompense would be made from your Office. I would respectfully request that the sum of \$53.47 be reimbursed to St. Marys School for like amount paid to Cave and Company for science supplies.

I am enclosing some snaps of our prize winning Music Festival Groups. St. Mary's School won 4 cups, among them the Grand Cup for the School Choir having the highest marks. This was won competing against High School and Day School choirs. Also a snap of our Senior Gymnastic Team which just won the B.C. championship for team and individual. Just further evidence that our Residential Schools are producing a well rounded and high standard of education.

Sincerely yours

John W Hennessy OMI

REQUISITION FORM FOR ORDERING TEXT BOOKS
REQUIRED BY PROVINCIAL
COURSE OF STUDY

(One Copy required)

This form is for use in requisitioning texts in Arithmetic, Social Studies, Science, etc., which are authorized for use in the schools of the provinces concerned. You will find these described in the authorized text book lists published by the Provincial Departments of Education. If you do not have such a list, then write at once for one to the Provincial Department of Education.

We would emphasize that the Department provides authorized text books but does not provide recommended text books in all cases.

QUAN- TITY	GRADE	NAME OF TEXT BOOK	AVAILABLE FROM	PAGE ON WHICH LISTED IN AUTHORIZED PROVINCIAL TEXT BOOK LIST

Dear Mr. Davey:

Our requisition for High School books ordered well over a month ago has not yet been received. This is making things very difficult, especially for Grades 10 and 11. If the following books could be purchased now, the teacher could carry on until rest of order arrives. Sorry to have to bother you about the matter, and thanking you for your help in the past, I remain

Yours truly

John W Hennessy OMI
John W Hennessy OMI

Rev. J.W. Hennessy, O.M.I.,
Principal,
St. Mary's Mission Indian Res. School,
Mission, B.C.,

Dear Father Hennessy:

We have a signal from Colonel Neary
reading as follows:

"Check on Requisition October 15 Grade Readers
Etc. Mission Res. School Stop Expedite Delivery"

On checking our files, we fail to
locate a requisition dated October 15. However, we
have one dated October 31st calling for:

35	Streets and Roads
35	Workbooks - Streets and Roads
35	More Streets and Roads
35	Workbooks - More Streets and Roads
40	Gay Adventures
40	Workbooks - Gay Adventures

We are advised by the Department of
Public Printing and Stationery that these books were
shipped on November 22nd and should have reached you
by now.

Please advise whether this is the
requisition to which you refer.

Yours sincerely,

MFT/HM

Philip Phelan,
Chief, Education Division.

COURSE OF STUDY

(One Copy required)

2907

NOV 10 PM 2:09

This form is for use in requisitioning texts in Arithmetic, Social Studies, Science, etc., which are authorized for use in the schools of the provinces concerned. You will find these described in the authorized text book lists published by the Provincial Departments of Education. If you do not have such a list, then write at once for one to the Provincial Department of Education.

We would emphasize that the Department provides authorized text books but does not provide recommended text books in all cases.

Dear Sirs:

Will you please send me six (6)
copies of the series of pamphlets dealing
with the various Indian tribes of Canada,
as mentioned in the September issue of
your Indian Affairs Bulletin.

This is one series for each of our
classrooms.

I thank you.

Respectfully yours,
Sister Mary Stella, S.S.A.

Re: Req'n 59-33262

On the above requisition for your Indian Affairs Branch, you have two items:-

1 Ream Graph Paper 8 1/2 x 11

1 Ream Unruled Looseleaf Paper 7 1/4 x 9 1/4

These cannot be supplied from our Book Section and are transferred on a non-catalogue requisition. In order that we may forward to your St. Mary's Mission School the proper paper, it is necessary that we have a sample sheet of the paper required.

Would it be possible for you to let us have these two samples when we will attend to this requisition.

Requisition for School Material

Date August 16th 1951

For St. Marys Indian Residential School New Westminster Agency

NOTE:—

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "Number Authorized".

Order No.

To the Departmental Purchasing Agent, Ottawa,

Please furnish the following Supplies for use of St. Mary's Indian Residential School.

Vote 534 Primary 16 Object 415 Date Required at once

Ship to Rev. J. H. Hennessy, O.M.I., Principal, St. Mary's Indian Residential School, Mission, B.C.

Mail invoices to Mr. J. Gillett, Superintendent, Indian Agency, New Westminster, B.C.

Purpose for which required St. Mary's Indian Residential School #890

QUANTITY		UNIT PRICE	TOTAL
6	Typewriters		
6	New Rational Typewriting (Canadian Edition, Gregg Publishers)		
Note: In forwarding the requisition, Indian Commissioner Arneil writes as follows: "The attached is required because a number of the high school students at this school will be taking typing options."			

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

SIGNED—

APPROVED—

Director

- (1) Group requisitions for equipment, supplies and material according to commodity, i.e. books, stationery, printing, electrical goods, hardware, machinery, provisions, transportation equipment, etc.
- (2) Avoid issuing requisitions for one item only, except in cases of emergent necessity.
- (3) Furnish exact details of product required.

Re: St. Mary's Residential School

We received a requisition for six typewriters to be supplied to the above school, due to the fact that some of the high school students are taking typing options. The purchase of these machines will involve a considerable sum of money and the machines may or may not be used for any great length of time. We would like more definite information regarding the necessity for supplying the number of machines requested.

Philip Phelan,
Superintendent of Education.

Re: St. Mary's Indian Res. School,
Text Books.

Attached please find a letter from the
Principal of the above named Residential School, requesting a
supply of texts which were requisitioned last spring.

As the Department probably knows, this
Residential School has enrolled about 28 pupils in high school
and these texts are urgently required.

I shall appreciate any action the Depart-
ment can take to expedite their delivery.

Your file 153/13-3-890

With reference to your letter of December 18 regarding school books for High School pupils in the St. Mary's Indian Residential School, you are advised that we are ordering through the Department of Public Printing and Stationery the following:

Today's Clothing
English Fundamentals
Contes et Recits

With reference to the others, we have been advised from the Department of Public Printing and Stationery delivery slips that the following shipments were effected:

1 copy Your Home and You
8 copies Personal Problems
12 " Across the Ages

The numbers shipped were the numbers requested by you. Would you kindly advise therefore whether the quantities requisitioned by Father Hennessy are additional to the ones he has already received.

An extra copy of this letter is attached in order that you may forward it to Father Hennessy.

Rev. J.W. Hennessy, O.M.I.,
Principal,
St. Mary's Indian Res. School,
Mission City, B.C.,

Dear Father Hennessy:

Attached I am returning your
requisition for standard text books for your
school.

In the column "Number on Hand Used"
text books and workbooks you have shown that you
have a sufficient number for next year. However,
you are requisitioning for more. For example,
you indicated that you have 30 workbooks - More
Streets and Roads on hand yet you requisition 30
new workbooks and your enrolment in Grade 2 (who
it is presumed will be promoted next year) is only
28, meaning that you intend to scrap the used
workbooks which is not the intention of the Department.

The same applies to other items shown
on the page. Please advise whether you consider the
books presently in use are in such a condition that
they should be replaced.

In the meantime, we are forwarding the
requisition for supplies to the Department of Public
Printing and Stationery for shipping.

Yours sincerely,

Philip Phelan,
Superintendent of Education.

APPROVED—

For *Director*

- (1) Group requisitions for equipment, supplies, and material according to commodity, i.e. books, stationery, printing, electrical goods, hardware, machinery, provisions, transportation equipment, etc.
- (2) Avoid issuing requisitions for one item, only, except in cases of emergent necessity.
- (3) Furnish exact details of product required.

REQUISITION FORM FOR ORDERING TEXT BOOKS REQUIRED
BY PROVINCIAL COURSE OF STUDY

(One copy required)

January 2nd 1953
Date

This form is for use in requisitioning texts in Arithmetic, Social Studies, Science, etc., which are authorized for use in the schools of the provinces concerned. You will find these described in the authorized text book lists published by the Provincial Departments of Education. If you do not have such a list, then write at once for one to the Provincial Department of Education.

We would emphasize that the Department provides authorized text books but does not provide recommended text books in all cases.

For St. Mary's Indian Res. School New Westminster Indian Agency

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "Number Authorized".

Items as listed on the attached sheets.

W. S. Arneil, Esq., Indian Commissioner for B.C., Vancouver, B.C.

The above mentioned articles are required for the teaching of science at St. Mary's School as per the instructions of Mr. Parminter, school inspector.

As we do not know where these articles can be procured, it is recommended that they be ordered through your office and shipped direct.

N.B.—Explicit information regarding address must be furnished.

Frank Devlin Esq.
Indian Agent.

Sir

You will be conferring a favour upon us by forwarding the enclosed petition to the proper authorities.

As you are aware in our anxiety to make this school as efficient as possible we have just completed at considerable expense a large building containing workshops, band-room, instructors' rooms and a couple of dormitories. Unfortunately to effect this we were compelled to use up all the money we could scrape together so that the disaster of May 20th found us in a condition which precluded all thought of further building. Fortunately we have fine weather now so that the girls are able to wash outside but how it will be in the winter is a problem one does not like to face. However as it must be faced, and the sooner the better, I take the liberty of soliciting your good offices in our behalf.

The first thing we did was to lay a statement of our losses before the Insurance Co but were informed that as this did not occur in either of the main buildings which were alone insured we had no claim, now we can only appeal to the Government.

To rebuild the laundry and bakery and make good machines, tubs &c and clothing destroyed a sum of \$1000 will be required.

Feeling sure that with your usual kindness you will do all in your power for us

I am

sincerely yours

E. C. Chirouse O.M.I.

Principal.

New Westminster, B.C., 3 July 1896

MEMO.

R. W. Anscombe Esq.,
Indian Superintendent

Victoria

Sir,

I have the honor to enclose communication received from Rev Father Chyrouse Principal of St Marys Mission Indian Boarding School. asking that some assistance be granted, by the Dept. to enable him to rebuild the Laundry and Bakery attached to the School. which was destroyed by fire on 20th of May last. The Rev. Principal informs me that unless he receives assistance from some source; he will be unable to rebuild and as a Laundry and Bakery is absolutely necessary for the welfare of the Pupils an effort should be made to render some assistance. If the material was supplied which I think could be done for about \$500⁰⁰ the buildings could be constructed by the Rev Principal and his assistants, who are all handy at any kind of Carpenter work.

I have the honor to be
Sir,
Your Obedient Servant.
Frank Deolin,
Indian Agent.

N.B. The new building referred to in the Rev^d Father's letter is a substantial structure, well finished 22x40ft 2 1/2 stories high and cost in the neighbourhood of \$1000⁰⁰

EXAMINED OTTAWA 7th August 1896
SCHOOL BRANCH.

Sir,

I have to acknowledge the receipt of a letter from Mr Agent Devlin, covering a communication from the Rev. Father Chirouse, Principal of St. Mary's Mission Boarding school, asking for assistance to enable him to re-build the laundry and bakery, which was destroyed by fire in May last; and in reply I regret to say that at present the Department has no funds for this purpose, no money having been voted and at present I am unable to state what action the Government will take in this matter.

Your obedient servant,

January 4th 1902

To His Lordship

Right Reverend A. Domettville O.M.I.D.D.
Bishop of New Westminster

My Lord,

I have the honor to apply to your Lordship for an addition to be connected with the main building of the boys' department at St. Mary's School.

The foundations of our kitchen are thoroughly rotten, and, in fact, the whole building is in such a bad condition that a repairing means simply a renewing of everything. Moreover, the dining room 32×15 ft. is altogether too small to accommodate our forty or more boys along with from ten to fifteen other persons (teachers and workmen) for whom no other room can conveniently be had. A larger infirmary, as well as a more convenient and more spacious bath-room are also urgently needed. The room used at present, as infirmary is only 14×10 ft. which is evidently insufficient; considering the number of pupils and the frequent indispositions of Indian children. With regard to the bath-room, I beg to state that, besides being in a most inconvenient place, where there is no possibility of connection with hot water, it is also extremely small, and in both these respects is most deficient.

All these disadvantages can perfectly be remedied by adding a new wing to the main building. The said new wing, as shown in the plan here with enclosed, would contain the following:

A. W. Vowell Esq.
Indian Superintendent

Victoria

Sir

I have the honor to enclose letter received from His Lordship Bishop Duntzevill of New Westminster, forwarding letter from the Rev Principal of St. Mary's Mission Indian Boarding School, asking assistance to enable him to make some very necessary improvements in the present School Building occupied by the boys at St. Mary's Mission and enclosing Plans showing the proposed alterations also Bill of quantities. I strongly recommend to the favorable consideration of the Department the enclosed application as the improvements contemplated are very much needed. The present Class room is much too small, as also is the present Dining room. By making the additions contemplated the rooms now used as Dining Room, and Class Room can be made into one thereby making a good large Class Room. The building as shown on enclosed Plan would be added as a wing to the present School building. The per Capita allowance given St. Mary's Mission just about enables them to live, so that when any extra expense such as at present proposed, they are entirely unable to meet it. They have quite a few Indian boys and girls attending the School, for which they receive nothing, as the per Capita allowance is only allowed for a certain number. Knowing from personal knowledge that unless assistance is given by the Dept., the improvements contemplated cannot be made. I would urge the Dept. to consider the matter favorably.

Yours Obedient Servant.
Frank D. Dedler
Indian Agent.

Schools

SCHOOLS,
JAN 23 1902

Sir:-

I have the honor to submit herewith for your consideration a letter dated the 13th instant received from Mr. Agent Devlin of the Fraser Agency, together with the enclosures therein referred to relative to an application made by the Reverend J. M. Tavernier, O. M. I., Principal of the St. Mary's Mission Indian Boarding School for a grant from the Department to the extent of \$2300.00 to enable the management of the institution of the institution to make additions necessary to accommodate the number of pupils at the school and to have certain repairs undertaken for all of which work the school cannot raise the money required for the purpose. During the many visits I have made to this institution from time to time I have ever found the Principal and teachers most assiduous in the performance of the duties assigned to each and as a result of their efforts much good has been accomplished and from my knowledge of the condition of the buildings and the number of pupils and officers domiciled therein I cannot but recommend that the application made be favorably entertained by the Department and the necessary provision made for carrying out the work outlined by the

Principal

Principal in his letter of the 4th instant and accompanying sketch addressed by him to the Roman Catholic bishop of New Westminster. For the Department's information I may remark that many years ago a boarding school was opened by the Roman Catholic church authorities at St. Mary's Mission with only a limited number of pupils. Since that time the number of pupils has been added to until of late years the institution has partaken of the character of an industrial school, at which many useful trades have been taught the Indian children residing therein. The old school structure was never intended to house more than the few pupils at first entered there for instruction, it being by far too small for the accommodation of the increased number of pupils admitted in after years, until now the space afforded for the children is totally inadequate to the demand made upon it, not alone for the number of pupils for whom the regular grant is made by the Department but for several children of Indian parentage whom the management of the institution is educating there at its own expense. There are many children of school age who, in addition to those already being educated in the school, would be glad to leave their reserves in various parts of the Fraser Agency for the sake of gaining the education which the St. Mary's Mission institute affords were the additions now asked for made to the school but who under existing circumstances cannot attend. I trust, therefore, that the Department can see its way clear to making a grant to the extent named in the application herewith made. It will be noticed that an item of \$625.00 appears on the estimate of cost as a charge for labor. There is no doubt

*The Minister
Consideration*

Department of Indian Affairs
OTTAWA, 23rd January, 1902:-

The Secretary:-

Mr Supt. Vowell forwards an application from the Principal of St Mary's Mission boarding school on the Fraser River for a grant of \$2,300.00 for necessary additions and repairs. This application is endorsed by His Lordship, Bishop Dontenville, Mr Agent Devlin and the Superintendent.

This is the oldest school in British Columbia and although only receiving a grant of \$60.00 per capita is, from the ~~work~~ done, as much entitled to rank as an industrial school as any of the others in the Province. It is the only Roman Catholic boarding school on the mainland West of Kamloops and most of the Indians in this district are of that faith. Applications for the establishment of other Roman Catholic boarding schools in Mr Devlin's Agency have been refused and if additional accommodation were provided for at St Mary's, they would be unnecessary.

The Department is paying for 60 pupils and they have more than that number now on the roll.

I may add that the Coqualeetza Home, which is exactly the same class of school and is only a few miles distant, receives a per capita grant of \$130.00 for 80 pupils besides the Department's contributions towards buildings.

Harold Green

Schools. Did not the Dept. a Session or two ago make make some provision for School accommodation to meet the requirements of the Roman Catholic Church?

Yes - \$700 provided 1898-9 for Laundry & other work

December 10, 1902.

To His Lordship

A. Duntinwill O. M. S.

Bishop of New Westminster B.C.

My Lord,

I beg to renew the appeal made, through your Lordship, to the Department of Indian Affairs, about a year ago, re the proposed addition to our Indian School, at St. Mary's Mission.

You are aware that a new kitchen is most urgently needed, that the dining room as well as the infirmary are far too small, and that our bath room is very inconvenient. It is therefore to be hoped that the Indian Department will this year take the matter into favorable consideration.

I have the honor to be

R-COPY

NEW WESTMINSTER, B. C.,

January 7, 1903,

238490

Frank Devlin, Esq.

Indian Agent, New Westminster, B.C.,

Dear Sir,

I have the honor to send you, herewith, the renewed appeal made by the Reverend Principal of St. Mary's Mission Boarding School, to the Department of Indian Affairs, for help towards the erection of a most needed addition to the Boys' school.

All the necessary data concerning the proposed addition and the cost of material and labor were forwarded to the Department through you, together with the Reverend Principal's appeal, supported by an application from me, on January 10, 1902. Reference to these papers, which, no doubt, are kept in the archives of the Department, will at once enable the officers, whose duty it is to report and recommend the urgency of the need of this case, to derive the required information thereto.

It is not pertinent to express any judgment on the refusal of the Department, last year, to allow any grant to be given to this much needed addition. I wish to say, though, that I am convinced that if the Department is desirous to promote the efficiency and progress of the school for which this appeal is made, and wishes to show practically its desire to help ^{those} ~~the~~ Indians, ^{and they} ~~are~~ the immense majority, ~~of~~ whom this school benefits, it will urgently press the allowance of the grant demanded.

Besides enabling the personnel of this school to do more efficient work, and doing the Department greater credit, the granting of this small subsidy will be ~~simply~~ an incentive to all concerned in the tedious and ungrateful work of elevating the wards of the nation, to put forth renewed efforts towards that end.

You will surely press the needs in this case.

I have the honor, dear Sir, to be

Your humble servant,

A. Doughton

Ottawa, February 6, 1922.

Memorandum.

Mr. Scott-

The Reverend Father J. Welch of New Westminster, B. C., Supervisor of the Indian work of the Oblate Order in his area, made certain requests during his recent visit to the Department.

In brief, he asked for an outbuilding for the St. Mary's Boarding School at Mission, B. C. to serve as laundry, kitchen and sewing-room. His approximation of the cost is \$10,000.00. A new barn to cost \$5,000.00 is urgently needed and the same amount is required to enlarge the present building to provide additional classroom, play-room and dormitory space.

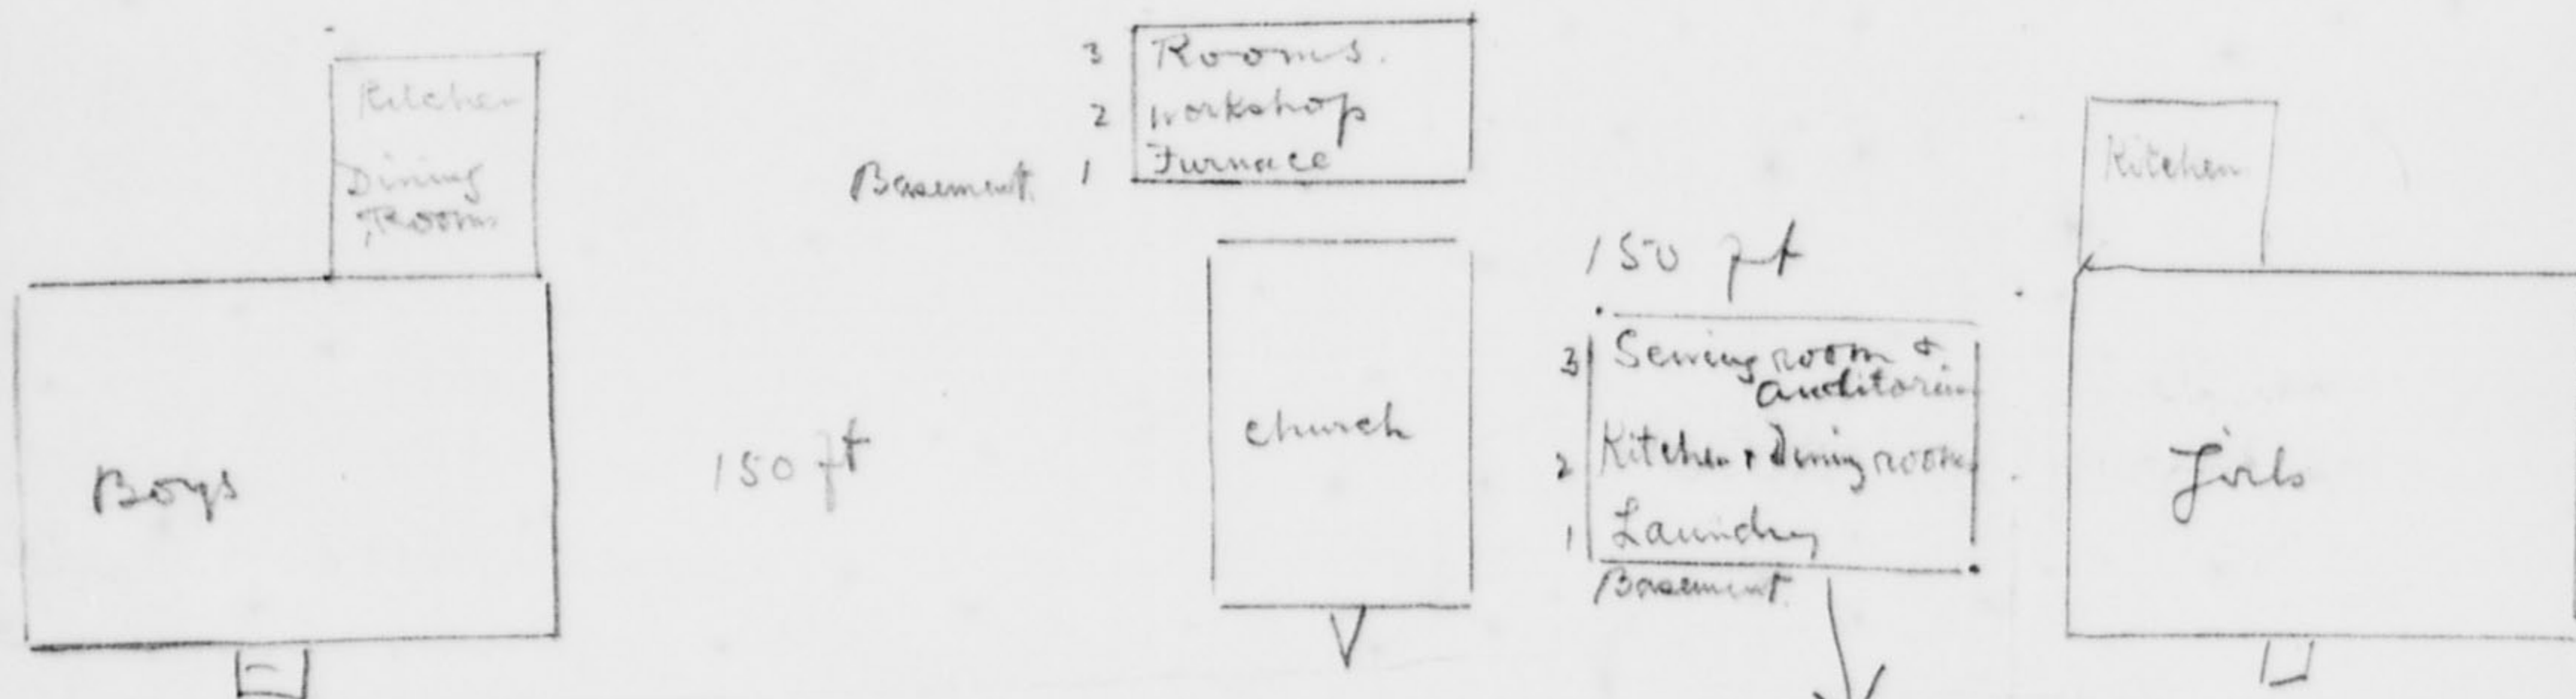

You will remember that the Department promised careful consideration in connection with the needs at this school and at the Squamish Boarding School, North Vancouver. I have placed another memorandum on the file of the last named institution.

Russell F. Heenan
Supt. of Indian Education.

Improvements suggested:

- 1- New building consisting of a Basement, Ground floor, First floor.
Basement for Laundry and cellar,
Ground floor consisting of one Kitchen and pantry,
four dining rooms.
First floor: sewing room, linen and clothes room.

2- Alterations:

In the boys' school.

Present recreation room to be converted into a class room (giving the Institution two class rooms or if they are united one large, well ventilated class room)

Present Pantry to be used for shower baths and ~~toilet~~ toilet.

Present Kitchen and dining rooms, to be used for recreation room.

Top story, next to Dormitory, in the wing, to be altered into dormitory, will accomodate twenty boys.

In the Girls' school:

Present Kitchen, dining room, to be converted into recreation room for girls, and Indian parlor.

Present recreation room, to contain shower baths and bath rooms and toilet for girls. Cloake room too.

Present Indian parlor and room, will be used for hospital purposes.

Sewing room, converted into dormitory. Will accomodate ten children.

3- Advantages:

Single Kitchen:

Saving labor and expenses.

~~Ext~~ Giving the boys more congenial work and ~~the~~ placing the girls in their proper place.

Having a central building, which might be called a technical building, for the girls, discipline will be easier, the work will be more efficient, and the running of the school will be more economical.

Central building for Kitchen (with the existing central furnace) away from main buildings, fire risk greatly lessened.

More accomodation for pupils will be obtained: (30)
Ninety children at school at present and some fifteen applications turned down.

Alterations will provide ~~the~~ the children (each side) with a well ventilated, large recreation room, rainy days being numerous, the need of a large recreation room is obvious.

Better class room

Cleanliness easily maintained, sanitary condition children will be able to take frequent baths.

The need of a laundry is obvious.

The taxes increasing, ways and means to run the school economically and with great efficiency must be found. The above alterarions will help.

We must economize or be compelled to close St. Mary's as an Indian School

Ottawa, February 4, 1922.

MEMORANDUM

Mr. Scott.

With reference to the attached memorandum and sketch handed you yesterday by the Rev. Father Welch regarding improvements asked for at the St. Mary's Indian School, Mission, B. C., I beg to report that the approximate estimate of cost of erecting a building to provide for a new laundry, pupils' and staff's dining-rooms, kitchen, pantry and store-rooms, and a combined sewing and recreation room would be \$12000.00. The heating of this building could be provided for by connecting up with the central heating plant at the school if the boiler now installed is large enough to take care of the additional radiation.

Referring to the alterations asked for in the existing boys' and girls' buildings, according to information contained in their memorandum and furnished verbally by Father Welch, the cost would not in my opinion exceed \$2000.00.

I understand that the existing school buildings are owned by the Church.

MEMORANDUM

Ottawa, February 4th, 1922.

The Honourable J.H. King,
Minister of Public Works,
O T T A W A, Ont.

563530

Honourable Sir:-

I have come to Ottawa to ask the Indian Department to make certain important improvements in St Mary's Indian School at Mission, B.C., viz:

- A--1o: to erect a steam laundry. The washing (for 100 persons) is now done in a shed and all by hand;
 - 2o: above the laundry to build a common kitchen with dining rooms for boys, girls and staff;
 - 3o: as a third story (or second story if laundry is put in a basement) a large sewing room which would also serve the purpose of an auditorium for the children's concerts.
- B-----We have a farm in connection with the school, the produce of which goes to the upkeep of the school children, and yet, this farm land is taxed by the municipality to the extent of about \$1,000.00 per annum or nearly one sixth of our per capita grant. We consider that these taxes should be borne by the Indian Department.
- C-----A barn is urgently needed but the school has no funds with which to erect it, as practically the entire Government grant each year and all the produce of the farm go to the support and education of the Indian children, who after all, are the wards of the Government. Would the Department be willing to vote us \$5,000.00 towards a new barn?
- D-----When I have explained to Mr Duncan C. Scott who has always shown great interest in the welfare of our Indians, how by a small outlay, the class-rooms, play-rooms and dormitories could be enlarged, and provision be easily made for 20 or 30 more pupils. *Larger indoor play-rooms are much needed at the coast where we have so much rain*
- E-----Lastly, I am making an appeal in behalf of the Indian School in North Vancouver. The Department in all fairness should give them additional help or build them a new school. At present the children and the Sisters are packed like the proverbial sardines. For lack of funds they cannot better conditions. As at St Mary's (Mission B.C.) their little garden and orchard are heavily taxed. The per capita grant is barely enough to supply the children and Sisters with food. It is only by appealing to the charity of other institutions that they can make ends meet. *These hardworking and self sacrificing women are the servants of the Government; why should they be forced to beg, in order to be able to carry on their noble work?*

*J. Welch. D.M.P.
Vicar of Missions
New Westminster
B.C.*

MEMORANDUM.

Rev. Father Welch called at the office yesterday and discussed the improvements required at the Mission School, B. C. The new building which is asked for should provide the following accommodation:-

BASEMENT,-

Laundry, store-rooms, and bakery.

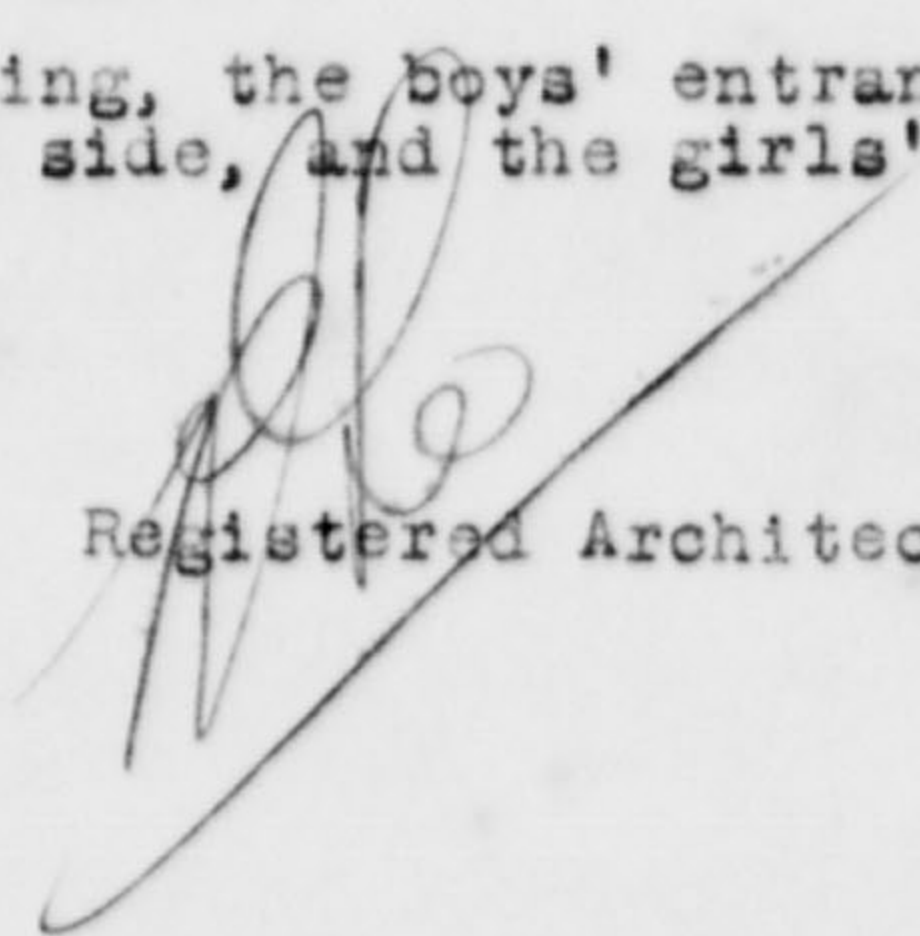

GROUND FLOOR,-

Kitchen, pantry, store-rooms, two staff dining-rooms with accommodation for twelve in each, two pupils' dining-rooms with accommodation for sixty in each.

FIRST FLOOR,-

First floor to be all in one room and used as a sewing-room and assembly-hall.

In planning the building, the boys' entrance to the dining-room should be on the left side, and the girls' on the right side of the building.

OTTAWA, April 18th, 1922.

Madam, -

I have to acknowledge the receipt of a requisition which you forwarded from the Principal of St. Mary's Mission Boarding School requesting that 200 feet of 2" fire hose be supplied for the use of the school.

In reply I beg to say that the Department will approve of the purchase of this quantity of fire hose. It will be necessary, before making the purchase, to obtain competitive prices from several dealers handling this material, and the purchase should be made from the one quoting the lowest price. Either yourself or the Principal should obtain prices.

It is noted that no reference is made to a nozzle or couplings. It may be that the Principal has these on hand, but if not, a nozzle and the necessary couplings can also be purchased.

Properly certified vouchers should be forwarded covering the expenditure incurred in the purchase of the hose, etc., to which should be attached a memorandum showing the names of the firms asked to quote a price and the prices quoted.

Your obedient servant,

A. F. MacKenzie

And now a word in connection with St. Mary's:
When I was in Ottawa I placed before Mr. Scott and Mr. Orr
a plan to erect a steam laundry, a central kitchen with
dining rooms for boys, girls, Sisters and male assistants,
and overhead a sewing room and auditorium. A new school
at St. Mary's will not be required for many, many years, as
it is in an excellent state of preservation, but the steam
laundry, central kitchen, etc., should I think be taken into
consideration by the Government without delay. If this were
done, and a new barn put up at a later date, St. Mary's
would be splendidly equipped. These improvements, I take it,
will not be affected by negotiations now taking place, no
matter what settlement may be arrived at in regard to the
taking over of our Schools by the Government.

Referring to paragraph 6 of the letter, I beg to state that I am made to understand that a sum of \$6,000 is included in the supplementary estimates for repairs to the main building and barns at St. Mary's. I suppose then that the request formerly made and presently renewed by Rev. Fr. Welch can not be granted this year. If not, please indicate the nature of repairs that the sum of \$6,000 will permit.

Ottawa, May 16, 1922.

Reverend Sir:-

I am directed to acknowledge that portion of your letter of the 13th instant, referring to the addition and repairs to the St. Mary's Boarding School, B. C. I have noted Father Welch's remarks to you, concerning the need, and have to reply that we were unsuccessful in arranging to have voted the total amount required for the separate administration building.

In the supplementary estimates for the present year, an item has been included with a view to erecting a barn at the St. Mary's Boarding School this year. The major improvements will have to be postponed. It might be well if you would have Father Welch secure for us a rough sketch of the type of barn the school authorities desire and an intimation as to the amount of stock that is to be accommodated.

Concerning the question of the taxes at the St. Mary's and Squamish Boarding Schools, a further communication will be addressed to you.

Your obedient servant,

R. T. Ferrier

Dear Mr. Scott,

In reply to your recent communication regarding the erection of a new barn for St. Mary's School, Mission, B.C., I beg to say that a barn on lines similar to the one of Kamloops Industrial School, including a silo, will meet all our needs.

The amount of stock to be accommodated is as follows: 4 horses, 16 to 18 milch cows, 6 to 8 yearlings and about 12 calves. The School produces about 80 tons of hay per annum.

I have the honour to be,

Yours sincerely,

J. Welch. D.M.S.

TENDERS WANTED.

SEALED TENDERS addressed to the undersigned, and endorsed on the envelope "TENDER FOR BARNES FOR ST. MARY'S INDIAN BOARDING SCHOOL, MISSION, B.C." will be received up to noon of the eighteenth day of August, 1922.

Plans and specifications may be seen at the offices of W. E. Ditchburn, Chief Inspector of Indian Agencies, Victoria, B. C.; R. H. Cairns, Inspector of Indian Schools, Post Office Building, Vancouver, B.C.; St. Mary's Indian Boarding School at Mission, B.C., and at the Department at Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank for 10% of the amount of the tender, payable to the order of the undersigned. (War Bonds and Cheque if required to make up an odd amount, which amount will be forfeited if the person or person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

The building to be fully completed within three months after the signing of the contract.

Lowest or any tender not necessarily accepted.

Asst. Deputy and Secretary,

Department of Indian Affairs,

Ottawa, Canada.

Sir;

I am returning to you under separate registered cover, blue print copy of plans and specifications of the proposed barns for the St. Mary's Indian Boarding School at Mission, B.C.

Your obedient servant,

R. H. Cairns,

Inspector of Indian Schools for the Province of
British Columbia.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, August 23rd, 1922.

Memorandum,-

Mr. Scott.

Plans and specifications were prepared for a new barn required at the St. Mary's Indian Boarding School at Mission, B.C. Tenders were invited by advertising in the Victoria and Vancouver papers and in response the following prices have been received,-

Smith Bros. & Wilson, Ltd., Vancouver,	\$12835.00
R.H. Brock, Chilliwack, B.C.,	11000.00
Baynes & Horie, Vancouver,	12259.00

All of the above tenderers have sent in the required deposit security with their tenders.

My estimate of the cost of this building is approximately \$12,000. As Mr. Brock's tender is the lowest and a fair and reasonable price for the work, I beg to recommend that it be accepted.

W. H. McCreary
Architect.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

R-COPY

Ottawa, August 26th, 1922.

His Excellency,

The Governor General in Council,

The undersigned begs to report that a new barn being required at the St. Mary's Indian Boarding School at Mission, in the Province of British Columbia, tenders were invited by advertising in the Victoria and Vancouver papers, and in response the following prices have been received:-

Smith Bros. & Wilson, Ltd., Vancouver,	\$12835.00
R.H. Brock, Chilliwack, B.C.,	11000.00
Baynes & Horie, Vancouver,	12259.00

The undersigned would, therefore, recommend that the contract for the barn at the St. Mary's Indian Boarding School be awarded, pursuant to the requirements of sub-Section 2 of Section 36 of the Public Works Act, to Mr. R. H. Brock for the amount of his tender as above cited, the same being considered by the Architect of this Department as a fair and reasonable charge.

Funds are available for this purpose from the Vote for Indian Education.

Superintendent General
of Indian Affairs.

TENDERS WANTED

SEALED tenders addressed to the undersigned, and endorsed on the envelope "Tender for Burns for St. Mary's Indian Boarding School, Mission, B.C." will be received up to noon of the eighteenth day of August, 1922.

Plans and specifications may be seen at the offices of W. E. Ditchburn, Chief Inspector of Indian Agencies, Victoria, B.C.; R. H. Cairns, Inspector of Indian Schools, Post Office Building, Vancouver, B.C.; St. Mary's Indian Boarding School at Mission, B.C., and at the Department at Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank for 10% of the amount of the tender, payable to the order of the undersigned. (War Bonds of the Dominion will also be accepted as security or War Bonds and cheque if required to make up an odd amount) which amount will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

The building to be fully completed within three months after the signing of the contract.

The lowest or any tender not necessarily accepted.

DUNCAN C. SCOTT,
Deputy Superintendent General
of Indian Affairs.

Certified copy of a Report of the Committee of the Privy Council, approved by His Excellency the Governor General on the

7 TH SEPTEMBER 1922

571948

571948

The Committee of the Privy Council have had before them a report, dated 26th August, 1922, from the Superintendent General of Indian Affairs, stating that a new barn being required at the St. Mary's Indian Boarding School at Mission, in the Province of British Columbia, tenders were invited by advertising in the Victoria and Vancouver papers, and in response the following prices have been received:

Smith Bros. & Wilson, Ltd., Vancouver,	\$12,835
R. H. Brock, Chilliwack, B.C.,	11,000
Baynes & Horie, Vancouver,	12,259.

The Minister, therefore, recommends that the contract for the barn at the St. Mary's Indian Boarding School be awarded, pursuant to the requirements of subsection 2 of Section 36 of the Public Works Act, to Mr. R. H. Brock for the amount of his tender as above cited the same being considered by the Architect of the Department of Indian Affairs as a fair and reasonable charge. Funds are available for this purpose from the Vote for Indian Education.

The Committee concur in the foregoing recommendation and submit the same for approval.

John G. Macdonald

Clerk of the Privy Council

The Honourable

The Superintendent General of Indian Affairs.

ST. MARY'S BOARDING SCHOOL

By

There is a farm and garden at this institution, large enough for a big residential school. All the priests in the vicinity are in favour of this. A small increase in pupilage - say from 84 to 90 - could be offered now. Father Duplanil suggests the principle of having parents pay something to the school: the educational facilities would be more appreciated. In connection with recruiting and the return of pupils Agent Graham of Lytton has not been much help to the Principal.

*No action
now*

New flooring is needed in the girls' playroom and in both dining rooms (boys' and girls' buildings separate). Girls' dormitories should be provided with fire escapes.

In the near future, a special building should be provided (kitchen and 4 dining rooms). Space would then be available for playrooms, infirmaries and showers.

CONDITIONS. Approved by Board of Railway Commissioners for Canada, under Order 162, dated March 30, 1916.
It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, or errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.
To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate; and, in that case, the Company shall be liable for damages suffered by the sender to an extent not exceeding \$200.00, due to the negligence of the Company in the transmission or delivery of the telegram.
Correctness in the transmission and delivery of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding one thousand miles, and two per cent. for any greater distance.
This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reach its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.
No employee of the Company shall vary the foregoing.

Dear Sir,-

As advised by telegram, your tender of \$11,000.00 for the St. Mary's barn has been accepted. I am sending you herewith Contract forms in duplicate and would ask you to be good enough to sign same in the space indicated, and return them to the Department, and when executed by the Deputy Superintendent General, a copy will be sent you.

I am also sending you one copy of the plans and specifications marked "A" and "B" which I would ask you to sign and return to the Department. Two copies of the plans and specifications are being sent you for use on the work.

Your obedient servant,

Encls.

Ottawa, October 11, 1922.

Reverend Sir,-

I beg to advise you that Mr. Brock's tender of \$11,000.00 is accepted for the building of the barn at the St. Mary's Indian Boarding School, and I would ask you to be good enough to see that the barn is built in accordance with the plans and specifications, also to issue the necessary certificates in duplicate and forward them to the Department, for payment on Mr. Brock's contract. I am sending you under separate cover Certificate Forms for this purpose, together with a copy of the plans and specifications.

You will note in the specifications, that the Department pays up to 90% of the value of labour and materials actually in the building at the time the certificate is issued.

Your obedient servant,

(J. D. McLean)

Assistant Deputy and Secretary.

"2"

File 119704-5A (continued.)

7/---To substitute stalls Style B., page 67 fig. ~~222~~ 284. The sure stop post is unnecessary for our cattle. It is costly, it gathers dust and dirt. It does not last long when handled by boys. Mr. Moore, manager of the Colony Farm, Essondale, B.C., a B.C. Govt. Institution, has discarded them. Leading farmers will not have them.

EXPENSES:

The expenses needed to cover the alterations in windows, etc. will amount to \$128.00, as per contractor's statement on file in my office. Savings in money effected by the discard of lifting mangers and sure stop post will amount to \$120.00. The alterations mentioned will improve the barns and will not cost an additional dollar to the Dpt.

For this reason and other reasons stated in this letter I feel sure that you will approve the alterations. However, in order to help the contractor to place in his orders, you will oblige me greatly by wiring me your approval, if given.

Sincerely your,

John Luyland

Re. barns for St. Mary's Indian School,
Mission, B.C.
FILE 119704-5A.

Dear Sir:

I beg to submit for the approval of the Department the following alterations in the plans for new barns in course of construction, at Mission, B.C., for the St. Mary's Indian School, viz.:

WINDOWS:

- 1/---To enlarge 10 windows, 5 on each side, in the cows barn (sheet 4) and to make them with 9 lights 10x14 instead of four lights.
- 2/---To place 2 new windows, 9 lights 10x14, on the North East side, sheet 1.
- 3/---To place a new window in the maternity pen, 6 lights 10x12
- 4/---To remove window in calf pen from its present location to the South East corner of pen, and to enlarge it from 4 lights to 6 lights, 10x12. The present window admits in light only through the Hoist room, sheet 4.
- 5/---To enlarge windows in horses' stable and feed room from 4 lights to 6 lights 10x12.

N.B. All the above windows with screen and storm sash as per specifications, pages 28 & 29.

REASONS FOR ABOVE ALTERATIONS:

We have a very mild climate here at St. Mary's. It rains very frequently. It is dark and cloudy the greater part of the year. Barns need as much light as possible. It is the experience of leading farmers and Experimental Farms in the District. It is recommended in fighting tuberculosis among the cattle.

MANGERS:--

- 6/---To replace the 6 lifting mangers mentioned on page 18 of specifications, by steel divisions, B.T. book, fig. 54 page 55 of new catalog. Specifications call for ~~22~~ concrete mangers for 22 stalls. Lifting mangers are unnecessary if steel divisions are used.

Lifting mangers do not last more than four years, the bottom must be replaced after a year. Salt eats up the iron and the continual licking by cattle destroys it completely in a very short time. Concrete is more permanent and easier to clean.

---2---

File 119704-5A (continued)

4---Hay will not be unloaded from the South East end of barn, (sheet No.2) and track marked on sheet No. 2 is not needed. For same reason ~~swing~~ swing pole attachment is not required. For same reason again the large double door, sheet No.1, is not necessary. However the windows on hinges and part of the present door as per plan are to be kept and a ladder to them is to be constructed.

The above alterations will save the Dpt. one hundred and five dollars. The contractor accepts them at above value. Furthermore the Contractor agrees to have light installed as described in #1 of this letter and sketched in sheet herein inclosed, provided the suggested alterations be made and an additional sum of TWO HUNDRED AND FORTY FOUR dollars be paid him over and above sum agreed upon in original contract with the Dpt. of Indian Affairs.

It is needless to draw your attention to the need of electric light in the barn. Fire protection alone demands it, convenience suggests it. I feel sure that you will see the reasonableness of additions and alterations and that you will be kind enough to recommend them.

The barn is going up rapidly, and if weather is favorable it will be completed by New Year's day.

You will oblige me greatly by wiring me your answer, which I hope to be favorable.

Yours sincerely

John Beupland

Mission City, B.C. November 20 1922 192

J.D. McLean Esq.
Assistant Deputy and Secretary,
Dpt. of Indian Affairs,
Ottawa.

Re. Barn for St. Mary's Ind. School.
File 119704-5A

Dear Sir:

I beg to submit for the approval of the Dpt. of Indian Affairs, Ottawa, the following additions to and alterations in the plan for barn under construction, at Mission, B.C., for the St. Mary's Indian Boarding School, File 119704-5A.

1---Install electric light in barn and root cellar as per sketch herein inclosed. Mr. Brock, the contractor, after getting quotations, agrees to supply 1600 feet of No.6 weather proof wire, 8 25 ft. cedar poles with all the necessary fittings, to wire building and install 19 light outlets complete, two outside lights having goose neck brackets and 14" enamelled shades, five switches with all the necessary distributing cabinet main switch and fuse blocks. Work to be done according to the rules of the National Board of Fire Underwriters and the regulations of the Provincial Inspector of Electrical Energy. This work, complete, will cost THREE HUNDRED AND FORTY EIGHT dollars.

2---On page 22 of specifications, (Interior ceiling board), we read: "lay Eddy's heavy building paper".. [in the inside] Here at Mission we enjoy a mild climate. Paper is not necessary especially when Architect has so well provided for outside protection.

3--- Again on page 24 we read: "over which lay approved water proof paper. We have a great deal of rain. After a while water will soak through the shingles. Paper will hold moisture and retard the drying up of shingles, which will, on that account, deteriorate more quickly. Paper instead of being a protection, will become in some way a detriment to new building. I suggest to have none.

Sir,—

I beg to forward herewith Certificate No. 1, in duplicate, of Mr. H. Brock, Contractor of the new Barn at St. Mary's Mission Indian Boarding School, Mission, calling for a payment of \$3,700.00 on account of the Contract.

*Paul
H. Brock
Nov 22 1922*

The Certificate is duly signed by the Rev. J. Duplanil, who in addition to his duties as Principal of the School has been appointed Inspector of Construction, and in this connection I should like to be informed as to what recompense the Department propose to give Father Duplanil for the performances of these extra duties. It will be readily appreciated that this entails a great amount of work, not only in superintending the actual construction work at the School, but in travelling throughout the District inspecting the various forms of barn equipment, with a view to deciding the particular type most suitable for installation at the Mission School.

The Building Inspector employed by the Department in connection- with the Coqualeetza Industrial Institute, Chilliwack, received I understand, \$7.00 per day for his services, and it would appear to be only fair the Father Duplanil be paid for his work by the Department.

November 28, 1922.

Approved
MEMORANDUM.

tel
MR. SCOTT.

A letter has to-day been received from the Reverend Principal of the St. Mary's Mission Indian Boarding School, asking for a few minor changes in the plans and specifications for the barn now being built at the school by Mr. Brock. He asks that some of the items included in the specifications, such as the providing of building paper under sheeting of ceiling and on roof, and the hay carrier on the East end of the barn, also the swing pole and double door be omitted. By leaving out these items which he considers not necessary, a saving of \$105.00 will be made.

He has asked for authority to provide electric lighting for the barn, and has submitted a price from the contractor of \$348.00 for this work, which, by deducting the \$105.00 allowed for the changes in the plans ~~it will make a difference in the~~ price for the lighting, ~~of~~ \$244.00.

As it is very unsafe to have Indian boys work around a large barn with the lanterns, I beg to recommend for your consideration, the advisability of having electric lights installed as asked for, at the price quoted by Mr. Brock, which is very reasonable for the work entailed.

ST MARY'S INDIAN BOARDING SCHOOL

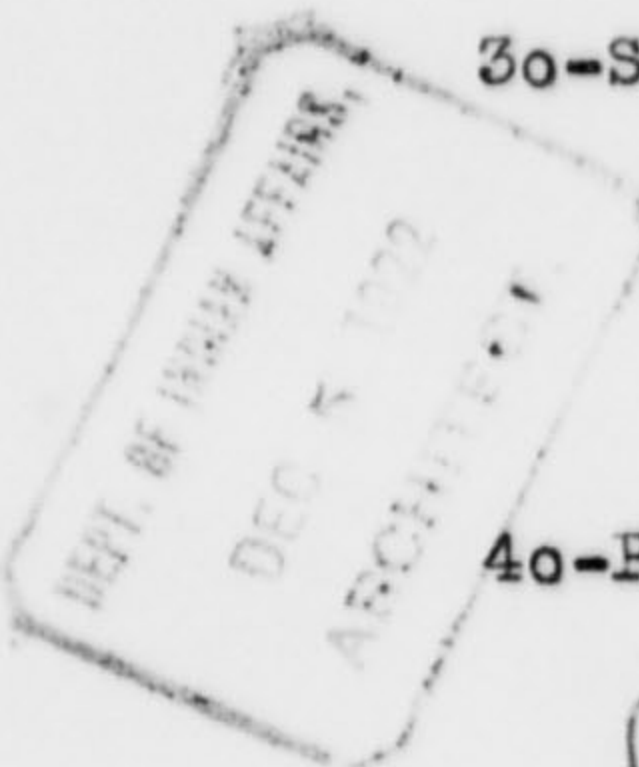

Noted
10-STEAM LAUNDRY:-The washing (for 100 persons) is now done in a shed and all by hand. This request has already been made by Very Rev. Welch on Feb. 4th, 1922.

Noted
20-KITCHEN:- Above the laundry in the same letter of V. Rev. Fr. Welch referred to, the building of a small kitchen with dining room for boys, girls and staff was asked.

Noted
30-SEWING ROOM:-As a 3rd story (or a second story if the laundry is placed in the basement) to the above building, a large sewing room which would also serve the purpose of an auditorium for the children's concerts was asked in conjunction with the above matter and in the same letter.

Later I can recommend this R.7.7
40-PURCHASE:-Very Rev. Fr. Welch has been writing to me quite often regarding the purchase by the Department of St Mary's Mission's School. The estimated value, covering the school and farm buildings but exclusive of the farm lands is set at the sum of \$45,000.00. I have no complete description of the property.

Ottawa, December 6, 1922.

Dear Sir,-

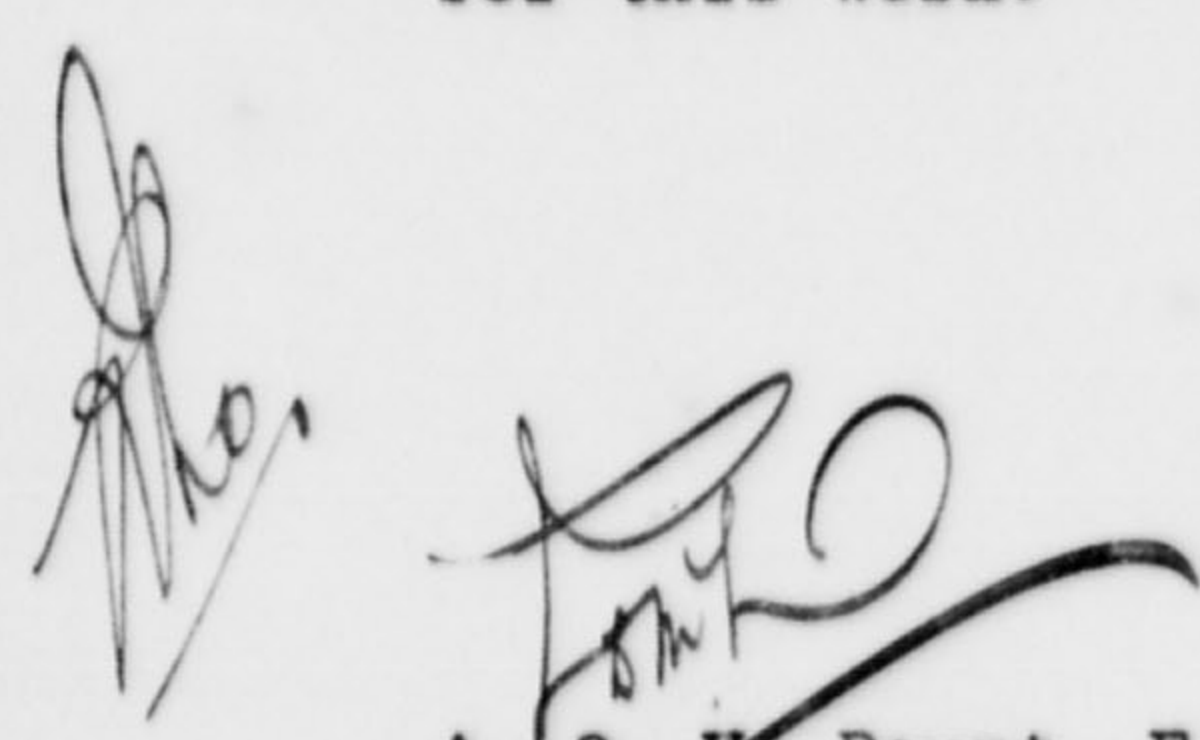

Replying to your letter of the 20th ult., with reference to your remarks regarding a remuneration to the Reverend J. Duplanil for his work as Inspector of Construction in the erection of the new barn at the St. Mary's Boarding School, I beg to advise you that the Department considers that the Principal should perform these duties without charge, as the building of a barn does not entail a great deal of supervision, also on account of the great benefits that he will receive from the erection of this barn.

With reference to the employment of the Inspector referred to in your letter, at the Coqualeetza Institute, this was for the erection of a portion of a new building, and it was necessary to have an inspector on the work thoroughly acquainted with all the details of building construction. I may say, however, that a barn is now being built at the Coqualeetza Institute, and the Reverend Principal is acting as Inspector of Construction and is not receiving any remuneration for this work.

Your obedient servant,

(J. D. McLean)

MEMORANDUM

MR. SCOTT

December 16, 1922.

In the Supplementary Estimates for the past fiscal year there was included an item for the payment of the taxes at the St. Mary's Boarding School, B. C. This item was in conjunction with that concerning a larger payment for the taxes at the Squamish Boarding School. You have already authorized the payment of the taxes at the last named institution for a second year, and arrangements are being made to vote the amount needed (roughly \$950) from year to year.

The taxes at St. Mary's are in the neighborhood of \$450. The amount is hardly large enough to vote from year to year; but, as the Rev. Father Welch, the Rev. Principal and the Indian Agent are all under the impression that we are to meet this obligation each year, I respectfully ask for your instructions.

I have examined the correspondence and memoranda in this connection and, although no promise was made to care for the taxes at St. Mary's from year to year, there is no definite statement to that effect.

R. J. J.

get price?

to be mentioned in order to obtain from the Dpt. favorable consideration and approval. A large silo cannot be filled by hand. A blower, cutter and gas engine are required. Without them the silo may be an ornament on a farm, but its usefulness is practically nil. Will you be kind enough to recommend the purchase of these silo "complements". The barn is well put together and is a credit to the Architect who planned it, to the Contractor who built it and to the Dpt. that financed it. We all wish for a complete, compact and convenient barn. This desire explains the many requests contained in this letter.

The barn is completed with the exception of last coat of paint on the outside, which, owing to weather conditions cannot be given much before April or May. When you notify the Dpt., please bring to their attention the fact that Mr. Brock, the contractor, has given satisfaction in every respect. He has not spared labor nor money to get the best results. The barn he has now completed for St. Mary's Indian School is a very creditable piece of work.

yes

I mentioned to you that I wish to occupy the new barn as soon as possible. The old buildings must come down at once. The ground which they occupy must be prepared for cultivation, the soil is very rich and therefore will be exceptionally good for this year's garden. Do you think that the Dpt. will object to occupying the new barn at once, though the last coat of painting on the outside is not on. The Contractor tells me that he has no objection. An early reply will oblige me greatly.

With best wishes, I remain, dear Sir,
Respectfully yours

John A. Placé

St. Mary's Mission Indian School

Mission City, B.C. January 27-1923-192

A. O'N. Daunt Esq.
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt,

I am sending you herewith Certificate No. 3 in favor of Mr. H. Brock, for labor and material on the barn for St. Mary's Indian Boarding School, Mission, B.C.--Dpt. File No. 119704-5A.

If you compare this certificate with the others previously sent to the Dpt. you will see that a slight mistake has been made. After the line "labour and material in the building at first certificate", read \$4,111.10 instead of \$3,700.00---Again, after the next line "additional at second certificate" read \$3,222.25 instead of \$2,900.00.---Certificates are issued for 90% of labor and material actually in the building when they are sent to Ottawa. The mistake did *not* matter much. However, if you think it advisable, please have former certificates corrected accordingly.

Last week, when you visited St. Mary's, your attention was called to a ditch dug by the Contractor, Mr. Brock, in connection with root cellar. You still remember the length and depth of it (80 ft. and 8-9-10 ft.), the purpose thereof being to keep this cellar absolutely free from water. When digging it, a spring was found in a corner, hence the need of an outlet. Mr. Brock could not possibly foresee this geological freak. I do not think that he should suffer loss because of it. The sum of \$97.50 was spent by him in labor. Will you be kind enough to recommend that compensation be given him and that an additional extra of ~~\$97.50~~ be paid him.

You will oblige me greatly by recommending also to the Dpt. that eaves-trough be attached to the roof of the new barn. We have a great deal of rain, and unless water is taken care of in a proper manner and carried away, there will be an "awful mess" around the building. This addition to plans would cost the Dpt. only \$75.80, viz. 170 ft. of eaves-trough at 30¢ per foot, 56 ft. of down pipes @ 30¢ per foot, 4 elbows @ 2.00 each. You will remember that Mr. Cairns, the Inspector of Indian Schools, strongly recommended this improvement.

Another need in connection with the silo requires only

[Signature]
Sir,

I beg to forward herewith Requisition No. 3 calling for a payment of \$3,339.60 to Mr. H. Brock, Contractor for the barn for St. Mary's Mission Boarding School at Mission, B.C., together with a letter received from the Principal in connection therewith.

9700
7000
It will be noticed that the Contractor has been put to considerable expense, in connection with providing drainage from the root cellar, and I shall be glad to learn whether the Department is disposed to assist him in this respect, as he could hardly foresee the circumstances in bidding for the work.

I would also strongly recommend that eaves-trough be attached to the roof of the barn, the climate at Mission is exceedingly wet, and ~~unless~~ the water is properly taken care of, it will be impossible to keep the surroundings of the building clean and dry, if this is not completed.

You attention is also directed to Father Duplanil's remarks concerning the silo, and which any farmer will endorse.

In view of the wet weather usually experienced at this time of the year, it will in all probability be impossible for the Contractor to paint the outside of the barn until April or May, and as the building is needed by the School, and as it has already been finished inside, I shall be glad to have authority of the Department for its occupation and use before the outside painting is done. I took this point up with the Contractor and he expressed his willingness, provided the School took over the insurance, as it would hardly be fair to expose him to loss while they were occupying the premises.

Your obedient servant,

[Signature]
A. O'N. Daunt.

Approved
MEMORANDUM

SCOTT
MR. SCOTT

A letter has today been received from Indian Agent Daunt, with reference to the barn now being built at St. Mary's Mission Boarding School, B. C. Owing to the excessive amount of rain in that section of the country, he has recommended that eave-troughing be installed on the new barn, the approximate cost of which would be approximately \$75.00.

Mr. Daunt also states in his letter that in the building of the barn, an unforeseen expense had occurred in digging the root cellar, as a spring was encountered and it was necessary to dig a ditch in order to drain the water which was accumulating owing to this spring. The cost of this ditch is approximately \$97.00, and Indian Agent Daunt recommends that the contractor be paid this amount.

With reference to the two items above, I beg to recommend for your consideration, that the eave-troughing be authorized, and that the Department pay for the ditch required to drain the root cellar.

Dear Sir,-

Replying to your letter of the 29th ult., with reference to the building of the barn at St. Mary's Mission, I beg to advise you that the Department will allow the contractor \$97.00 for the digging of the ditch which became necessary on account of striking a spring in the root cellar. You may also authorize the installing of eave-troughing on the barn, at a cost of \$75.00; both of these items to be added as an extra to the contract.

Your obedient servant,

Dear Sir:-

The Stock Barn for StMary's Indian School at Mission, B.C., is completed except for part outside painting. Bad weather made it impossible to complete and the chances for a first class job are not good till April or May.

In the meantime the Reverend Principal of the School is anxious to move feed and stock into the new barn, and this is encouraged by the Contractor who would like to see the building occupied.

I beg to call your attention to payments made by your Department to the Contractor, namely; Certificates amounting in all to the sum of \$9939.60 have been issued, and but \$200.00 value in work and material is required to complete the contract. The Department holds \$2404.00 to secure this completion. Under the circumstances would your Department make a further payment of say; \$1304.00 or all but the original deposit?

Trusting this will receive your favourable consideration,

I am,

Yours Respectfully,

Re. Barn for St. Mary's Indian School,
File 119704-5A

Dear Sir:

In reply to your letter of February 27th, I beg to inclose herein a fourth certificate in behalf of Mr. H.R. Brock, for labor and material on the barn for the St. Mary's Indian School, Mission, B.C. For a whole week we did enjoy beautiful weather and the barn was completed last Saturday noon, March 3 1923. As I stated in my letter to Mr. Daunt, the Indian Agent, (Jan. 27 1923), the barn "is well put together and is a credit to the architect who planned it, to the Contractor who built it and the Dpt. that financed it.

According to instructions contained in your letter of Oct. 11 1922, certificates "are issued for 90 % of ~~xxxxxx~~ the value of labour and material actually in the building at the time the certificate is issued". In compliance with these instructions the certificates I signed represent only 90% of labor and material actually in the barn, the balance "to be paid 30 days after the full and satisfactory completion of the work". (Specifications page 2). Certificates signed by me amount to \$10,274.40, and the balance due Mr. Brock amount to \$1,141.60. The later balance was the subject of Mr. Brock's letter to the Dpt.

I am enclosing herewith a copy of the Contractor's guarantee. I kept the original in my Office.

Respectfully yours,

Attention Mr. Ferrier.

Sir,

I have received a request from the Principal of St. Mary's Mission Indian Boarding School for 5,500 Feet of No. 1 Fir Flooring, edge grain. This material is required to repair the floors of the boys' dining room and kitchen, hall leading to dining room and dormitory, girls' kitchen, dining room and recreation room.

The Principal informs me that Mr. Cairns, Inspector of Schools, when he visited there last week, suggested that an application for this lumber be made to the Department. I am further informed that Mr. Ferrier when out here last year, told the Principal that such an application would receive favourable consideration.

I may say that I have seen the floors, in question, myself and I consider the repair necessary, and would recommend that the above named material be supplied.

Your obedient servant,

A.O.N. Daunt.

OK
Memorandum.

Mr. Scott:

600 R.T.T.

Mr. Indian Agent Daunt, at New Westminster, and the Rev. Principal of St. Mary's Mission Indian Boarding School have requisitioned for 5500 ft. of fir flooring. This material is worth roughly \$550 and is needed in several portions of the boys' and girls' buildings. Mr. Cairns has suggested that this request be submitted at this time. I have examined the notes made at the time of my visit to this school, and I find that I noted the poor condition of the floor in several portions of the buildings. I should be pleased to have your authority to submit the matter to the Purchasing Commission and arrange to have the work done. Most of the labour will be performed by the older boys, under the supervision of the male members of the staff.

Ottawa, May 3rd, 1923.

Sir:

I have to acknowledge the receipt of your letter of the 19th ultimo, regarding the request made by the Principal of the St. Mary's Mission Indian Boarding School for fir flooring to repair the floors of the boys' dining room and kitchen, hall leading to dining room and dormitory, girls' kitchen, dining room and recreation room.

In reply I beg to say that the Department will approve of the expenditure required for this purpose. You may, therefore, arrange for the purchase of 5500 feet of No. 1 fir flooring, edge grain, the quantity which you state will be required. The Purchasing Commission of Canada have directed that you obtain prices from the following firms for the supplying of this flooring, and that the purchase be made from the firm quoting the lowest price:

B. C. Mills Timber & Trading Co. Ltd., Dunlevy Avenue,	Vancouver, B.C.,
Vancouver Lumber Co. Ltd., South End Connaught Bridge,	"
Southern Alberta Lumber & Supply Co. Ltd., Pacific Building,	"
Allen-Stoltz Co. Ltd., 207 Hastings St. W.,	"
Interprovincial Lumber Co. Ltd., Standard Bank Building,	"
B. C. Lumber & Shingle Manufacturers, Ltd., 837 Hastings St.,	"
Duncan Lumber Co. 850 Hastings St.,	"
Fraser Mills Sash Door & Shingle Co. Ltd., 736 Granville St.,	"
Hanbury Timber Products, 850 Hastings St.,	"
Smith-Hutchinson Lumber Co. Ltd., 207 Hastings St.,	"

After the purchase has been made you should forward properly

W.D.

Sir.—

Under date of January the 29th, I forwarded you a letter received from the Principal of St. Mary's Mission Indian Boarding School, making various requests, in connection with a new Barn erected on the premises by the Department.

In your letter No. 119704-5 of February the 12th, you gave authority for some of the items referred to in the communication of the Principal, but no reference was made to his request for a blower, cutter and gas engine, in connection with a large Silo erected at the Barn. As these articles may be considered more or less part of the Silo equipment, may I be informed please whether the Department intend to install them and if so what steps should be taken to obtain them?

Your obedient servant,

A.O.N. Daunt.

Sir:

I have your No. 3-8-A of the 21st instant, relative to supplying a blower, cutter and gas engine to be used in connection with a silo at the new barn for the St. Mary's Indian Boarding School.

In reply I beg to state that the Department is favourably disposed to purchase this equipment for the school, and I should be pleased if you would intimate the exact type of cutter and blower that is required. You should enclose a catalogue clipping from some well known manufacturers and the Department will arrange to secure competitive prices.

If the institution has no stationary gas engine which is suitable for running the equipment mentioned above, you should also recommend the purchase of this extra machinery. Please inform the Department what horse power is required, if an engine has to be purchased.

Your obedient servant,

J. D. McLEAN

10-Inch Papec Ensilage Cutter, Mounted

It Throws as Well as Blows

Page 39 is edited by users of 10-inch Papec Cutters. The work done by this size has agreeably surprised many people, especially those who have 4 or 5 horse power gasoline engines. This little machine is a wonder.

The above illustration represents our small size cutter, style "R," mounted on four wheels. The illustration in the upper left hand corner shows the same cutter mounted on two wheels. It can be furnished either way. This cutter is always equipped with two knives. It is an excellent size for individual use.

Capacity, Power, Speed, Dimensions and Weights

Mounting of The Papec Cutter

Our Method of Mounting the Papec Cutter has Attracted Wide Attention and Won Approval of Farmers Everywhere

View of feeding of "L" mounted cutter, with tongue for truck removed, showing self-feed table; also showing the throat capacity and raise of upper roller.

The Papec Mounting is strongly constructed of steel channels—there are no wooden parts to twist and warp. There are but few parts, and nothing to get out of order. The Papec style of mounting does not have to be so heavy and massive as on most cutters. The weight is properly distributed throughout. For the style "R" 10-inch cutter, we can furnish either a four wheel mount or a mount of the trailer type, with but two wheels, as shown on page 13. The two wheel mount is an innovation but is practical for moving short distances and will, no doubt, be appreciated by purchasers of this size, owing to the reduced cost.

In setting up the cutter it is only necessary to put up the pipe. The table does not have to be put on or adjusted—all is ready for business but the pipe. When through cutting ensilage, just take down the pipe. The table does not have to be removed or propped up. No other cutter can be set up or taken down as quickly as the Papec.

The Tongue is easily removed, so that load may be driven close to the cutter. Neck-yoke and double-trees are not included in the price of mount.

The Feed Table is located at the right height for the feeder to stand on the ground and feed the corn comfortably. This enables a man to feed faster than when obliged to stand upon a box or a specially constructed sideboard. A load of corn may be driven up close to feeding end of table, where it can be most conveniently handled.

Sir.—

With reference to your letter of the 28th of May, File 153-1-5, concerning the supplying of a blower, cutter and gas engine to be used in connection with a silo at the new barn for the St. Mary's Mission Indian Boarding School.

I beg to enclose herewith catalogue cuttings describing a 10 inch "PABEC" ensilage cutter, and a "ALPHA" eight horse power Engine.

These machines have, after discussions with the Superintendent of the British Columbia Provincial Government Colony Farm, and various leading farmers in the Mission District, been chosen, as we consider them best adapted for the purpose, and I would recommend their purchase for the School.

May this matter have your early attention please, as the work of filling the silo should be commenced almost immediately?

Encls.

The PETER HAMILTON COMPANY LIMITED

The Peter Hamilton Mower

The Peter Hamilton Mower is especially well adopted for cutting the hay grown on Canadian farms. It is strong and rigid in every part, has great traction power, is easy to draw and operate and absolutely dependable under all conditions, even the most difficult. Nothing but the best materials are used in its construction, and it is carefully built by competent mechanics.

The Main Frame is very staunch—there are no weak spots in it. The drive wheels are high with broad face. There is no lost motion—when the mower goes forward the knives cut.

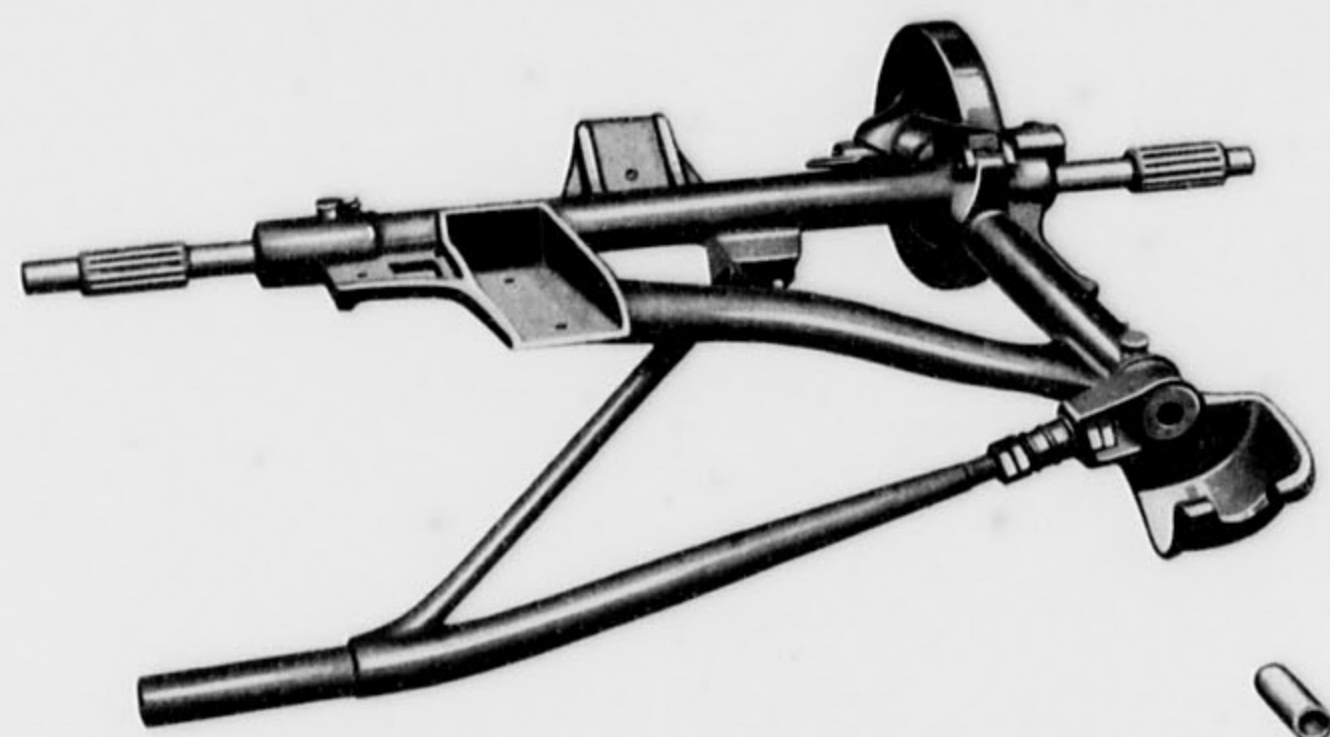

The Push Bar is a steel forging made in one piece, especially heavy and stiff, and is connected at front and rear of the main frame as shown in the illustration. This Bar has adjusting nuts at the front end for lining up the bar, or centering the knife. You always have perfect alignment on Peter Hamilton Mowers.

3

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

POOR COPY

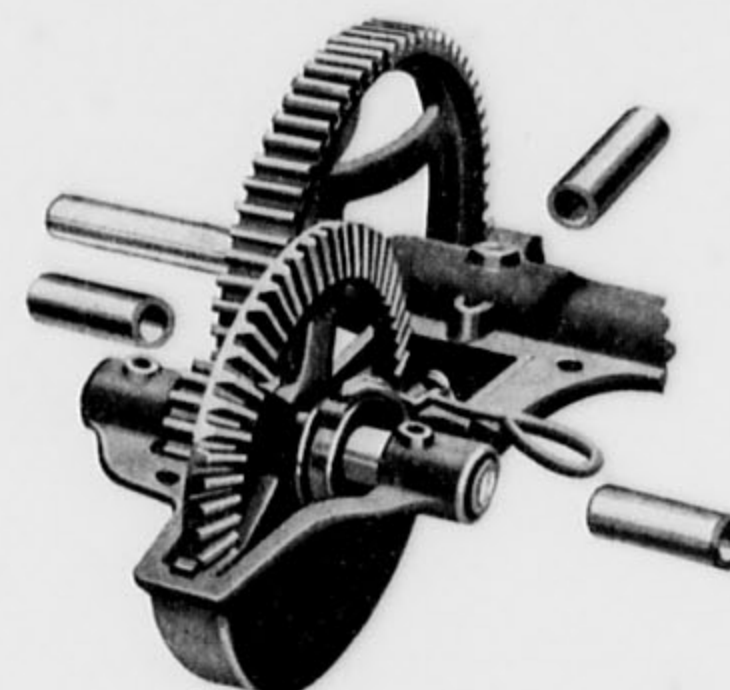

One Piece Main Frame

The Cutter Bar is of Cold Rolled Steel reinforced with a rib running the entire length of the bar, making it strong and rigid enough to ensure a frictionless and smooth running knife. The knife itself is held firmly in place by means of substantial holders and long steel wearing plates against which it runs. These wearing plates are easily replaced when worn and are quite inexpensive.

The Pitman is long and made of best second growth hickory or oak with forged steel jaws at both ends. The Pitman Box is fitted with brass wearing surface and self-acting oil retainers which prevents loss of oil and effectually lubricates the wearing surfaces.

The Tilting Lever can be fixed to give a free adjustment, allowing the guards to adjust themselves automatically to the unevenness of the ground. The guards can be tilted up or down without moving the Cutter Bar backwards or forwards, or out of line with the pitman and frame. A powerful foot lever raises the bar clear of the ground when turning corners, or passing over roots or stones. In raising

4

Powerful Gearing

the bar the outer shoe is raised from the ground first, eliminating all danger of the bar catching on the obstacle. A strong adjustable coil spring, which, as well as assisting the operator in raising the bar also, to a certain extent, carries it on the wheels, thus avoiding considerable friction on the ground, and giving more power for the working parts of the machine.

All Bearings throughout the Mower are either fitted with Roller Bearings or Renewable Frictionless Bearings. The Gears are all accurately made and snugly fitted, so that there is no lost motion. Perfect gears and perfect alignment result in an easy running noiseless machine.

Peter Hamilton Mowers are built in three sizes. Cutter Bars being four and one-half feet, five feet and six feet long. On the six-foot Mower the wheels are larger and farther apart than on the smaller sizes.

No. 4 Steel Rake

Every farmer, who has ever used a No. 4 Peter Hamilton Rake, will tell you that this rake not only rakes up a bigger wind-row and leaves it clearer after dumping, but that it also cleans up the field better than any other rake. The reasons are, the wheels are high in diameter. The Teeth have a big gather and when dumped, lift clear of the wind-row. They rake clean because the high carbon, oil-tempered teeth are curved to bring them well under the rake, so that they slide along the ground picking up all the hay.

The Frame throughout is heavy angle steel, thoroughly braced and trussed so that there is no danger of the rake ever sagging or becoming twisted.

The Self-Dumping Device is one of the most popular features of this rake; it operates from either wheel, a slight pressure on the Foot Lever being sufficient to throw the dump rods into engagement with the Teeth in each hub, where they are held until the Rake Head is raised to its highest point, and the hay is dropped.

6

Dumping Rods can be turned end for end, and also interchanged, giving four wears instead of only one.

The Trip Casting, against which the Dump Rod Casting strikes to drop the Teeth, is adjustable to accommodate the height of the dump to heavy or light hay; its action is exactly the same whether turning a corner or raking straight ahead. In all cases the teeth drop closely behind the windrow. In driving a fast walking horse on an ordinary rake, the teeth do not drop quick enough, thereby leaving a strip of unraked hay. You can adjust this difficulty on the No. 4 All Steel Rake to suit the horse (fast or slow).

Another Point. It is possible without wrench or hammer to change the raking position of the Teeth, as it is desirable sometimes to run them higher from the ground. For instance, they should not run as close over wet and boggy ground as over a smooth, dry meadow. Simply by changing the connection, any position of the Teeth can be secured.

In every part it is light, strong and durable, and in ease of operation and capacity for work, it has no equal.

Sizes: 8 feet, 26 teeth.
9 feet, 29 teeth.
10 feet, 32 teeth.

POOR COPY

The PETER HAMILTON COMPANY LIMITED

The Peter Hamilton Elastic Cultivator

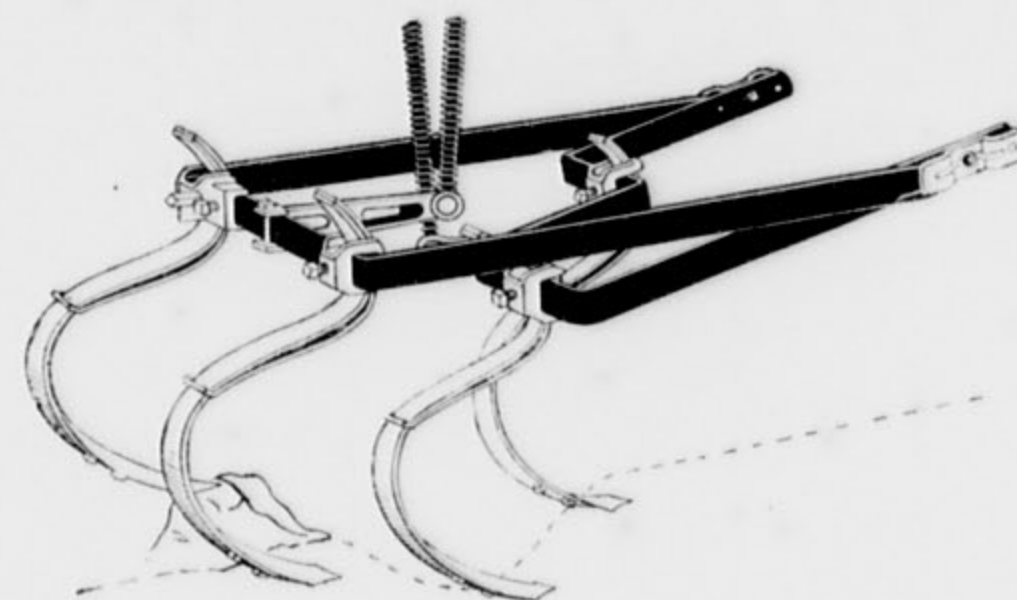

This is the famous Peter Hamilton Cultivator, universally recognized as absolutely the best designed, best built, best working Cultivator ever manufactured. It makes no difference what kind of cultivating you wish to do—preparing the ground for seeding in the Spring, or exterminating weeds later in the season; it makes no difference whether your ground is hard to work or easy, the Peter Hamilton Cultivator is there all the time, to do better work and more of it; a means to enable you to grow bigger crops, to increase production, and make more money for you.

Of course there must be reasons why this Cultivator is better than any other, and they are in brief as follows:—

The Frame is strong—properly braced and trussed so that it can neither be pulled out of shape, or sag down in the middle. The Axle extends the entire width of the machine, which not only helps to strengthen the frame, but also keeps the wheels in alignment.

8

The PETER HAMILTON COMPANY LIMITED

This cut shows the details of the sections to which the teeth are attached. You see, instead of having the different sections of teeth attached to one solid frame we have provided two frames, which give the teeth more independent action. All three rows cultivate to an even depth, and to the depth that you want to cultivate, instead of the back teeth going deeper than the front teeth. Furthermore, having so many sections gives the teeth more freedom of action, so that if one tooth catches on a stone or root only two or three are jerked out of the ground instead of one-third or one-half of the teeth in the machine. In hard or rough ground this feature will be especially appreciated. A ridge and a dead furrow can be cultivated at the same time, because more or less pressure can be applied to any section of teeth as desired.

The Teeth are made from an extra high grade of steel, and are very strong and reinforced with our patented helpers, which never come loose.

The Points are reversible, giving double wear.

The Teeth are divided into three rows, so that there is no danger of clogging. The Teeth are attached to the sections by a steel clip, and permits the setting of the points ahead or behind as desired for different kinds of land. This clip has a bulldog grip, which never gives up.

The 13 Tooth Cultivator has 6 Sections of Teeth.

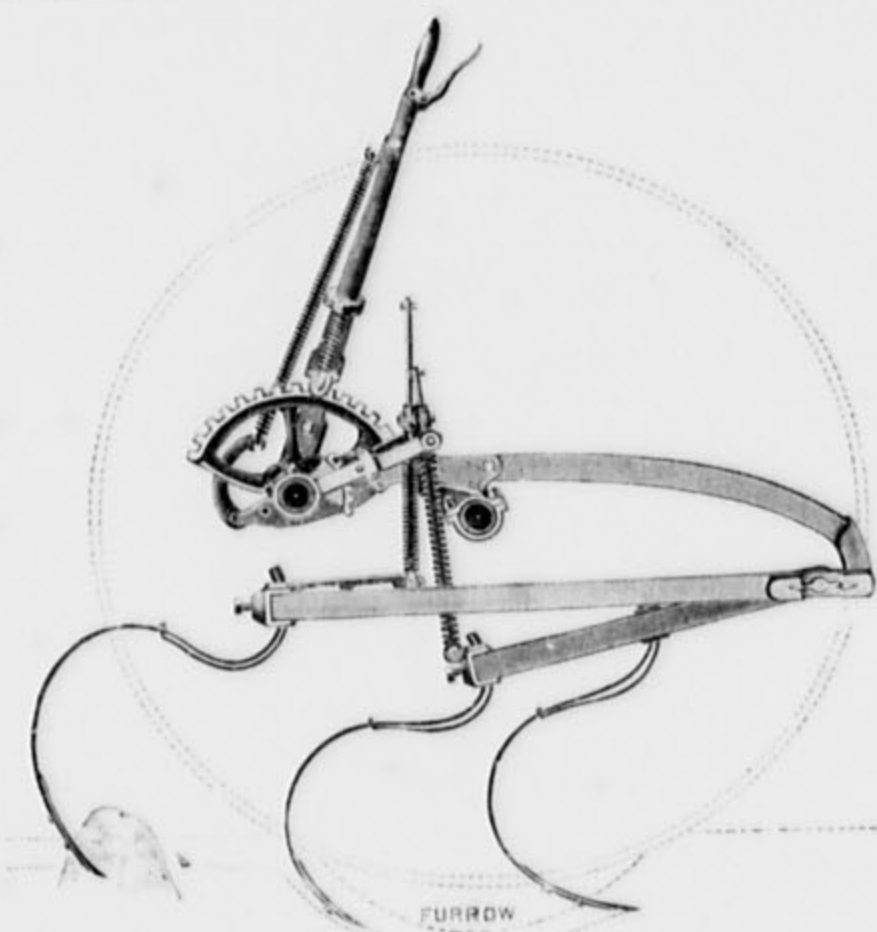

The 17 Tooth Cultivator has 8 Sections of Teeth.

9

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

POOR COPY

This cut shows the Lifting Lever, Lift Spring, and the method of applying the pressure to the different sections of the teeth. The Lift Spring works both ways, helps to raise the teeth, and also helps to force them into the ground. The lever is easily worked from either the seat or the ground, and gives absolute control over the machine.

The Pole can be adjusted to suit different sizes of horses, and can easily be changed from the centre to one side for three horses, and can be removed for storing.

The Draw Clevice is adjustable. That is, it can be moved up or down to suit the different conditions and different widths.

This Cultivator is also the best Weed Cutter that you can get, and for this purpose extra wide steels to replace the reversible points are provided, if ordered.

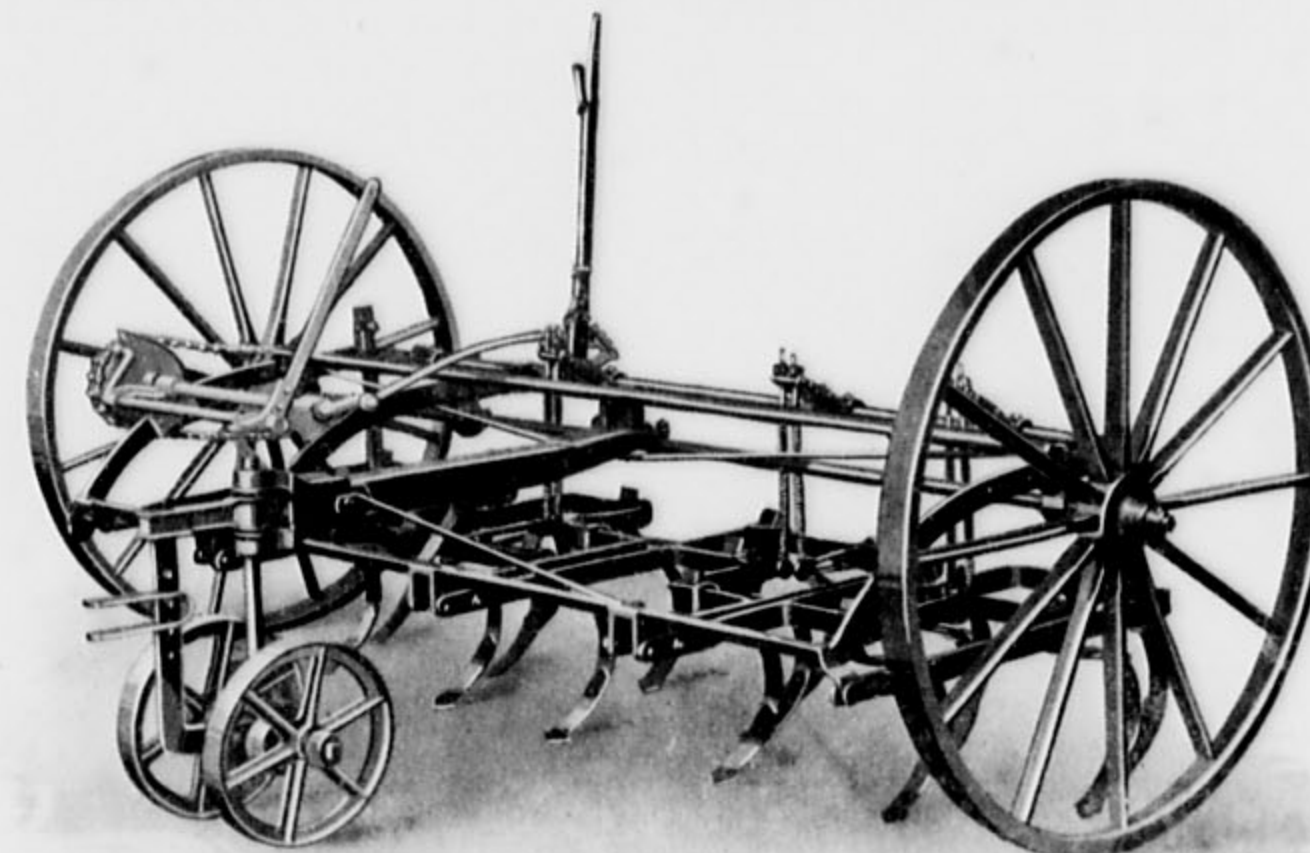

High wheels and wide tires and a comfortable seat help to make this Cultivator a pleasure to operate.

Grain and Grass Boxes for Spring Tooth Cultivator

Boxes for sowing all kinds of Grain and Grass Seeds can be supplied for both 13 Tooth and 17 Tooth Cultivators. The Feed is positive any any desired amount can be sown to the acre.

This Combination makes an ideal Combined Cultivator and Broadcast Seeder.

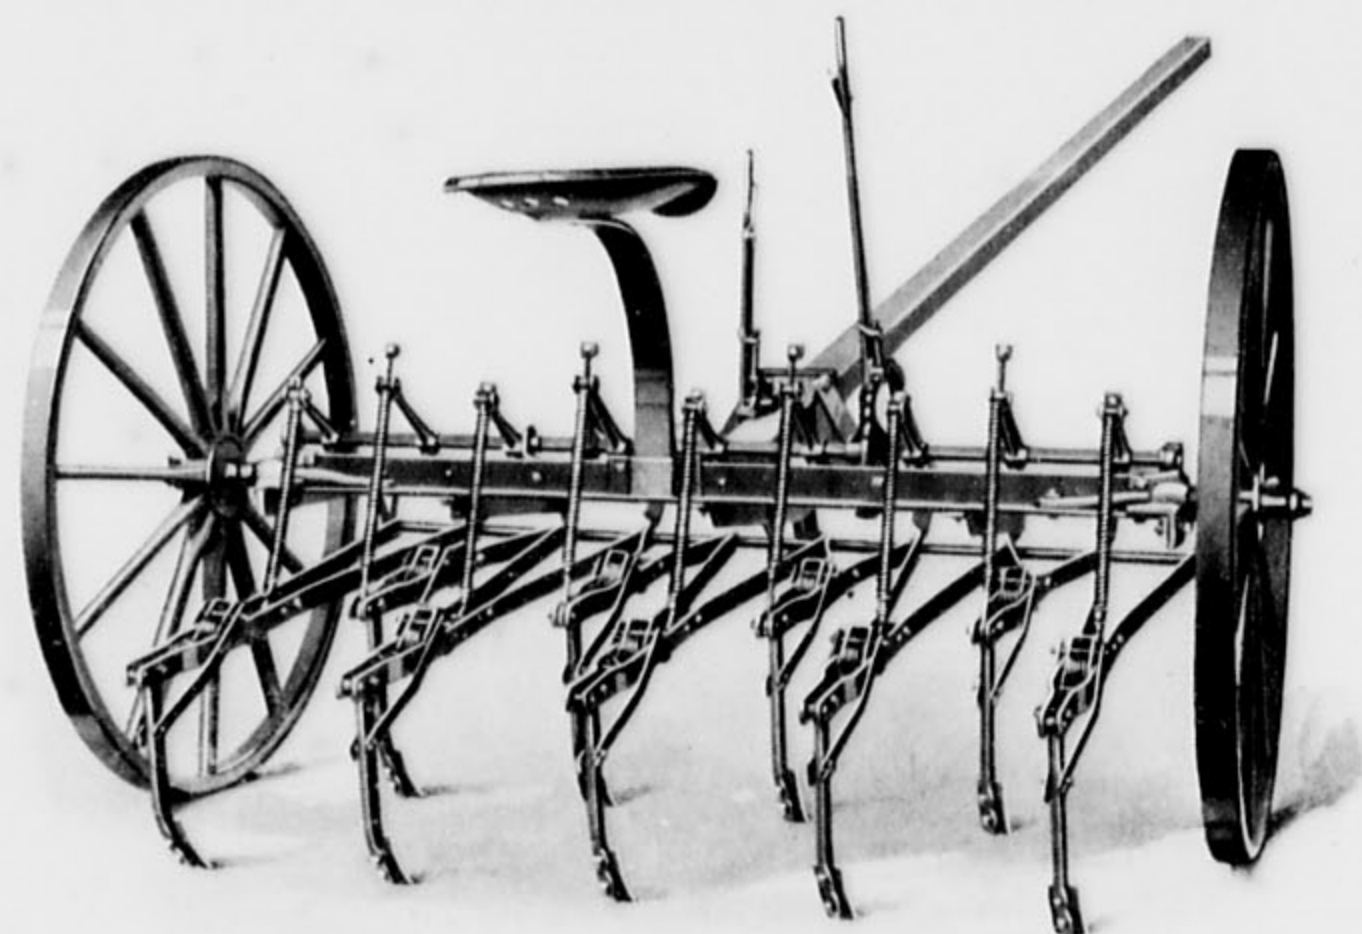

Cultivator with Tractor Attachment

Our 17 Spring Tooth Cultivator is equipped with Forecarriage and Self Lift for use with a Tractor.

Simply hitch your Tractor to the clevis on the Forecarriage, and a Cord from the Tractor Seat to the Lift Lever and you are ready for rapid work. By merely pulling the Cord, the Teeth are raised clear or forced down to any desired depth in the ground.

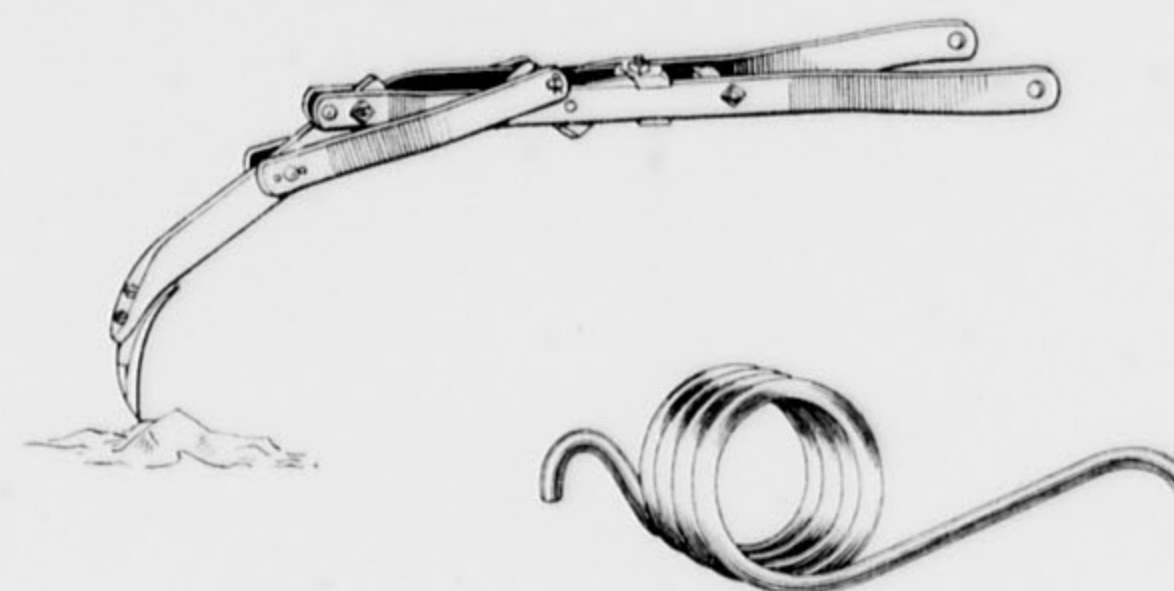

The New Peter Hamilton Stiff Tooth Cultivator

The Peter Hamilton Stiff Tooth Cultivator will successfully operate in all kinds and conditions of soil, from the very softest to the very hardest, no matter how dry.

It is the greatest Weed Killer on the market, and on summer fallow surpasses any other implement that can be put to work. If you wish to clean your farm of weeds, and at the same time work for big crops, be sure and use the Peter Hamilton Stiff Tooth Cultivator.

This Cultivator is substantially built to stand the work that it is expected to do, no matter how deep you want to cultivate, or what horses you want to put in front of it. The Frame is thoroughly braced and trussed, no danger of twisting or sagging. A lever is provided on the pole whereby the pole can be instantly set up or down to suit the different heights of horses, or to change the angle of the machine.

This cut of the detail of the drag bar shows the foot tripped back after having caught on a stone or root. After the obstacle is passed it flies back automatically into place again. Notice how strong and rigid the drag bars are, and also that there are no springs or other projections on the underside to catch and drag weeds and grass.

The Relief Spring is the most successful yet used on this kind of Cultivator, and holds the foot steady, except when it catches, and then it always brings the foot back into place. There is no danger of it catching. The Wedge can be adjusted to allow the relief spring to trip easier, or hold more rigid, as required. This trip is all steel, no castings to break.

The Foot can be set forward so that it will work itself into the hardest land, or it can be set back for shallow cultivation. You can cultivate just as deep or just as shallow as you like.

Any width of Thistle or Weed Cutters required can be supplied, including 2-in., 4-in., 7-in., and 10-in. More than one set with the machine will be charged for extra.

Two sizes—9 Teeth and 13 Teeth.

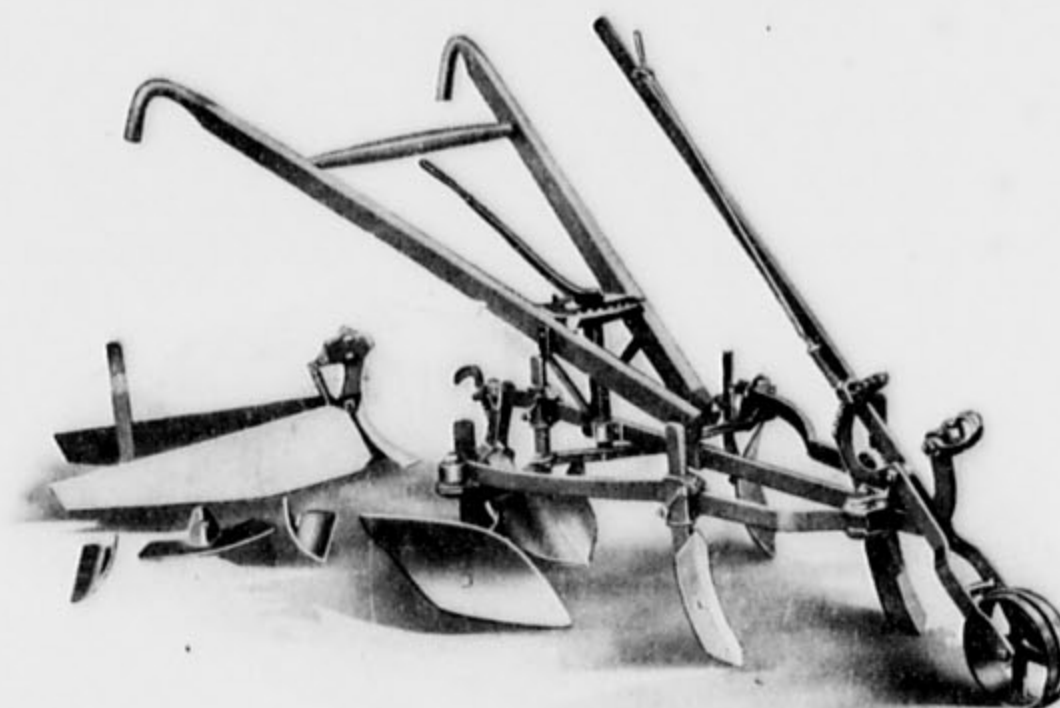

The Peter Hamilton Orchard Cultivator

This Cultivator is an ideal tool for working up to, and under fruit trees of all descriptions. It is low and the wheels are set inside the frame, so that there is no danger of taking the bark off the trees. It is built with nine teeth, but extensions can be added to both sides, giving either eleven or thirteen teeth as required. The teeth are in three rows and provided with Reversible Points and Helpers. Thistle Cutters or wide points can also be used. This Cultivator will do excellent work in the field or elsewhere, although it is not intended to cultivate as deep as the ordinary field Cultivator. The pole can be adjusted to suit the different heights of horses.

14

The Comet Scuffler

The Comet Scuffler is not a flimsy scuffler; it is a real horse tool in every sense. The frame is strong and well fastened together so that it is rigid even when expanded to the extreme limit. It will not bend out of shape, and allow the scuffler to run sideways. Provided with an adjustable wheel at both back and front to regulate the depth. The clips which fasten the teeth to the frame are malleable iron, and the teeth can be adjusted into any desired position.

The Back Hillers or Weeders can be turned half-way round, or inside out to cut away from the plants if desired; this saves following with a hoe to complete the work.

The Comet Scuffler can be instantly opened to cultivate a space 3 feet wide, or it can be narrowed until the outside teeth are practically together.

This Scuffler is usually sent out with the steels shown, with the exception of the Long Hills, which must be ordered extra, but we will furnish any arrangements of steels which may be required.

POOR COPY

The Gem Clip Seed Harrow

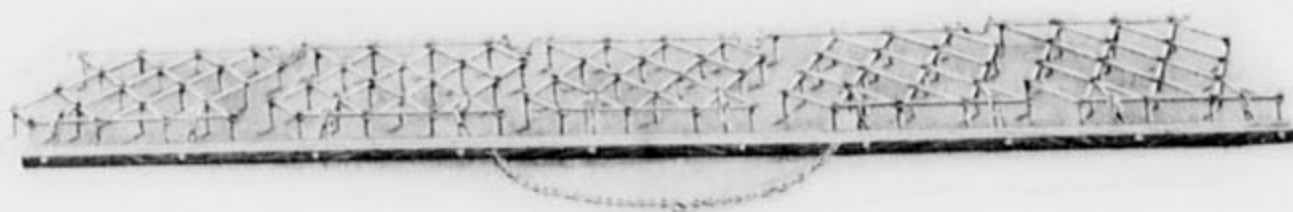

This is the most substantial Harrow on the market to-day.

The Clip you will note consists of three malleable parts securely held in place by a staple and two nuts. This Clip when tightened up has a bulldog grip practically everlasting, holding the frame rigid and the teeth in place, but when necessary can be loosened, the teeth taken out and sharpened, and put together again good as new. The Teeth are long and will stand repeated sharpening. Each section is three feet wide and has 15 teeth. As many sections as are desired can be attached together to make a complete Harrow.

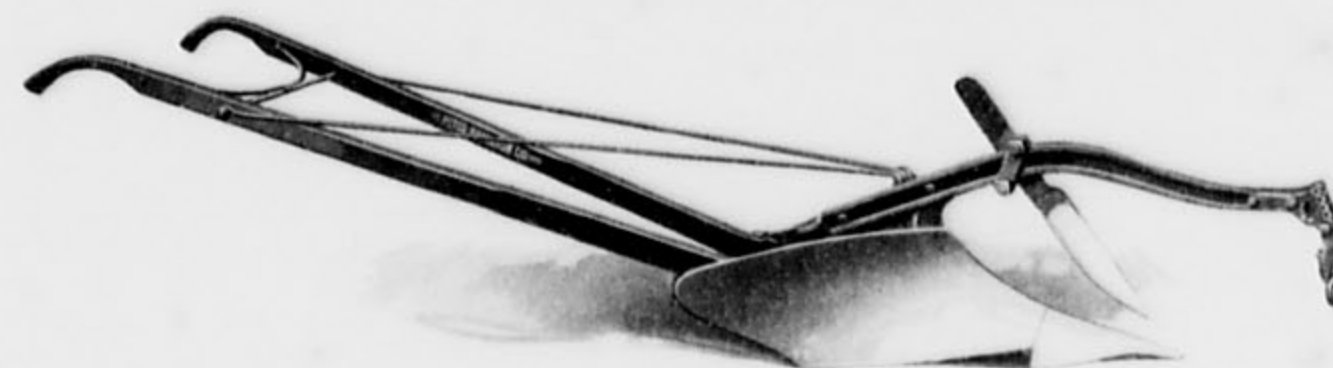

The "Channel" Harrow

The Frame of this Harrow is made of Channel Steel, into which the teeth are bolted. This is recommended for lighter lands than the Clip Harrow.

Each section is three feet wide and contains 20 teeth. As many sections as desired may be added to make a complete harrow.

Hamilton's Combination Plow

This Combination Plow is undoubtedly the best general purpose plow made, especially designed for all who require a Plow to do good work in clay, hard, gravelly or stony soils.

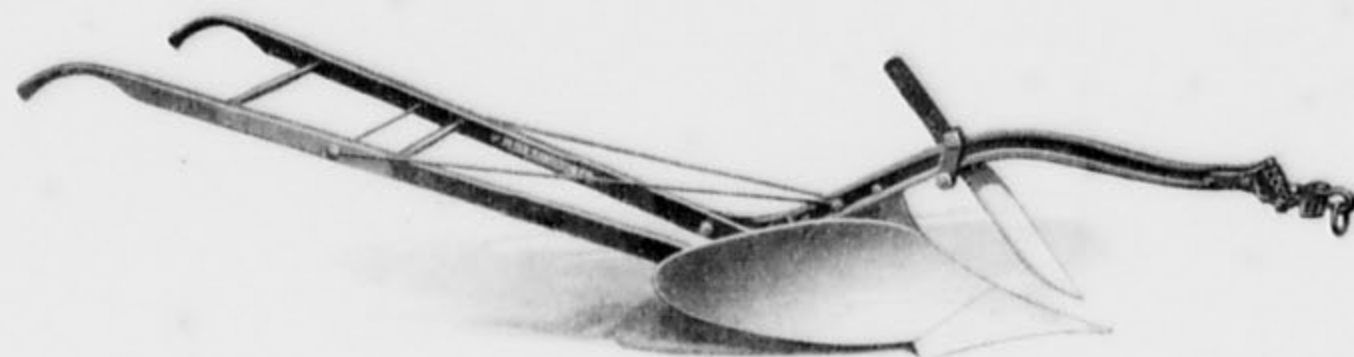

It is somewhat heavier and consequently stronger than the usual run of Plows. It is, however, very light of draft, steady running and light to handle.

An extraordinary stiff steel beam with heavy soft centre Steel Moldboards perfectly chilled, adjustable clevis, and good long handles guarantee perfect satisfaction in every respect.

Hamilton's I-X-L Plow

Our I-X-L is similar to the Combination Plow, only it is slightly different in formation of the Mould-board. This Plow has for many years given universal satisfaction for general purposes or for sod ploughing; it turns a furrow of from seven to nine inches, and does its work well in every sense. It is fitted with Steel Beam and soft-centre American Steel Moldboards (specially hardened) and adjustable Clevis, which permits of rapid change from stationary to swinging, or the reverse.

Wide and narrow Plow Shares can be supplied for either of these plows. Our Plows do the work the way you want it.

No. 21 Plow

This Plow is one of the most generally used Plows in Ontario for general work. It is light in draft and runs level on the bottom. Is very easy to handle and makes a very handy Plow for a young boy to work with. Is fitted with the best American soft-centre steel Moldboard, which is extra hardened, and guaranteed to clean in any kind of soil. Has steel Beam and Landslide. We supply them with Coulter Wheel and Skimmer, as desired.

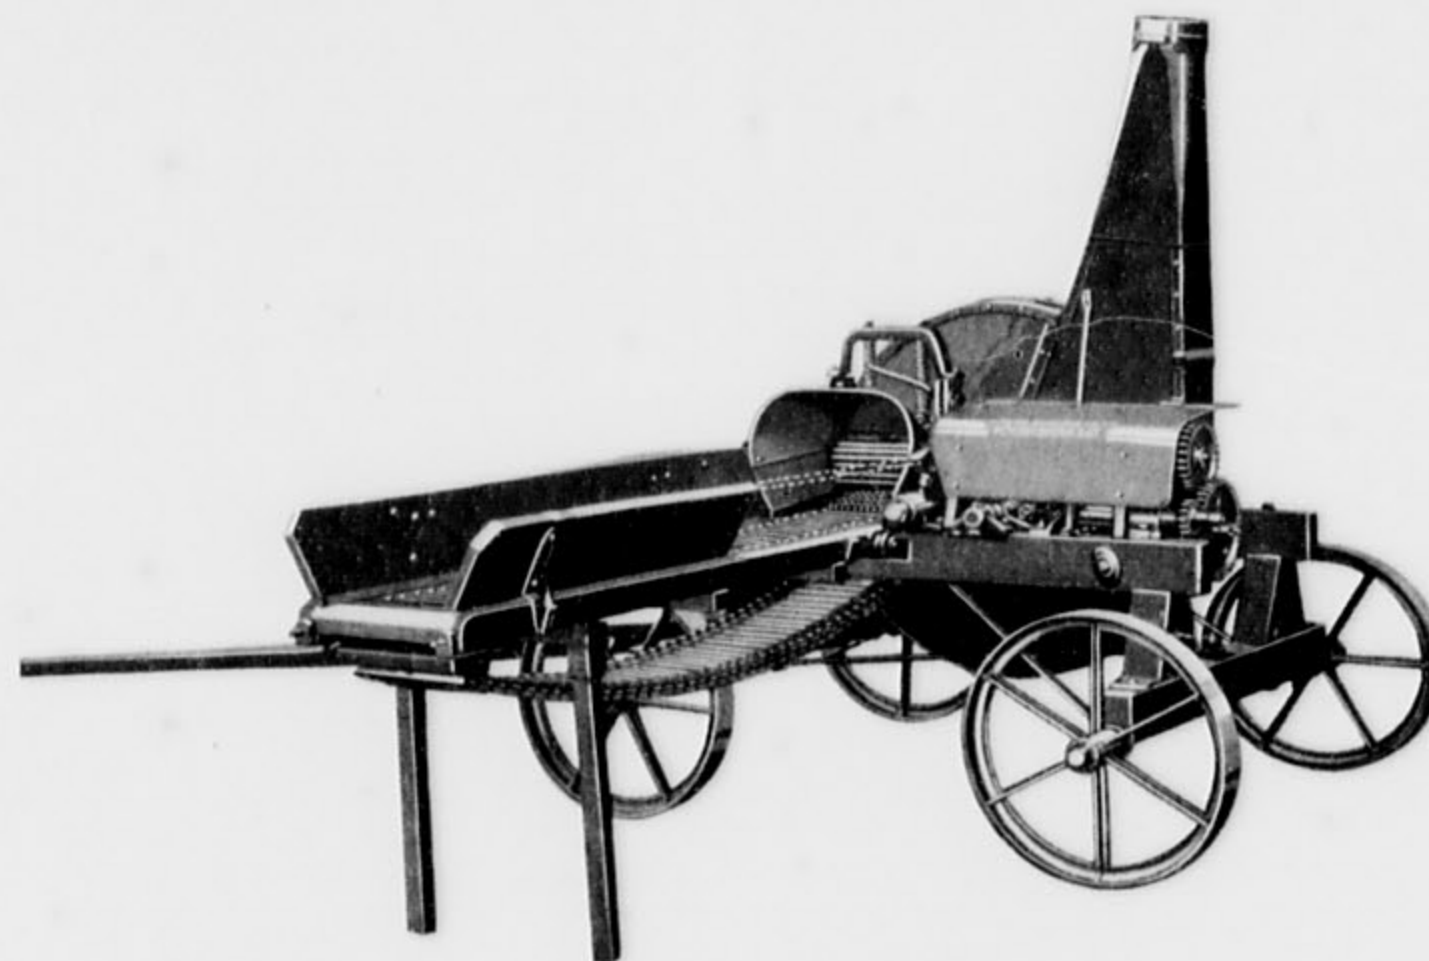

No. 4 General Purpose Plow

An all-round General Purpose Plow of medium width, steel Beam, soft-centre steel Moldboard specially hardened; very light and convenient, and suitable for a boy. This Plow is fitted with adjustable Clevis. Wide and Narrow Plow Shares can be supplied for the above Plows.

No. 8, Sod or General Purpose Plow

Particularly adapted for heavy land; turns a furrow from 6 to 9 inches deep, and from 8 to 10 inches wide; weighs about 150 pounds; is suitable for two or three horses. Will clean in any soil, and is of very light draft. Handles, medium length. The head and general set of the Plow makes it easy to hold. It has steel Beam and Coulter.

**The Peter Hamilton No. 7
Tornado Ensilage Cutter and Blower**

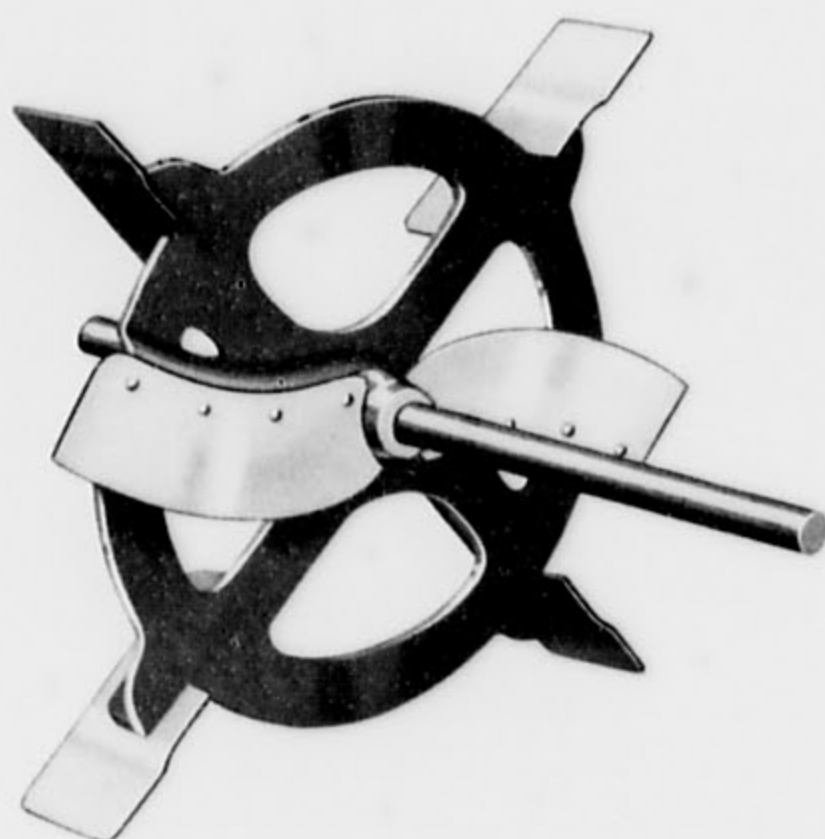

Combines all the latest ideas and improvements in Corn Cutting Machinery, and at the same time eliminating all the disadvantages and dangers often attached to these machines. Throughout it is scientifically constructed so as to handle the largest quantities of Corn, in the least time, and with the least requirements of power.

The Frame is built of selected Canadian Maple, thoroughly dried, mortised and tenoned together so that it is eternally rigid.

The Blower Case is constructed of high carbon steel, sufficiently thick and hard to withstand the tremendous wear which goes on the inside of a Blower Case. It is extra well riveted together, and securely held in place.

The Knife Wheel is a Solid Steel Casting, not grey iron, or mild steel, but real steel, and there is no possible chance of this knife wheel flying to pieces from excessive speed. The Tornado is a "Safety First" machine in every respect. The Knife is securely keyed on a Cold Rolled Shaft 1 3/4 inches in diameter.

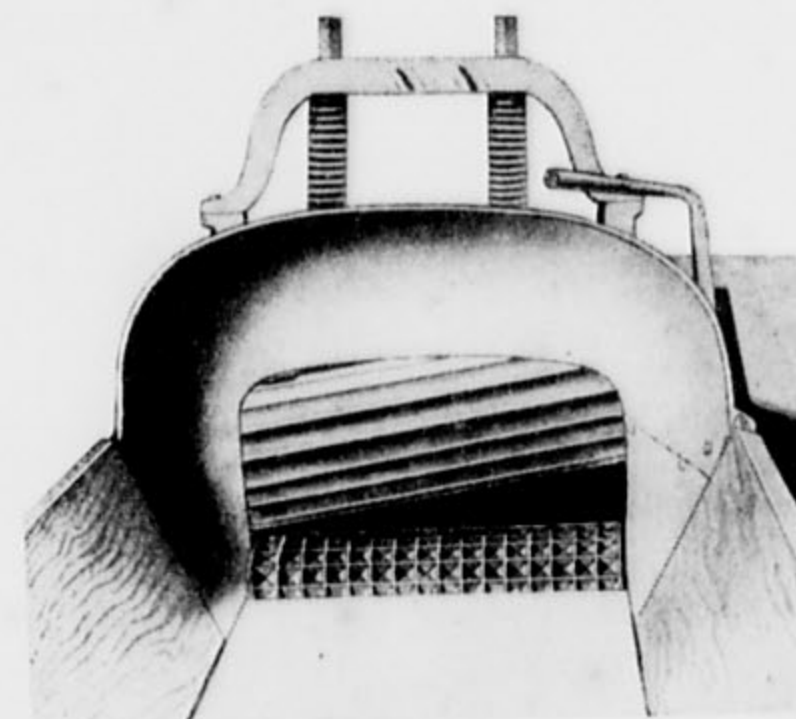

The Knives are of high grade steel and very heavy, but at the same time not too stiff to be properly adjusted to the cutting plate. This adjustment is made by means of set screws provided with a lock nut preventing it coming loose. This fine adjustment not only allows this machine to successfully cut corn, but also straw and hay as well.

These set screws do not simply screw into the casting, but are provided with a nut on each side.

The fans are constructed of steel riveted on to the drum with hot rivets so that there is absolutely no danger of them coming loose. They are so placed that besides creating a strong current of air they also throw the corn with tremendous force up the pipe.

The mouth piece is enlarged at the opening so as to gather in the corn, thus increasing its capacity to a great extent.

The Bottom Roller is toothed, and the Top Roller corrugated, and will everlastingly pull the corn in, no matter how it is fed to it, or in what shape it is, and holds it tightly while cutting it.

The Top Roller is provided with two pressure springs close to the end which exerts a constant pressure on the top roller. This Top Roller is self-conforming in accordance with even or uneven feeding. It can be higher or lower at either end if there should happen to be more or less corn at either side of the mouth piece, and at the same time runs perfectly free.

The Main Shaft Bearings are large babbitted boxes fitted with hard oil cups. The Gears throughout are extra heavy and cannot break.

The Reverse Gear is on a slow running Counter Shaft so that no matter how fast the machine is running it can be reversed without damaging the Reverse Gear in the slightest.

The sides of the Travelling Feed Table can be taken off and the travelling feed table folded up for transportation. The extra feed table can be placed on either side of the travelling feed table as required.

POWER.—The power required depends to some extent on how hard the machine is fed and the height to which the corn is to be elevated. A 14 H.P. Steam Engine makes an ideal power. We have, however, successfully run this machine with a 12 H.P. Gas Engine.

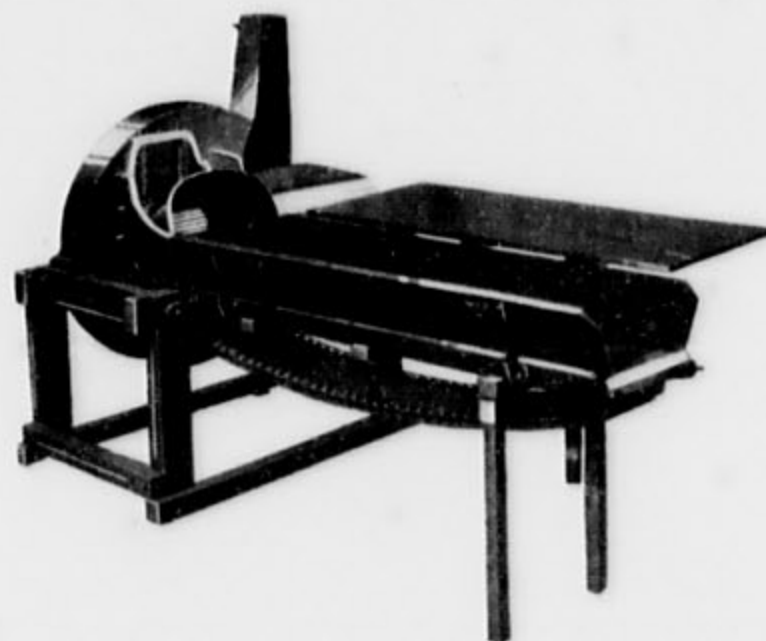

CAPACITY.—Capacities differ to a great extent, according to conditions, of both power and corn. Our experience has been, however, that it is easy to cut from eight to ten tons per hour, when the corn is cut $\frac{5}{8}$ inch long.

The Pipes are constructed of heavy sheet steel, and the deflector is strongly built.

When these machines are ordered we usually supply one extra set of knives, one pulley, lagged, and thirty feet of pipe. If any different equipment is required it should be mentioned in the order.

Cuts— $\frac{3}{8}$ inch, — $\frac{5}{8}$ inch—1 inch and $1\frac{1}{2}$ inches.

The Mouth is 12 inches wide and raises 5 inches.

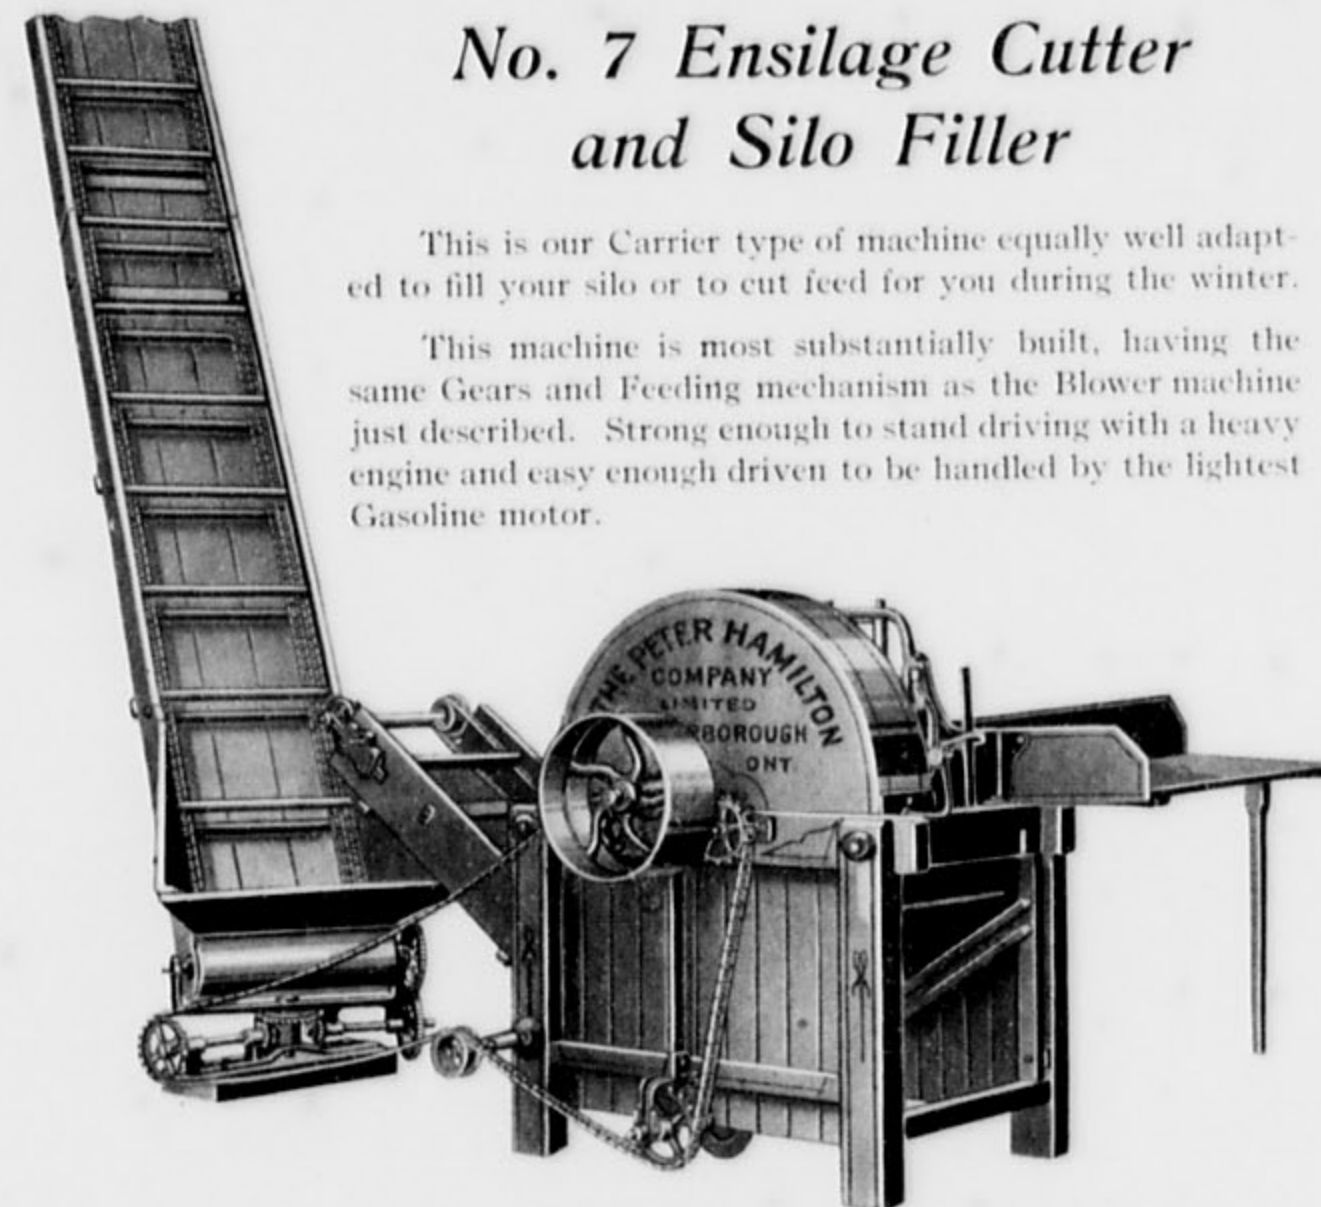

22

No. 7 Ensilage Cutter and Silo Filler

This is our Carrier type of machine equally well adapted to fill your silo or to cut feed for you during the winter.

This machine is most substantially built, having the same Gears and Feeding mechanism as the Blower machine just described. Strong enough to stand driving with a heavy engine and easy enough driven to be handled by the lightest Gasoline motor.

The Knives are manufactured out of an extra high-grade of Steel and are guaranteed to stand up to their work. They are easily adjusted up to the Cutting Plate. These Knives are concave-shaped, cutting from the outside rim towards the centre with a shearing cut all the way across, giving you full value of the momentum of the wheel on every cut.

The material is clean cut, no chopping or long ends. When a light power is available this scheme makes an ideal Silo Filler. It cuts corn perfectly, leaving stalks and cobs all the same lengths. Carriers deliver it into the Silo in a very satisfactory manner. Of course you cannot cut as much as with a Blower, but you do not need as much help as with a Blower.

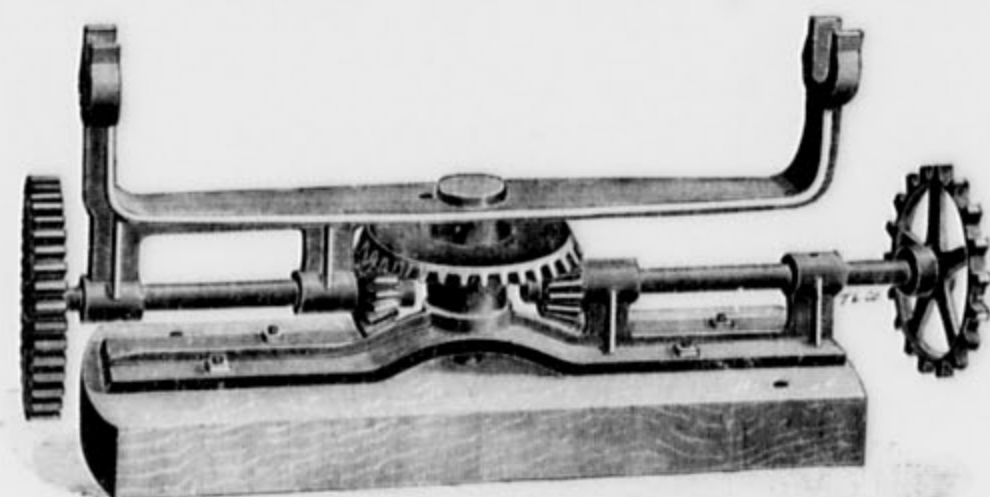

23

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

POOR COPY

The Elevating Carriers are very strongly constructed, have extra deep sides, and the Chains return on top. This prevents the cut stuff from blowing out and eliminates a litter underneath the Carriers.

Universal Jack

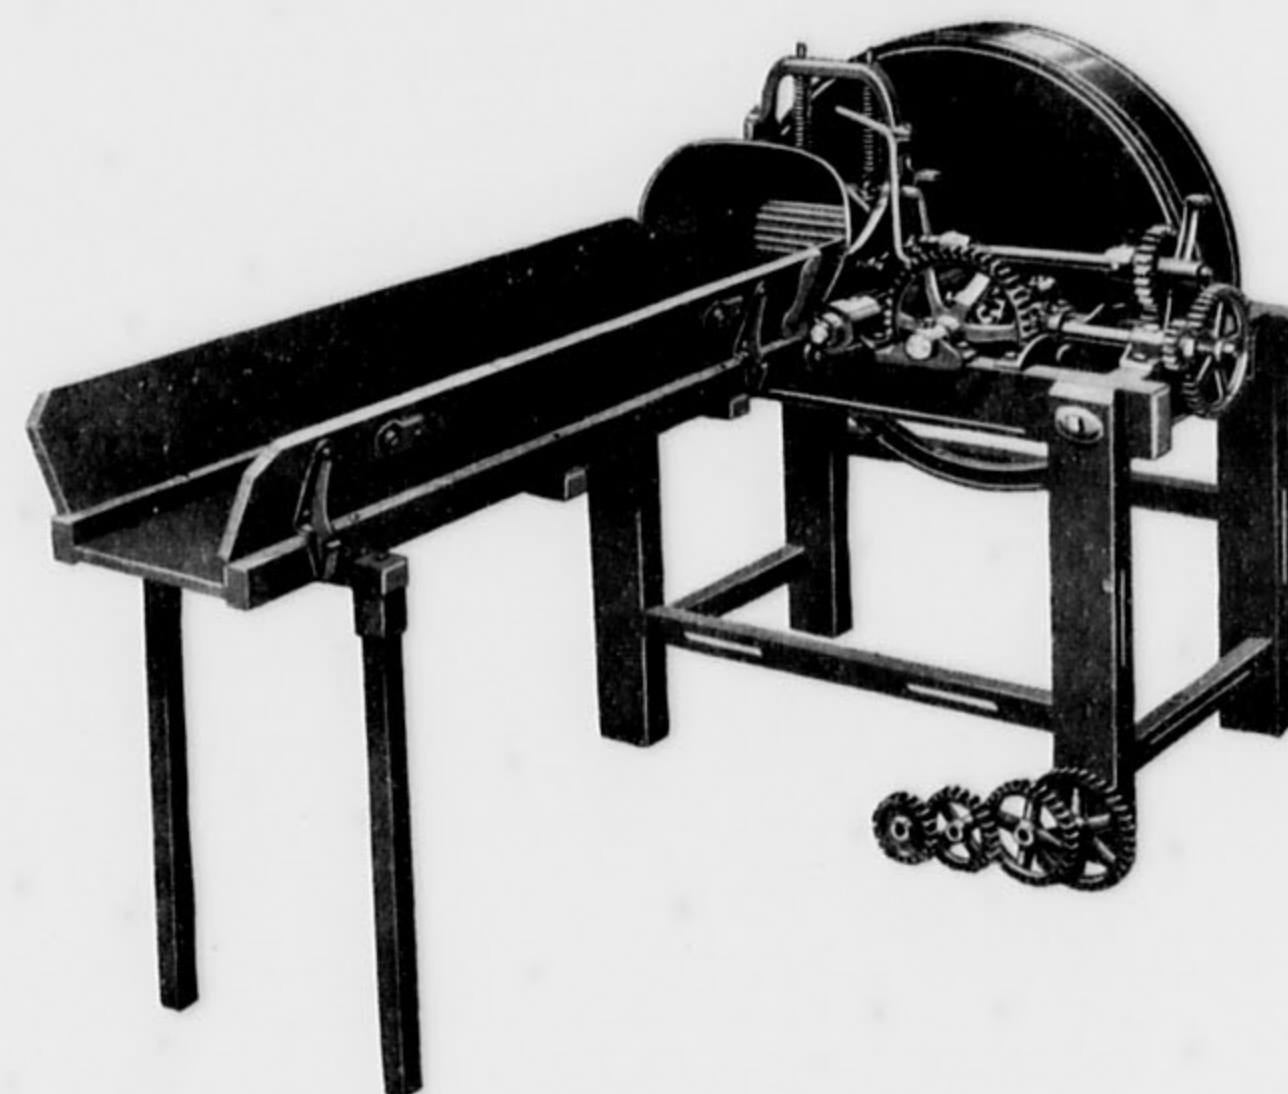

These Carriers can be mounted on a stand when it is only desired that they run straight out from the machine, but a Universal Jack can be supplied which will enable the Carriers to be swung around to any direction within a radius of a half circle.

This machine can be supplied with either a Plain Feed Table or a Travelling Feed Table.

With the Travelling Feed Table, the capacity of the machine is not only increased but the work of feeding is considerably reduced.

The No. 7 Straw Cutter

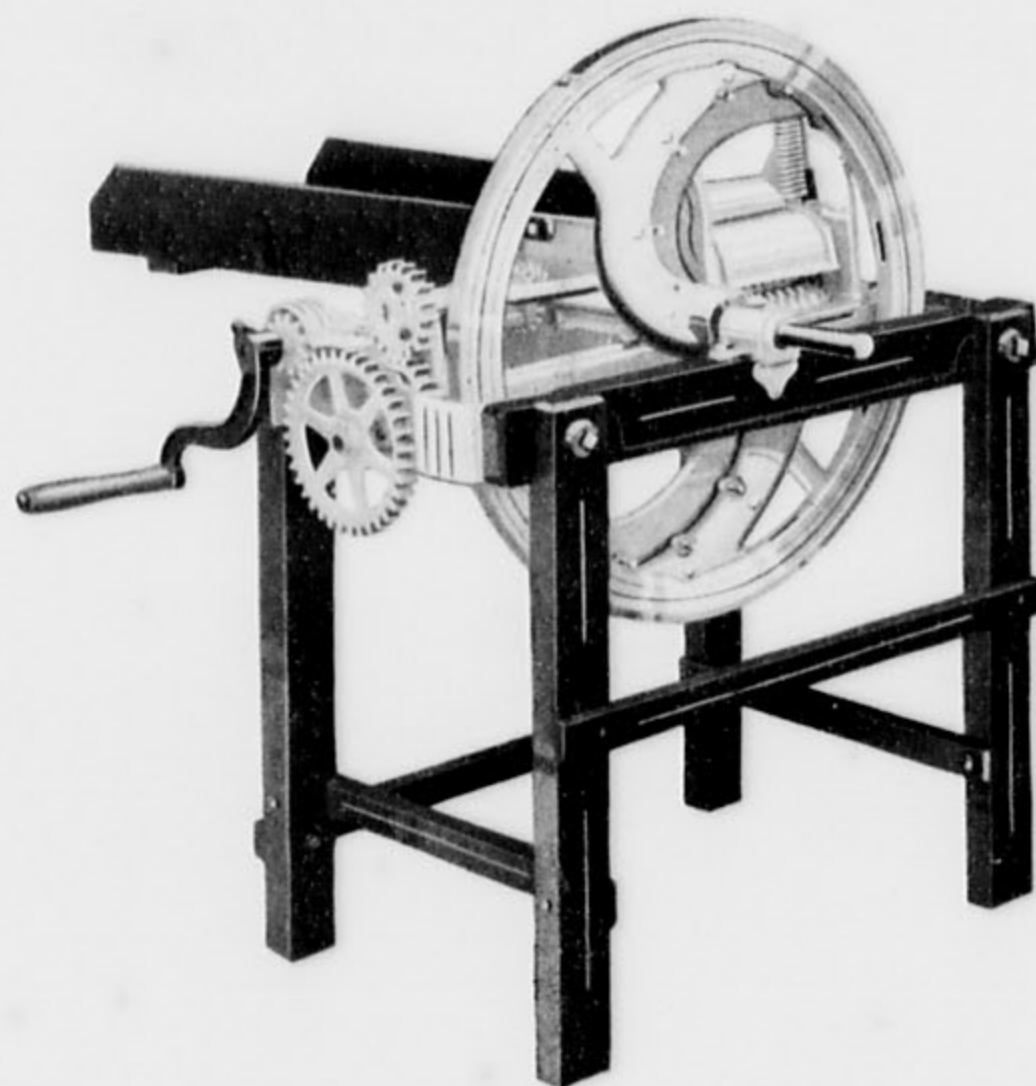

This machine is specially built for cutting large quantities of Straw or Corn in the barn for winter feeding.

It is similar throughout to the No. 7 Ensilage Cutter, but the Carriers have been eliminated. Any small gasoline engine will drive it most satisfactorily.

Any PETER HAMILTON FEED CUTTER will repay you many times its cost because it will prepare your fodder in excellent shape. Every Straw cut into short lengths, no loose ends.

We have a machine for every purpose.

The No. 6 Straw Cutter

This Machine has a 9-inch mouth and the rollers raise about $2\frac{1}{2}$ inches. It can be operated by hand or by a small gas engine. The Frame is rigid and the machine parts strongly constructed. The Fly Wheel is heavy, perfectly balanced and mounted on Roller Bearings. The Knife has a concave cutting edge, giving a shearing cut from the outside towards the centre. There are no ends pushed out uncut. The sharp toothed roller makes feeding very easy, and the constant pressure on these rollers hold the stuff firmly until it is cut. It takes but little power to run one of these machines.

26

Hamilton's Root Pulper, No. 3

This is a perfect machine, made with reversible knives, which can be used for slicing. The Knife Wheel has a very heavy rim, which acts as a fly wheel, and make the work of cutting easy.

The Hopper is the very best for feeding the roots to the head. It makes the roots feed regularly and smoothly, without clogging or choking, and does its work with great rapidity.

The Boxes are supplied with Anti-friction Roller Bearings of the best construction, an improvement which is very much appreciated by all who value ease of operation.

Massey-Harris Ensilage and Straw Cutters, Root Cutters, Pulpers, Grinders, Gasoline Engines

Feeding Table can be set at either side of machine.
Safety Control Lever operated as easily from one
side as the other.

Massey-Harris No. 3 Blizzard Ensilage Cutter

With transport truck and feeding table in position. It can be furnished without the truck if so desired, and either with a fluted upper roller and a smooth lower one, as here shown, or with the toothed rollers shown in following illustrations, as may be preferred. The transport truck wheels are 20 in. high with 3-in. face.

SPECIFICATIONS OF MACHINE

Throat—12 in.; Pipe—7½ in.; Pulley—10, 12, 14 or 16 in. as specified; Speed required—800 to 1000 r.p.m.; Power required—12 to 15 H.P. for ordinary conditions or 20 H.P. for very heavy work; Lengths of Cut—¼ in., ½ in., ¾ in., 1½ in.; Capacity—6 to 12 tons per hour depending on condition of corn, length of cut, etc. Some operators cut greatly in excess of these amounts. Equipment: 2 Extra Knives, 1 8-ft Length Bottom Pipe, 2 Deflector Elbows, 1 Feed Table.

Cutting Ensilage to Advantage with the No. 3 Blizzard

Corn or Sunflowers

THE Massey-Harris No. 3 Blizzard Ensilage Cutter will handle corn or sun flowers with equal facility. It is ideal for personal or custom use. The No. 3 Blizzard is as safe a machine to operate as it is possible to make.

Safety Features

The control lever is a safety lever which can be operated from either side of the machine. When the Blizzard is cutting, this lever is at its extreme forward position. A push against it will cause the feed rolls and travelling bed to stop or reverse. The gears are covered by shields which can be removed without disturbing a bolt or a nut.

Juice-Tight Blower Case

The blower case of the No. 3 Blizzard is dust-proof, water-tight and juice-tight. It is extra heavy and is well reinforced with ribs.

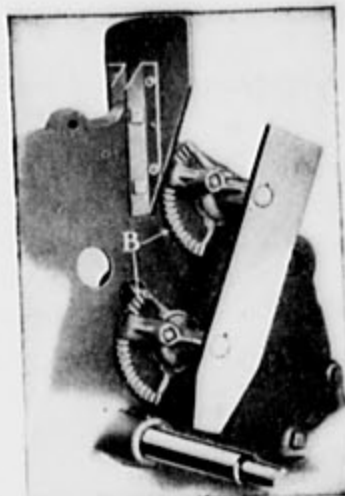

Strong Cutting Head

The knife on head mechanism does two operations at once. It cuts the ensilage and throws and blows it to the silo. Four smoothed surface fans provide plenty of power to carry the silage to the top of any silo under ordinary conditions.

Convenient Grinder

A power grinder controlled by a separate clutch is part of every machine. On it one set of knives may be sharpened, while the other is in use.

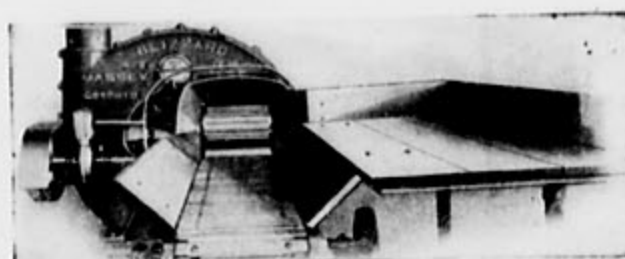

Ask Your Local Agent For Full Particulars

Each knife can be adjusted in its relation to the shearing plate, independently of the other by turning segments "B" one or two cogs in the right direction.

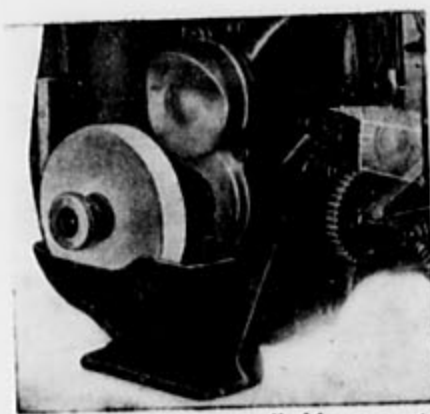

Knives are strong, well tempered and keen cutters. An extra set goes with each machine.

Feeding table can be set on either side of the machine.

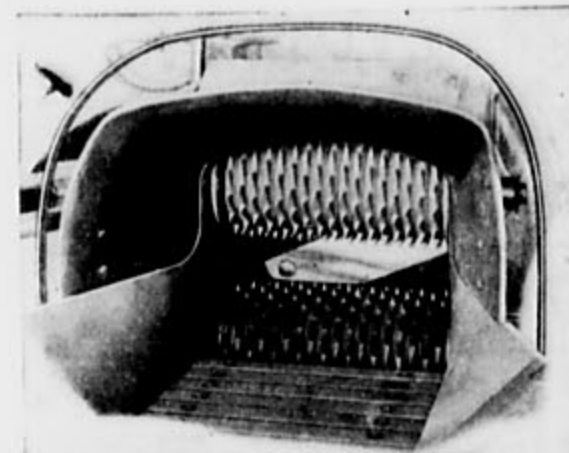

Strong, heavy, carefully balanced head gives the effect of a fly-wheel.

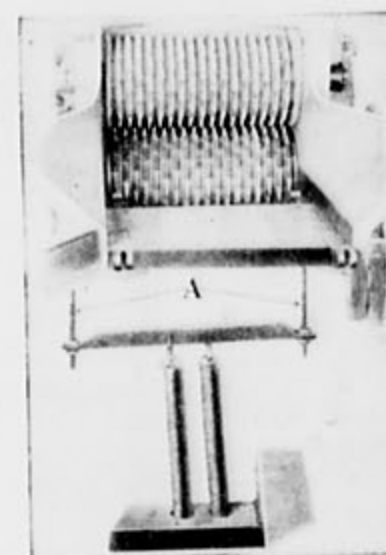

A power grinder, controlled by separate clutch, is part of every machine.

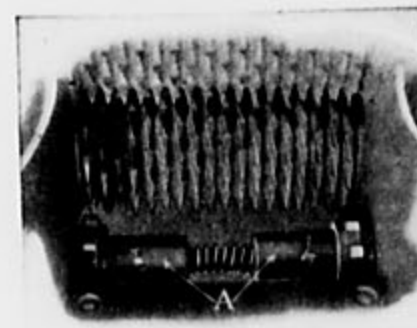

Extra heavy, well reinforced blower case.

Control lever is as easily operated from one side as the other. Note how upper roller rises to accommodate varying volumes of feed.

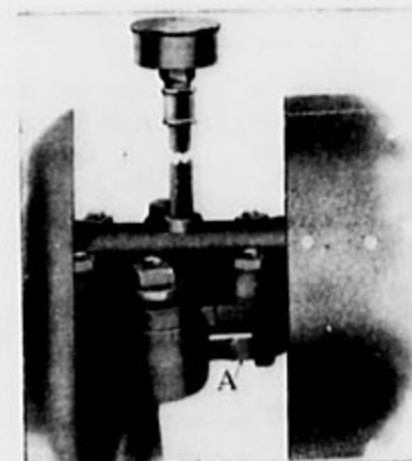

Two strong springs exert tension on upper roller.

Spring controlled clutches.

Gears for obtaining four different cutting lengths: $\frac{1}{4}$ in., $\frac{1}{2}$ in., $\frac{3}{4}$ in. and $1\frac{1}{2}$ in.

The two long, well-babbitted main shaft bearings have a compression grease cup.

Gears and shield. The latter can be put on or taken off without disturbing a bolt or nut.

The Man with the Silo has The Advantage

THE cost of feeding the animals is the greatest expense connected with the livestock and dairying businesses. Experiments conducted by experimental farms over a period of fifteen years have proven silage to be the most economic food for the production of stock and stock products.

During a very severe winter experienced in Western Canada recently, cattle starved to death on the ranges. Hay was hard to get even at ridiculously high prices. Many Western Canada farmers are now erecting silos as insurance against a repetition of such conditions.

Eight times more feed can be stored in the silo than in the mow. A silo saves in storage space. Silage can be carried over from one season to another for several years and still be fed at a profit.

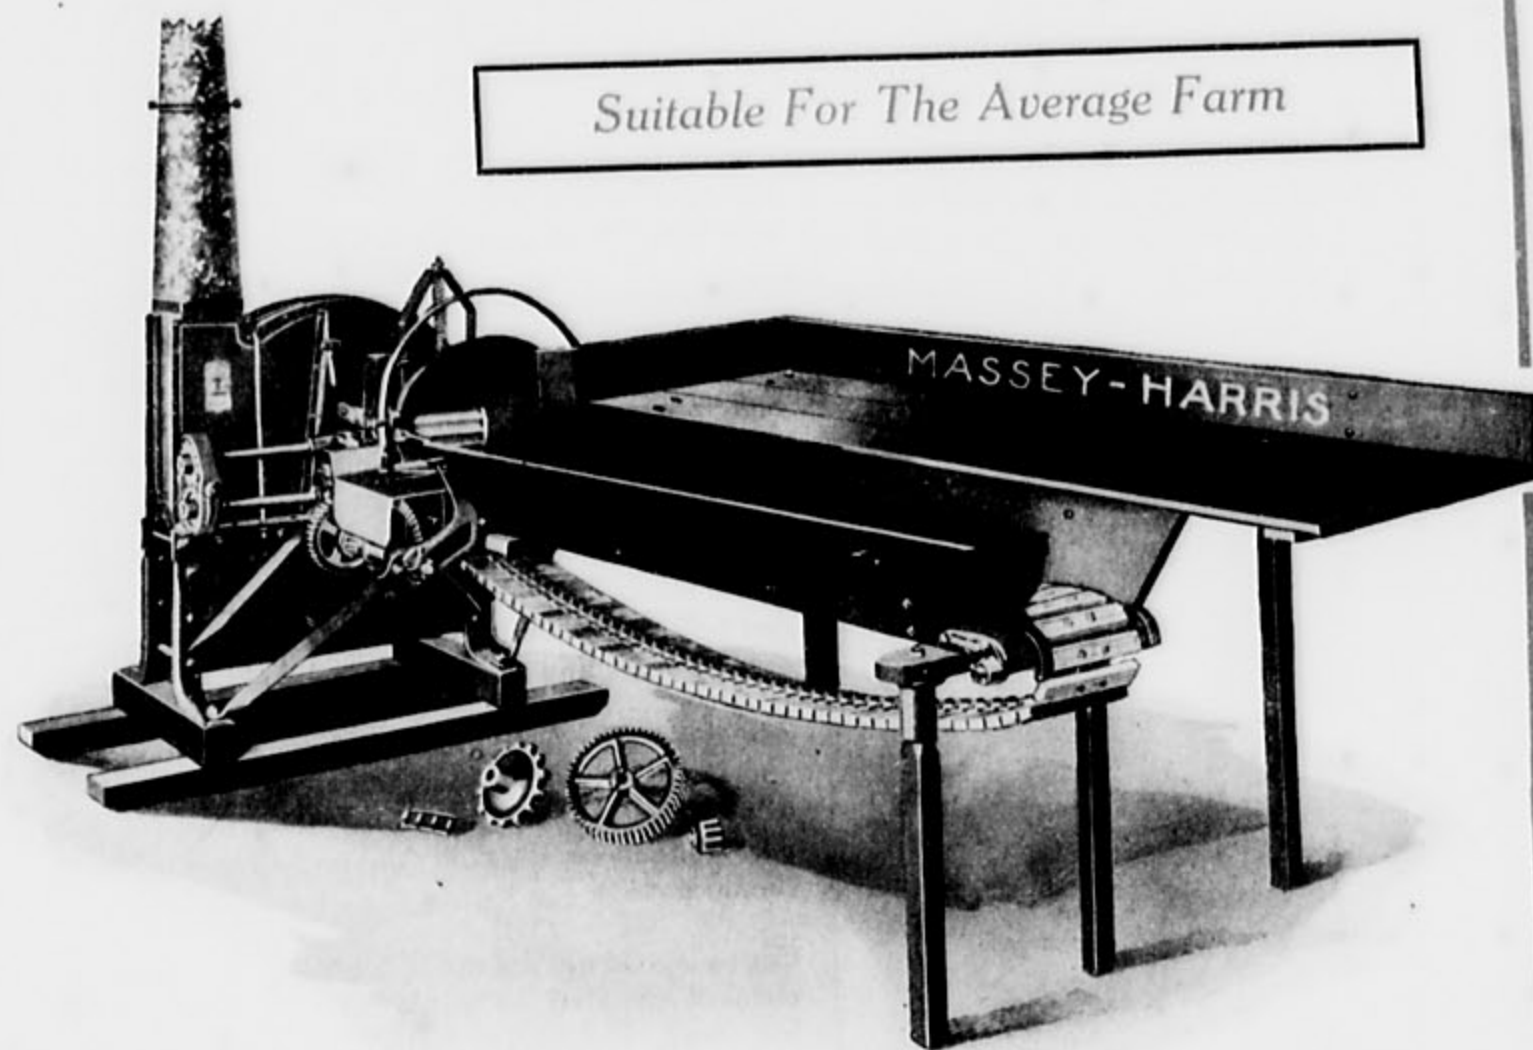

Silage is a succulent, grass-like feed, easily digested, and seems to stimulate digestion. Less sickness is experienced among the stock when silage is fed. Silage stimulates the milk flow, and all milking stock should have it.

Corn silage is the cheapest source of the principal element required by cattle, i.e., digestible carbohydrates. The man with the silo has the advantage over his neighbor without one.

Massey-Harris No. 5 Ensilage Cutter

For Use with 6 to 10 H.P. Engines

Suitable For The Average Farm

SPECIFICATIONS

Throat—9 in.; Pipe—6 in.; Pulley—7 x 8 in.; Lengths of cut— $1\frac{1}{4}$ in., $1\frac{1}{2}$ in., $3\frac{1}{4}$ in. and $1\frac{1}{2}$ in.; Speed Required—900 to 1100 r.p.m.; Power Required—6 to 10 h.p. for ordinary conditions; Capacity—3 to 8 tons per hour depending on the condition of the forage, length of cut, power available, etc.; Equipment—2 Extra Knives, 1 2-ft. Length, Bottom Pipe, 2 Deflector Elbows, 1 Feed Table. Pulleys with an 8 in. face of 10 in., 12 in., or 14 in. diameters are supplied as extras when ordered. Supplied with Transport Truck if so desired.

THE Massey-Harris No. 5 Ensilage Cutter is built on the same general principles as the No. 3 Blizzard, but is smaller and is suitable for ensilage cutting on most farms. For ordinary conditions 6 to 10 h.p. will operate this machine satisfactorily.

Safe to Use

This is a safe machine to operate. The control lever acts as a safety lever and all gears are covered by shields which can be removed easily when necessary.

Carefully Balanced Head

The head is strong and heavy, is carefully

balanced and is provided with six steel blades which furnish the blower fan. It gives the effect of a flywheel, runs steadily, drives the knives with tremendous force, and both throws and blows the ensilage with sufficient force to carry it to the top of the high silos.

Other Superior Features

The adjustments are easily made and accessible; reversible feeding table; the gears are held in perfect mesh and alignment; it gives the most work for the h.p. supplied; the spring-controlled rollers accommodate themselves to varying volumes of feed.

Massey-Harris No. 9 Cutter

Hand Use Only

THIS cutter, like the No. 10, is built substantially, but it is intended for smaller work, being strictly a hand machine. It is not quite so compact, as its table is built as an integral part of the frame. A space of 36 x 38 inches is required for it. It has a hardwood frame, well braced and bolted, and is operated by a crank at the side. However, it can also be made to operate from the end by simply taking the handle from the crank and bolting it to the fly wheel. The table is 36 inches over all in length, has a 12-inch mouth and a $7\frac{3}{8}$ inch throat. The feed rolls and cutting mechanism are very similar to those of the No. 10, only of course they have been modified as necessary to fit the size. The spring controlling feature of the rolls and the adjustable features of the curved knives are provided. The rolls, however, instead of being driven through tumbling rods with knuckle joints, on this cutter, are driven by means of a worm and lug wheel which are placed in such relation one to the other that there is no binding of either when the upper roller rises to accommodate the different thicknesses of feed. The knife or fly wheel is of about the same diameter as the one used on the No. 10, but it is of lighter weight. A guard prevents the operator from coming in contact with the knives. The frame is so constructed that a box or basket may be placed to catch the feed.

Full Particulars From Your Local Agent

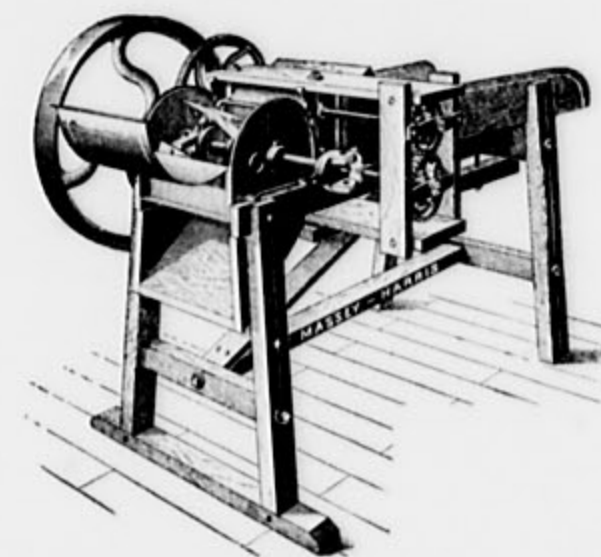

Massey-Harris Cummings Cutter

Hand or Power

THIS is a combination hand and power machine and can be fitted with knuckle or 10 in. x $4\frac{1}{2}$ in pulley as desired.

It has a substantial hardwood frame, roller bearings, a heavy fly wheel, and four spiral knives which are mounted in such manner as to be readily adjusted or removed for sharpening.

Gear-driven feed rolls, which automatically conform to varying amounts of straw or other material, give positive feed at all times. The cut can be changed by means of different gears to various lengths as follows:— $\frac{3}{8}$, $\frac{5}{8}$, $\frac{7}{8}$, $1\frac{1}{4}$, $1\frac{3}{4}$ or $2\frac{1}{4}$ in. The throat is 9 in. in width.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

Massey-Harris No. 10 Straw Cutter

Hand or Power. Has 9-inch throat and will cut feed either $\frac{5}{8}$ or 1-inch in length. Furnished with 10-inch pulley and crank.

Only a small space is required for it as the table is hinged at two points "A" and can be easily folded out of the way. With the table folded and the cranks off, it takes only 36 x 29 in. floor space.

The frame is solid and substantial. It is made up of hardwood pieces, mortised to fit one another closely, and two cast sills.

This Handy Machine requires little space

CUT straw used for bedding will take up and hold a larger percentage of the fertilizing element than uncut straw. Also, the spreader handles manure saved this way easily and spreads it more evenly.

Straw can be best prepared or used for feed purposes when it is cut, and the No. 10 Straw Cutter that can be operated by hand or power is a very handy machine to have around the place.

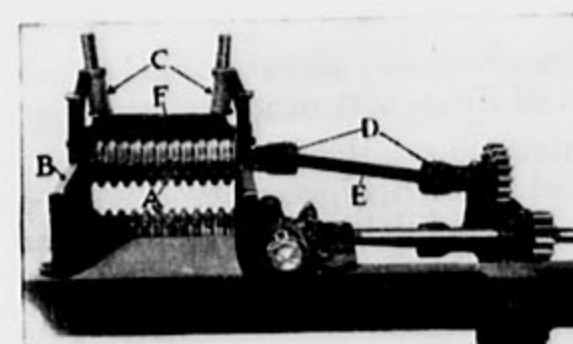

The Massey-Harris No. 10 Straw Cutter takes up little space when in operation and less when not, as the table is hinged and can be folded up out of the way.

Curved knives of saw steel, each of which is fastened to the wheel by four bolts, do the cutting. They can be adjusted for wear and close shearing by set screws, of which there are five for each knife. The knives can be ground back almost two inches before they need to be replaced.

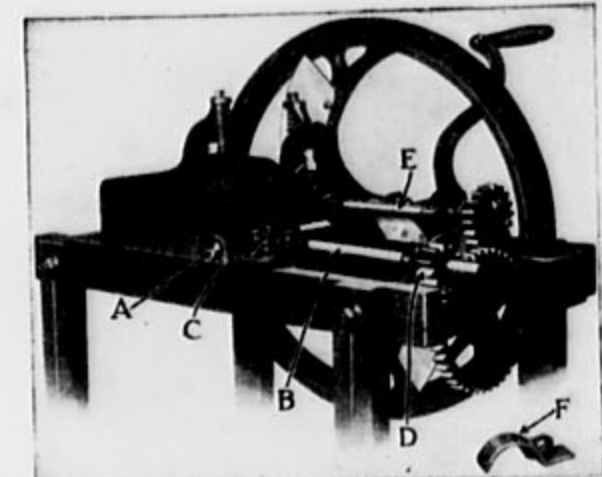

The wheel to which the knives are bolted, weighs 75 lbs. and is mounted with roller bearings at each end of its shaft.

For full particulars ask your local agent.

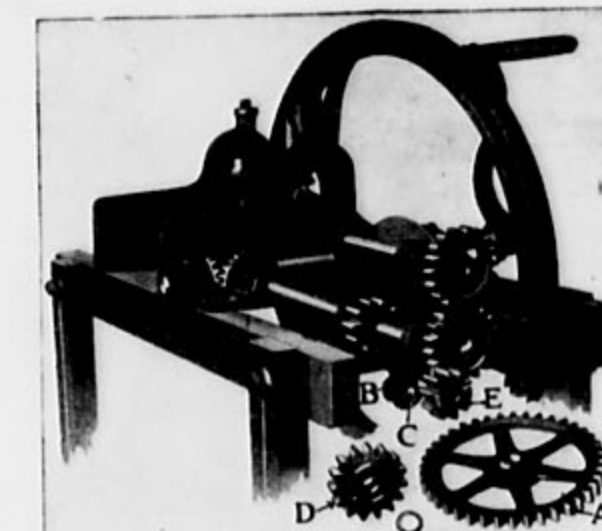

Every Massey-Harris Agency is a Service Station

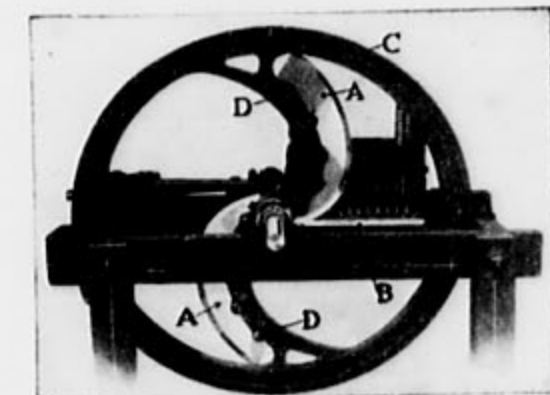

Upper feed roll rises to accommodate varying volumes of feed, and is controlled by two springs "C."

Gears are all held in positive alignment by the substantial frame.

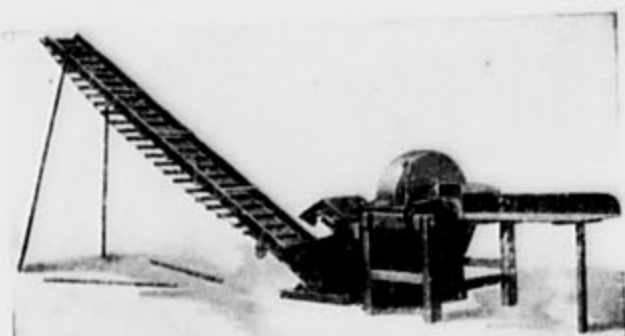

Gears are easy to get at and can be changed quickly.

Curved knives of saw steel do the cutting.

Massey-Harris No. 2 Straw and Ensilage Cutter

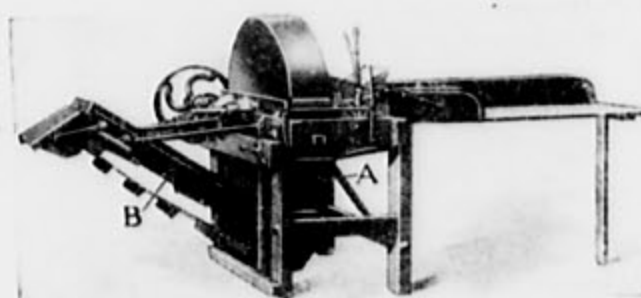

Carrier may be set to deliver back of the machine.

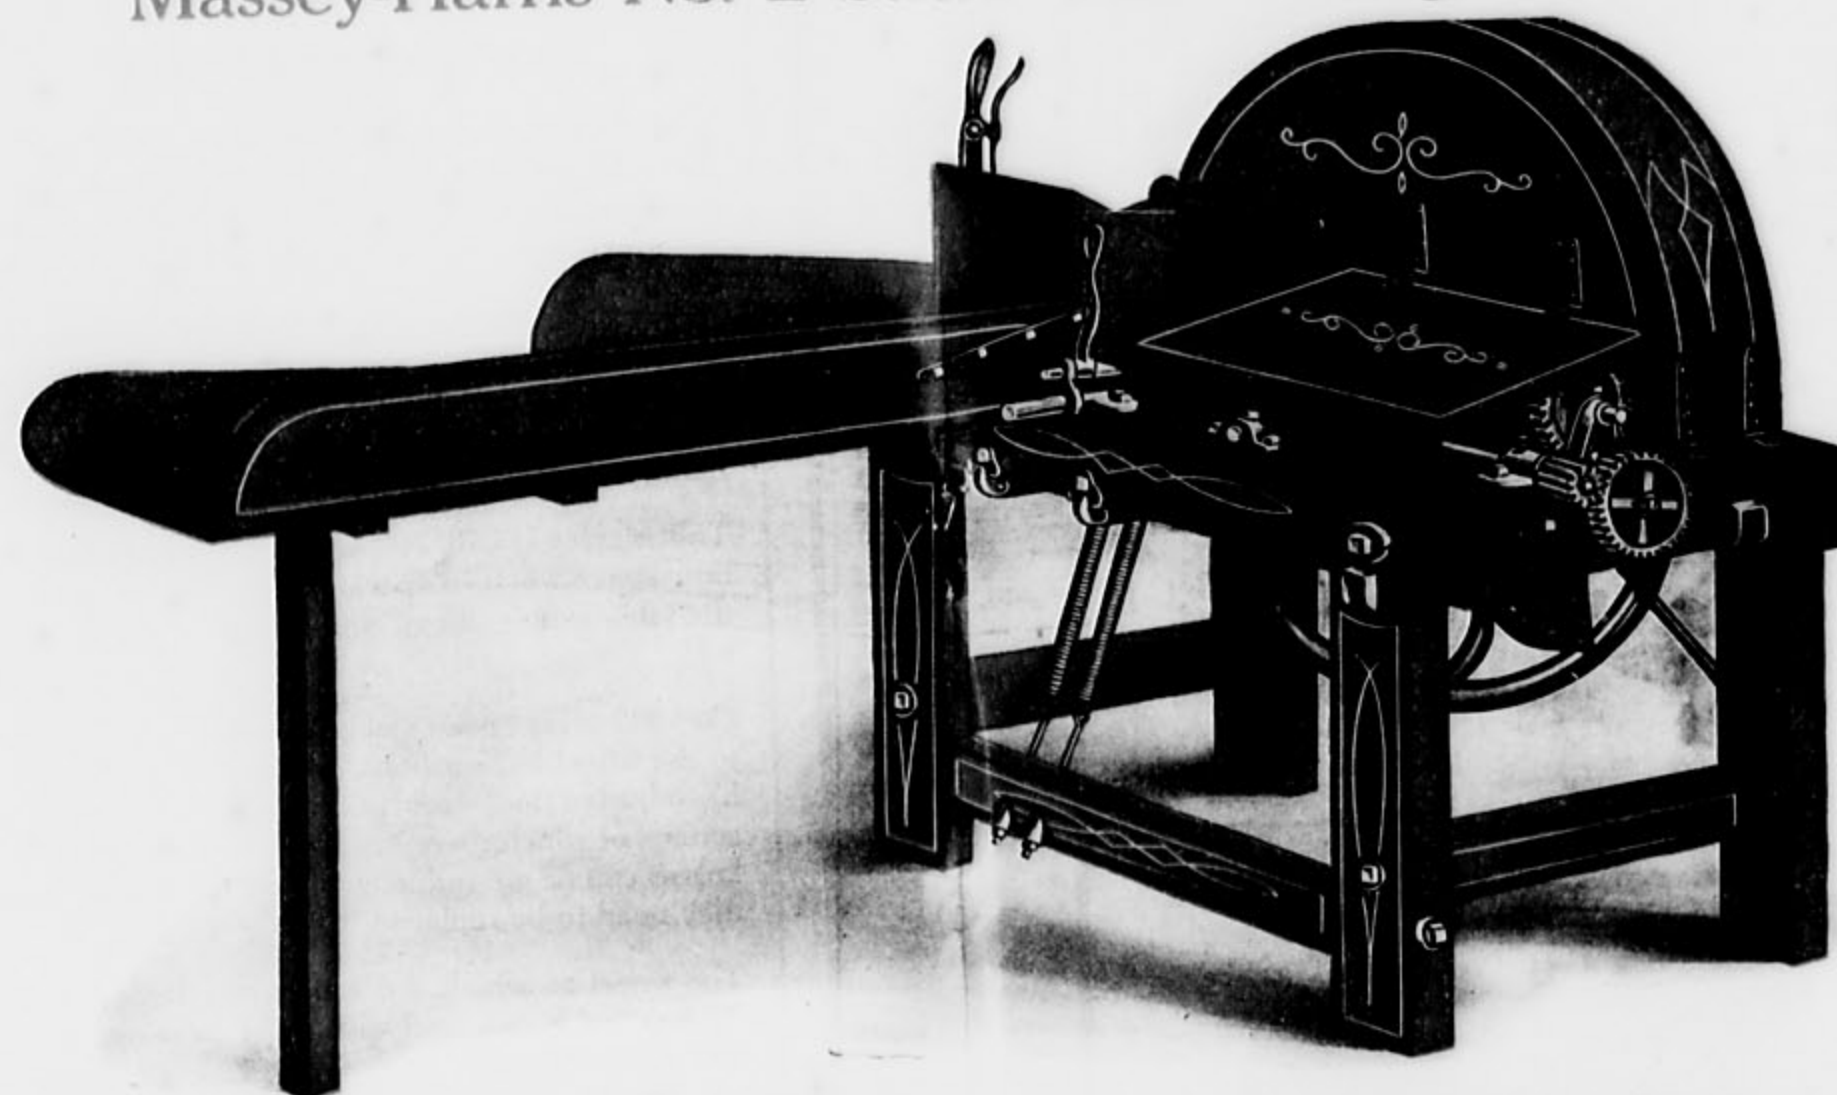

Carrier may be set to deliver to the right or left of the cutter.

Levers are easy to get at.

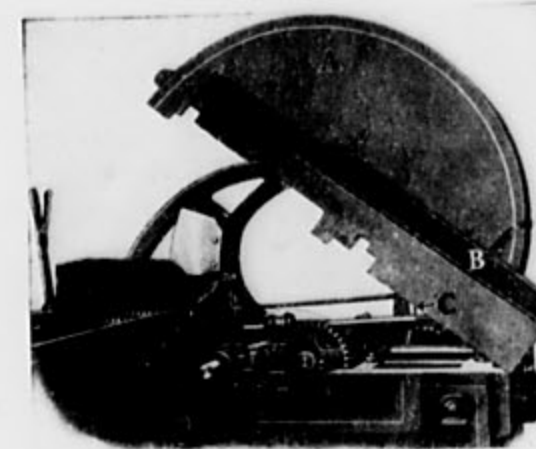

Cutter equipped with under-box "A" and short carrier "B."

THIS is a durable machine of large capacity, 12-inch throat. It can be furnished as a plain straw cutter as here shown, as an ensilage cutter with both short and long carriers, or as a cutter with under box and short carrier. The long carriers are furnished in different lengths. When used as a plain cutter it can be operated with a Massey-Harris 3 H.P. Gas Engine; when used with carrier not exceeding 24 feet, a 4½ h.p. engine is required, and when used with a longer carrier, one of 6 h.p. or even 8 h.p. would be advisable. The table is open at side and end to facilitate feeding. Operator feeds to his right, the natural way; and the control lever and the carrier gear shifter lever are conveniently placed. Because of the substantial frame which holds them in line, all of the gears mesh well, and run freely. Friction is reduced by the use of rollers in cages at the principal bearings. The feed rolls are adjustable. The upper roll will rise automatically to accommodate any forage up to 5 inches in thickness. Six lengths of cut are possible, 7/16 inches, 5/8 inches, 7/8 inches, 1½ inches, 2.1/16 inches and 3 inches, by means of three sets of gears which are quickly and easily changed. Two semicircular knives mounted on a 38 in. wheel, weighing 110 pounds, do the cutting. The large diameter of the wheel, combined with its weight, gives it a momentum which carries the knives through anything that is likely to be fed between the rollers.

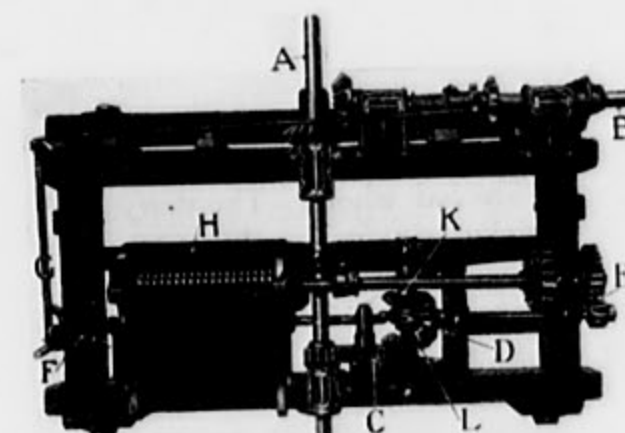

It Is Important To Remember Massey-Harris Service—It Counts

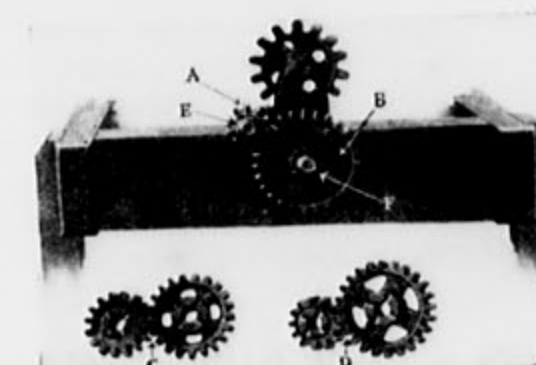

Working parts are well shielded.

Two semi-circular knives mounted on a 38 in. wheel, weighing 110 lbs. do the cutting.

All gears mesh well and run freely.

Gears for obtaining six cutting lengths of 7/16 in., 5/8 in., 7/8 in., 1½ in., 2.1/16 in. and 3 in.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

No. 2 Pulper

Side Wheel Type

ROLLER bearings in cages are used at each side of the No. 2 Pulper to make the machine run easily.

Each knife has both a slicing and a pulping edge and slotted adjustments are provided for taking up the wear.

The frame is strong, solid and well-braced. Both the No. 2 and the No. 1 Pulpers will give long and satisfactory service.

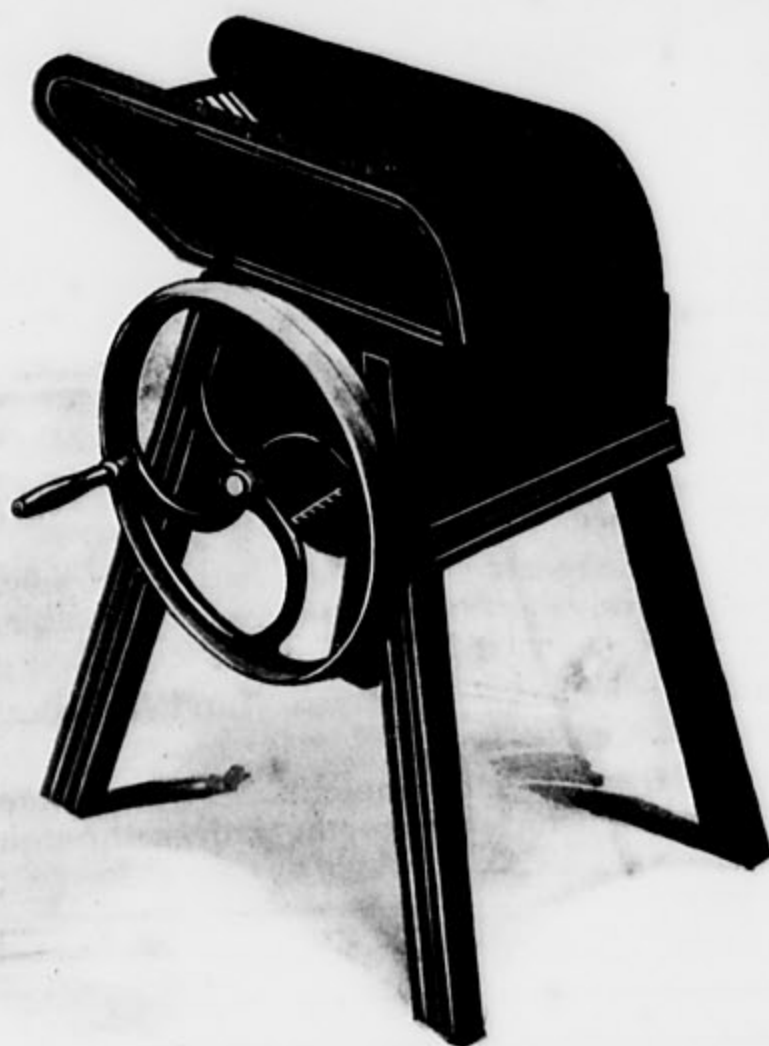

No. 1 Pulper

Concave Cylinder Type

WHEN put through a pulper, roots are fed to the best advantage, as little or no waste results, as does when roots are fed whole. The dairy farmer especially benefits by the use of these machines in preparing roots for feeding purposes.

Like the No. 2, the knives on the No. 1 Pulper have both a slicing and pulping edge and are provided with slotted adjustments for taking up wear.

The No. 1 Pulper may be turned by hand or driven by power from either the right or left as desired. Roller bearings in cages are used in the axle boxes to minimize friction and scrapers are provided to keep the pulp from lodging in the cylinder.

Use a Pulper and Prevent Waste

Massey-Harris Grinder

Three Styles—Seven Sizes

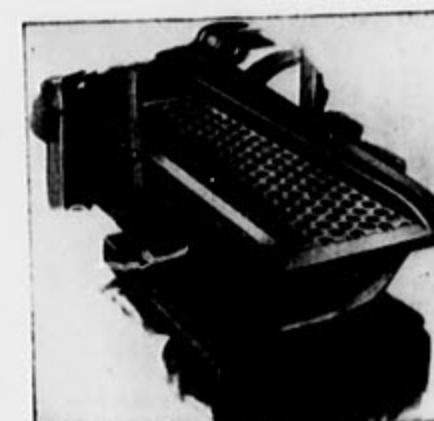

Furnished with or without Bagger Attachment

Large capacity is a feature of the hopper. The flow of the feed from it is regulated by the slide which, here, is shown at its extreme upward position.

The flow of the grain to the grinding mechanism can be regulated to a nicety by turning the knob nut here shown which adjusts the pitch of the feed spout.

This coarse sieve in the feed spout carries off straws and other similar foreign substances.

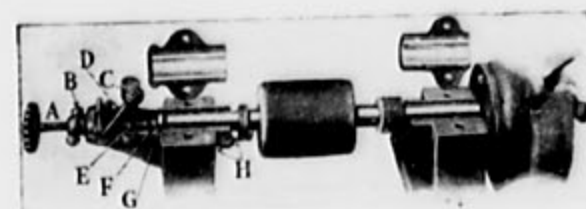

A Size and Style For Every Purpose

A GRINDER on your farm would save the hauling and extra cost involved in taking your grain to the mill to be ground into feed for your stock. During a slack season, if you have a grinder, there is the prospect of doing custom work for your neighbours, thereby making a little profit during a time when ordinarily there would be nothing coming in. Then, too, when you have a grinder on the place, you can grind the feed as you need it and coarse or fine whichever you require.

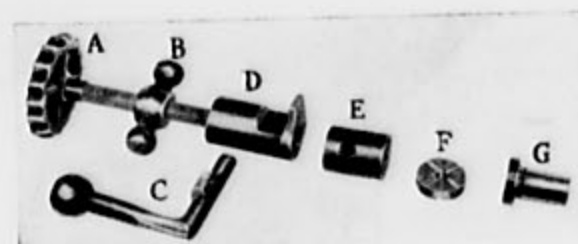

So that you will have no difficulty in choosing the one most suitable for your requirements, Massey-Harris Grinders are made in a variety of styles and sizes as shown in the table of dimensions on the following page. Any of them can be had with or without the bagger attachment, which is shown on the grinder in the illustration on the opposite page.

By referring to the cuts you will gain a pretty good idea of the care taken in the construction of the Massey-Harris Grinder to insure a machine that will do the most work with the minimum consumption of power, give good satisfaction, and stand up well under constant use.

On the following page we have listed a few of the outstanding features of Massey-Harris Grinders. Your local agent will gladly furnish you with full particulars upon request.

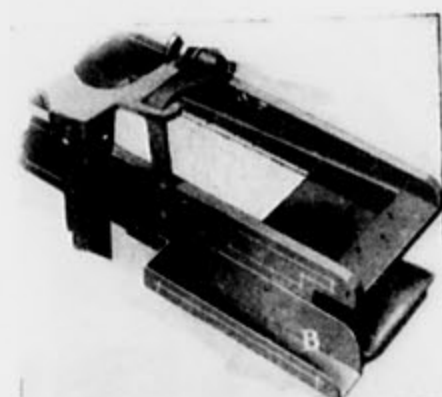

Long babitted bearings keep the main shaft in line.

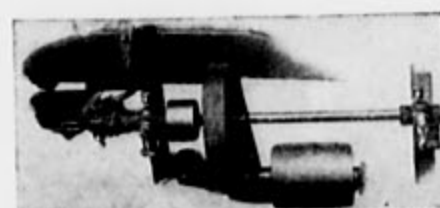

Detail of pressure screw and eccentric quick relief lever "C."

The shaft and pulleys are perfectly balanced.

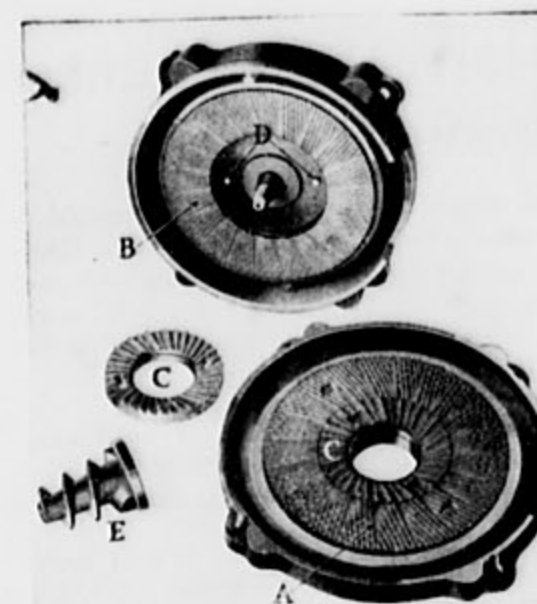

Beneath the coarse sieve there is a fine sieve. The feed is double cleaned and goes to the burrs free from foreign substances that may be injurious to the stock.

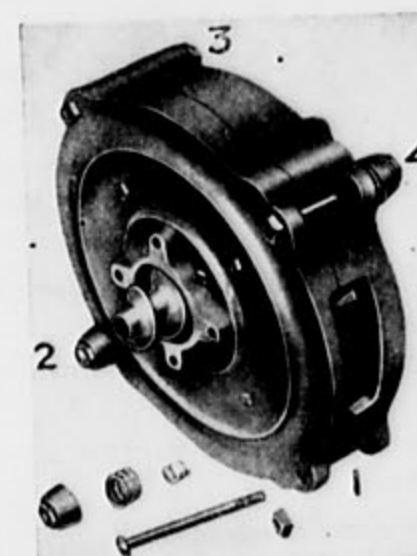

Shaker is driven direct from the main shaft by a belt and pulley which consumes very little power.

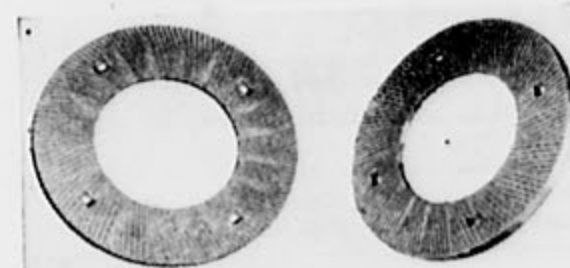

Self-aligning bearings lubricated by compression grease cups prevent the shaker shaft from binding.

The large burrs are enclosed in cast housing.

Two compression springs at each of the four places keep stationary plate squared up with revolving one.

Burrs are cut and dressed on both sides and two extra ones go with each grinder.

Belt for bagger attachment can be tightened easily.

Spout can discharge into either of two bags.

Steel buckets elevate the meal.

Elevation adjustments are provided at "A" and "B."

A Few Outstanding Features of Massey-Harris Grinders

THE burrs are made of an especially hard mixture and are reversible, being cut and dressed both sides by special machinery—always in perfect trim. The stationary burr is bolted to the cover of the housing by four bolts, each of which has two spiral springs, one within the other, to give flexibility.

A quick and positive adjustment is provided for setting the plates to grind fine or coarse, and patent quick-relief lever enables the operator to instantly stop or start the grinding without affecting the adjustment—once set, always set.

A safety break pin automatically relieves the burrs if any hard substance gets in.

The main shaft bearings are of ample size and well babitted, and an improved friction block takes the end thrust.

The patent raising and lowering device for feed spout is a great improvement. Feed spout has two sieves, one for carrying off straws, stones, etc., the other for removing sand and dirt.

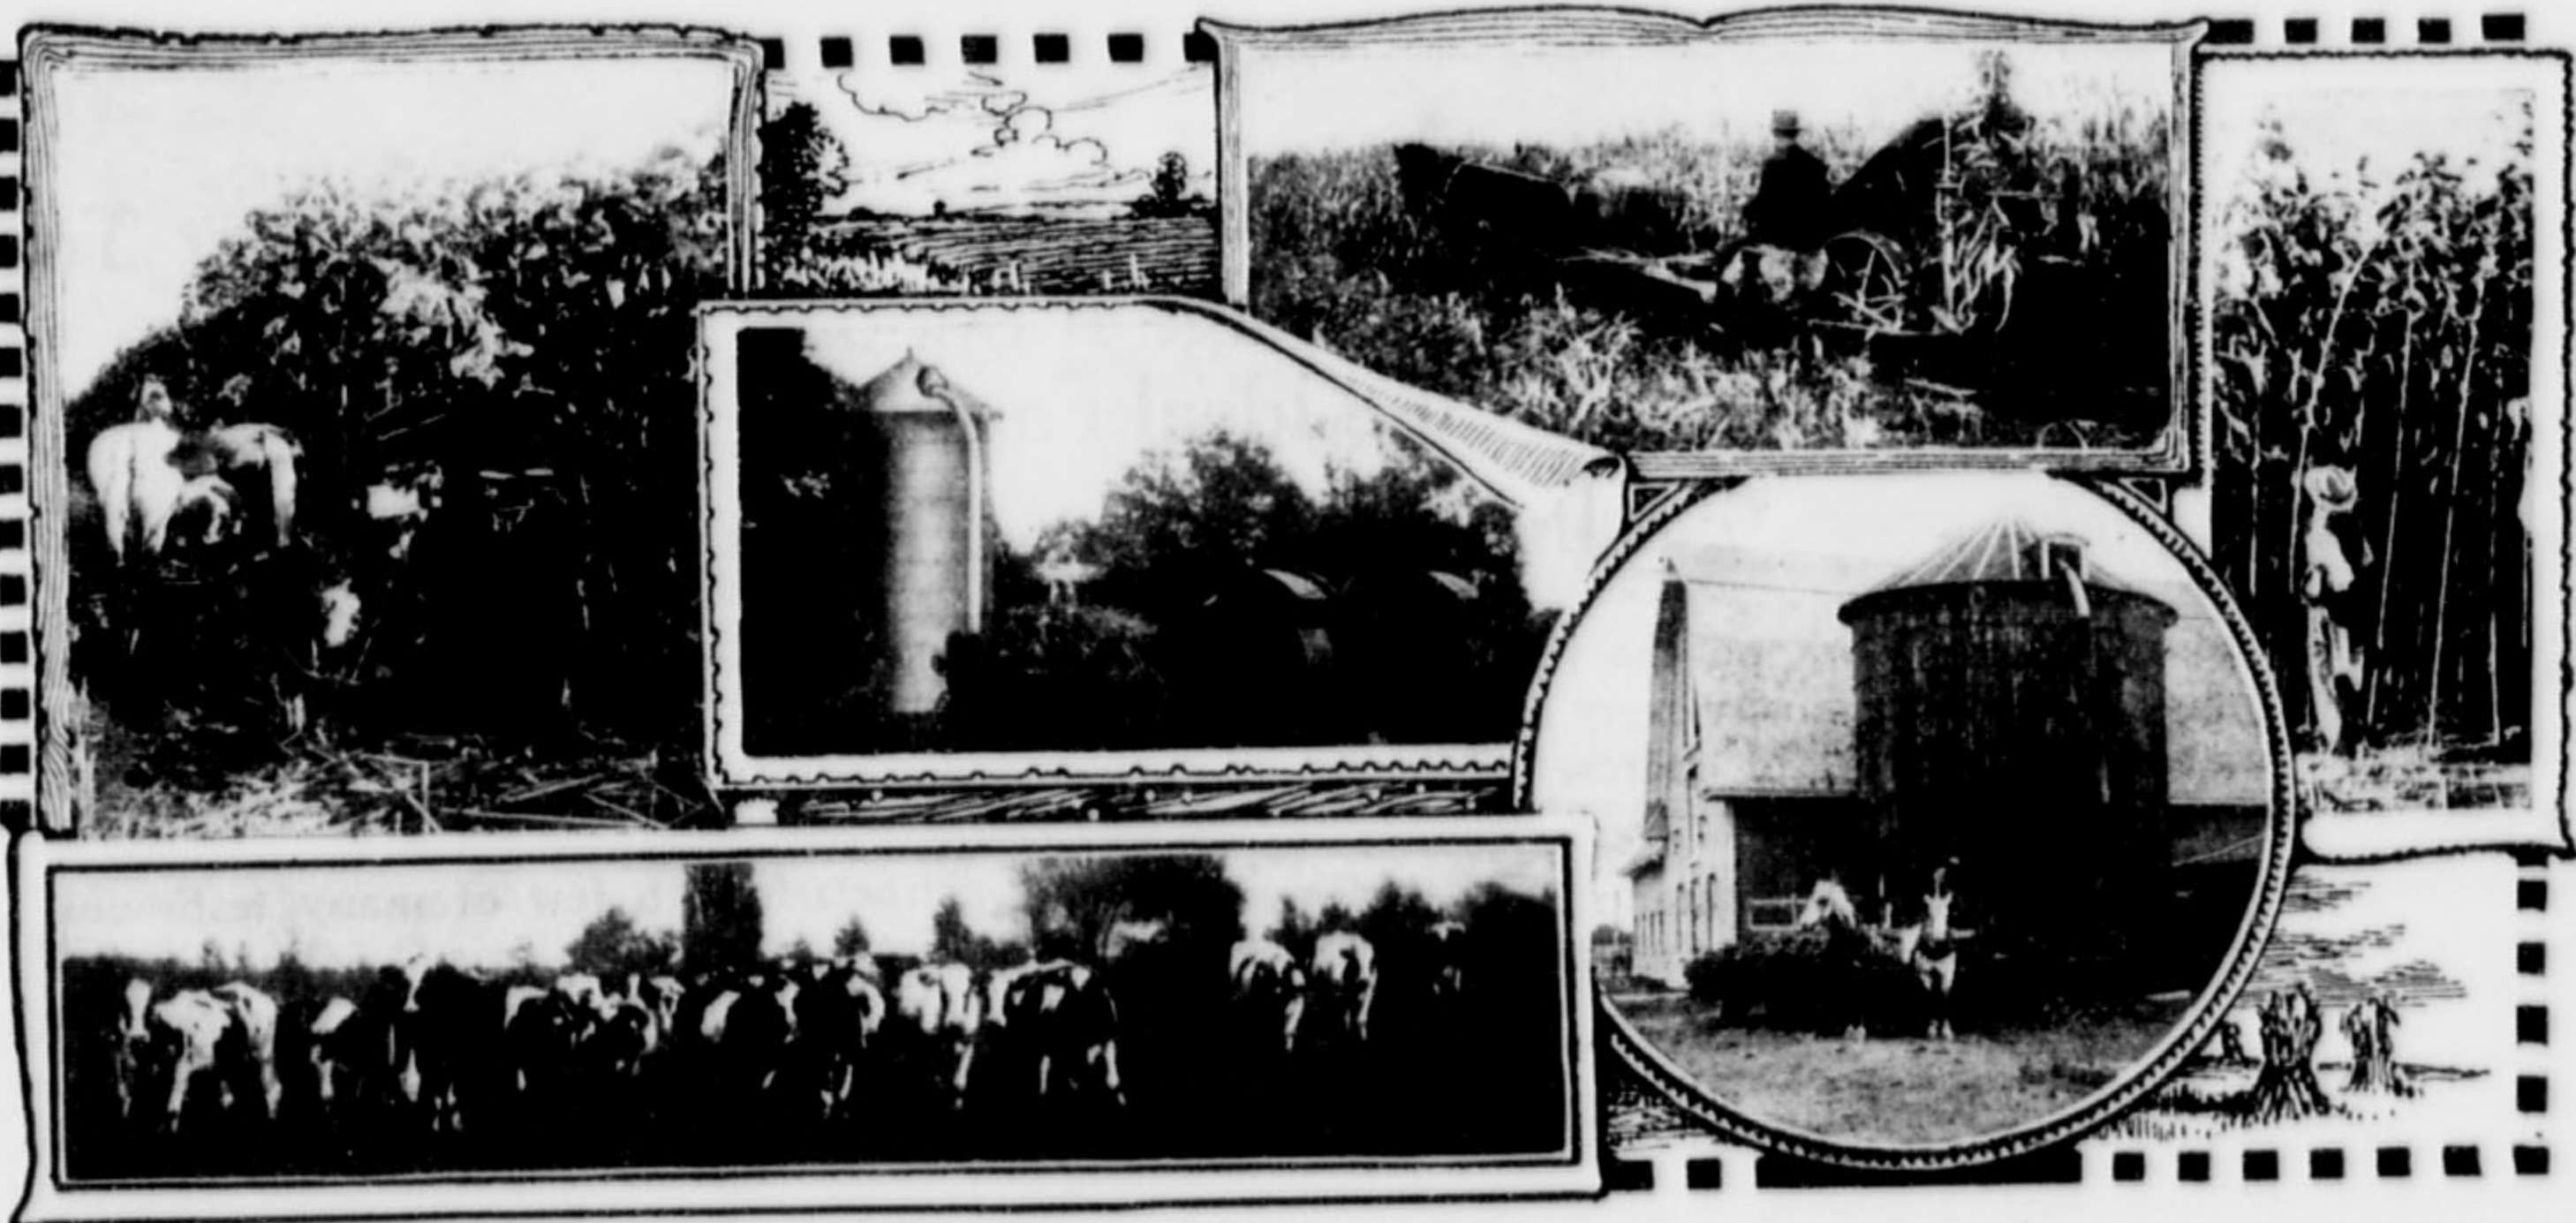

TABLE OF DIMENSIONS OF MASSEY-HARRIS GRINDERS

Approximate Capacity in Bushels per hr. Grinding	Style of Mill	Size of Mill	Dis. of Grinding Plates	Weight without Bagger	Dis. and Width	Speed Revolutions per Minute	Horse Power	Floor Space	Height of Machine	Size of Pulley on Engine

MASSEY-HARRIS COMPANY, Limited.

Toronto, Canada,
June 27th, 1923.

Purchasing Commission of Canada,

OTTAWA, CANADA.

Gentlemen:-

Quotation on #5 Ensilage Cutter, per
your telegram of 26th inst.

Yesterday afternoon we received your telegram asking for quotation by mail on our #5 Blower Ensilage Cutter delivered at Mission, B. C., with full particulars as to specifications, etc.. We are enclosing a copy of our special folder describing our line of feed cutting machinery, on page 4 of which you will find full information concerning our #5 Blower Ensilage Cutter. The description is so complete that there is nothing we can add other than to name prices. We have pleasure in quoting as follows:

#5 Blower Ensilage Cutter with 2' Bottom Pipe and	
Elbows.....	\$203.50)
2' length ordinary pipe.....	1.55)
4' " " " ".....	2.85) F. O. B.
8' " " " ".....	5.25) Mission,
Transport Truck.....	39.50) B.C.
Hopper and Bale for Filler Pipe.....	3.60)
2' length of Filler Pipe.....	1.65)

The above prices are for cash and are ^{257.90} special to the Department. If the machines are required for other than departmental use it is necessary to pay Sales Tax, this tax will require to be in addition to the above prices.

Our records show that we have four of these machines on hand with our Calgary Branch at the present time, so that we are in a position to make prompt shipment.

Yours truly,

MASSEY-HARRIS CO., LIMITED.

THE PETER HAMILTON COMPANY, LIMITED.

PETERBOROUGH, ONT.

June 27, 1923.

The Purchasing Commission of Canada,
Ottawa, Ont.

Gentlemen:-

We are in receipt of your telegram of the 22nd as follows, "Please advise your best price by mail on one Ensilage Cutter delivered, Mission, B. C. similar to Massey-Harris Co., number five or equal, full particulars desired.

The Massey-Harris No. 5 is a 9" Blower type of Cutter, we do not make a 9" but we do make a 10" machine, precisely the same as the No. 7 or 12" machine, which you will find described in this catalogue. This is a splendid machine in every particular, there is nothing better made, and one of them we know will answer your requirements in an admirable manner. We will be glad to deliver one of these machines for you at Mission B.C. for \$225.00. The price quoted covers the machine complete with 30 ft. of pipe, deflector for top, extra set of knives, and mounted on four wheels as illustrated. This is the only way we have them in stock at the present time.

Yours truly

THE PETER HAMILTON CO., LIMITED

PRICES SUBJECT TO CHANGE WITHOUT NOTICE. AGREEMENTS SUBJECT TO STRIKES, ACCIDENTS, DELAYS OF CARRIER AND OTHER CAUSES BEYOND OUR CONTROL

Gentlemen:-

Your telegram of the 26th to hand, and under separate cover we are sending you copy of our general catalogue, pages 10 to 17 of which illustrate and describe our line of Silo Fillers.

We would refer you particularly to the guarantee, which will probably give you a better idea than anything we could say of the exceptional performance of the Gilson Silo Filler. This guarantee is shown on page 17.

It is unquestionably the broadest guarantee ever made and the fact that we have been manufacturing Silo Fillers in Canada for many years and have built up what is probably the largest Silo Filler business in Canada will indicate that our machine yields exceptional service and performance.

We are not positive of the capacity of the No. 5 Massey-Harris box but our 13" machine, which is the most popular size we make, is in use at *one* 8 the Government Experimental Farms in British Columbia and in Prince Edward Island. When furnished with third roller it is particularly adapted for handling loose fodder, such as oats, peas and vetches, sweet clover, etc.

Our 13" two knife Silo Filler on truck with standard equipment, including *third roller,* extra set of knives, tools, elbow for top of pipe, sufficient pipe for 36 foot silo, etc. would cost you \$340.00 delivered at Mission, B.C.

This machine operates at a slower speed than any other Silo Filler, insuring safety and the greatest economy of power. The faster a machine runs the more dangerous it is and the more power it consumes. Our 13" machine operates at a minimum of 600 RPM. It is equipped with safety reverse which can be operated from either side of the table,--three lengths of cut,--six fans and small pipe. The advantage of the six fans and small pipe is that with six fans it is delivered in a steady stream to the pipe, not in bunches. The air blast being concentrated in a 6" pipe insures the greatest lifting power with less air, thus enabling the machine to operate slower.

THE LARGEST MANUFACTURERS OF ENGINES FOR THE FARM, UNDER THE BRITISH FLAG

Sir:

Referring to your letter of the 18th ultimo, regarding the supplying of a blower cutter and gas engine to be used in connection with the silo at the new barn for the St. Mary's Mission Indian Boarding School, I beg to confirm the following day letter sent you, of yesterday's date: -

"Reference your one eight A of eighteenth ultimo. You are authorized to purchase Alpha eight horse power gas engine from the DeLaval Company, Vancouver, after securing their lowest price. Department has ordered a Massey-Harris ensilage cutter and blower which will be shipped immediately from Calgary."

We have placed an order with the Massey-Harris Company, Toronto, to have shipped from their agency at Calgary one of their No. 5 Blower Ensilage Cutters with 2' bottom pipe and elbows, also the following attachments:

2' length ordinary pipe,
4' " " " "
8' " " " "
transport truck, hopper and bale for filler pipe,
2' length of filler pipe.

The price quoted is \$257.90, f. o. b. Mission, B. C. The above firm were requested to arrange for immediate shipment.

The Purchasing Commission of Canada would not authorize the purchase of the "PABEC" ensilage cutter, as this machinery is manufactured in the United States.

The Massey-Harris Company have been requested to forward to you their account in duplicate covering the cost of the ensilage cutter and attachments. Upon arrival of this equipment, you will be good enough to certify and send the account to the Department, in order that payment can be made.

As instructed by above telegram, you were to purchase an "Alpha" 8 horse power gas engine from the DeLaval Company, Vancouver, after you had secured their lowest price. You should also forward properly certified vouchers, in duplicate, covering the cost of the engine.

We hope that, when this equipment arrives, it will be satisfactory in every respect.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Gentlemen:

Attention Mr. R. W. Chisholm, Sales Manager.

I have to confirm the following day letter, of yesterday's date:-

"Reference your letter twenty-seventh ultimo to Purchasing Commission. Please telegraph your Calgary branch to ship without delay to St. Mary's Indian Boarding School, Mission, B. C., one number five blower ensilage cutter with fittings. Charge Department Indian Affairs."

As this equipment is required as soon as possible by the school authorities, I hope that there will be no delay in having it shipped from Calgary. This ensilage cutter, with all fittings, as per your letter to the Purchasing Commission of Canada, should be supplied f. o. b. Mission, B. C., at the price quoted, viz.: \$257.90. You will be good enough to forward your account, in duplicate, to Mr. A. O'N. Daunt, Indian Agent, New Westminster, B. C. He has been informed that the order was placed with you, and instructed to certify the accounts, when the ensilage cutter has been received, and send them to the Department for payment.

Your obedient servant,

J. D. McLEAN

Dear Sir:

#5 Ensilage Cutter for Mission, B.C.

We are pleased to acknowledge your telegram of to-day's date, in reply to our quotation dated June 27th addressed to the Purchasing Commission, ordering one #5 Blower Ensilage Cutter for delivery to the St. Mary's Indian Boarding School at Mission, B.C.

Your telegram orders this Blower to be complete with fittings, from which we presume you require a Transport Truck and Hopper and Bale, and also some extra pipe. We are unable, however, to know how much of this ordinary elevator pipe and how much filler pipe is required.

In view of the urgency of the matter we have wired our Calgary Branch as requested, and are asking them to get in touch with the head of the School at Mission and ascertain how much pipe is required. They are to fill the order, which can be done from their local stock, immediately on receipt of this information, and will then forward their invoice to the Department of Indian Affairs. We trust that this handling of the order will be satisfactory.

Yours very truly,

WBW/B

Gentlemen:

I have to acknowledge receipt of your letter of the 3rd instant, regarding the ensilage cutter required for delivery at Mission, B.C.

In reply I beg to say that the equipment we require is that specified in your quotation of the 27th ultimo, to the Purchasing Commission of Canada, as follows:

#5 Blower Ensilage Cutter with 2' Bottom Pipe
and Elbows,
2' Length Ordinary Pipe,
4' " " " "
8' " " " "
Transport Truck,
Hopper and Bale for Filler Pipe,
2' Length of Filler Pipe.

We note that you have wired your Calgary Branch to ascertain from the principal of the school the quantity of pipe required. We also note that your Branch at Calgary can fill the order from their local stock, when they are aware as to the requirements.

You should instruct them to forward their account to Mr. A. O'N. Daunt, Indian Agent, New Westminster, B.C., as requested in our letter to you of yesterday's date.

Yours truly,

Reverend Sir,-

The Department desires to proceed as soon as possible, with the erection of the new building which is required at St. Mary's Mission Indian School.

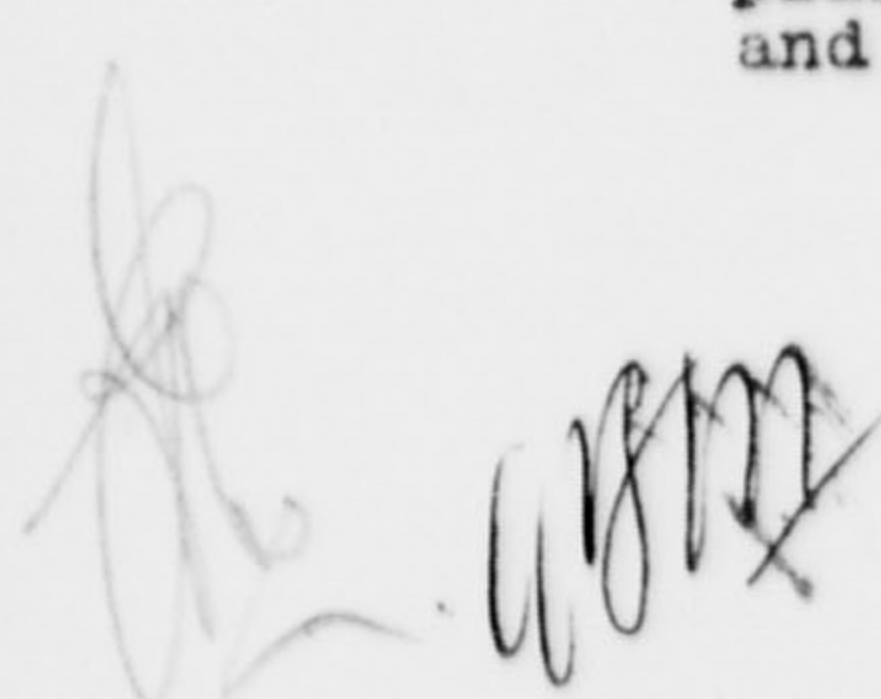

From correspondence on file, it appears that the new building is to give accommodation for the laundry, kitchen, pantry, dining rooms and school rooms, and I would ask you to please furnish me at your earliest convenience, with a rough sketch showing the accommodation that you will require, also full particulars as to the materials which could be used in the construction of this building.

As soon as this information is received, plans and specifications will be immediately prepared and tenders invited for the work.

Your obedient servant,

The Deputy Superintendent General has directed that the Department give favourable consideration to accounts for material, that is being used by the principal of the St. Mary's Indian Residential School, to effect certain alterations which will permit more accommodation. The amount that has been mentioned in this connection is \$600. When these alterations are completed, I should be pleased if you would certify the accounts for material, if in order, and forward them to the Department.

You should also give me information, concerning the size of the classrooms and dormitories after the alterations have been completed. This will enable the Department to give intelligent consideration to the matter of increasing the pupilage at the school.

Your obedient servant,

A. F. MacKenzie

A. P. MacKenzie Esq.,
Acting Assistant Deputy and Secretary,
Ottawa

R

Dear Sir:

I received your letter of August 28th, File 153-1-5, regarding the erection of new building which is required at St. Mary's Indian School.

Some two years ago, shortly after my appointment, I approached the Department about the matter. The Institution had then two kitchens, an old fashion laundry, etc. I wrote about very much needed changes and improvements. The Department was very kind. We have already a new barn.

Since then I find that the accommodations afforded by St. Mary's are not sufficient for the number of children of school age in the District; they are not sufficient for the number of applications I receive every year. This matter has been the subject of a great deal of consideration and discussion. The matter was discussed with Mr. Scott, Deputy Superintendent General of Indian Affairs, at the time of his visit to St. Mary's. After examining the buildings, Mr. Scott agrees with Father Welch and myself, that the best way and therefore the only way is the erection of a new School, large enough to accommodate all the children of the District. This new School is to be erected as soon as possible. Meantime I think that some amelioration in the laundry should be considered at once. The old fashion, back braking laundry of St. Mary's should be equipped with some modern and labor saving devices. I will write more fully on this matter within a few days.

Yours sincerely

J. A. MacPlacé

Reverend Sir:

I have your letter of the 15th instant, in answer to official communication, of this file number, of the 28th ultimo. The Deputy Superintendent General has directed that no further action be taken relative to the special wing for the St. Mary's Mission Residential School. It is understood that an appropriation will be requested for a new main building at the first opportunity.

Your obedient servant,

A. F. MacKenzie

Sir,—

I beg to forward you herewith Agency Voucher No. 729 for the sum of \$854.00 in favour of the Rev. J. Duplanil, representing the cost of construction of a Dairy and Implement Shed, in connection with the new Barn built by the Department for St. Mary's Mission Indian Boarding School, Mission, B.C.

OK
The authority for the presentation of this account to the Department was a verbal one given by Mr. D. C. Scott, Deputy Superintendent General, on the occasion of his visit to the School.

Mr. Scott expressed himself as pleased with the work, and stated that if the account was submitted, he would endeavour to secure payment of it, I would, therefore, suggest that same be referred to him for his personal attention, please.

Your obedient servant,

(Incl.)

I am in receipt of your letter of the 24th ultimo, with which you forwarded voucher No. 729 for \$854.00 in favour of the Rev. J. Duplanil, covering the cost of construction of a dairy and implement shed in connection with the new barn built by the Department for St. Mary's Mission Indian Boarding School, and in reply I have to point out that accounts in detail for the supplies purchased should be furnished, and, if payment for the said supplies was made by the Principal of the School, the account should be receipted. Paylists for the labour performed are required also. I return herewith the voucher referred to in order that the requirements of the Auditor General's Office as referred to may be complied with. When the voucher is presented in proper form, the matter of payment will receive prompt attention.

Your obedient servant,

Sir:

I have your telegram of the 6th instant, requesting authority to purchase twenty double desks for the use of the St. Mary's Mission Indian Residential School.

In reply I beg to say it is necessary that all desks be purchased by the Department, after competitive prices have been obtained. Before we can place an order, however, you should state the sizes of the desks required and the number of each size. Desks are manufactured in the following sizes: -

No. 1,	for adults,				
No. 2,	"	pupils	15	to	18 years,
No. 3,	"	"	12	"	16 "
No. 4,	"	"	9	"	14 "
No. 5,	"	"	7	"	10 "
No. 6,	"	"	5	"	8 "

You should ascertain from the principal the number of each size required. Please state, also, the name of the manufacturer of the desks at present in use. You should wire, giving the information requested.

Your obedient servant,

J. D. McLEAN

Sir:

I have to acknowledge receipt of your telegram of the 12th instant, stating the number and sizes of the double desks required for the use of the St. Mary's Indian Residential School. It is now considered, in order to save time, that you should arrange for the purchase of these desks. It will be necessary, however, in accordance with the regulations of the Government Constacts Supervision Committee, that competitive prices be obtained and the purchase, made from the firm quoting the lowest price. You should obtain prices from the following firms, besides any others you may wish: -

J. D. Meekison, 1142 Homer St., Vancouver, B. C.,
E. G. Parnell, 567 Hamilton St., Vancouver, B. C.,
Tait Pipe & Foundry Co., Vancouver, B. C.,
Clark & Stuart Company, 550 Seymour St., Vancouver, B.C.,
E. N. Moyer Co., Ltd., Edmonton, Alta.

You should ask these firms to quote their price, f. o. b. point of delivery and at the same time give them full information as to the sizes of the double desks required. Please forward properly certified vouchers, in duplicate, covering the expenditure incurred, also a memo showing the names of the firms asked to quote and the prices quoted.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

[Handwritten signature]
The Honourable,
The Minister of Indian Affairs,
Ottawa, Canada.

Dear Sir,-

We recently had an enquiry from the Indian Agent at New Westminster, B.C. for School Desks for their Mission School.

On quoting them on our CROWN SCHOOL DESKS we were informed that on instructions from Ottawa they were obliged to purchase double seats.

We are anxious to be able to fill the order, but are unable to supply double seats, as we no longer make them: this type has long since gone out of use in this Province and practically all schools which were equipped with the double seats have discarded them for the more up to date and practical single desk and seat.

We therefore hope that you will reconsider your instructions and give us the opportunity of supplying your New Westminster Agent with our Crown School Desks, a reliable and practical desk; manufactured in B.C. and supplied for the past three years to the Provincial Government and practically all the City Schools in the Province.

We remain,

Yours truly,

[Handwritten signature: B. H. Harwood]

POOR COPY

Ottawa, December 27, 1923.

Sir:

I have been directed to acknowledge receipt of your letter of the 20th instant, regarding the desks required for St. Mary's Mission Indian Residential School, Mission, B.C.

In reply I beg to say that we understand the type of desk at present in use in the school is the double desk, and as the desks now required are to provide extra seating accommodation and complete equipment, it is necessary that they be of the same type, in order to have uniformity in the classroom. We requested our Agent at New Westminster to obtain competitive prices for the 20 double desks required. In furnishing a new school or a new classroom, we supply single desks, but where equipment of this nature is required for replacement purposes or to provide extra seating in a school where double desks are in use, it is necessary that desks of this type be obtained. Your firm will be given an opportunity to quote on our requirements for desks in British Columbia.

Your obedient servant,

J. D. McLEAN

ARCHITECT

Dear Mr. Orr,

I am taking the liberty of sending you receipted invoices in connection with the Laundry of St. Mary's Indian School, at Mission, B.C.

You remember that at the time of your visit we were installing these machineries, boiler, washer and extractor. They have been in operation since last November and have proved very satisfactory. In fact our power (water power) runs simultaneously one washer and the extractor (26"). I wish to install a second washer exactly like the first, and thus keep one washer and the extractor running the whole morning of "our wash-day". I wish to install also a small cannery for fruit and vegetables. But I have spent already over 3,500.00 in improvements this year, and have received from the Dpt. only a little over 1,400.00. Will you be kind enough to get these invoices approved and the money which they represent refunded.

At the time of your visit you suggested this way to me and gave me assurance of success. Hence my appeal to you and my boldness. The old fashion in operation here for years was a back breaking affair, and these improvements in this Dpt. of the school were very much needed. I can assure you too that they are greatly appreciated by all.

Thanking you in anticipation, and with kindest wishes, I remain, dear Mr. Orr,

Yours sincerely

John S. Sutherland

Memorandum:

Mr. Scott.

When I visited St. Mary's Mission Indian School last fall the Reverend Principal pointed out to me the improvements which he had made to the laundry building and equipment. Father Duplanil has spent considerable money in remodelling the laundry and installing proper equipment. He asked me if the Department would give him some assistance in this matter and I advised him that if he would forward the accounts for mechanical equipment I would submit them to you for consideration.

He has today forwarded vouchers covering the cost of a steam boiler, a washer and an extractor, amounting to \$837.15. This is only a portion of the total cost to the Principal of the laundry and equipment, and I would recommend that the amount of these accounts be refunded to the Reverend Principal in the way of assistance to him in the work which he has carried out.

Mr. Ferrier states that funds are available at the present time to cover this amount.

ARCHITECT.

1924

Dear Sir.—

As you are aware an epidemic of diphtheria has broken out in St Mary's School. Mission.

Last March we had smallpox in the school and seriously felt the necessity of an isolation hospital. Just at the time there happened to be for sale, on our property, two buildings, two houses in fact which were offered to us for the nominal sum of \$45.00. We decided to purchase them for some future emergency. It is well we did so for at this moment they are serving the purpose of an isolation hospital for our little diphtheria patients.

Besides furnishing the buildings we wish also to install electric light and a telephone, so that the trained nurse in charge may be able to communicate with the school or the doctor at any hour of the day or night.

TO DATE OF THIS LETTER

Sir,—

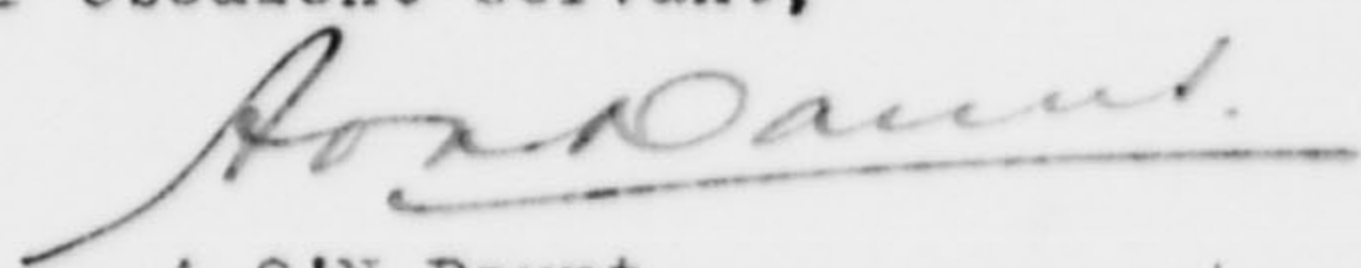

I have the honour to forward you herewith, a letter which I have received from the Rev. Father Welch, and which is self-explanatory.

There are at the moment, 107 Grant earning pupils in St Mary's School, and in addition, the Fathers invariably carry a number without recompense.

In an institution of this size, outbreaks calling for an isolation hospital, have always to be reckoned with, and I would most strongly recommend that any assistance possible be given the Fathers in meeting the cost of these very necessary buildings.

There are at present seven cases of Diphtheria being cared for in these buildings, and if they were not available, the cost to the Department of Public isolation, care, and treatment would probably be in excess of the amount now asked by the Fathers.

I have the honour to be,
Sir,
Your obedient servant,

A.O.N. Daunt,
Indian Agent.

The Deputy Superintendent General,
Department of Indian Affairs,
OTTAWA, Ont.

Dear Mr. Daunt:

I have your letter of the 7th instant, enclosing a communication from Rev. Father Welch, in which he requests the Department to reimburse the St. Mary's Indian Residential School for the expense incurred by the provision of two buildings for hospital purposes. I should be pleased if you would prepare a voucher in duplicate, in favour of the Rev. Principal, and attach the receipts secured at the time of the purchase of the buildings. You should place on the voucher a certificate, indicating the valuation you place on the buildings in question. Favourable consideration will then be given. Inform the Rev. Father Welch that the cost of installing electric light and telephone will have to be met by the school management.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

affirmed
sch.

Sir,—

With reference to the letter of the Deputy Superintendent General, File No. 153-1-5 of October 20th, I beg to forward you herewith Agency Voucher No. 604 for \$650.00, representing an allowance made by the Department to the Principal of St. Mary's Mission Indian Boarding School, in respect to a provision of two buildings used as an isolation hospital during an outbreak of small-pox and diphtheria at the School.

Receipted accounts to the amount of \$757.73 are attached hereto, and show the expenditure incurred by the School in this connection, though they only asked for \$650.00 reimbursement. Among those the actual price paid for the buildings was \$440.00, the balance representing the necessary equipment.

I have examined these two buildings and estimate that the lumber used in their construction would have cost about \$1,350.00 without labour. One of the buildings is very well finished indeed and itself is worth the sum proposed as reimbursement for the whole. The other building is not so weather proof, but it is good lumber, which can easily be improved to suit any conditions. Altogether the sum of \$650.00 represents but a fraction of the value of the two buildings and equipment placed therein.

I would therefore recommend that reimbursement to the amount of \$650.00 be made to the School, as indicated in the correspondence above referred to.

Your obedient servant,

[Signature]

Sir:

I have your No. 1-8-A of the 18th ultimo and in reply I have to inform you that the Department is directing a cheque for \$650 to the Rev. Principal of the St. Mary's Mission Indian Residential School. This payment is in respect to the provision of two buildings, used as hospital at the institution. I have noted that you estimate the value of the materials used in construction alone as \$1350. Please inform the Rev. Principal and the Very Rev. Father Welch that this payment is being made.

Your obedient servant,

St. Mary's Mission Indian School

Mission City, B.C., June 2, 1925

A. O'H. Daunt Esq.

Indian Agent,

New Westminster, B.C.

Dear Mr. Daunt,

A few days ago I received a circular from the Dept. of Indian Education. The regulations it contains will state that orphans and children of destitute parents must be kept in school during the summer holiday. I shall have to keep a few more than in the past. I shall have to take these children to the beach for at least ten days. The reason is obvious; children who have to stay in the same locality, in the same surroundings for years, do get "fed up" with the locality, the surroundings and the school. Their health too suffers. Will you be kind enough to bring this matter before the Dept. and recommend that two tents be bought for the use of the St. Mary's School, one for the boys and one for the girls. These tents should be large enough to accommodate twelve children or more.

Yours sincerely

John Sutherland

SIR:-

With reference to your Circular No 150-37 of May the 20th addressed to Church Authorities, Principals and Department Representatives.

I beg to forward you herewith a communication received from the Principal of St. Mary's Mission Residential School, and which is self explanatory.

I would strongly recommend that the Tents requested by the Principal be provided, as it is very much in the interests of these children, who do not go home for the holidays, to have a change from the school surroundings in the same manner as the pupils of Coqualeetza Institute, who are yearly taken to Ocean Park Summer Resort by the Reverend Principal.

Your obedient servant,

Dear Sir,-

I beg to say the Department received your account dated the 6th instant, making charge for bamboo rod and for hose and couplings, etc., shipped to the New Westminster Indian Agency for use at St. Mary's Indian Mission School. In the account there is an item of \$5.83 prepaid charges on the consignment. I shall be glad if you will forward to the Department a receipt covering payment of the amount mentioned. When it is received at the Department a cheque will go forward in your favour in payment of the said account.

Yours truly,

(F.H. Paget)
Chief Accountant.

Sir.
Enclosed please find Blue Print showing our proposal for two sets of Metal Fire Escapes for St. Mary's Indian School, Boys and Girls quarters, at Mission. B.C.

We have examined the location carefully, and believe the locations shown, to be the best.

We propose to supply and install, the two sets of Escapes as shown- Painted one shop coat of Red Oxide and touched up after erection, no further painting being necessary.

We would be as careful as possible, but, the owner would require to make good any necessary cutting to inside of walls. This would not be extensive.

For the sum of One Thousand and Sixty-two dollars, (\$1062.00) for the two Fire Escapes.

Yours truly,

WESTMINSTER IRONWORKS LTD.

St. Mary's Residential School

Page 2.

Mission City, B. C..

for the last ten years. The repair man tells me that it is useless to try to repair it#. It is highly dangerous for the fire can be seen through it in many places, such as around the oven doors and the smoke box, etc. I could replace for a couple of hundred dollars or thereabouts.

Two other items of a somewhat different nature, should, I feel, be brought to your attention. The pipe line which supplies water and light to the school is giving out. It has held long beyond the guaranteed time, but now the wire, with ^{which} the pipe is wound, is badly rusted through, and the pressure is continually bursting the pipe. It consists of about a mile of six inch wooden pipe.

The laundry building is decayed and delapidated beyond repair and leans so much from the perpendicular as to be dangerous. A fall of heavy snow on the roof or a strong wind might bring it down. Yet it has to be occupied one day a week to wash the clothes of the school, and another day to wash the Indian children.

Mr. Daunt has made me acquainted with ~~some~~ some of the financial difficulties of the present time, yet it is with confidence that I appeal to you, especially for the fire escapes and range, and, in anticipation, thank you.

Respectfully Yours,

A. J. Barney.

St. Mary's Residential School

Mission City, B. C., Aug. 13. 1926.

Mr. Duncan C. Scott,
Deputy Superintendent General of Indian Affairs,
Ottawa, Ont.

Dear Sir:

Permit me to lay before you a situation which, I feel, calls for immediate attention. Both the boys' and the girls' buildings here are without fire escapes of any kind. The buildings are of wood and of three stories and the children sleep on the top floors. If a fire started during the night and got as well under way before being discovered as fires often do, it is doubtful if one of the fifty odd girls would get out alive and the boys' chances are but little better.

In the case of the girls' building, there is one stairs and it lands in a hall situated near the centre of the building and having no door opening to the outside. The houses are old, dusty, dry and veritable tinder boxes: the electric wiring is of the old-fashioned kind with naked wires; during cold periods in winter, stoves are stoked to full capacity in various rooms; and added to all this, is the everpresent danger of the children setting the house afire purposely. Therefore, the danger of fire occurring is about as great as could be found, while the danger to life in case of fire, is, if anything, greater still. It would be a case of fifty children on a third floor with sheer walls all around and the only stairs leading down into the heart of the burning building.

There is another smaller matter, for which I also crave your indulgence. The kitchen range used in the boys' building is very old and thoroughly burned out. It is the one on which most of the cooking of the school is done. The buying of a new one has been considered periodically

IN YOUR REPLY REFER TO

No. 1-8-A.

ALSO

TO DATE OF THIS LETTER

Sir,

I beg to forward you herewith a communication addressed to yourself, received by me under date of August 13th from the Rev. Principal of St. Mary's Mission Residential School, in which he requests Departmental assistance for the erection of fire escapes, the installation of a new pipe line, and the erection of a new laundry building.

This letter was held over while we investigated conditions thoroughly, and I enclose Blue Print and estimate received from the Westminster Iron Works Limited, calling for the sum of \$1,062.00 in connection with the fire escapes.

*Fire escapes
\$1062
or
\$200*

I personally consider that the School should have some system of fire escapes, but in view of the fact that the buildings are old, and that some time in the near future it will become necessary to replace them, I do not feel that it would be good policy to spend so much money. I consider, however, that wooden outside structures might well be erected upon both the girls' and boys' buildings, and that the Principal's request would be reasonable to the extent of perhaps a total of \$200.00.

*See feed
RP
New pipe
line.*

With regards to the pipe line, this is largely a matter which should be covered by the probable date of the erection of a new School at Mission. If it is proposed to build one in the immediate future, the matter might as well be allowed to wait. On the other hand there is no doubt that the pipe line is in bad shape, and that as the water supply of any future school must of necessity be derived from the present source, a pipe line would not be an absolute waste, as the greater part of it would be utilized for the new buildings. I appreciate, of course, that the cost in this latter case would be met from the building appropriation instead of from current revenue, as would be necessary now.

*New laundry
Bldg.*

The laundry building while old and settled out of shape, is in no immediate danger, and I would recommend that no change be made while the existing buildings remain in use.

I have the honour to be,

Sir,

Your obedient servant,

Encls.

Duncan C. Scott, Esq.,

Ottawa, October 1, 1926.

Sir:

I have your 1-8-A of the 15th ultimo, enclosing a communication from the Rev. Principal of the St. Mary's Indian Residential School. I note that some provision for fire escapes should be made: that the water supply pipe line needs replacement and that the laundry building is in very poor condition. The Deputy Superintendent General has directed that favourable consideration be given to the needs of this school and, in the near future, you will be advised if anything can be allowed, at the present time. I am pleased to authorize you to purchase, after securing competitive prices, one Chef Hotel Range for the kitchen, with three ovens and two fireboxes, similar to McClary's K. E. 5. You should secure prices on this equipment from the wholesalers in Vancouver. Please inform the Rev. Principal.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Ottawa, October 8, 1926.

Sir:

With further reference to your 1-8-A of the 15th ultimo, concerning improvements for the St. Mary's Indian Residential School, I am pleased to authorize you to arrange for the erection of wooden fire escapes at both the boys' and girls' buildings. I have noted your estimate of \$200 in this connection. You may engage one or two expert carpenters for this purpose and have them assisted by the staff and the older boys of the school. Proper time sheets in duplicate should be kept, showing the hours of work and the receipts of the men. The materials necessary should be purchased by you, after securing competitive prices if possible. If an accountable cheque for labour is desired, please let me know.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

St. Mary's Residential School

Mission City, B. C.,

Jan. 25. 1927.

Mr. Duncan C. Scott,
Deputy Superintendent General of Indian Affairs,
Ottawa, Ont.

Dear Sir:

The pipe line, which supplies water, light and power to this school, is badly in need of being renewed. Father Welch spoke with you on the matter, I understand, when he was in Ottawa in December last. He asked me to furnish you with some idea of the probable cost of the replacement. The following is what I have found out on the matter.

There is required, 6000 feet, of 8 inch, wooden pipe, for a head of 275 ft. The old pipe is 6 inch, but we lose much power in friction, and, in consequence, our lights are very poor. Iron pipe has a very uncertain life in this country, and wood pipe is preferable, especially the quality now made, and having the new couplings.

A new and straighter line needs to be surveyed for the pipe and the pipe and the connections installed. A new dam is required at the intake. Also, a new dynamo. The original dynamo is in very shaky condition, and the electrician of Mission City who repairs it for us says it cannot be further repaired and may go to pieces any moment. It is of seven horse power, but the new one would be of nine.

I have asked the manager of the Mission Public Service Co., which supplies water to Mission City, to have his men go over the situation, and give me his estimate of the probable cost. His answer is "About nine thousand dollars," This is meant to cover everything.

Trusting this is the information required, I remain,

Respectfully Yours,

A. J. Barney.

File No. 1-8-A.

New Westminster, B.C.
February 3rd, 1927.

SIR:-

With reference to your letter No. 153-1-5 of October 1st, I beg to forward you herewith a communication received by me, and which I notice is addressed to the Deputy Superintendent General, giving an idea of the requirements in connection with the installation of renewals to the water pipe line at St. Mary's Mission Residential School.

The Dynamo which supplies the Institution with electric light is also in a very shaky condition and requires replacement.

There is no doubt that the pipe line is in very bad condition and also the dynamo is quite unfit for the work it is to perform, the cost of replacements however, are high and I think a great deal depends upon whether it is the intention of the Department to build a new School in the near future.

If the present Institution is to be maintained, I would recommend that the Dominion Water Power Branch be asked to look into the matter, and submit a report as to the cost of the necessary replacements, which will certainly have to be made if the School is to be retained on present lines.

Your obedient servant,

Feb. 12, 1927.

Sir,-

J. D. McLean

The Department is advised by Indian Agent Daunt, of New Westminster, B. C. that the water supply pipe and the electric lighting plant at the St. Mary's Mission Boarding School at Mission City, B. C. are in a dilapidated condition. The estimate furnished this Department for the cost of repairs to both systems amounts to \$9,000.00. Before this matter can be taken into consideration, I would like to know whether one of your local engineers can undertake to furnish me with a detailed report and estimate of the work required to put the above mentioned systems in a state of repair.

J. D. McLean

DOMINION WATER POWER AND RECLAMATION SERVICE

OTTAWA, ONT. February 17, 1927.

Attention Departmental Engineer.

Sir,

I have received your letter of the
12th instant with reference to the water supply
and electric lighting systems at the St. Mary's
Mission Boarding School, Mission City, British
Columbia, and have asked Mr. Webb to arrange a
detailed report and estimate of the work required
to put the above mentioned systems in a state of
repair.

Your obedient servant,

J. T. Johnston,
Director.

Ottawa, April 1st, 1927.

Sir:

I have to acknowledge receipt of the vouchers which you submitted covering the cost of the spraying material supplied to St. Mary's Mission and Coqualeetza Residential Schools by Mr. W. B. Anderson, Superintendent of Indian Orchards. I am returning this account, as it is considered that this type of expenditure should be paid by the schools ~~from~~ their per capita grant or other earnings. I understand that Mr. Anderson had authority to purchase for Indian orchards, but this did not include the residential schools. You should correspond with him, with a view to ascertaining whether he promised that the Department would pay these accounts. If not, they should be sent to the schools for payment. Please advise him that Indian residential schools are responsible for purchases of this kind.

VICTORIA, B.C.

April 8th 1927

A. O. N. Daunt Esq
Indian Agent
New Westminster B.C.

RECEIVED
APR 11 1927

Dear Mr Daunt:-

Replying to your letter of 7th inst, re school supplies, I must tell you that in a letter dated Feb 15th ult, sent by me with requisitions and tenders for Horticultural supplies to the Indian Department, the following following items are requisitioned.--St Mary's Mission, 100 lbs Bordeaux, 50 ft 1/2 in hose for spray pump. Coqualeetza Inst, Sardis, 12 plum 12 pear, 30 apple. Lime-Sulph spray was applied for after, and this was filled under the following item "Emergency - 2x50 lbs Lime-Sulph" also on the requisition.

In a letter from the Department to me under date of Feb 22nd, No 43-1 A, there appears the following--"I am in receipt of your letter of the 15th instant with which you forwarded tenders for fruit trees, sprays and other garden supplies required by Indians of British Columbia, and in reply I may say that the lowest tender in each case should be accepted; namely:- the tender of the British Columbia Nurseries Company Limited, ---- "for fruit trees. The tender of the Brackman-Ker Milling Company Limited, ---- "for sprays, and also the tender of the last mentioned firm ---- "for hose" ----.

(Signed) F. H. Paget

J. D. McLean

Assistant Deputy and Secretary.

This I think will cover all questions as to Departmental sanction for the School purchases. I may however, call your attention to the fact that similar purchases have been ratified by the Department ever since I have held office. If it is the intention to discontinue the practice, I would much like to be so informed at an early date.

Yours very truly

Superintendent of Indian Orchards

Ottawa, April 23rd, 1927.

Sir:

I have your letter of the 11th instant, regarding the accounts covering the cost of spraying materials supplied to St. Mary's Mission and Coqualeetza Indian Residential Schools by Mr. W. B. Anderson, Supervisor of Indian Orchards, and enclosing a communication from him regarding the purchase.

In reply I beg to say that the Department has decided to pay these accounts in this instance, but, in future, it is expected that the schools will be responsible, from their per capita grant or other receipts, for the payment of any materials required for spraying and the cost of the work. In the case where fruit trees are required to start an orchard at a school, the Department might, after full particulars have been received regarding requirements, approve of an expenditure towards the payment of same. Please inform Mr. Anderson accordingly.

Your obedient servant,

A. F. MacKenzie

DOMINION WATER POWER AND RECLAMATION SERVICE

VANCOUVER, B.C.

May 10, 1927.

Sir:- Re - St. Mary's Mission School
Water & Light System.

In compliance with your instructions I made an inspection and survey of the water and light plant of St. Mary's Mission School at Mission City, B.C. The following is a report on the condition of the existing plant and suggested replacements and improvements.

ST. MARY'S MISSION SCHOOL-

This school is situated on the north bank of the Fraser river about one mile east of Mission City, B.C. It is a boarding school for Indian children, owned and operated by the Order of Mary Immaculate. About one hundred and sixty children are usually in attendance.

A farm is operated in connection with the school, the property comprising about 480 acres of which about 160 acres are under cultivation. The school buildings are of frame construction and were built quite a number of years ago.

PRESENT WATER SYSTEM-

The accompanying plan shows the layout of the present system. A small concrete dam about five feet in height forms a reservoir of about 10,000 gallons capacity in the creek bed. A six inch pipe line 4,300 feet long conveys

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR-COPY

water to the school. The pipe is tapped at various points to supply the different school buildings. The present pipe is in very bad condition and practically irreparable. To the fact that this pipe was poorly laid and in many places without cover may be attributed its comparatively short lifetime.

LIGHTING PLANT-

An extension of the pipe line for 1,000 feet provides an additional head sufficient to develop power for lighting purposes. A 24" Pelton type wheel belt connected to a 7 K.W. generator forms the electric lighting plant.

The Pelton, although in a bad state of repair, furnishes sufficient power to operate the generator but this machine probably does not produce in excess of 4 K.W. due to a speed below its rating and to the fact that the commutator is practically worn out. No governor is used, the water being turned on at night and allowed to run until the pipe empties.

The transmission line also requires replacement. The wires being bare of insulation and always in danger of short circuit.

OTHER SERVICES-

In addition to the services before mentioned several other operations are performed. A tap from the main line leads to the laundry where a Pelton operates the laundry machinery. Another tap leads to the barn and woodyard where a home-

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

made Pelton type wheel drives the threshing machine and wood saw.

Two inside hydrants and four outside are intended to provide fire protection. Two of the latter are in such close proximity to the school buildings as to be almost useless and in fact a menace to the supply in the event of a fire. Only two hundred feet of hose of small size, and now almost useless, is available.

It may be readily understood that with all the tasks required of the very small water supply there are many times when a shortage becomes acute. For none of the services is there ever quite enough power developed to adequately fill the necessities.

WATER SUPPLY-

The water supply for the school is derived from Durien or Mission Creek. It is carried by pipe line to the school site, a distance of approximately $\frac{3}{4}$ of a mile. This water supply also furnishes power for lighting and other power purposes. Durien creek rises north of the town of Mission in a country that is unsettled and which will probably remain so for many years, the country being fairly heavily timbered and with very poor soil.

The present supply has been in use about fifteen years. The school authorities are well satisfied with the quality of the water and I am informed that no sickness has ever been attributed to it.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

OR COPY

A license No. 3182 for 1 cu.ft. per second is held by the school and is of a priority as from 23rd July, 1873. No other record exists on this creek.

The flow of the creek varies from about 3 c.f.s. in winter to 0.75 c.f.s. in midsummer. At the time of my visit, the first week in April, the flow over the dam spillway was 0.9 c.f.s. in addition to which there was a very great loss along the pipe line, possibly as much as 0.5 c.f.s.

POWER AVAILABLE-

The minimum flow of Durien creek may be taken as 0.75 c.f.s.; this flow, however, does not determine the useful power. The power needs in midsummer when the flow is lowest are very small, while in winter they are about twice that required in summer. It may safely be estimated on the past fifteen years performance of the present plant that the useful flow is about one c.f.s. This should develop on a Pelton wheel with a useful head of 230 feet, about 15 H.P. considering a generating efficiency of 85%, about 9 K.W. would be available for use on the lighting circuit at 125 volts.

POWER REQUIREMENTS-

There are about 225 lamps at present in use of an average of 40 watts each which, under the present system of operating the lighting plant, would require a plant of about 10 K.W. capacity for the reason that there is no means available of reducing the output of the generator. Normally the

Indian Affairs (RG 10 Volume 6470, file 890-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

requirements should not exceed 60% of the full load. It is safe to assume that the 9 K.W. available would be sufficient for all lighting requirements.

This amount of power would be ample to operate all other services combined, during the day time. The laundry needs occur only once a week and at no time when light is required. The development of 9 K.W. would carry one half the lighting load and operate either the wood-cutting plant or the laundry at the same time, all that should be considered necessary.

The lighting needs of a future new school would be considerably less than present requirements as many of the buildings now in use would be dispensed with.

PROPOSED PLANT RENEWAL-

If properly managed, the present water supply is adequate to fill the needs of the school for domestic purposes, fire protection, and power, for many years.

The whole system requires replacement, the material being in a state of decay and the equipment practically worn out.

The plan suggested for replacement follows, with few exceptions, the general idea of the present system. An effort has been made to conserve as much as possible the small, though adequate water supply.

It is proposed to replace the present main from the intake to the school with a pipe of

a larger size making connection with the present service points as shown on the accompanying plan and profile. In the school area the pipe line is kept well back from the present buildings so that new buildings will not require a removal of location. The pipe line is to be buried with a minimum of 2.5 feet of cover.

Four hydrants are provided for fire protection service located at points to best serve the present school buildings as well as any future structures.

At the intake it is proposed to provide a reservoir of 30,000 gallons capacity. This is primarily for emergency use in case of fire when the electric lighting plant requires practically the whole flow of the stream.

ELECTRIC POWER PLANT-

It is proposed to extend the pipe line as at present to a point near the existing power house to obtain all available head. This extension would require approximately 600 feet of pipe.

The power plant would consist of an 18 inch Pelton type water wheel connected by a silent chain drive to a 9 K.W. generator; the water wheel to be controlled by a mechanical governor.

COST-

The total cost of the combined water system and power plant as suggested would be \$10,340. In addition there would be the cost of installing motors for operating Laundry and for other uses.

OTHER SERVICES-

It is proposed to replace with electric motors the present water driven services in order to conserve the water supply.

For the laundry a 5 H.P. motor is necessary which would be hooked into the present transmission line by a short branch.

For threshing and wood cutting purposes a 5 H.P. motor is also necessary; this would also be connected to the present transmission line by a short extension.

The cost of these installations would be \$700.00, including cost of power line extensions. This is somewhat less than replacing the present system with a similar one and providing new drains to carry away the tailings, which would amount to \$556.00 in the case of the threshing and wood cutting installation, and \$325.00 in the case of the laundry.

FIRE PROTECTION-

It is suggested that 700 feet of hose and a reel be provided for fire protection purposes to replace the present hose which is in poor shape. The cost of this would be \$660.00

SUMMARY OF COST-

The total cost of the installation as proposed would be \$11,700. A proportion of the cost of pipe line for water supply suggested is for the use of the power plant. A system for purely domestic use and fire protection could be installed for \$7,000; so that the actual investment for power and lighting is \$4,000.

The yearly cost of power and light, presuming a lifetime of 25 years for the plant would be \$360.00 (Interest and depreciation 9%) This is at a rate of approximately two cents per K.W. Hour as compared with seven cents per K.W. Hour quoted by the British Columbia Electric Company for the same service.

Attached hereto are summary of cost, bill of material, and plans of plant suggested as being the most suitable for the school.

Your obedient servant,

W. C. Warren

Mr. J. D. McLean
Sir,

Your file number: 153-1-5A.
Attention: Departmental Engineer.

Encl.

In further reference to your letter of February 12 last regarding the water supply and electric lighting plant at St. Mary's Mission School at Mission, B.C., I enclose herewith a report describing what is necessary to place the system in a satisfactory condition.

You will note that the report states that the present water supply system is in bad condition and will require almost complete renewal. The electric lighting plant also needs considerable replacement. The total cost estimated for replacing the water supply system and for providing electric light plant amounts to \$11,700, of which \$7,000. is for the water supply system only, including fire protection.

I shall be glad to have your further instructions with regard to this matter.

Your obedient servant,

J. T. Johnston,
Director.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

June 13, 1927.

Memorandum:

Mr. Chene

DR. SCOTT.

R

There is an item of \$7,000 in the Main Estimates for the provision of a suitable water supply system at the St. Mary's Indian Residential School, Mission, B. C. The Dominion Water Power Branch have the matter in hand and have estimated the cost of the activity at \$7,000, which includes fire protection. I wish to recommend that Mr. Chene give the necessary instructions to the Dominion Water Power.

It appears that \$4,700 is required for the provision of a suitable electric light plant at this institution. There are no funds to proceed with this at the present time, but I shall make a note for next year's Estimates. Before expending this amount of money on electric light plant, I believe we should seriously consider less expensive schemes, as the building is not destined to be used for very many years.

Russell P. Price

Supt. of Indian Education.

Sir,-

MSA

I wish to acknowledge receipt of your letter of the 6th instant, together with a report prepared by your branch on the replacement of the present water and electric lighting systems for the St. Mary's Indian Residential School at Mission, B. C. After giving the contents of this report due consideration, the Department will be grateful if you will arrange with one of your district engineers to undertake on behalf of this Department the construction of the water supply system only, which has been estimated to cost \$7,000.00. The work should be carried out in accordance with the above mentioned report, in the same manner as was done for similar projects last year. Whenever possible competitive prices for all materials and machinery should be obtained, and these should be of Canadian make. Quotations obtained should be submitted together with the accounts, certified to by the officer in charge of the work.

John

The question of erecting a suitable electric lighting plant for this Institution will be taken into consideration at a later date, when I shall further advise you with regard to this work.

Your obedient servant,

J. D. McLean
J. D. McLean.

OFFICE OF
INDIAN AGENT

New Westminster, B.C.

June 14th, 1927.

SIR:-

I beg to forward you herewith an estimate received from the Rev. Principal of St. Mary's Mission Residential School, regarding necessary repairs to the buildings.

With regard to the first item, the roofs are leaking badly and in wet weather a number of pails are required to catch the water which comes through, I would certainly recommend that this be attended to as soon as possible.

- (a) Buildings Repairs: Owing to the extreme age of the buildings, the steam heating, particularly in the girls' building proved inadequate to save the pipes from freezing, several were put out of commission, and while temporarily fixed it is absolutely necessary that the above be attended to as soon as possible.
- (b) Carpentry: A good deal of work in this connection is necessary to stop drafts, otherwise making the buildings more frost proof, and I would recommend that this be done.
- (c) Plastering, Kalsomining and Painting: This is necessary to repair damages caused by the weather last winter, where walls have been injured as well as damage by rain coming through the roofs.
- (d) Stoves: The steam heating being inadequate to properly take care of the girls' building, about seven stoves are necessary to keep it in a habitable condition during the winter months. During the cold weather, it is now impossible to keep the children at their work on account of the low temperature in the buildings. I would recommend that an appropriation be made to this end.

-2-

A great deal, of course, depends upon how soon the Department proposes to erect a new School. The buildings at St. Mary's Mission are in exceedingly poor shape, but if they have to do duty for some time to come, the above repairs are absolutely necessary.

The total amount estimated as vitally necessary to meet present requirements will come to about \$1,500.00.

Your obedient servant,

A.O.N. Daunt.
Indian Agent.

Sir,

Re: St. Mary's School at Mission, B.C.
Attention: Departmental Engineer.

I have received your letter of the 17th instant authorizing the replacement of the present water supply system for the St. Mary's industrial school at Mission, B.C., in accordance with the report which accompanied my letter of the 6th instant. A copy of your letter has been sent to Mr. Webb with instructions to call for tenders to be submitted to the Indian Department. It is noted that the replacement of the electric light system is reserved for further consideration.

Owing to the large amount of work at present on hand for the Indian Department it is possible that Mr. Webb may not be able to arrange for this work to be undertaken until later in the season.

Your obedient servant,

J. T. Johnston,
Director.

Your file: 2543-WA.

DOMINION WATER POWER AND RECLAMATION SERVICE

Vancouver, B.C.,
June 25, 1927.

Sir,

Re: St. Mary's Indian Reserve School,
Mission.

Acknowledgment is made of your letter of the 20th inst. wherein you quote a letter received from the Department of Indian Affairs under date of June 17th which authorizes the construction of water supply system for the above school at estimated cost of \$7000. It is noted from the letter of the Department of Indian Affairs that the work should be carried out in the same manner as was done for similar project last year. Whenever possible, competitive prices for all material and machinery should be obtained and this of Canadian make. Quotations obtained should be submitted together with the accounts certified to by the officer in charge of work.

The usual procedure in constructive work of this nature has been for this office to obtain competitive prices for equipment, and orders have been placed by me; then when submitting final report on constructed works, all quotations obtained are submitted together with the accounts duly certified.

It is noted from your letter of 20th inst. that you request tenders to be submitted to you for transmission to the Department of Indian Affairs and it seems to me that this procedure is not what is contemplated by the Department of Indian Affairs but that they wish all tenders to be submitted when final accounting for the constructed works is made. I trust I have made myself quite clear in this matter and to reiterate, it seems to me the Indian Department do not wish to have the tenders submitted to them before the works are undertaken but wish to have a copy of the tenders submitted with the final accounting of the project.

Will you kindly take this point up with the officials of the Department of Indian Affairs and advise me.

In the event of it being necessary to submit all tenders to Ottawa for consideration, there will undoubtedly be considerable delay in the carrying out of the proposed works.

Your obedient servant,

(Sgd.) C. E. Webb,
District Chief Engineer.

R

OFFICE OF
INDIAN AGENT

New Westminster, B.C.

JUL 22 1927 July 14th, 1927.

SIR:-

In reply to your letter dated the 22nd ultimo, File No. 153-1-5, I beg to forward you herewith a detailed estimate in connection with the repairs required at St. Mary's Indian Residential School, amounting to \$838.50, with an additional sum of \$328.00 for the necessary stoves etc., for heating, making a total of \$1,166.50.

These repairs are absolutely necessary, and unless the Department intend to erect a new school in the near future, there is other work that should be carried out. The Laundry is beyond repair, as it is very old and has been repaired so often that nothing more can be done to it.

The Stoves, stove boards and galvanized protective stands to protect wood work, will be installed when the other repairs are being carried out, so I am sure that this will be satisfactory for fire prevention.

I would strongly recommend that the necessary authority to proceed with the work be wired to this office, as the School Authorities wish to have these repairs carried out when the children are away on their holidays, and as they leave on the 15th instant, it will give very little time.

Your obedient servant,

L.M. Dynes
L.M. Dynes.

Ottawa, July 25, 1927.

Sir:

I have your letter of the 14th instant, with reference to repairs at the St. Mary's Indian Residential School. In reply I have to confirm official night letter of today's date, as follows:-

"Reference your letter fourteenth instant, Department cannot agree to supply stoves. Will allow one hundred and fifty dollars for materials for calcimining, painting and repairs. Labour should be provided by school management. Plumber may be engaged to make most urgent repairs but his bill must not be over two hundred dollars."

In explanation, I wish to point out that the Department cannot favourably consider supplying supplementary heating units because of the danger from fire. Our funds are strictly limited this year and only the most urgent work can be authorized. The school management must provide as much labour as possible.

Your obedient servant,

A. F. MacKenzie over

OFFICE OF
INDIAN AGENT

New Westminster, B.C.
July 26th, 1927.

SIR:-

With reference to your night letter of the 25th inst., received this morning authorizing only \$150.00 for material for kalsomining, painting and repairs to St. Mary's Mission Residential School, and refusing to agree to the installation of stoves.

I beg to point out that it is absolutely imperative that the heating system of this Institution be completely overhauled before the winter. The furnace is worn out and is not capable of furnishing the necessary heating. This is not an exaggeration, as I have been at the School, and personally seen conditions for myself during severe weather.

The buildings are the oldest in British Columbia, and the wind blows right through them, so that even with a thoroughly up to date furnace or heating system, great hardship is inflicted on both staff and pupils during cold weather, with practically no heating system, as at present, the situation is desperate, and I must most emphatically draw your attention to the urgent need of its entire reconditioning before the coming winter.

As a matter of fact this should have been attended to long ago, but the matter was allowed to drift, as we were all under the impression that the erection of a new School would have been undertaken ere now. As there is no apparent chance of this for some years, in view of proposed new Schools in other places, it becomes absolutely necessary to put St. Mary's Mission School in such a condition of repair that it can carry on in the meantime. The cost of a new furnace would be approximately \$2,000.00, and I recommended the purchase of stoves at a cost of \$328.00, as the cheapest way of meeting the situation.

Your obedient servant,

A.O.N. Daunt.
Indian Agent.

Deputy & Secretary,
Department of Indian Affairs, Ottawa, Ont.

As this is so urgent, I shall be much obliged if you will wire final instructions.

Lillooet, B.C.,
July 17, 1927.

District Chief Engineer,
Dom. Water Power & Reclamation Service,
Vancouver, B.C.

Re - St. Mary's Mission School
Water & Electric Plant.

Sir,

In reply to your enquiry of the 11th inst. in respect to the above mentioned plant, the following will, I think, cover the points in question.

The estimate of \$7000.00 given in my report was for a water system only and was for the purpose of comparing the cost of purchased power and that manufactured by use of the water system to be installed.

To provide a system now for a future power plant as well, would cost \$7750.00 an increase of \$750.00 or approximately the cost of the larger pipe necessary to be installed for future use.

This estimate does not provide for any repairs to the present power plant or auxiliary service which are in very poor shape. The electric lighting plant at best cannot serve more than another year and is at present giving very poor service. In my opinion it would be uneconomical to repair the present plant as a new generator would have to be purchased which would be useless if a new plant was to be installed in the near future.

I would urge the necessity of providing suitable fire protection by replacing the present hose and the purchase of a reel, the cost being approximately \$660.00 additional.

Your obedient servant,

(sgd) W.C. Warren
Asst. Hydraulic Engineer.

Your file 2543-W "A"

Dominion Water Power and Reclamation Service

Vancouver, B.C.,
July 27, 1927.

Sir,

Re - St. Mary's Indian Residential
School, Mission, B.C.

With further reference to your letter of the 20th ult. advising that the Department of Indian Affairs have authorized the expenditure of \$7,000.00 for the construction of a water supply system for the above mentioned school, I may say that this amount will only provide for laying of a pipe of sufficient size to meet the requirements for water supply and fire protection.

As it would appear from your letter, that the Department of Indian Affairs may at a later date decide to install an electric lighting plant, I asked Mr. Warren to submit an estimate covering the cost of the water works system with a main supply pipe of sufficient size to meet future requirements in connection with a hydro-electric development for the school. In a letter from him (copy enclosed) he states that the cost of such an installation would be \$7750.00.

If separate supply pipes are installed for the water works and the hydro-electric plant it will, of course, exceed the total estimate of \$11,700.00 shown in Mr. Warren's report of May 10th, 1927, and, therefore, I would suggest that this matter be brought to the attention of the Department of Indian Affairs as it probably has been overlooked by them.

As we will have an engineer available to start this work within the next week or so, would you kindly advise me by telegram whether or not the Department of Indian Affairs wish us to install a main pipe suitable for water works only or one suitable for the combined purposes.

Encl.

Your obedient servant,

(sgd) C.E. Webb,
District Chief Engineer

Sir,

Re St. Mary's Indian Residential
School, Mission, B.C.

Yes //
In further reference to your letter of June 17th, I am attaching herewith a communication from our District Chief Engineer at Vancouver under date of July 27th, in which he points out that the expenditure of \$7,000, as authorized, will only provide a pipe of sufficient size for water supply and fire protection purposes, and if it is the intention to install a hydro-electric system at some future date, it would be advisable to install now a supply pipe of sufficient size to serve both purposes, which could be done at a cost of \$7,750.

Encl.
In order that this work may not be delayed, I shall be glad to have your decision in this matter as soon as possible.

Your obedient servant,

J. T. Johnston,
Director.

RECORDS

Dear Mr Scott:-

I have just returned from a visit to St. Mary's Mission, B.C. and as a result consider that a new school should be erected not later than next year; but should this be impossible, that extensive repairs be made to the present buildings, without delay.

It would appear that it is next to impossible to heat the buildings properly. In November and December they used sixty (60) tons of coal and seventy-five (75) cords of wood, and yet in spite of this, the children, the Sisters, and the staff generally, suffered considerable discomfort.

I may perhaps be permitted to draw your attention to some of the defects which were brought to my notice:

1. All the windows need to be refitted, and the outer walls, (particularly in the boys' school) shingled or covered with siding.
2. New foundations are needed.
3. Many of the pipes are worn out.
4. The furnace must be repaired.
5. The laundry is in bad shape, in fact almost falling over.
6. All the wiring is exposed and has been declared dangerous by the Insurance Inspector.
7. The couplings on the hydrants, (it was explained to me) are not the standard size, and consequently do not fit the hose pipes, and thus in case of a fire would be useless.
8. The Fire Department, (I was also informed) has

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

-- 2 --

ordered nets for use at the school, in case of a fire, regarding it in its present condition as a fire trap.

More could be said, but it is unnecessary. You of course have long had the intention of building at Mission, and I feel that you will prefer to build a new school next year, rather than go to the heavy expense of repairing, this year, the present very old structure.

I have the honour to be,

Yours faithfully,

J. Welch, D.M.S.

Dear Father Welch:

del
[Signature]

I have your letter of the 7th instant, with reference to extensive repairs that are required at the St. Mary's Indian Residential School. I agree that the time has come when we should seriously consider asking for an appropriation for a new building at this school. And I wish to assure you that when our Estimates for 1929-30 are being prepared, the matter will not be overlooked. You might ask the Reverend Principal to prepare a list of the repairs that are absolutely necessary for the next year. This, with an estimate of the cost, should be handed to Mr. Indian Agent Daunt, who would then make a recommendation to the Department.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

File No. 3-8-A.

New Westminster, B.C.
February 20th, 1928.

SIR:-

Cust.
I beg to forward you herewith Agency Voucher No. 676 in favour of Mr. W.J. Windebank of Mission City, and amounting to \$164.55, representing the cost of linking up St. Mary's Mission School Lighting and Power System with the British Columbia Electric Railway Company.

This was rendered necessary when the Dam constructed by the Dominion Water Power Branch gave out, and rendered useless the School Lighting and Power Plant.

A number of the charges for switches etc. were rendered necessary by the fact that the School Lighting System depending as it did on their own free Plant had not a sufficient number of cut-offs for lights when not necessary. Upon being connected with the Company's service it, of course, became necessary to economize in such matters, hence these items of expense.

Ray
ms.
I would recommend that the account be paid.

Your obedient servant,

A.O.N. Daunt
A.O.N. Daunt.

OFFICE OF
INDIAN AGENT

File No. 1-5-A

New Westminster, B.C.
March 7th, 1928.

SIR:-

With reference to your letter No. 153-1-5 of February 17th, addressed to the Very Rev. J. Welch, O.M.I., concerning repairs to St. Mary's Residential School, I beg to report that I proceeded there upon the 5th instant and went into matters with the Principal.

The old buildings and equipment are so very far gone that it is difficult to make recommendations for repairs, the general impression made, being that any work at all is simply waste of money.

However, as it will be at the best, three years before we can have any hope of a new building ready for occupation and in the meantime conditions being what they are, I would bring the following to your notice.

1- Boys' Building: The sills are absolutely rotten and the building should be temporarily shored up with rough timbers and skirting closed in to prevent (a) the winter gales blowing under the floors as they do at present, (b) the undue cooling of the pipes from the furnace.

The old Electric Wiring is in many places dangerous, and if a fire ever started in such a building the loss of life would be frightful. The Provincial Fire Marshall and local Fire Chief have registered severe complaints of the Fire hazard in this School. This wiring should be looked to.

Roof: The roof needs refacing, water pours down in many places. That part over the kitchen needs reshingling. In addition the whole of the South Wall, that is the most exposed to winter winds, should be papered and covered with siding. There is no paper in the old wall and wind and snow blow through freely in the winter.

FURNACE: There are seventy tubes gone in the boiler, the fire bricks are all burnt out and nearly all the piping distributing the heat from the central heating plant to the buildings is defective. Steam escaped in clouds from under the houses through leaks in the pipes.

Duncan C. Scott, Esq.,
Deputy Superintendent General, Ottawa, Ont.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

File No. 1-8-A.

3-Laundry: This old building has settled to the ground round the sides leaving the centre of the floor at higher elevation. The roof has split as the rafters pulled away in the centre. During the winter snows conditions are very dangerous and the Medical Officer has condemned the conditions under which growing girls work there as causing anatomical injuries. A new laundry is imperative. Possibly an advance unit for the new School might contain this part of the equipment and thus meet the situation permanently?

I would recommend that competent Contractors be asked to examine the School in connection with the above Repairs and submit figures. The cost will be heavy, but conditions are so bad and so dangerous that I do not see how we can escape with less.

4-Fire Risks: Mr. A.A. MacDonald, Deputy Provincial Fire Marshal, called here while I was at Mission and severely criticised the conditions under which we keep these children. I was requested by telephone to see the Mission City Fire Chief who while the School is outside his strict limits has to attend fires within reach.

This gentleman, Mr. Routledge was most sympathetic while severe in his remarks on conditions. He states the construction of the building is such that in the very probable event of a fire at night chances of escape in either the boys' or girls' buildings would be very slight. He made the following recommendations as being absolutely essential:

- 1- 6 Fire hydrants within reasonable distance of buildings.
- 2- 1 Life Net to take care of jumping inmates, cost according to pattern \$125.00 to \$235.00.
- 3- 300 Feet of hose cost about \$200.00.

The Brigade have had three fires this winter within a stones' throw of the school, that is about one mile from the Fire Hall and their time of arrival at these fires was 2½, 3 and 4 minutes respectively from time of alarm, so they give an efficient service. Chief Routledge promised every assistance in the exceedingly probable event of a Fire, but was most emphatic as to the terrible chances we are taking in maintaining such a Fire Trap as the old School.

I have the honour to be,
Sir,
Your obedient servant,

A.O.N. Daunt
A.O.N. Daunt.
Indian Agent.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

April 20, 1928.

Dear Father Welch:

I am enclosing, for your information, a copy of Mr. Indian Agent Daunt's recent report on conditions at the St. Mary's Indian Residential School. The situation is so grave, I am constrained to take a very serious view of the heavy responsibility, which both the Church and the Department assume by continuing operations there.

As you are well aware, for some time I had been hopeful that, by now, the outworn buildings would have been replaced; but necessary expenditures at other schools appeared to be more urgent. However, I expect the Kamloops building to be finished this year, and I can look forward with some confidence to the possibility of the provision of funds for the replacement of the St. Mary's School in 1929.

The present serious situation remains to be considered. To expend a large sum of money on temporary repairs is out of the question, and I am inclined to think that the best plan would be to close the school after this summer. Now that the winter is past, from the standpoint of the health of staff and children, there would be but small risk keeping the school open for a few months. The other danger - the loss of life by fire - will be comparatively less as the various heating units become idle. To further minimize this latter hazard, I have today written to Mr. Indian Agent Daunt, authorizing the engagement of a competent night watchman, who will continuously patrol the boys' and girls' buildings during the night. I have instructed Mr. Daunt to cooperate with Father Maillard in the selection of a very reliable man for this duty.

I regret the circumstances which make it necessary to consider closing the school until the new building is ready for occupation; but this last report, indicating the grave danger during the winter months, has made it impossible for the Department to take any responsibility after next September.

One of the first questions to be considered as we plan for a new building is that of a suitable site. I believe that the present property should be used, as it has been the scene of much usefulness to our wards. You might let me know what offer the Oblate Order would be prepared to make in this connection.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

April 20, 1928.

Dear Mr. Daunt:

I was so impressed with the subject matter of your 1-8-A of the 7th ultimo, concerning conditions at the St. Mary's Indian Residential School, that I am seriously considering closing it before next winter. Enclosed you will find a copy of my letter of today's date to the Very Reverend Father J. Welch.

I wish to safeguard the lives of the staff and children living in the school, by the appointment of a competent night watchman, who will continuously patrol the boys' and girls' buildings during the night. You, in conjunction with the Reverend Principal, should select a man, who will be paid by school funds. At a later date, I will arrange a grant to the Principal to cover the cost of this special service. I will rely on you and on Father Maillard to see that a most reliable man is secured.

You will please instruct the Reverend Principal and personally see that the children are thoroughly familiar with the fire escapes and other exits. You should also see that the fire extinguishers and hose are kept in good condition and ready for instant use. If you and Chief Routledge of the local fire brigade are satisfied that a life net should be secured, you may purchase one at an approximate cost of \$175.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

Duncan C. Scott, Esq.
Deputy Superintendent General of Indian Affairs,
Ottawa, Ont.

Dear Mr Scott:-

In reply to your recent communication No I53-I-5, informing me that the Department may find necessary to close St Mary's Residential School next summer, until a new building is erected, I must frankly admit that such a possibility fills me with alarm.

On Thursday last Mr Daunt, Father Maillard and myself met at the Indian Agency to discuss the situation, and were united in expressing the hope that the Department would see its way to keep the school open. How this may be done with safety, and at a minimum of expense Mr Daunt's letter, which we have carefully considered, will explain.

As a suitable site for the new building, you consider that the present property should be used. In this connection I shall be pleased to place your recommendation before my council, and will write you later.

I have the honour to be

Yours respectfully,

[Handwritten note: Inform him what is taken from]

File No. 153-1-5

OFFICE OF
INDIAN AGENT

New Westminster, B.C.
April 28th, 1928.

SIR:-

I beg to acknowledge receipt of your letter No. 153-1-5 of the 20th instant, with reference to conditions at St. Mary's Indian Residential School.

In this connection I met the Reverend Principal, who informs me that he has a most reliable man, named Mr. Vincent Frazzolare, who is in fact the only person, whom he would trust around the Convent at night. He proposes placing this man on duty each night from 9 P.M. until 6 A.M. at a monthly salary of \$60.00 and board supplied by the School.

I have ordered a Net from Vancouver, which is quoted at \$125.00.

I may say that the School Authorities are very much opposed to closing the Institution, and I can understand their feelings in the matter, in as much as once the children are scattered it will be difficult to collect many of them again. The other Schools being practically full it would not be possible to transfer pupils for the time being.

On the other hand, they request the Department to incur certain expenditures, in order to keep it running. Notably the relining of the boiler in the furnace room, and the replacement of seventy tubes, which will cost Four or Five Hundred Dollars in all probability. Further they request a refund of about \$175.00 for re-shingling the kitchen, this work having recently been undertaken by the Principal.

The laundry boiler gave out completely, and is now in Vancouver being reconditioned and reinspected, this will also amount to Two or Three Hundred Dollars, though the amount is uncertain until repairs and inspection are completed, and in the meantime the Principal requests

Duncan C. Scott, Esq.,
Deputy Superintendent General of Indian Affairs,
Ottawa, Ont.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

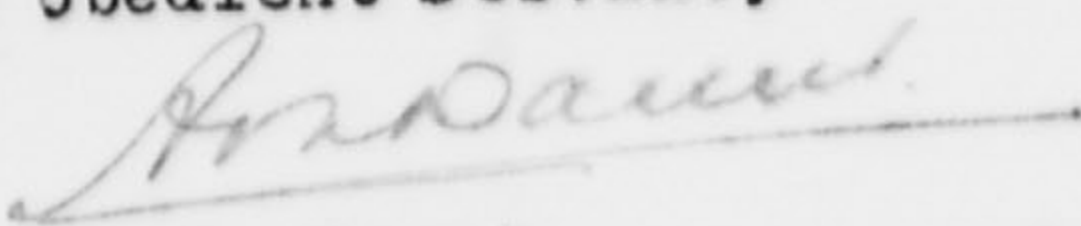

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

16 per week
requests that the Department pay the flat laundry rates for the rough wash of the heavy items in the school laundry list. This averages weekly 150 sheets, 175 pillow slips and 120 boys' overalls and pants. The average rate for this quantity at the Royal City Laundry would be \$24.75 less 35 per cent or a total of \$16.00 per week. On top of all these expenditures, there would be, of course, the steady charge of \$60.00 a month for a Night watchman.

I would recommend, therefore, that your instructions having been complied with, regarding the watchman and immediate fire protection, that the School carry on until the holidays, and that the whole matter be given your consideration so that a definite ruling may be handed down within the next two months or so.

Possibly if it is your intention to visit the Coast this summer, you could take the whole matter up personally with the Very Reverend Father J. Welch.

I have the honour to be,
Sir,
Your obedient servant,

A.O.N. Daunt.
Indian Agent.

Memorandum:

OK *sel*
DR. SCOTT.

Danger With reference to recent correspondence from the Rev. Father Welch and Mr. Indian Agent Daunt, regarding conditions at the St. Mary's Indian Residential School, I wish to report that steps have already been taken to minimize *the* loss of life by fire. A responsible night watchman has been engaged for duty from 9 P. M. to 6 A. M., at a monthly salary of \$60 - the school supplying his board. I do not believe it is necessary to secure a certificate covering the employment of this man, unless the Auditor General demands it. School janitors and caretakers in receipt of this salary have not been questioned. A landing net and other improvements have been added to the fire escape provision.

It appears that the school and church authorities are very much opposed to closing the school until a new building can be provided. They are quite satisfied to carry on if the Department will continue the services of the night watchman, as we have already promised, and if we will spend \$700 or \$800 fixing up the furnace and laundry boilers. I believe this should be done and I should be glad to have your approval for the expenditure. It will also be necessary to pay \$16 per week for a few weeks until the laundry is in running order again.

Amuel K. Binner
Supt. of Indian Education.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

Ottawa, May 25, 1928.

Sir:

I am directed to refer to your 1-8-A of the 28th ultimo, with reference to conditions at the St. Mary's Indian Residential School. The arrangements that have been made for a night watchman and for additional fire escape provision are approved. It is true that the Church authorities are opposed to closing the school and are willing to carry on if the Department assist at the present time. The Deputy Superintendent General has authorized an expenditure of approximately \$450 for the relining of the boiler in the furnace room and the replacement of seventy tubes. You may also expend approximately \$250 in reconditioning the laundry boiler. Accounts, in duplicate, properly certified by yourself, should be forwarded when these improvements have been effected.

When the laundry is in working order again, you may submit a voucher in favour of the Rev. Principal reimbursing him for the special expenditure of \$16 per week occasioned by the necessity of sending out the laundry. It is understood that the laundry will be put in condition as soon as possible.

Your obedient servant,

T. R. L. MacInnes
T. R. L. MacInnes,
Acting Asst. Deputy and Secretary.

DOMINION WATER POWER AND RECLAMATION SERVICE

OTTAWA, ONT., May 21st, 1928.

Sir,

Re St. Mary's School Mission

I enclose, in duplicate, accounts
received from Mr. Webb at Vancouver covering
expenditures incurred on the above work to
March 31st, 1928.

It is hoped that these accounts
will meet with your approval.

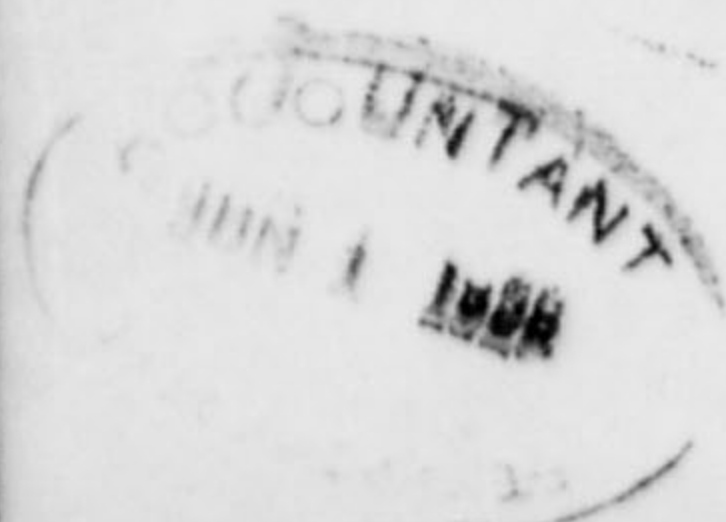

A copy of Mr. Webb's letter trans-
mitting these accounts is sent you to complete
your files in this connection.

Your obedient servant,

Encl.

J. T. Johnston,

June 2, 1928.

Sir,-

I am in receipt of your letter of the 21st ultimo, together with accounts received from Mr. Webb, covering an expenditure incurred in connection with the construction of a water supply system at the St. Mary's Indian Residential School, B. C.

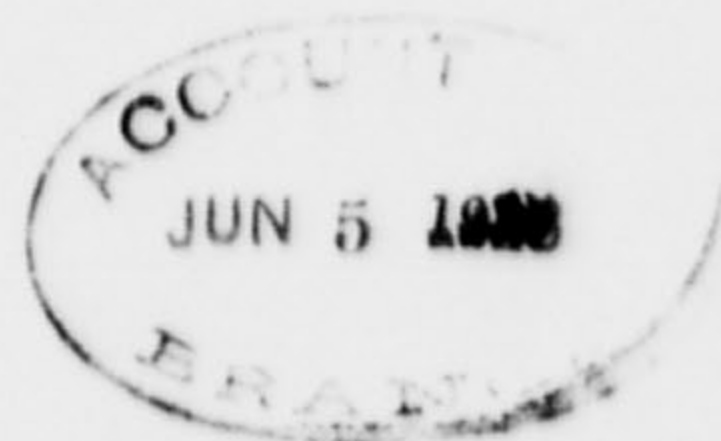

JS
It is noted in the statement of disbursement that various amounts have been paid to Mr. A. Thompson, on a contract with reference to the work. Before acceptance of the vouchers can be made, it will be necessary that copies of the agreement with Mr. Thompson be sent in as these will be required by the Auditor General.

Your obedient servant,

T. R. L. MacInnes

T. R. L. MacInnes.
Acting, Assistant Deputy and Secretary.

SPECIFICATIONS
for
Installation of Water Supply System
at
St. Mary's School, Mission, B.C.
New Westminster Indian Agency

Prepared for the Department of Indian Affairs

by

Dominion Water Power & Reclamation Service,
Vancouver, B.C.

C.E. Webb, District Chief Engineer.
August 20, 1927.

PART I

THE CONTRACT -

The bidder to whom an award is made shall execute a written contract with the Department of Indian Affairs, and, if bond is required, furnish good and approved bond within seven days after receiving the form of contract and bond for execution.

If the bidder to whom the award is made fails to enter into a contract as herein provided, the award will be cancelled, and an award may be made to the bidder whose proposal is the most acceptable in the opinion of the Department of Indian Affairs.

THE ENGINEER

The word "Engineer" used in these specifications or in the contract means the District Chief Engineer of the Dominion Water Power and Reclamation Service, Vancouver, B.C. acting on behalf of the Department of Indian Affairs, who will be represented by an assistant or inspector authorised to act for him.

On all questions concerning the execution of the work and the determination of costs, the decision of the engineer shall be final.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

THE CONTRACTOR

The word "Contractor" used in these specifications or in the contract means the person, firm or corporation with whom the contract is made by the Department of Indian Affairs.

The contractor shall, during the progress of the work, be represented on the works in person or by a foreman or duly designated agent, and instructions or information given by the engineer to the contractor, foreman or agent shall be considered as having been given to the contractor.

MATERIAL AND WORKMANSHIP

All materials, other than tools, sand and aggregate required will be delivered f.o.b. car Mission by the Dominion Water Power and Reclamation Service. Reasonable notice as to materials required but not covered by these specifications must be given to the engineer by the contractor.

The contractor will supply all tools required for the excavation, backfilling, grubbing, clearing and construction of concrete work.

All tools required for the fitting of pipes and parts thereof will be supplied by the Dominion Water Power and Reclamation Service,

All work shall be done and completed in a thorough and workmanlike manner notwithstanding any omission from these specifications or drawings.

All work done must be satisfactory to the engineer; work not in accordance with these specifications in the opinion of the engineer, shall be made to conform thereto.

DELAYS

The contractor shall receive no compensation for delays or hindrances to the work, except when, in the judgment of the engineer, direct or unavoidable extra cost to the contractor is caused by the failure of the Dominion Water Power & Reclamation Service to provide necessary information or materials for the installation.

All decisions of the engineer with regard to any claims for compensation shall be accepted by the contractor and regarded by him as final.

CHANGES

The engineer may, upon notice to the contractor, make such changes in the designs and materials supplied as the engineer may deem advisable; if such changes result in an increase or decrease of cost to the contractor the engineer will make such additions or reductions on account thereof as he may deem reasonable and proper, and his action shall be final.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

EXTRA WORK

In connection with the work covered by this contract the engineer may order work not covered by these specifications. Such work will be classed as extra work and will be ordered in writing. No extra work will be paid for unless ordered in writing and only at the rate or amount fixed upon in the written order.

INSPECTION

All work done in this contract will be subject to inspection.

All work that does not conform to the specifications accepted through oversight or otherwise may be rejected at any stage of the work.

ERRORS AND OMISSIONS

The contractor will not be allowed to take advantage of any error or omission in these specifications; suitable instructions will be given where an error or omission is discovered.

SPECIFICATIONS AND DRAWINGS

The engineer will furnish the contractor with such detail plans and information as he may consider necessary for the contractor's guidance.

DAMAGES

The contractor will be held responsible and required to make good, at his own expense, all damages to person or property caused by carelessness or neglect on the part of the contractor, his agent or employees.

CHARACTER OF WORKMEN

The contractor shall not allow his agents or employees to trespass on lands or premises in the vicinity or the work; and shall, when required by the engineer, discharge any person in his employ who is, in the opinion of the engineer, disorderly, dangerous, incompetent or objectionable.

METHOD AND APPLIANCES

The method and appliances adopted by the contractor shall be such as will, in the opinion of the engineer, secure satisfactory quality of work and enable the contractor to complete the work in the time agreed upon.

PROTECTION

The contractor shall be responsible for all material furnished him and for the care of all work until its completion and final acceptance.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

The contractor will be responsible for the safety of all men engaged upon the work and shall adopt such methods of construction as will ensure their well-being, and shall accept full liability for all damage suits, claims for compensation, etc., arising out of any injury to an employee working under his control.

COMPLETION OF WORK

The contractor shall complete the work in the time agreed in this contract and shall, upon its completion remove all plant, rubbish or unused material at his own expense.

INTERFERENCE WITH PRESENT WATER SUPPLY

The water supply as at present must be maintained throughout the work by the contractor.

ROAD CROSSINGS

All road crossings must be maintained by the contractor in a manner approved by the Department of Highways.

PART II

Work to be performed by contractor.

CLEANING CREEK

All lands flooded by the construction of the dam shown on the attached plans will be cleared of debris and vegetable matter, as will also be the banks of the flooded lands to an elevation two feet above the spillway crest. Lands along the creek above the dam which may be flooded with a water elevation two feet above the spillway crest will also be cleaned.

DAM AND INTAKE WORK

A concrete dam and intake built in accordance with the attached plans will be constructed at the point shown on the plans, the concrete used to be properly mixed and of proper proportions to pass a compression test of 2500 lbs. per sq. inch after 28 days under standard testing methods.

CLEARING

Sufficient land is to be cleared so that the pipe line may be properly laid in accordance with the attached plans.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

EXCAVATION FOR PIPE AND BACKFILLING

Sufficient excavating will be done so that all pipes may be properly laid to a depth of at least two and one-half feet below ground surface. All earth excavated will be backfilled. *and cover provided to a depth of two and one-half feet.*

LAYING PIPE, INSTALLING VALVES, HYDRANTS AND OTHER WORK

The pipe and pertinent parts shown in the attached plans to be laid in a proper manner. All pipe to be subjected to a test for leaks before ditch in which it is laid is backfilled. Connections to all service pipes to be made as shown on plan.

TIME ALLOWANCE AND PAYMENT FOR WORK

Work shall be commenced by the contractor within ten (ten) days and shall be completed thirty (30) days after the execution of the contract on behalf of the Department of Indian Affairs.

The contractor shall, at all times during the continuation of the contract, prosecute the work with such force and equipment as in the judgment of the engineer are sufficient to complete it within the specified time.

Upon completion of the work, due notice shall be given by the contractor to the engineer inspecting the work, and, if same is found to be satisfactory, payment will be made from the office of the District Chief Engineer, Dominion Water Power and Reclamation Service at Vancouver, acting on behalf of the Department of Indian Affairs, within a reasonable time from date of its inspection.

SUMMARY

The contractor hereby agrees to carry out the work necessary in accordance with the said plans and specifications for a total of \$2000.00

OTTAWA, ONT., June 20th, 1928

Sir,

I have the honour to acknowledge the receipt of your letter of June 2nd, asking that a copy of a contract entered into with Mr. A. Thomasen, be furnished you, in order that the accounts in connection with the construction of a water supply system at the St. Mary's Indian Residential School, British Columbia may be submitted to the Auditor General.

I have communicated with Mr. Webb, the engineer of this branch at Vancouver in charge of the work on this school, and now enclose copy of the contract in question.

It is hoped that the contract will meet with your approval, and that you will now be in a position to finally pass this account.

Your obedient servant,

Encl.

J. T. Johnston,
Director.

NEW WESTMINSTER, B.C.
July 19th, 1928.

I have the honour to enclose herewith, tentatively, Agency Voucher No.193, in favor of the Principal of St Mary's Residential School, and representing a refund of wages paid the Night-watchman at that Institution.

Your letter No, 153-1-5, of April 20th, gave instructions for such an appointment, to be paid from School Funds, and intimated that at a later date you would arrange a grant to cover the cost.

I do not know whether this has yet been done, but pass on the account as received by me from the Principal.

Will you be good enough to give me further instructions how to handle the matter.

I have the honour to be,
Sir,
Your obedient servant,

A.O'N. Daunt,
Indian Agent.

Dear Commissioner Ditchburn:-

I have been considering very seriously the condition of the St. Mary's Mission School, and I am convinced that we should not take the responsibility of conducting this school with its full quota of pupils, even with the additional protection of a night watchman.

My suggestion is that we should vacate the top dormitories, turn the class rooms into dormitories and erect temporary classrooms outside the building. This may entail some difficulties in administration, but in comparison with the risk of loss of life by fire, the difficulties are negligible. The outside classrooms would not be costly, and the pupils would probably be benefitted by the change.

Will you kindly take this matter up with Mr. Indian Agent Daunt and Father Welch and carry out the proposed changes?

You might advise me at Ottawa as to whether my suggestion is adopted, and if it is not, I think the school will have to be closed.

Yours sincerely,

DCH

SIR:-

I beg to forward you herewith Agency Voucher No. 254 for the sum of \$755.00, in favour of Rev. E. Maillard, Principal, St. Mary's Mission Residential School, and representing repairs to the heating boiler and laundry boiler.

It will be noted that the former amounts to \$495.00, while the latter is \$260.00. The authority contained in your letter No. 153-1-5 only allows for approximately \$450.00 and \$250.00 respectively, but I trust that the full amounts will be passed, in view of the fact that until the boilers were stripped down it was difficult to ascertain correctly the condition they were in.

I would, therefore, recommend the accounts for payment.

Your obedient servant,

A.O.N. Daunt

ALSO TO DATE OF THIS LETTER

Re--St. Mary's School, Mission.

Dear Dr.Scott,-

I beg to acknowledge receipt of your letter of the 17th with regard to St.Mary's Mission School, written from Kamloops. This reached my office on the 20th on which date I was in Vancouver. I had been to New Westminster on the 21st and returned to Victoria on the 22nd and immediately wrote to Mr.Indian Agent Daunt on the matter of your suggested change.

Yesterday I received a reply from the Agent in which he informs me that he has had a conference with Reverend Father Welch, and Reverend Father Maillard, Principal of the School, and while in general your views are approved of, it is thought that better results would be obtained if outside dormitories were erected instead of outside class-rooms. The Agent's remarks in this connection are as hereunder quoted, and I am inclined to agree with him.

"To meet this difficulty, therefore, I would
"suggest that instead of building temporary outside
"class-rooms, temporary outside dormitories be
"erected upon the plan of an Army Hut and capable
"of accommodating sixty beds each, arranged thirty on each
"side with a narrow passage down the middle and a door
"on either end. These could be adequately heated by two
"stoves each, and would eliminate all danger from fire,
"the extra cost of their construction over the class-
"rooms would be very slight, and the buildings themselves
"could be utilized later for such purposes as manual
"training etc. in connection with the new School when
"built."

In your letter of the 17th you did not intimate as to whether the cost of the new buildings would be borne by the Department or by the Church authorities, but as Agent Daunt states that these buildings could be used later on in connection with the new school, when built, I take it that it is expected they will be erected at the cost of the Department.

The buildings such as suggested by Mr.Indian Agent Daunt would necessarily have to be approximately 180 feet long by about 20 feet wide, but I think it would be much more preferable to make them wider and shorter in order that there may be four rows of fifteen beds as per attached schedule.. These buildings would be of frame construction, rustic outside with "V" joint and sheeting inside, 10 ft. walls and ceiled and would give ample cubicle space for sixty persons. Mr. Brown,

Dr.Duncan C.Scott,
Deputy Superintendent General
of Indian Affairs,
Ottawa.

September 8, 1928.

Dear Mr. Ditchburn:

I have your 15/12379 of the 28th ultimo, concerning the situation at the St. Mary's Indian Residential School. I note that the cost of erecting temporary outside dormitories would be approximately \$12,000. I regret that I cannot authorize such an expenditure, as the scheme is only a temporary one. It is quite probable that the new main building will be erected on another site.

I should be grateful if you would carry out the proposal in my letter from Kamloops. You should arrange for the erection of an inexpensive building, divided into two suitable classrooms. The materials, at a later date, might be used for outbuildings at the new school. The heating should be by box stove, and, when making the arrangements, you should keep in mind that it is but a temporary plan and that no unnecessary expense should be incurred. The only foundation required would be wooden sills, and the building need not be painted. I would suggest that the cost be not more than \$3,000.

I am satisfied that this arrangement, which you are authorized to make, is the most economical and will result in the least difficulties in the matter of administration. If the classrooms in the old building are turned into dormitories, the supervision will be easier than if two outside buildings were in use.

Yours very truly,

Duncan C. Scott

IN YOUR REPLY REFER TO

NO. 15/12629.

ALSO TO DATE OF THIS LETTER

VICTORIA, B.C. October 16, 1928.

Your File 153-1-5.

Dear Sir:-

Re St. Mary's Indian Residential School.

I beg to acknowledge receipt of your letter of the 8th instant with further reference to the proposed alterations at St. Mary's School, at Mission.

In reply I beg to say that this letter reached my office during my long absence in the North, and this, with alterations going on in the office, has thrown me back considerably in my work. I may say, however, that your suggestion that the children should be removed from the top dormitories and the class rooms used for dormitory purposes, and outside class rooms being erected to substitute those at present in use, is impossible of accomplishment in view of the fact that the class rooms are not large enough to accommodate any more than but a small percentage of the pupils.

On the 9th instant, I made a personal investigation of the building and found that except for one dormitory, the fire hazards in the main buildings are no worse than they have been ever since 1911. As a matter of fact they are somewhat better, as wooden fire escapes have been erected as the result of my inspection and report during that year.

These two schools (boys and girls) as you no doubt are aware, are at least 150 yards apart with a chapel building between. These buildings are heated by a hot water system, the furnace being located in the basement of the chapel. Therefore the fire hazard is extremely low. The buildings are old, a fact of which we are well aware, but that does not make them hazardous.

In the boys' building, there is one main, large dormitory approximately 33'x60' in which there are forty-six beds. Immediately over the kitchen there is an attic, which has been fitted up for a dormitory, and this is 20'x36' and contains thirteen beds, and to my mind, whatever fire hazard there is about this pile of buildings, it is in connection with this small dormitory over the kitchen, for if a fire were to take place in the kitchen, the pupils in the small dormitory would be in a perilous position.

I am attaching hereto a pencil sketch of the lay-

out

Dr. Duncan C. Scott,
Deputy Superintendent General
of Indian Affairs,
O t t a w a.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

(2)

for your information. Although this is a sketch of the boys' dormitory, it also shows the relative position of the fire escape from the girls' dormitory. In view of the fact that there is not sufficient room in the class-room for dormitory purposes, I would recommend that an outside class room for the boys be erected and the children in this small dormitory above referred to be brought downstairs to sleep in the present class room which is 18'x24'x12' and capable of holding twenty beds with also room for one of the staff. The door leading from the main dormitory to the room over the kitchen should be kept closed and locked at all times.

In the girls school, the pupils all sleep in the main part of the building (heated by hot water and lighted by electricity). There are forty-three beds in the main dormitory which is the same size as that of the boys, and immediately below, the room previously used as a sewing room is now utilized as a second dormitory. This room is 13'x24'x12' and in it there are thirteen beds. The girls class-room, which some years ago was in the front part of the building, is now used as a sewing-room and a commodious class-room has been erected of recent years close to the main building. There is, therefore, no necessity in my opinion to do anything more with regard to the girls' building except to alter the location of the fire escape which goes from the dormitory down beside the kitchen.

In view of the above, I, therefore, recommend that one fairly large class-room be erected, for the use of the boys, outside, as you proposed, and that further attention be given to the fire escapes by way of putting them in a more desirable position.

Your obedient servant,

W. E. Ditchburn

W.E.Ditchburn.

Dear Mr. Ditchburn:

I have your 15/12629 of the 16th instant, with reference to the proposed alterations at the St. Mary's Indian Residential School. Your suggestions are approved. Please make immediate arrangements for the erection of a boys' classroom and have the fire escapes put in proper positions. I shall be pleased if you will see that the best financial arrangements are made, as it is not the intention to spend a large sum of money for this temporary scheme.

Yours very truly,

COMMISSIONER'S OFFICE,
P. O. BOX 666

VICTORIA, B.C., November 19, 1928.

IN YOUR REPLY REFER TO
NO. 15/9/12960.
ALSO TO DATE OF THIS LETTER

Your file 153-1-5.

Dear Sir:-

I beg to acknowledge receipt of your letter of the 22nd ultimo approving of the alterations at St. Mary's Mission School, as suggested in my letter of the 16th ultimo.

In reply I beg to inform you that the contract for the building of an outside classroom 26 x 50 feet, as well as the changing of the position of the fire escape on the girls' building, has been let and work started. The contract was awarded to Mr. Albert T. Watkins, of Mission City, and the price is \$1,730.00, his being the lowest of the three tenders received as hereunder:-

The Mission Construction Co.....	\$2,350.00
Robert MacRae, Mission, B. C.....	2,250.00
Albert T. Watkins, Mission, B. C.....	1,690.00

All the tenders provided for cement foundation, but gave no figures for the moving of the fire escape. In Mr. Watkins' tender of \$1,690.00 he made no mention of installing electric wiring in this classroom and electric connection with the main building. In view of the fact that this building will, in all probability, have to be moved at a later date, the cement foundation was eliminated and cedar sills 10" x 10" on posts were substituted, as also was V-joint sheeting for the inside walls substituted for plaster as the plaster would crack if the building was moved. Besides this the plaster would take considerable time to dry out. An extension of 10 feet to the fire escape at the girls' building will have to be made to suit the condition of the new position. Consequently, Mr. Watkins' tender was increased by \$40.00, making a total of \$1,730.00 as above stated.

I would be obliged if you would forward me a cheque for the above amount made out in favor of Albert T. Watkins, of Mission, which would be turned over to the contractor upon his completing the building and other work and on receipt, from Mr. Indian Agent Daunt, of a statement to the effect that this work has been completed in a satisfactory and workmanlike manner.

I am attaching hereto copy of Mr. Watkins' original tender and the classroom will be built according to the specifications except as above stated cedar sills will take

Duncan C. Scott, Esq.,

Dear Sir:-

Re-Classroom erection at St. Mary's
School, New Westminster Agency.

I have the honor herewith to submit Voucher No. 134-A, receipted, for \$1,730.00 in favor of Mr. Albert T. Watkins, of Mission City, B. C., for the building of an outside classroom at the St. Mary's Indian School, Mission, B. C., New Westminster Agency, and the removal and alteration of the fire escape from the rear of the girls' building.

In accord with the request contained in your letter of the 29th November, I am enclosing the original tender of Mr. Watkins for \$1,690.00, but as explained in my letter to you of the 19th November, the cement foundation was eliminated and cedar sills on posts were substituted, also V-joint sheeting for the inside walls was substituted for plaster. This was to make up for the wiring of the classroom as connecting the same with the main building.

The sum of \$40.00 was charged for the removal of the fire escape from the rear of the girls' building to the front and additional new flight of steps on the bottom.

Possibly you may also desire the original tenders of Robert McRae (\$2,250.00) and that of the Mission Construction Company (\$2,350.00), and, therefore, I am also attaching these hereto for record in the Department.

WED/KD.

Ottawa, March 24, 1930.

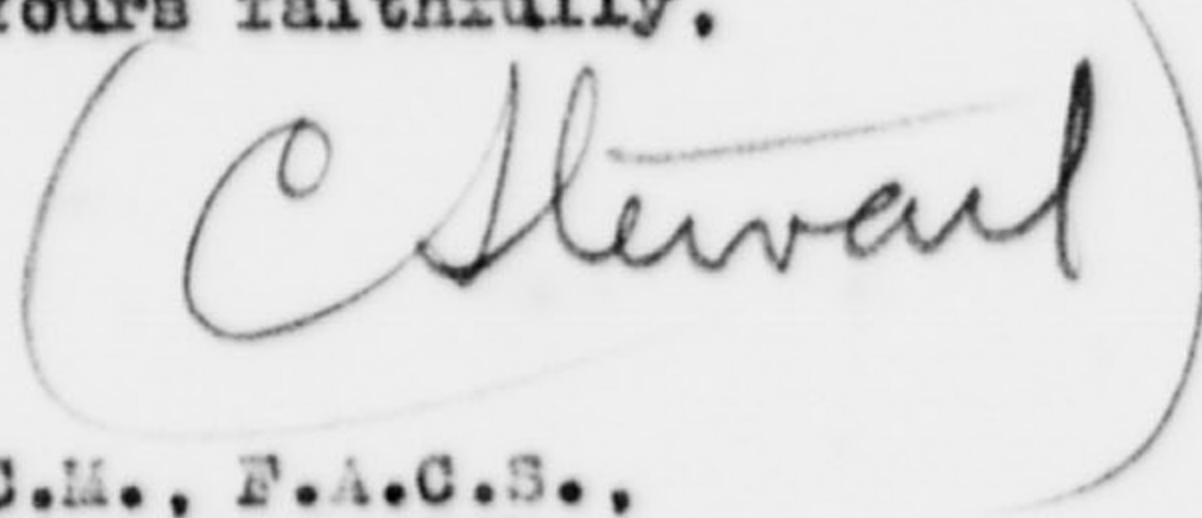

Dear Dr. King:

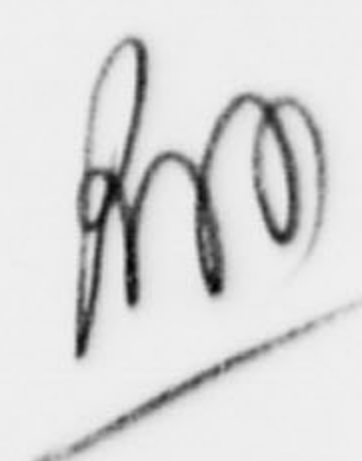

I have your letter of the 19th instant, urging that the Supplementary Estimates provide funds for the improvement of the St. Mary's Indian Residential School, at Mission, B. C. I have had the needs of this school in mind for some time and I believe that the only solution is to erect a complete new main building. The Department is now in communication with the church authorities, regarding the transfer of the site.

A few thousand dollars in the Supplementary Estimates could not be used to advantage. What is needed is \$150,000, or more, for a new main building. I am hoping to include this in next year's Main Estimates.

To prevent any loss of life in the event of fire at the old boarding school, the Department is paying for the services of a night watchman, who makes a continuous patrol of the property. This is, of course, an interim arrangement, until funds for a new building can be appropriated.

Yours faithfully,

Honourable J. H. King, M.D., C.M., F.A.C.S.,
Minister of Pensions & National Health,

DEPARTMENT OF INDIAN AFFAIRS

IN YOUR REPLY REFER TO

No. 15/9/18353.

ALSO TO DATE OF THIS LETTER

VICTORIA, B.C. July 18, 1930.

Dear Sir:-

Mr. Indian Agent Daunt, of New Westminster, has forwarded to me an account which he received from the Reverend Principal of the St. Mary's Indian Residential School, at Mission, B. C., amounting to \$1,029.00 for material used in the rehabilitation of the laundry building at that school with the expectation that the Department will recoup him for his expenditure.

In regard to this laundry I may say the last time I inspected it it was in very bad shape and in fact there was great danger of it collapsing altogether. However, in view of what I considered the possibility of a new school being erected at Mission at an early date, I did not mention this fact in any of my reports, deeming that the building might possibly last until a new school was erected. The account above referred to is only for material and apparently the labor is being done at the school. I would, therefore, recommend that I be authorized to have Mr. Daunt forward the account on to the Department for payment.

Kindly let me hear from you in this regard with as little delay as possible.

Your obedient servant,

WED/KD.

W. E. Ditchburn.
Indian Commissioner for B. C.

Sir:

I am directed to acknowledge your 15/9/18353 of the 18th instant, with reference to the reconstruction of the laundry building at the St. Mary's Indian Residential School. I note that approximately \$1,000 has been expended by the school authorities for material alone. In view of the condition of the Appropriation for Indian Education, I regret it is impossible to allow any unauthorized expenditure.

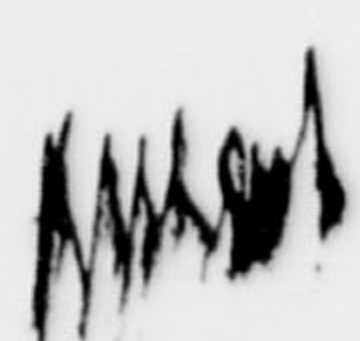

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

OTTAWA, September 11th, 1930.

Mr. Duncan C. Scott,
Superintendent, Indian Affairs,
Ottawa.

Dear Sir:

In the matter of building for the old Mission Indian School at Mission, British Columbia, I visited this School a few weeks ago and assured the Reverend Maillard that I would support your Department in a vote to provide new buildings. These buildings are in very bad state of repair and I feel that something should be done in the very near future to provide for their accommodation.

Trusting that the Department will be able to include a vote in the estimates for the general session, I remain,

Yours truly,

HJB:ML

Dear Mr. Barber,-

I have your letter of yesterday's date, with reference to a new building for St. Mary's Indian Residential School at Mission, B.C.

When the Estimates for the coming fiscal year are under consideration I shall take this matter up with the Minister and will keep your recommendation in mind.

ocl
Yours very truly,

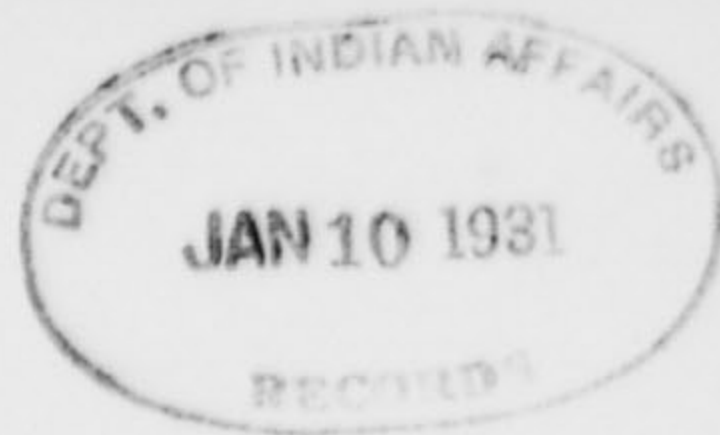

H. J. Barber, Esq., M.P.,

INSPECTION REPORT NEW WESTMINSTER AGENCY (NO.1).

X

X

X

ST MARY'S MISSION RESIDENTIAL SCHOOL:

I found 119 children there with Rev. T. J. Fohlman, O.M.I., in charge. He seems a most capable and keen principal. I went over the school with him and found all in as good order as could be expected in such an old building. I must admit that I shall be pleased when this building is rebuilt, as I dread the possibility of fire. I think some additional rope ladder fire escapes could well be put into the upper boys' dormitory. Possibly there are some left over from the old Lytton school. The girls' class rooms are very cramped for room.

There are eighteen cows milking and the dairy and barn were nice and clean. The potato storage shed was full, there being a good crop this year.

Sir:

Mr. Inspector Pragnell, in a report on his recent inspection of the St. Mary's Mission Indian Residential School, recommends that some additional rope ladder fire escapes, with ring bolts, be installed in the upper boys' dormitory. Mr. Commissioner Ditchburn, who forwards the report, also recommends that this equipment be supplied.

I have, therefore, to request that you will arrange for the purchase of the additional quantity of rope ladder fire escapes, with ring bolts, considered necessary, and have same properly installed. I shall be pleased if you will give this matter your prompt attention. Please forward an account, in duplicate, properly certified, covering the expenditure incurred.

His No. 1-8-A., dated March 18, 1931.

Original on 153-1-11.

XX

I would most earnestly draw the attention of the Department to the absolute necessity of a new school at Mission. Years have gone by since it was first promised, and I would like to remind the Department that were it not for this promise, the Reverend J. Duplanil, now at Kamloops School, would have repaired Mission School, so that it would have been safe for a good many years to come.

This winter has passed without any catastrophe on account of its extreme mildness, but I absolutely refuse to assume any responsibility for anything that may happen to the school and pupils in future. I have warned the Department time after time, and feel that I have done all I can in the matter.

Sir:

I wish to refer to your 1-8-A of the 18th ultimo, concerning the general situation at the St. Mary's Indian Residential School. It is understood that the building is in bad condition, but your language is such that the Department wonders if you have reference to any other than fire hazard. In the daytime, there is not much danger of loss of life by fire, and, at night, we have a constant patrol, for which the Department is paying. Please let me know if there is anything further that can be done to safeguard life at this institution.

Your obedient servant,

A. F. MacKenzie,
Secretary.

File No. 153-1-5

OFFICE OF
INDIAN AGENT

NEW WESTMINSTER, B.C.

April 7th, 1931.

SIR:-

In reply to your letter No. 153-1-5 of the 1st, instant, regarding conditions at St. Mary's Mission School, I beg to inform you that in my opinion, the building is not only a fire hazzard, but because of its age, is not properly speaking, weatherproof for young children.

The wind blows in one wall and out the other, and wreaths of snow may be seen along the walls, and for that matter may be felt round ones neck in bed.

This has been an exceptionally mild winter so no harm has been done, but even so, the cold in the school was most marked, and I always felt much warmer out on the road after leaving it.

I do not understand your allusion to the constant fire patrol, for which the Department is paying?

According to our Records, the last account for this service was passed on January 31st, 1929, under Voucher No. 549, for \$122.00 in favour of Rev. E. Maillard, then Principal. The service was a temporary one, pending the errection of outside fire escapes.

Everything about the building is so old, that apart from cold and draughts, it is never safe from fire, and such is the opinion of the local fire brigade. There is no doubt that this School should be one of the first to be renewed when the Department is able to undertake such work.

Your obedient servant,

A.O'N. Daunt,
Indian Agent.

Ottawa, April 18, 1931.

Sir:

I have your letter of the 7th instant, regarding the condition, especially with reference to the fire hazard, in the building at the St. Mary's Indian Residential School.

With reference to the night patrol at this school, I may say it was the Department's intention that this should be continued as long as the present building is in use. A competent man should be employed without delay for this service. The Department will allow a grant of up to \$50 a month for the purpose. The Reverend Principal and yourself should secure a reliable man immediately and have him make constant patrol of the school building while others are off duty. He should be paid by school cheque and, once every six months, you may prepare a voucher, in duplicate, in favour of the Rev. Principal, for the amount of our grant. On the face of the voucher, refer to the payment as grant towards the cost, etc.

Your obedient servant,

A. F. MacKenzie,
Secretary.

POOR COPY

153-1-5

EXTRACT from Report of Mr. Inspector G. H. Barry, dated March 16 & 17, 1931, on his Inspection of the ST. MARY'S MISSION INDIAN RESIDENTIAL SCHOOL.

Original on File 153-1-6.

FIRE PROTECTION:-

I wish to recommend the installation of an electric fire alarm in each building.

DORMITORIES:-

The dormitories are very clean. They are not overcrowded. The space occupied in the past by retired missionaries, now living in New Westminster, has been turned into extra dormitory accommodation. Ventilation is satisfactory.

The Principal wishes for 20 new beds. These are to replace beds completely worn out. I consider that these are needed as soon as possible.

WATER SUPPLY:-

The water for the school is piped from a creek. The quantity appears to be unlimited and the quality is excellent. There is a dam in the creek and a small reservoir. This dam and reservoir were built in 1928. The water in the reservoir is about 1 1/2 ft. below the spill-way. This is due to a bad leak in the retaining wall on the west side. There is the beginning of a cave in here. The tank or reservoir will not fill up owing to the leak, which is situated as far as I could discover between 10 and 25 feet from the S.W. corner of the reservoir.

I respectfully suggest that steps be taken as soon as possible to repair the reservoir.

LIGHT:-

The dynamo was installed in 1928. It is reported by Mr. Warren to have been so installed that it is running backwards. I do not know if this makes much difference to the current produced.

Covered Manure Pit: This is a building 80 ft. by 30 ft. It is set on a cement foundation and covered with a galvanized roof. It was built last November. The forms for the cement for the back wall were not put down to the bottom of the cement wall, nor was there any excavation of the bank behind the shed made at the time it was built.

The weight of the clay bank has bent the cement wall into a bow, thus throwing out the superstructure. To save the shed, the clay has now been excavated at the back and iron ties put in to hold the cement wall from giving any further. The cement wall has of course become cracked. An 80 ft. piece of rain trough is required for the front of the roof to prevent the rain from being blown into the shed. I do not know who was responsible for the building of this shed, but I consider the work to have been very badly done.

EXTRACT FROM LETTER OF MR. COMMISSIONER DITCHBURN, DATED APRIL 8, 1931, ENCLOSING ABOVE REPORT. - Original on File 153-1-6.

In regard to the Inspector's comments on the leak in the reservoir, I would recommend that this matter be taken up with the Dominion Water Power Branch with instructions to have the leak repaired.

May 28, 1931.

Memorandum to Mr. Webb:-

Re: St. Mary's School, Mission,
Water Supply.

An inspection was made of the reservoir of the above mentioned water system on the 24th of May. I found that repairs had been effected to the leak in the reservoir by the school authorities but that a leak was occurring through the creek bank above the reservoir which would not allow it to fill completely.

As I was unable to see the Principal of the school at the time of my visit, I interviewed Mr. Ed. Purcell who has charge of the system and under whose supervision repairs to the reservoir were carried out. He stated that the probable cause of the leak was the presence of poor ground at a point about two feet up from the bed of the reservoir and in close proximity to a large tree. This poor material as well as the tree root was removed and the locality refilled with good material and tamped. I informed Mr. Purcell of the other leak above the reservoir of which he stated he was aware and also that he expected to repair the leak shortly.

So long as there is sufficient water for the use of the school services no damage is likely to occur as a result of such leaks. The volume of water stored is not large and there is sufficient drainage to take care of such occurrences. The material in which the reservoir was excavated has held water successfully for over twenty years with very small loss, if any. It has been owing to the enlargement of the original pond and the breaking into new ground that resulted in uncovering the weak spots in the soil. Since these have been remedied as they have occurred, at very small cost, there is no reason to suppose that the reservoir will not hold water successfully,

Your file No. 153-1-5.

VICTORIA, B.C., June 4, 1931.

Dear Sir: Re Leak in Reservoir at St. Mary's
Residential School, Mission, B.C.

Referring to your letter of the 25th of April in which you instructed me to have an inspection made by an engineer of the Dominion Water Power & Hydro-metric Bureau of the extent of the leak at the dam at St. Mary's Mission School, as reported by School Inspector Barry, I beg to say that Engineer Warren visited the school on the 24th ultimo and found that the leak had been repaired by the school management. There was still at that time a small leak in the creek bank which was to be also repaired by the management at once.

I am attaching hereto for your information Engineer Warren's memorandum pertaining to his inspection, from which it will appear that there will be no necessity for the Department to take any further action in the matter.

EXTRACTS from Inspector Barry's Report on his
inspection of the ST. MARY'S MISSION INDIAN RES. SCHOOL
on November 24 & 25, 1931.

Original on File 153-1-6.

*Smiley
Too many
wide agent*

Fire Protection:- I wish to recommend that six 10 in. Fire Gongs be placed in the school, and two 6 in. Gongs, one in each class-room. The work of installing these Gongs and the necessary batteries and wiring could be done by the boys under instruction.

Fire drills are held regularly. At the one which took place during my inspection, the children were most orderly and showed that they had been well trained. With regard to the fire risk in these old buildings, there is nothing to add to my previous report. The Principal informs me that no heaters are kept alight at night and that a watchman is employed during the winter.

no funds

Dormitories:- The Principal has purchased four beds since my last report. In that report I stated that 20 new beds were badly needed. I have now to ask that 16 new beds be supplied. The dormitories are kept perfectly clean. There is no suspicion of overcrowding.

no

Sanitary Conditions:- In the boys' kitchen, another large sink is required. The boys of the Manual Training class would be able to erect this, should the Department provide the actual sink itself. This would cost about \$10.00.

OK

The outside Boys' Toilet is now too far gone to be worth any repair. I strongly recommend that the school be given \$100.00 worth of the necessary lumber and the boys will be able, under their Manual Training Instructor, to erect a new set of outside toilets. This matter is now urgent. Nothing could possibly be done with the present Boys' Toilets which are a wreck.

do this

The laundry building as reported early this year is a new building. It contains the usual tubs, two washing machines, and an extractor. About 1000 pieces of laundry go through the machines weekly. The boiler appears to be working in a more satisfactory manner lately. I have suggested to the Principal and would recommend to the Department that wooden guards be placed to protect children from the wheels and belts of the extractor and washing machines.

report at from agent

Woodshed:- The roof of the woodshed is in a perfectly hopeless condition. Rough lumber to the value of not more than \$150. is required to rebuild this most necessary woodshed. The above sum would include the necessary shingles. Some rough poles would be also required. These the boys could cut in the woods. The boys of the Manual Training Class, working under their instructor, could easily construct the required woodshed. I would recommend that the rough lumber and shingles be provided by the Department.

do this

Farming:- The roof of the old machinery shed is in a hopeless condition. It could be repaired or rather resingled by the boys of the Manual Training Class, if the necessary shingles were provided by the Department. As Number 2 shingles would be satisfactory on the roof of this shed, I consider that the total cost of the necessary shingles would not exceed \$10.00 and the rough lumber for sheeting another \$35.00. The total cost with nails would not exceed \$50.00.

Cost

Stock:- I wish to recommend the provision of about fifty young apple trees of approved variety. A number of blanks should be filled in the "Hill Side" orchard, and additions should be made to the orchards. The young trees would not cost the Department a large sum and the benefit in the years to come to the children at the school would be great.

Ottawa, January 29, 1932.

Sir:

Mr. Barry, Inspector of Indian Schools for British Columbia, in a report on his inspection at the end of November, last, on the St. Mary's Mission Indian Residential School, recommends that 6 - 10 inch fire gongs be placed in the school and a 6 inch fire gong in each classroom. He states that if the gongs, wire and batteries were supplied, the work of installing same could be done by the boys under the supervision of the manual training instructor. In this connection I have to request that you will furnish a recommendation regarding the supplying of gongs. You should state the number and size required. It should not be necessary to supply the number of gongs recommended by the Inspector. Only the number of gongs considered by you to be absolutely necessary should be considered.

The Inspector states that the outside toilet for the boys is beyond repair. He recommends that the necessary lumber be furnished and that the boys, under the supervision of the manual training instructor, could erect a new set of outside toilets. The Department will approve of an expenditure not exceeding the sum of \$100 being incurred in the purchase of the lumber required, and you may arrange for the purchase and delivery of same.

The Inspector also recommends that wooden guards be placed around the extractor and washing machines in the laundry, in order to protect the children from contact with the wheels and belt. The Inspector discussed this matter with the Principal. Please instruct the Principal to arrange to have satisfactory guards placed where required around the laundry equipment.

The Inspector has also drawn attention to the condition of the woodshed. He states that it should be rebuilt, as the roof is in a hopeless condition, and that, if rough lumber and shingles were supplied, the boys of the manual training class could make the necessary repairs. I shall be pleased to have a report from you regarding the repairs required and the cost of supplying the material necessary in having the woodshed repaired.

The Inspector also draws attention to the condition of the roof of the old machinery shed. He states that it should be resingled, and that the cost of the necessary shingles and rough lumber for sheeting and nails required would not exceed \$50. The Department will approve of you arranging for the purchase of

shingles, lumber and nails required. You should make the above authorized purchases of lumber, etc., from indicated sources, and you should arrange with the school authorities to have the roof of this old machinery shed repaired. You should forward an itemized account, in duplicate, properly certified, covering the expenditure incurred.

I may add that the Department has no funds to supply the number of new beds as recommended by the Inspector.

The Inspector has recommended that about 50 young apple trees be supplied, in order that a number of blank spaces could be filled in the "Hill Side" orchard and additions made to the orchards. I shall be pleased to have your views regarding this matter, together with an estimate of the cost of any trees you would recommend be supplied.

Your obedient servant,

T. R. L. MacInnes

File No.1-8-A.

NEW WESTMINSTER, B.C.
February 22nd, 1932.

SIR:-

I beg to acknowledge receipt of your letter File No.153-1-5, dated the 29th ultimo, regarding certain repairs, recommended for St. Mary's Mission Indian Residential School, by Mr. Barry, Inspector of Indian Schools in British Columbia.

*Maintained only
OK
AM*

In this connection, it appears to me that two fire gongs should be quite sufficient, one on each dormitory building. The class-rooms being immediately outside are easily within hearing of these gongs. The lumber and hardware necessary for the repairs mentioned by you will come to approximately \$206.00. This includes repairs to the woodshed, which you request me to have estimated for. In addition the two fire gongs will cost \$26.80 each F.O.B. Vancouver. I shall be glad to receive your final instructions regarding these matters.

I spoke to Mr. W.B. Anderson, Supervisor of Indian Orchards yesterday, with regard to the fifty (50) young apple trees, and am informed by him that it is not usual to supply trees to Indian Schools. He also considers that the present orchard sufficient for the requirements of the Institution.

Your obedient servant,

A.O.N. Daunt
A.O.N. Daunt.

CANADA

Ottawa, March 2, 1932.

Sir:

I have your letter of the 22nd ultimo, regarding certain repairs recommended by Mr. Inspector Barry at the St. Mary's Mission Indian Residential School.

In reply I have to say that you may arrange for the purchase of two fire gongs, also the lumber and hardware necessary in making the repairs required to the woodshed, at a cost not exceeding the estimate as mentioned in your letter. The purchase of the materials should be made from a firm on the list to receive consideration, in accordance with departmental instructions. It is expected that all labour will be carried out by the school staff without expense to the Department. After the purchase of the materials and fire gongs has been made, you should forward an account, in duplicate, properly certified, covering the expenditure incurred.

The Department is not prepared to authorize the supplying of the young apple trees recommended by Mr. Barry. It is noted that the Superintendent of Indian Orchards considers that the present orchard is sufficient for the requirements of the school.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

SCHOOLS

On the 21st of June, I visited the Indian Residential school at Mission, in charge of Rev. Father Fohlman, Principal. There were 138 children in school at the time of my visit. I found everything in good order, and saw the children at their mid-day meal, which was good one. Grades 2 and 3 read for me for a short time, and as a whole, their work was quite good and well up to standard. The chemical for fighting apparatus had been properly refilled, and will be again recharged during the summer holidays. The crops on the school farm seem to be very good indeed this year. However, as already known to the department this is a very old building, and not at all easy to keep in good order.

Certificate of Inspection of Steam Boilers.

This Certificate expires July 18th, 1934.

I hereby certify that I have this day inspected
the steam boilers No. 3000B.C.,
of Indian Residential School, Mission City, B.C.,
in the Province of British Columbia, where the
Mr. Ed. Purcell, is in
charge, and having carefully examined the said steam
boilers have found the same in Good
condition, and, therefore, authorize a steam pressure
of 150 pounds per square inch and
no more.

Dated this 19th day of July, 1933.

Type of Boilers Vertical Tubular,

Horse-power 4.

Inspection No. 1933.

POOR-COPY

Ontario Boiler, No B.C.
Number, Continued.

The whole brickwork of this boiler is in a very poor condition, and many cracks are showing. Attempts have been made to prevent them getting worse but with poor success.

This boiler was not properly installed at first, the supporting lugs being built into the brickwork instead of being supported on H. Beams and clear of the brickwork, also the smoke uptake is constructed of brickwork instead of steel which adds several tons weight to the brickwork of the boiler.

This boiler should be taken out and properly installed, which will cost approximately Two Thousand Dollars (\$2,000.00).

I pointed out to the principal of the school and his engineer in charge temporary methods to strengthen the weak parts which if done will not cost very much and with care will last this coming firing season, but the danger pointed out is still there. After this firing season measures must be taken to have it properly installed. When this is done a new site should be chosen which should be on the hill side in front of the school where a boiler room could be cheaply constructed which would be both dry and well ventilated.

I gave this boiler a Hydrostatic Test of 45 lb. per square inch and found it in fair condition.

Internally the boiler is in a very fair condition. All the stays and rivets are sound, there is very little corrosion on the plates but the tubes are badly pitted, some of the pits are nearly through and no doubt some will leak before the season is over. They are too far gone for preventive measures and must take their course and last as long as they will.

I would recommend that 5 or 6 tube stoppers be procured at a cost of about \$3.00 each and if a tube starts to leak the Engineer can plug it in a few minutes and repairs can then be made at the end of the season.

The fusible plug must be renewed at a cost of \$1.50.

The firebars are in fair condition and will need no attention.

I have not issued a certificate for this boiler but will do so after the re-inspection which will be necessary when the temporary repairs are completed. At that time I will also set the safety valves.

Boiler No. 3000 B.C.

I gave this boiler a careful inspection and hammer test and found it in very good condition. There is very little internal corrosion. The boiler mounts are in good condition and the safety valve works freely. The fusible plug must be renewed. This boiler is about one third too small for economical operation.

RECORDS

C. F. Dawson, Esq.,
Dist. Res. Architect,
Dept. Public Works, Canada,
Victoria, B. C.

Dear Sir: re: Inspection of Boilers and Machinery,
Indian Residential School, St. Mary's
Mission, Mission City, B.C.

On July 17th and 18th, 1933, I made an inspection of the
mechanical plant of this School, which consists of,

One Horizontal return tubular boiler, 60" Diameter,
and 14' long, having seventy 3" x 14' tubes using
steam at 15 Lb. per square inch, rated at 90 H.P.,
built in Ontario in 1913, but not registered in B.C.,
used to supply steam to the various wings of the
School.

One Vertical tubular boiler 20" x 44" having fourteen
2" x 22" tubes built in B.C. in 1929, rated 4.3 H.P.
and numbered 30000 B.C., supplying steam at 150 Lb.
per square inch, used for the laundry machinery, etc.,
also machines used for canning fruit, etc.

Ontario Boiler, no B.C. Number.

*what would
you advise
regarding these
boilers. We
have no funds
to supply new
boiler or
for repairs
J.D.*

This boiler is in a very poor and even dangerous condition.
There was no basement under the School and a boiler room
was constructed at the rear of the building by making an
excavation 25 ft. deep and installing the boiler in the
bottom, leading the steam mains and returns to the various
wings of the School through the ground without any protection
against the conductivity of the soil, which in this case will
take up approximately 40% of the boiler power, and their
installation is very rigid. This boiler room is very poorly
ventilated, damp and absolutely dangerous, as from its
position it collects all the seepage from the high hill at
the rear of the school, and it is badly drained. I was
informed that when it was installed a wooden drain was put
in but it has rotted away and caved in. I would like to point
out that, as it is at present, should a leak of any magnitude
take place the attendant might be very badly burnt before he
could get out, as this boiler contains approximately 12 tons
of boiling water and steam. Even if the attendant got out the
steam and hot water would prevent anyone from getting down
there and putting out the fire, so in that case the boiler
would be badly damaged or even ruined.

Owing to the poor ventilation the boiler has been badly
sweating which has caused considerable external corrosion
on both tube plates and the plates exposed to the fire. To
prevent this, at the close of the firing season the boiler
should be thoroughly cleaned off, painted and left dry.

POOR COPY

Ottawa, November 7, 1933.

Sir:

The Department has received the report of Mr. T. J. Arnall, Engineer, Dominion Public Works Department, on his inspection, last summer, of the boilers at the St. Mary's Mission Indian Residential School.

With reference to Boiler No. 3000 B. C., he states that he found same in very good condition but recommended that the fusible plug be renewed. You should have the engineer of the school renew the plug. Concerning this boiler, he stated that there was very little internal corrosion but that it is one third too small for economical operation.

Regarding the Ontario boiler (no B. C. No.) I enclose copy of his report on its condition. You will note that the Inspector pointed out to the Principal of the School and his Engineer the temporary repairs which could be carried out to strengthen the weak parts. He states that these repairs would not involve very great expense and that, with care, the boiler would last the coming firing season. The Department will have no funds this year to provide the cost of supplying and installing a new boiler. You should see that the engineer of this school makes the temporary repairs, as suggested by the Inspector. It is hoped that, as a result, this boiler will be serviceable during the coming winter. It is noted that the Inspector did not issue a certificate for this boiler. He is not being asked to make another inspection, but the school engineer should carry out his recommendations, as set forth in the Inspector's report mentioned in the copy enclosed.

Your obedient servant,

A. F. MacKenzie,
Secretary.

OFFICE OF
INDIAN AGENT

153-1-5
NEW WESTMINSTER, B.C.
December 18th, 1933.

File No. 1-8-A.

SIR:-

In reply to your letter dated the 7th of November, File No. 153-1-5, regarding the heating system at St. Mary's Mission Indian Residential School, I beg to inform you that the fusible plugs have been renewed and a supply of tube stoppers procured: the brick-work outside the Ontario boiler has been done over entirely and the outside repaired considerably. A new safety valve has been installed and a successful effort made to overcome the rigidity of the system by placing an expansion-joint in the main. The drainage system has been altered somewhat, and in the heavy rains of this Autumn much improvement was noticeable. An effort is being made to provide better ventilation for the boiler-room.

*noted
jm*
The School have gone to a very considerable expense this Fall to reduce the loss of heat in transit: the mains and returns have all been bared and covered anew, this time in heavy cedar boxing filled with first-class insulation and enclosed in double saturated craft tar paper.

The recent cold spell was a severe test of the worth of these improvements, and the system stood that test admirably.

Your obedient servant,

A.O.N. Daunt

EXTRACTS FROM REPORT OF G. H. BARRY, DISTRICT INSPECTOR
OF INDIAN SCHOOLS, VICTORIA, B. C., (P.O. Box 666),
following his inspection of ST. MARY'S INDIAN RESIDENTIAL
SCHOOL on December 13th and 14th, 1933 - report forwarded
by Asst. Indian Commissioner C. C. Perry, January 4, 1934.

Original on 153-1-6.

x x x x x x x x x x x

x x x x x x x x x x x x x x x

Buildings:

A new central building of frame construction, with stucco exterior and plaster finish inside, and set on cement foundations, has been constructed. This central building contains the new DINING ROOMS, which will hold about 100 girls and the same number of boys, STAFF DINING ROOMS, DORMITORY for about 40 children, GENERAL KITCHEN, MANUAL TRAINING SHOP, DAIRY, and accommodation for the dairyman and manual training teacher, besides several other rooms, toilets, bathrooms, etc.

This building cost in the neighbourhood of \$16,000.00 and was paid for by the Oblate Order.

The old boys' building has been reconstructed and placed on cement foundations. The outside has been finished in stucco, and the inside after complete reconstruction, has been plastered. It is impossible to report in detail on the various new dormitories, etc., as the children had not moved in when I left the school. The central heating has been greatly improved. Most of the small heating stoves which were in this building have been removed, greatly reducing the fire risk. Steam heating is used. On the completion of the present reconstruction, I understand the Girls' Building will be renovated in much the same way as the work has been done on the Boys' side. It should be added that the main roof on the Boys' Building has been covered with fire-proof shingles.

Sanitary Conditions:

The drainage from the buildings is to two old septic tanks. A new septic tank is being constructed for the new building. The drainage system appears to be working in a satisfactory manner. Though conditions were very adverse during my inspection, due to the fact that building construction was underway, and the school full of workmen, the various toilets were perfectly clean, and with the exception of the necessary litter always present while plasterers and carpenters are at work in a building, the school was throughout in a perfectly clean and sanitary condition. The children have supervised baths at least once a week.

EXTRACTS FROM REPORT OF INSPECTOR BARRY (Concluded)

Water Supply:

I have nothing to add to my report of November 1931 with regard to the water supply, which appears to be satisfactory. The water is piped from a small reservoir and is sufficient in quantity and of good quality.

- - - - -

Boiler Room:

The building over the boilers is to be reconstructed this year (1934). The boilers will probably be quite satisfactory for another year. A special report has, I understand, been made to the Department with regard to the boilers here. I do not consider the boiler room to be dangerous for the attendants, though it is below the ground level. The steam pipes to the building have been uncovered by digging and later recased to prevent leakage of heat.

Ottawa, January 15, 1934.

Sir:

I have your 15/32536 of the 4th instant, enclosing a communication which you received from Mr. G. H. Barry, Inspector of Indian Schools, B. C., together with his inspection report on the St. Mary's Indian Residential School.

The Department has noted that the work being performed in the classrooms is satisfactory and that very good progress is being made by the pupils.

The Department has also noted the building operations that have been carried out by the church authorities, providing extra accommodation for 100 children. All this work has been undertaken without reference to the Department. Our Estimates for the coming fiscal year are made up and before the Treasury Board. It is therefore unlikely that it will be possible to provide a grant for any increased enrolment at this school for the coming fiscal year. I have noted that the drainage, water supply and heating arrangements have been greatly improved and also that good dormitory accommodation is provided for an increased pupilage and fire hazard greatly reduced.

It is noted that the Principal intends to visit the Department and that he will submit blue prints showing all changes carried out in the buildings.

Dear Father Gillen:

As requested during your recent visit, an order is being placed with the Singer Sewing Machine Company here to supply, from their nearest branch office, for the use of the St. Mary's Mission Indian Residential School,-

- 2 Singer Sewing machines, of the household type, and
- 1 Tailor's machine.

The account, covering the cost, showing discount allowed, will be sent you in quadruplicate. I would request that you certify on three copies as follows: "Goods received - prices charged fair and just", and forward same promptly to the Department, in order that payment can be made before our books close at the end of the present fiscal year. You should retain the fourth copy for record on your file.

It is hoped, when these machines arrive, that they will be satisfactory.

With kind regards,

Yours sincerely,

J. D. Sutherland,
Acting Supt. of Indian Education.

Minister's Office

MEMORANDUM

C.

Feb. 13th, 1934.

Dr. McGill.

Under date of the 9th instant I sent you a memorandum with regard to the condition of the Indian Residential School at Mission City. The Minister has received advice to the effect that a new school is required, and that such being the case, it might be erected under a public works building programme, if and when such a programme is instituted.

The Minister would like a report as to whether in the opinion of the Department a new building is really essential.

Private Secretary.

B. M. February 16, 1934.

Memorandum: The Honourable the Superintendent General.

With further reference to the St. Mary's Indian Residential School at Mission, B. C., and my memorandum of the 12th, I beg to say that it is not considered essential that a new residential school be erected at this point at the present time.

In 1928 there was a serious situation at this school in view of the heavy responsibility which both the Church and the department had to assume, due to the great risk of fire in the housing of the children in the old buildings, which made it necessary for the department to seriously consider the closing of the school. A new building was contemplated at that time, but no funds were available. Since then as mentioned in my memorandum of the 12th the Oblate Fathers have carried out additions and repairs. They also I understand propose making further improvements to the existing buildings during the coming summer. With these improvements the buildings will meet the needs of the Indian children in that locality for some time to come.

NEW WESTMINSTER

JUNE 11 1934

Dear Sirs:

A letter from Mr. Daunt, the Indian Agent at New Westminster enclosed yours of June 4th. to him. He enquires about the machines you supplied to our School in February. Naturally he knows nothing about the machines as they were ordered directly by the Indian Department at and from Ottawa, and I fancy collection should be made from those who placed the order.

When your statement arrived some time ago, thinking that a mistake had been made in sending it to me, I glabced at it, and, I fear, consigned it to the flames, for I was glad to feel that there was one bill at least the payment of which need cause me no anxiety.

I am sorry if my failure to treat the bill otherwise has caused you this long delay in receiving payment for the machines, and I am sorry that Mr. Daunt may have been put to inconvenience as a result, while, at the same time, being given an occasion to wrongly conclude that I am remiss in the important duty of paying bills.

The Indian Department officials in Ottawa last January gave me to understand that the purchase and payment would be made in Ottawa, while credit for the sale would go to the Vancouver branch of your Company since delivery would be arranged from there.

I have O.K.-ed the bills and returned them to Mr Daunt.

Yours truly,

Principal.

*Noted for
Estimate 1935*

Dear Sir:

Re: Inspection of Boilers & Machinery,
Indian Residential School,
Mission City, B.C.

*Estimate 1934-35
2000 to
install new
boiler*

Boiler No. 00 - (Manufactured by E. Leonard & Sons, Ont.)

On July 10th, 1934, I gave this boiler a careful external and internal inspection and found quite an improvement in its condition.

Upon internally inspecting it I found several of the tubes on the top row so thin that I could push my testing hammer through them. Many others on both the front and back tube sheet, with a slight tap of the hammer, crumbled like egg shells.

The stays, rivets and plates are in fairly good condition.

This boiler must be retubed at once. After this boiler is retubed another inspection will be necessary. I could not give it a hydrostatic test on account of the condition of the tubes.

New test cocks and water gauge glass cocks are required.

After being retubed and inspected I will issue a certificate of condition and allow a steam pressure.

The temporary repairs pointed out in my last year's report have been carried out. A new entrance is being made to allow a more direct exit.

When this boiler is retubed, with care it can be operated this coming season, at the close of which it must be raised to almost the ground level and suspended in a proper manner on a concrete floor. At that time it will be necessary to install two electric driven automatic condensation pumps, placed one on each end of the long steam mains, which have now been insulated and I have been informed made a considerable saving in fuel.

When the whole of the necessary alterations have been made, this school will have a first class economical plant, which should give no further trouble except minor repairs for several years.

.....

Indian Affairs (RG 10 Volume 6470, file 890-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

Boiler No. 300

On the same date I gave this boiler a careful internal and external inspection and found it in first class condition.

I then gave it a Hydrostatic test of 225 lbs. and found it perfectly tight, except for a very slight moisture on the top tube sheet.

I set the safety valves to blow off at 150 lbs. water pressure. The Steam Gauge is correct.

I have issued a certificate allowing a steam pressure of 150 lbs. and condition good.

Auxiliary Machinery.

The auxiliary machinery is in apparently very good condition. All the guards previously reported on have been installed.

The Pelton water wheel is in very good condition. There is no play in the bearing or thrust. It has been well looked after.

Yours respectfully,

T. J. Arnall

T.J. Arnall,
Engineer.

POOR-COPY

St. Mary's Indian Residential School

UNDER THE DIRECTION OF

The Oblate Fathers

MISSION CITY, B.C. Sept., 19th., 1934

Mr. A.O'M. Daunt,
Indian Agent,
New Westminster, B.C.

INDIAN OFFICE
NEW WESTMINSTER
SEP. 20 1934

Dear Sir:

After the visit of Mr. Arnall to our School I studied the rather long list of recommendations made by him regarding our boiler, - studied it in order to find, if possible, some way to do all that he desired to see done.

The result of my efforts to figure out ways and means was not eminently successful. I cannot without incurring unwarrantable debts do all he requires, but I fully realize the need of it all.

This being the case I appeal to the Indian Department for assistance.

During the past fourteen months I have made additions and alterations to St. Mary's School which, done in the ordinary way of careful contracting, should have cost at least Twenty Five Thousand Dollars. The purpose of all this work and expense was to provide better accommodation for the Indian children of this district and to put our School into condition the better to serve the Department. In ordinary times we should have asked and received financial aid from the Department, but knowing the conditions of the times we did not urge that the Department assist in that way.

Now, however, that the Boiler-Inspector's recommendations come at a time when we find ourselves impoverished and indebted on account of improvements already made to the School, we must ask the consideration of the Department, and financial aid.

The Inspector requires the renewing of seventy, fourteen foot three-inch tubes, and that these tubes be annealed before they are installed, and rolled and beaded at each end; that a hydrostatic gauge, three test-cocks, and two water-gauges be provided, that the boiler be raised and placed on steel girders, and that new stairs be put in leading away from the boiler as exit through the side wall of the boiler-room. He also calls for a new raised roof and better lighting.

This extensive alteration and improvement program cannot be carried out for a Thousand Dollars, yet it would be worth much more than that amount to the School and, I think, to the Indian Department also. Will you please, therefore, request of the Department that help be given us to perform this work.

Yours very truly,

A.M.D. Giller
Principal.

September 20th, 1934.

SIR:-

I beg to forward you herewith, a request received from the Reverend Principal of St. Mary's Mission Indian Residential School, for assistance towards carrying out the recommendations of the Dominion Government Inspector, regarding repairs and alterations, which he considers necessary to the heating plant at the School.

The Reverend Principal also draws attention to the large amount of improvement work done by the Oblate Fathers to the School buildings, without expense to the Department.

This work is of great advantage to the Indians of the lower Mainland and adjacent Interior, and I would point out that it is seldom School Authorities undertake such expenses on their own account. Under the circumstances, therefore, the plea for assistance is an exceptionally strong one, so I would strongly recommend that it receive the utmost consideration from the Department.

The figure of \$1,000.00 is not definite, but if the Department feel that they can give this matter consideration, I shall, at once, get an estimate of the actual cost of these alterations for final approval and authorization.

In connection with the building improvements mentioned by the Reverend Principal, this School was visited by Doctor E.L. Stone, Director of Medical Services, in June of this year, who went over the buildings, and I am sure he will endorse my confirmation of the value to the Indians and the Department, of the work performed by the School Authorities.

Your obedient servant,

A.O.N. Daunt.
Indian Agent.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

October 1st, 1934.

Memorandum:

DR. MCGILL, -

Mr. A. O'N. Daunt, Indian Agent, New Westminster, B. C., forwards a request from the Principal of the St. Mary's Mission Residential School for the supplying and installing of a new boiler, to replace one of the boilers which has become unserviceable. An Engineer of the Department of Public Works, Victoria, B. C., who recently inspected this boiler, states as follows:- "Upon internally inspecting it, I found several of the tubes on the top row so thin that I could push my testing hammer through them. Many others, on both the front and back tube sheet, with a slight tap of the hammer, crumbled like egg shells."

This school is a church-owned institution. The Department, in the past, has incurred expenditures in repairs, etc. Recently, the church authorities have undertaken improvements to the buildings by way of additions and alterations, to a cost of \$25,000. There is an amount of \$2,000.00 provided in the Estimates for the current fiscal year for a new boiler and alterations to the boiler room at this school.

In view of the fact that this building is not the property of the Department, I would be pleased to be advised whether it would be in order to proceed with the arrangements for the purchase and installation of a new boiler. The Agent states that the cost would be, approximately, \$1,000 for the supplying and installing of the boiler.

October 9th. 1934.

MEMORANDUM

The Honourable the Superintendent General -

Attached is a memorandum from Mr. Sutherland with regard to the necessity for a new boiler in the St. Mary's residential school, New Westminster, B.C.

This is the type of difficulty that confronts us repeatedly in connection with buildings owned by the Churches where we pay per capita grants. It is still an open question as to the responsibility for additions and repairs that may be required from time to time.

In the present instance, in view of the fact that the Church has incurred expense in the way of additions and alterations to the buildings and we have increased the number of pupils eligible for the per capita grant, I would recommend that the expenditure be authorized for the installation of a new boiler as requested.

Harold W. Gill

Deputy Superintendent General.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

1-8-A.

Ottawa, October 27, 1934.

Sir:

Referring to your letter of the 20th ultimo, enclosing a communication which you received from the Principal of the St. Mary's Mission Indian Residential School, with regard to the condition of one of the boilers, I would request that you obtain an estimate of the actual cost of the installation and repairs, as recommended by the Engineer, Department of Public Works, who inspected this boiler in August, last.

It is noted, the Engineer required the renewing of 70 - 14 ft. 3 in. tubes - to be annealed before being installed, rolled and beaded at each end; that a hydrostatic gauge, 3 test cocks and 2 water gauges be provided; that the boiler be raised and placed on steel girders; and that new stairs be put in, leading away from the boiler as exit through the side wall of the boiler room.

For your information, I may say that there is available, in our Appropriation for the present fiscal year, the sum of \$2,000 for the boiler repairs and alterations to the boiler room. It is hoped, however, that the work required in the repairs to the boiler and alterations will not exceed to any great extent your figure of \$1,000.

I shall be pleased if you will report, at an early date, full particulars and cost of what is required to place the heating equipment at this school in a satisfactory condition. No doubt, you have a copy of the report of the Engineer who inspected the boiler, dated August 29th, last.

Your obedient servant,

A. F. MacKenzie,
Secretary.

File No.1-8-A.

153-1-5
DEC 1 1934
NEW WESTMINSTER, B.C.
November 26th, 1934.

SIR:-

With reference to your letter dated the 27th of October, File No.153-1-5, in which you request me to report, giving full particulars and cost of what is required to place the heating equipment at St. Mary's Mission Indian Residential School in a satisfactory condition.

I beg to inform you that I visited this School, in company with Mr. T.J. Arnall of the Dominion Department of Public Works, who inspects the boilers in connection with our Schools throughout the Province.

We found on arrival that the Reverend Principal had already the work well in hand, as he could not keep the School without heat this time of year. Mr. Arnall was under the impression that, while the work was not totally in accordance with his report to the Department, it would be satisfactory and meet the situation generally.

I am enclosing a statement received from the Reverend Principal, showing in detail the material which has been purchased and the labour which has been paid for, amounting to \$1,338.00, or about \$700.00 less than was called for in the report submitted by the Boiler Inspector.

I would recommend that authority be given to forward vouchers for this expenditure, the more especially as the School has made wonderful improvements and incurred heavy expenditures in practically rebuilding the School, in order to take care of the educational requirements of the Indian children of the District, for which great credit is due them.

Your obedient servant,

A.O.N. Daunt
A.O.N. Daunt.
Indian Agent.

Ottawa, December 3, 1934.

Sir:

I have your letter of the 26th ultimo, regarding the repairs required to place the heating equipment at the St. Mary's Indian Residential School in a satisfactory condition. In this connection it is noted that, on your recent visit, accompanied by the Engineer of the Dominion Department of Public Works, you found the Principal already had the repairs well in hand. The Department notes, further that while this work, when completed, will not be entirely in accord with the Engineer's report, it will be satisfactory and meet the situation generally.

E.R. 2619

It is noted, from the Principal's statement, which you forwarded, showing in detail the material purchased and the cost of the labour employed, that the expenditure incurred amounts to a total of \$1,368. You may forward, for consideration, labour returns, showing in detail the time each tradesman was employed, stating the number of days and the rate paid per day. If the Principal has already paid for the labour, the returns should be receipted by the individual labourers. Accounts, in triplicate, giving in detail the materials purchased, should also be forwarded. If these accounts have been paid by the Principal, they should be receipted: if not, cheques could be sent to the individual firms. You should attach these accounts to proper voucher forms and certify in the usual manner.

ASM

It is hoped that, when the repairs to the heating equipment are completed, they will prove entirely satisfactory to yourself and the Engineer of the Dominion Department of Public Works.

Your obedient servant,

A. F. MacKenzie
A. F. MacKenzie,
Secretary.

POOR COPY

DEPARTMENT OF INDIAN AFFAIRS
CANADA

File No.1-8-A.

OFFICE OF
INDIAN AGENT

NEW WESTMINSTER, B.C.
January 9th, 1935.

SIR:-

With reference to your letter dated the 3rd of December, File No.153-1-5, in which you give authority for the expenditure of \$1,368.00 approximately, in connection with the refund of the cost of repairs to the Heating System at St. Mary's Mission Indian Residential School.

I beg to forward you herewith the following Vouchers:-

No.846, Reverend A.D.M. Gillen, Principal,
covering accounts paid by him,
receipts attached----- \$467.30

No.847- Mission Sheet Metal Works,
Mission City, B.C.----- 75.64

No.848- Evans, Coleman & Evans,
Vancouver, B.C.----- 119.52

No.849- Terminal City Iron Works,
Vancouver, B.C.----- 80.03

No.850- Clayburn Company, Limited,
Vancouver, B.C.----- 114.48

No.851- Marshall-Wells B.C., Limited,
Vancouver, B.C.----- 15.77

No.852- Vancouver Iron Works, Vancouver, B.C. 558.33

Total----- \$1,431.07

This makes a total of \$1,431.07, and \$63.07 in excess of the authority in your letter. I am, however, forwarding the accounts and trust that funds will be available to meet this extra expense, as at the time the estimate was submitted, it was difficult to exactly judge the cost, in fact the Reverend Principal has refrained from rendering several accounts connected with this work.

The Heating System is working efficiently now, and in view of the very heavy expenses the Oblate Fathers have gone to in renovating the School and increasing its capacity, I would recommend that the accounts be paid, as presented.

Your obedient servant,

A.O.N. Daunt.
Indian Agent.

Sir:

With reference to the enclosed voucher which you forwarded under cover of your letter of the 9th instant, I would point out that the account from Evans, Coleman & Evans is not sufficiently detailed. For instance, there is a charge of \$59.22 for cement. The account does not state the number of bags and rate per bag.

You should secure a new account from this firm giving the information required, and return same for payment.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Ottawa, March 16, 1935.

Sir:

With reference to the allowance which the Department has been making for a night watchman's services at the St. Mary's Mission Indian Residential School, I beg to say that it has been found necessary to curtail this expenditure to a certain extent. Consequently, you should inform the Principal that no grant towards the night watchman's salary will be allowed after April 30, 1935.

Payment of the allowance towards the night watchman's salary will be resumed from October 1, 1935, and will be continued until April 30, 1936, a period of seven months, at \$50 a month.

Your obedient servant,

A. F. MacKenzie,
Secretary.

SIR:-

I beg to forward you herewith, Requisition for School Material received from Reverend A.M.D. Gillen, Principal of St. Mary's Mission Indian Residential School.

With reference to the items, sewing machines and school desks, I do not know what arrangements the Department can make about these, but would recommend that the utmost consideration be given, in view of the great expense the School Authorities have been put to in renovating the buildings and providing for an increased pupilage of forty-three.

This matter should be referred to Mr. Phelan, who inspected this School, during his recent visit to the Coast.

Your obedient servant,

A.O.N. Daunt.
Indian Agent.

MEMORANDUM

The Honourable the Superintendent General,-

Mr. A. O'N. Daunt, Indian Agent, New Westminster, B. C., has forwarded a request from the Principal of the St. Mary's Mission Indian Residential School, Mission City, B. C., (Electoral District of Fraser Valley), for the supplying of 100 single school desks, assorted sizes.

The Church authorities, under the management of the Principal, Reverend A.M.D. Gillen, O.M.I., have carried out extensive building operations and improvements at this school, without cost to the Department. This is the first request that has been received for equipment, and I would recommend that the quantity of desks asked for be supplied. The total cost of the desks will amount to, approximately, \$725. Funds for the purpose can be provided from the item in the Appropriation, "Miscellaneous Equipment - Residential Schools". The best source of supply is the Clarke & Stuart Company, Limited, Vancouver - the largest dealers in school desks - but any make of standard desk would be satisfactory.

I shall be pleased to have your approval for incurring the expenditure, approximately \$725, in the purchase of the desks, and also request your direction as to the firm that should be asked to quote. The purchase, if approved, will be arranged through the Purchasing Branch of the Department.

Ottawa, September 5th, 1935.

Sir,-

With reference to your No. 1-8-A of July 25th, enclosing a requisition received from the Principal of the St. Mary's Mission Indian Residential School, I beg to say that an order is being placed by the Department for six (6) sewing machines.

Regarding the one hundred (100) desks requested by the Principal, you did not state the sizes required. Please consult the Principal at once and ascertain the sizes needed and the number of each size. You should then give this information to the Tait Pipe and Foundry Co., Vancouver, and obtain from them a definite quotation showing the amount for which they are prepared to supply the one hundred (100) desks. This information should then be sent to the Department and, as soon as it is received, the matter will be given further consideration.

Minister's Office

MEMORANDUM

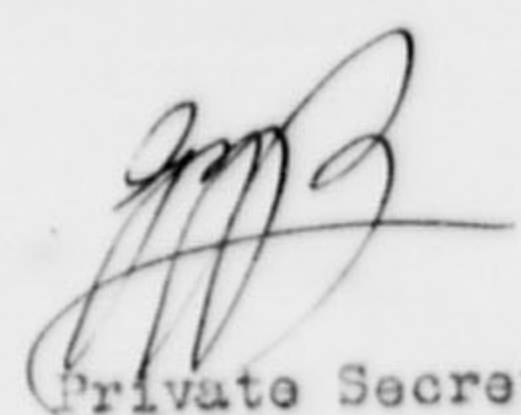

C.

Sept. 5th, 1935.

Dr. McGill.

Re your memorandum of August 22nd, your file 153-1-5, concerning the purchase of one hundred single school desks for the St. Mary's Indian Residential School, please obtain prices on these desks from the Tait Pipe and Foundry Company, of Nanaimo Street, Vancouver.

I spoke to Mr. Sutherland about this matter over the telephone, and he informs me that the Tait Company are very responsible dealers, and that they manufacture a splendid article. When the tender of the Tait Company is received be good enough to submit it to the Minister for consideration in connection with yours of August 22nd recommending Clarke & Stuart Company, Limited, of Vancouver.

Private Secretary.

Mr. L. C. Bant,
Indian Agent,
New Westminster, B. C.

Dear Sir:

Last Fall I sent a list for submission to the Department of alterations and repairs for some of the School buildings and for equipment for the laundry and bakery. To date I have not heard the Department's pleasure in these matters. As the vacation period is most suitable for the work to be done and the installations to be made, I should appreciate your assistance in ascertaining the Department's wish.

Yours very truly,

Andrew G. McNeil

July 3rd, 1936.

SIR:-

I beg to forward you herewith, a request from Reverend A.M.D. Gillen, Principal of St. Mary's Mission Indian Residential School, for assistance towards alterations and repairs to some of the School buildings and for laundry and bakery equipment.

This matter was discussed with Mr. Phelan on the occasion of his visit to the School, and I included the sum of \$4,000.00 in the Agency Estimates for the purpose.

I should be much obliged if you will inform me what may be done in this connection, as until I am advised of the available appropriation, I am not in a position to discuss the question further with the Reverend Principal.

Your obedient servant,

A.O.N. Daunt.

EXD.

Ottawa, July 11, 1936.

Dear Sir:

With reference to your letter of the 3rd instant, the Department has made provision in the current year's Appropriation for the following expenditures at the St. Mary's Indian Residential School:

Washer and mangle	\$550.00
Bakery Equipment	300.00
Painting barn and silo and reshingling cattle shed	850.00.

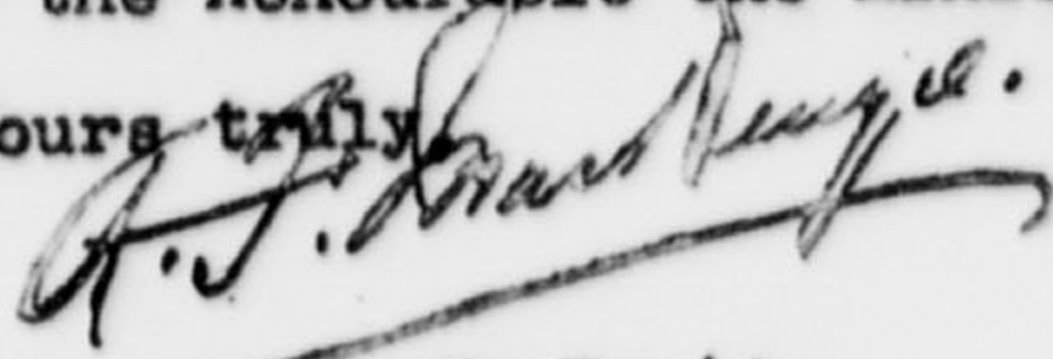

Please discuss the above with the Principal and report fully to the Department.

In connection with the washer, mangle and bakery equipment, you should advise definitely the equipment you consider should be supplied.

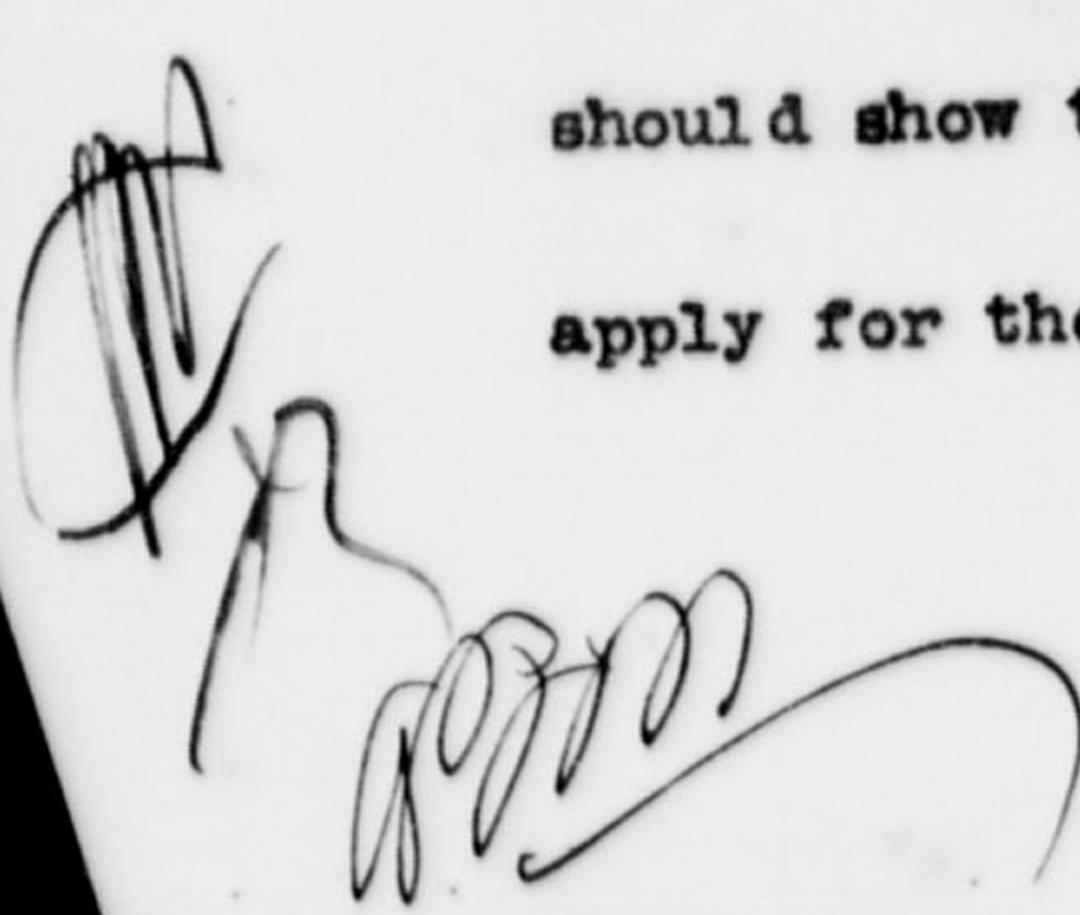

Regarding the painting and reshingling, you should show the approximate cost of both material and labour.

When your reply is received, the Department will apply for the approval of the Honourable the Minister.

Yours truly,

A. F. MacKenzie,
Secretary.

SPECIFICATIONS 1900 Cataract Family Size

Fig. 654 (Code word, "Pica")—With Metal Wringer, 13 $\frac{1}{4}$ x12-inch rolls.

Capacity—12 pounds of dry clothes.

Output per hour—60 pounds.

Wringer Speed—40 revolutions per minute.

Motor— $\frac{1}{4}$ H.P.

Cost per hour (Ontario)—1 $\frac{1}{2}$ c-2c.

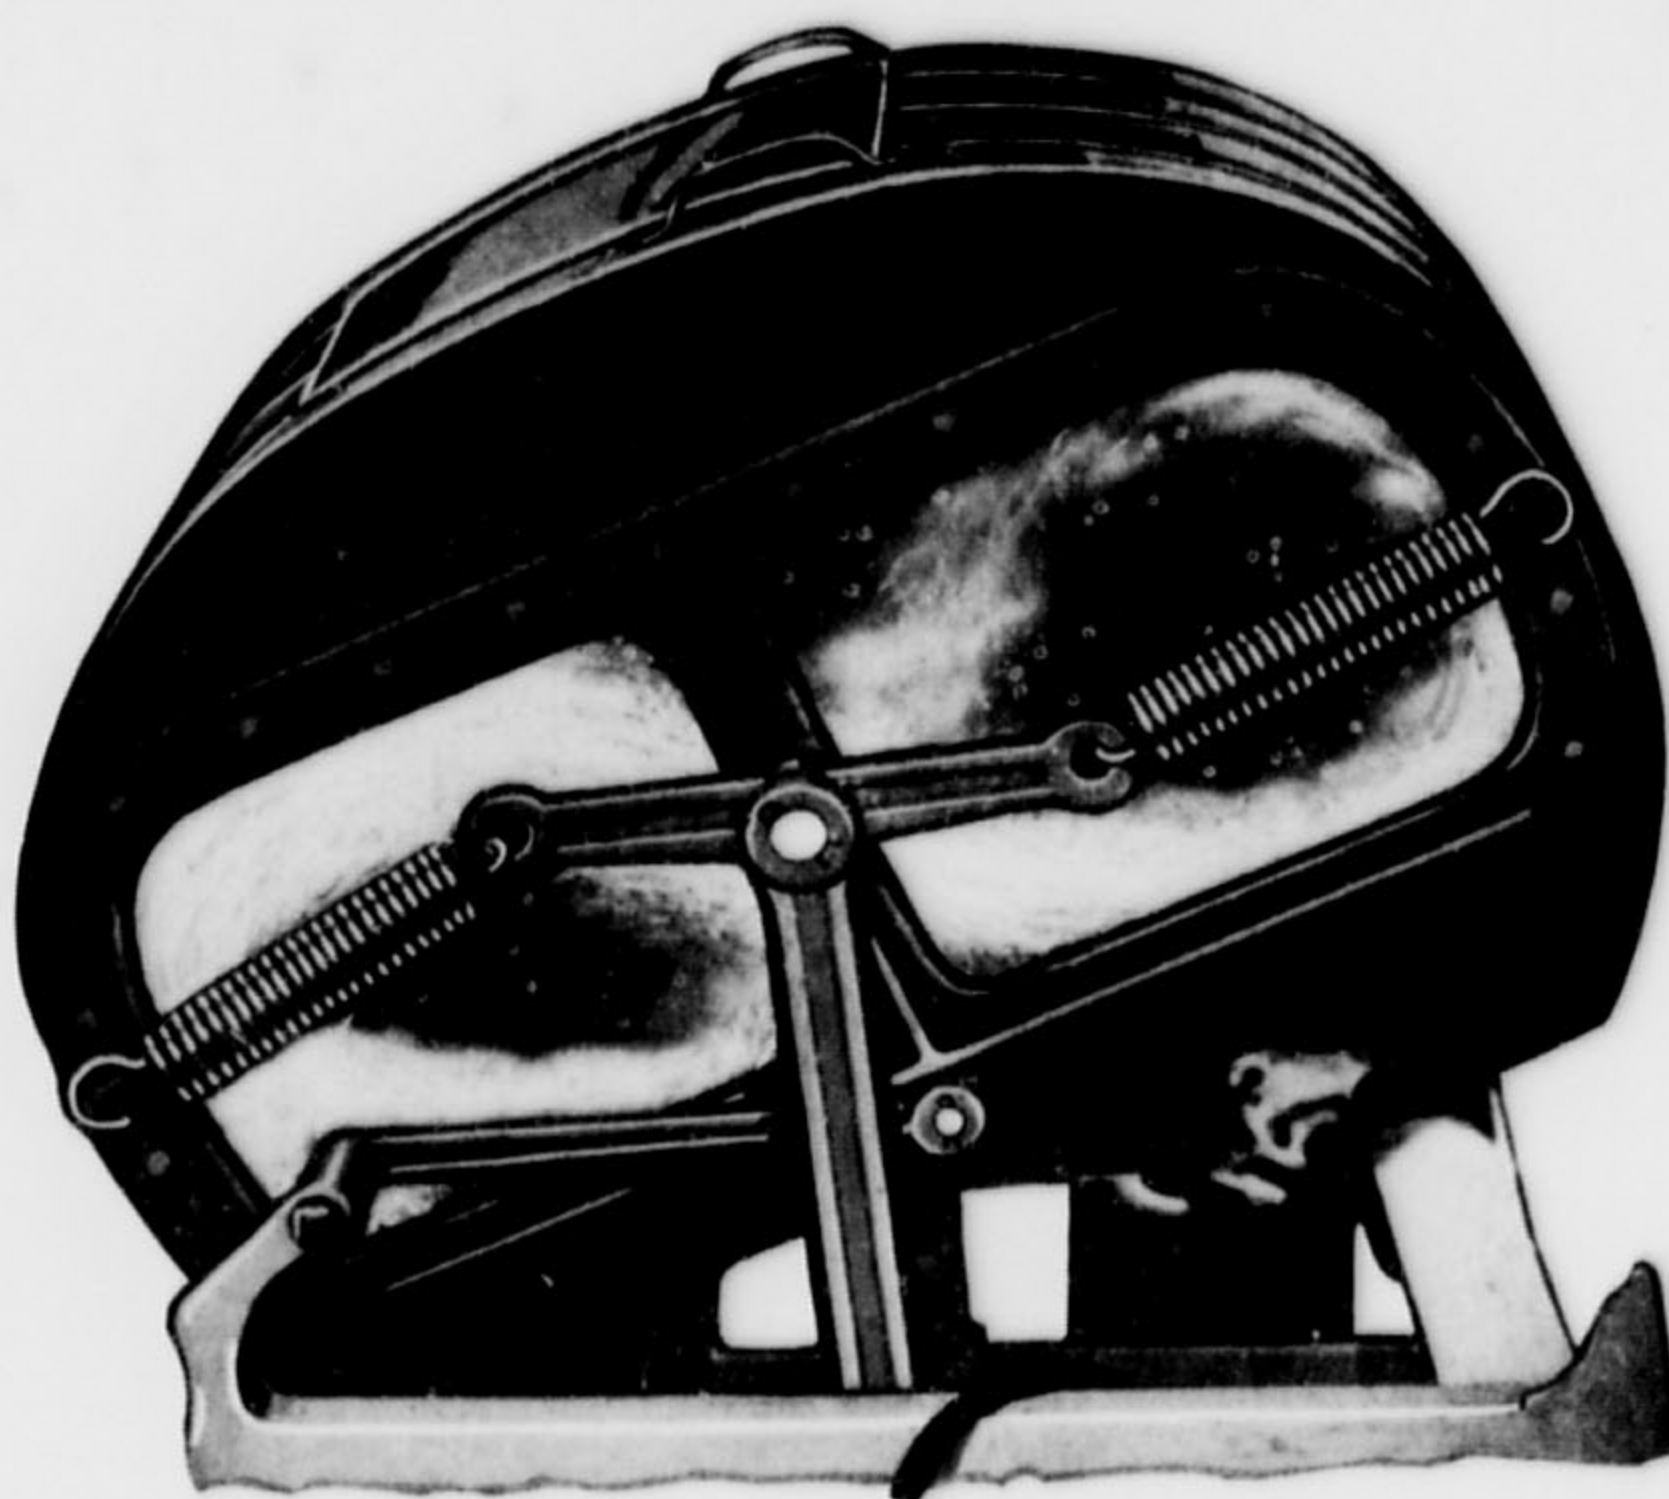

Copper Tank—16-ounce copper.

Floor Space—28 $\frac{1}{2}$ x35 $\frac{1}{2}$ inches.

Shipping Weight—350 pounds.

Net Weight—280 pounds.

Approved by Good Housekeeping Institute. Approved by the Ontario Hydro-Electric Power Commission Approval No. 343.

This illustration shows the clothes being turned over in the water preparatory to being soused. Now study cut on opposite page.

Wringer

The wringer swings and will take five different positions. A thumb shift is provided at both ends so that the position of the wringer may be changed from either side of the washer. This feature makes the wringer considerably easier to work.

A quick release is part of the equipment of all Cataract Wringers.

Rolls are reversible, five-year-grade, with all cogs enclosed.

Wringer Reverse

The wringer reversing mechanism is step ahead of anything else on the market.

It can be oiled through convenient oil holes and there is no grease packing to drip.

It is the only wringer which may continually be reversed under load, without breaking or wearing parts. It may be reversed instantly without stopping the washer or throwing off the quick release. And it can be reversed as easily when wringing a blanket as when wringing a handkerchief. Here is a marked improvement upon the ordinary reversible wringer.

The handle for reversing is of comfortable shape and size, handily placed, within convenient reach of the operator and is very much easier to manage than any other.

The reversing mechanism is more simple in construction; has fewer parts; has much larger bearing surfaces; works with less lost motion; will last longer and will show much less rattle and noise after years of wear than any other. The gears are die cast and very accurate and smooth. The main bearings are babitted.

There is no bother with wear and breakage of clutch as in other swinging wringers, because there is no clutch.

Easiest on Clothes

The 1900 Cataract will do a family washing from the table cloth to the dusters and will wash thoroughly. It is so extremely careful of the clothes that it has long been a favorite in dry-cleaning establishments for washing fine and costly fabrics. Creations of georgette, silk, lace and crepe de chine may be entrusted to it with complete confidence.

Nothing to Injure the Clothes

The inner surface of the Cataract tank is as smooth as tin-planished copper can be, and entirely free from internal mechanism. The action is purely a water action.

The bottom of the tank is tied and so prevents the clothes from being scuffed by the action of the tank. On the other hand the water above the clothes is made to move to and fro with great energy. Instead of merely sliding with the clothes back and forth over the bottom the water is lifted right out of the clothes at each end alternately, and pitched with tremendous power right down upon them. This happens eighty times per minute, and the resultant cleansing force is many times as effective as in any other washer.

Curved Interior of Tank

By means of the patented curved interior of the tank, the water is directed down upon the clothes in the very centre. The bottom of the tank, instead of falling away as in ordinary washers, rises in a patented pyramid form to hold the clothes against the sudsy water as it surges down upon them, and gives it a chance to do its work. The large pyramid is made up of a series of small pyramids to permit the suds to get under and through the fabrics.

To make the work complete, the clothes are turned over at the end of the tank after each sousing and returned to the centre of the tank, preparatory to being soused again.

The Cataract is unique in that it combines a reliable treatment of the clothes with extreme vigor of action. Clothes last longer when washed in the Cataract, because it takes the dirt out without rubbing and scuffing and without the assistance of any chemicals.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

This illustration shows the water sousing the clothes, which are held on the pyramid-shaped bottom to receive the full impact of the sudsy water.

Largest Capacity

The Cataract Electric Washer, Family Size, will wash 12 pounds of clothes at one time (clothes weighed when dry). Many washers offered for family use will wash no more than 4 pounds, 5 pounds or 6 pounds at one time. Four tubfuls in the Cataract equal EIGHT in the average washer. The Cataract will do in one hour what any other washer cannot do in less than two.

A More Efficient Washer

The Cataract is, of course, larger than the little copper washers, which are mere toys compared with it. But, furthermore, it will wash more clothes in proportion to its size. It is not only what a washer will HOLD that counts, but what it will WASH. The Cataract will wash a very large load and you don't have to turn the clothes over or bring the things from the bottom and put them on top.

Where Capacity Counts Again

The capacity of the Cataract counts again in handling very bulky things, such as blankets, comforters, men's heavy underwear and smocks and overalls. There is hardly room for such bulky goods in a small copper washer. A blanket or comforter, for instance, will fill a small washer from side to side and from top to bottom so completely that

the water cannot get at the clothes. And extra large table cloths and sheets, have really to be washed one at a time. None of this bother with the Cataract. It excels in washing these extra large articles. It will turn them over and souse them so thoroughly and well and often that they are clean in a few moments.

Correctly Shaped Tank

The Cataract tank is correctly shaped, being oblong rather than round, 28 inches long and 17 $\frac{3}{4}$ inches wide. It is made to give the water room to move back and forth and to do its work upon the clothes.

The difference in the washing capacity makes a vast difference in the speed and ease and efficiency with which you do the washing. If you are anxious to finish your washing quickly, so that there will be time to do up the morning work and get the dinner ready, the Cataract has an immense advantage for you.

SPECIFICATIONS 1900 Cataract Laundry Size

Fig. 655 (Code Word, "Pick")—With Meta Wringer.

Capacity—18 pounds of dry clothes.

Output per hour—90 pounds.

Wringer Speed—40 revolutions per minute.

Motor— $\frac{1}{4}$ H.P. repulsion and induction motor.

Cost Per Hour—1c-3c.

Copper Tank—20-ounce copper.

Floor Space—28 $\frac{1}{2}$ x39 $\frac{1}{2}$ inches.

Shipping Weight—375 pounds.

Net Weight—295 pounds.

Ontario H. E. P. C. Approval No. 343.

Tank

The tank is extra large, 17 $\frac{3}{4}$ x28 inches on family size. It is made of 16-ounce copper. It is tin-planned on the inside to prevent the formation of verdigris through the action of soap and greasy water. There is no internal device to be lifted out or cleaned or dried or adjusted.

The tank is carried exceptionally high in the frame to save the operator stooping. The opening for the lid is large to permit easy removal of the clothes.

Motor

The motor is the latest splash-proof, dust-proof, shock-proof type, $\frac{1}{4}$ H.P., and guaranteed by the motor manufacturer. It is mounted on a hinged base which swings on a heavy pin in the frame, and the weight of the motor is used to keep the belt tight. A flanged motor pulley is used, which is keyed to the shaft, and also a high-grade drive belt of special flat type. The belt and pulley and all mechanism are completely enclosed.

Solid Frame

The frame is made entirely of steel and grey iron, is well braced and very rigid and strong. Jacks are provided on all four legs to level the washer on an uneven floor and to prevent it from moving when in operation. In homes where stationary tubs are used, the Cataract may be left on the jacks in a permanent position.

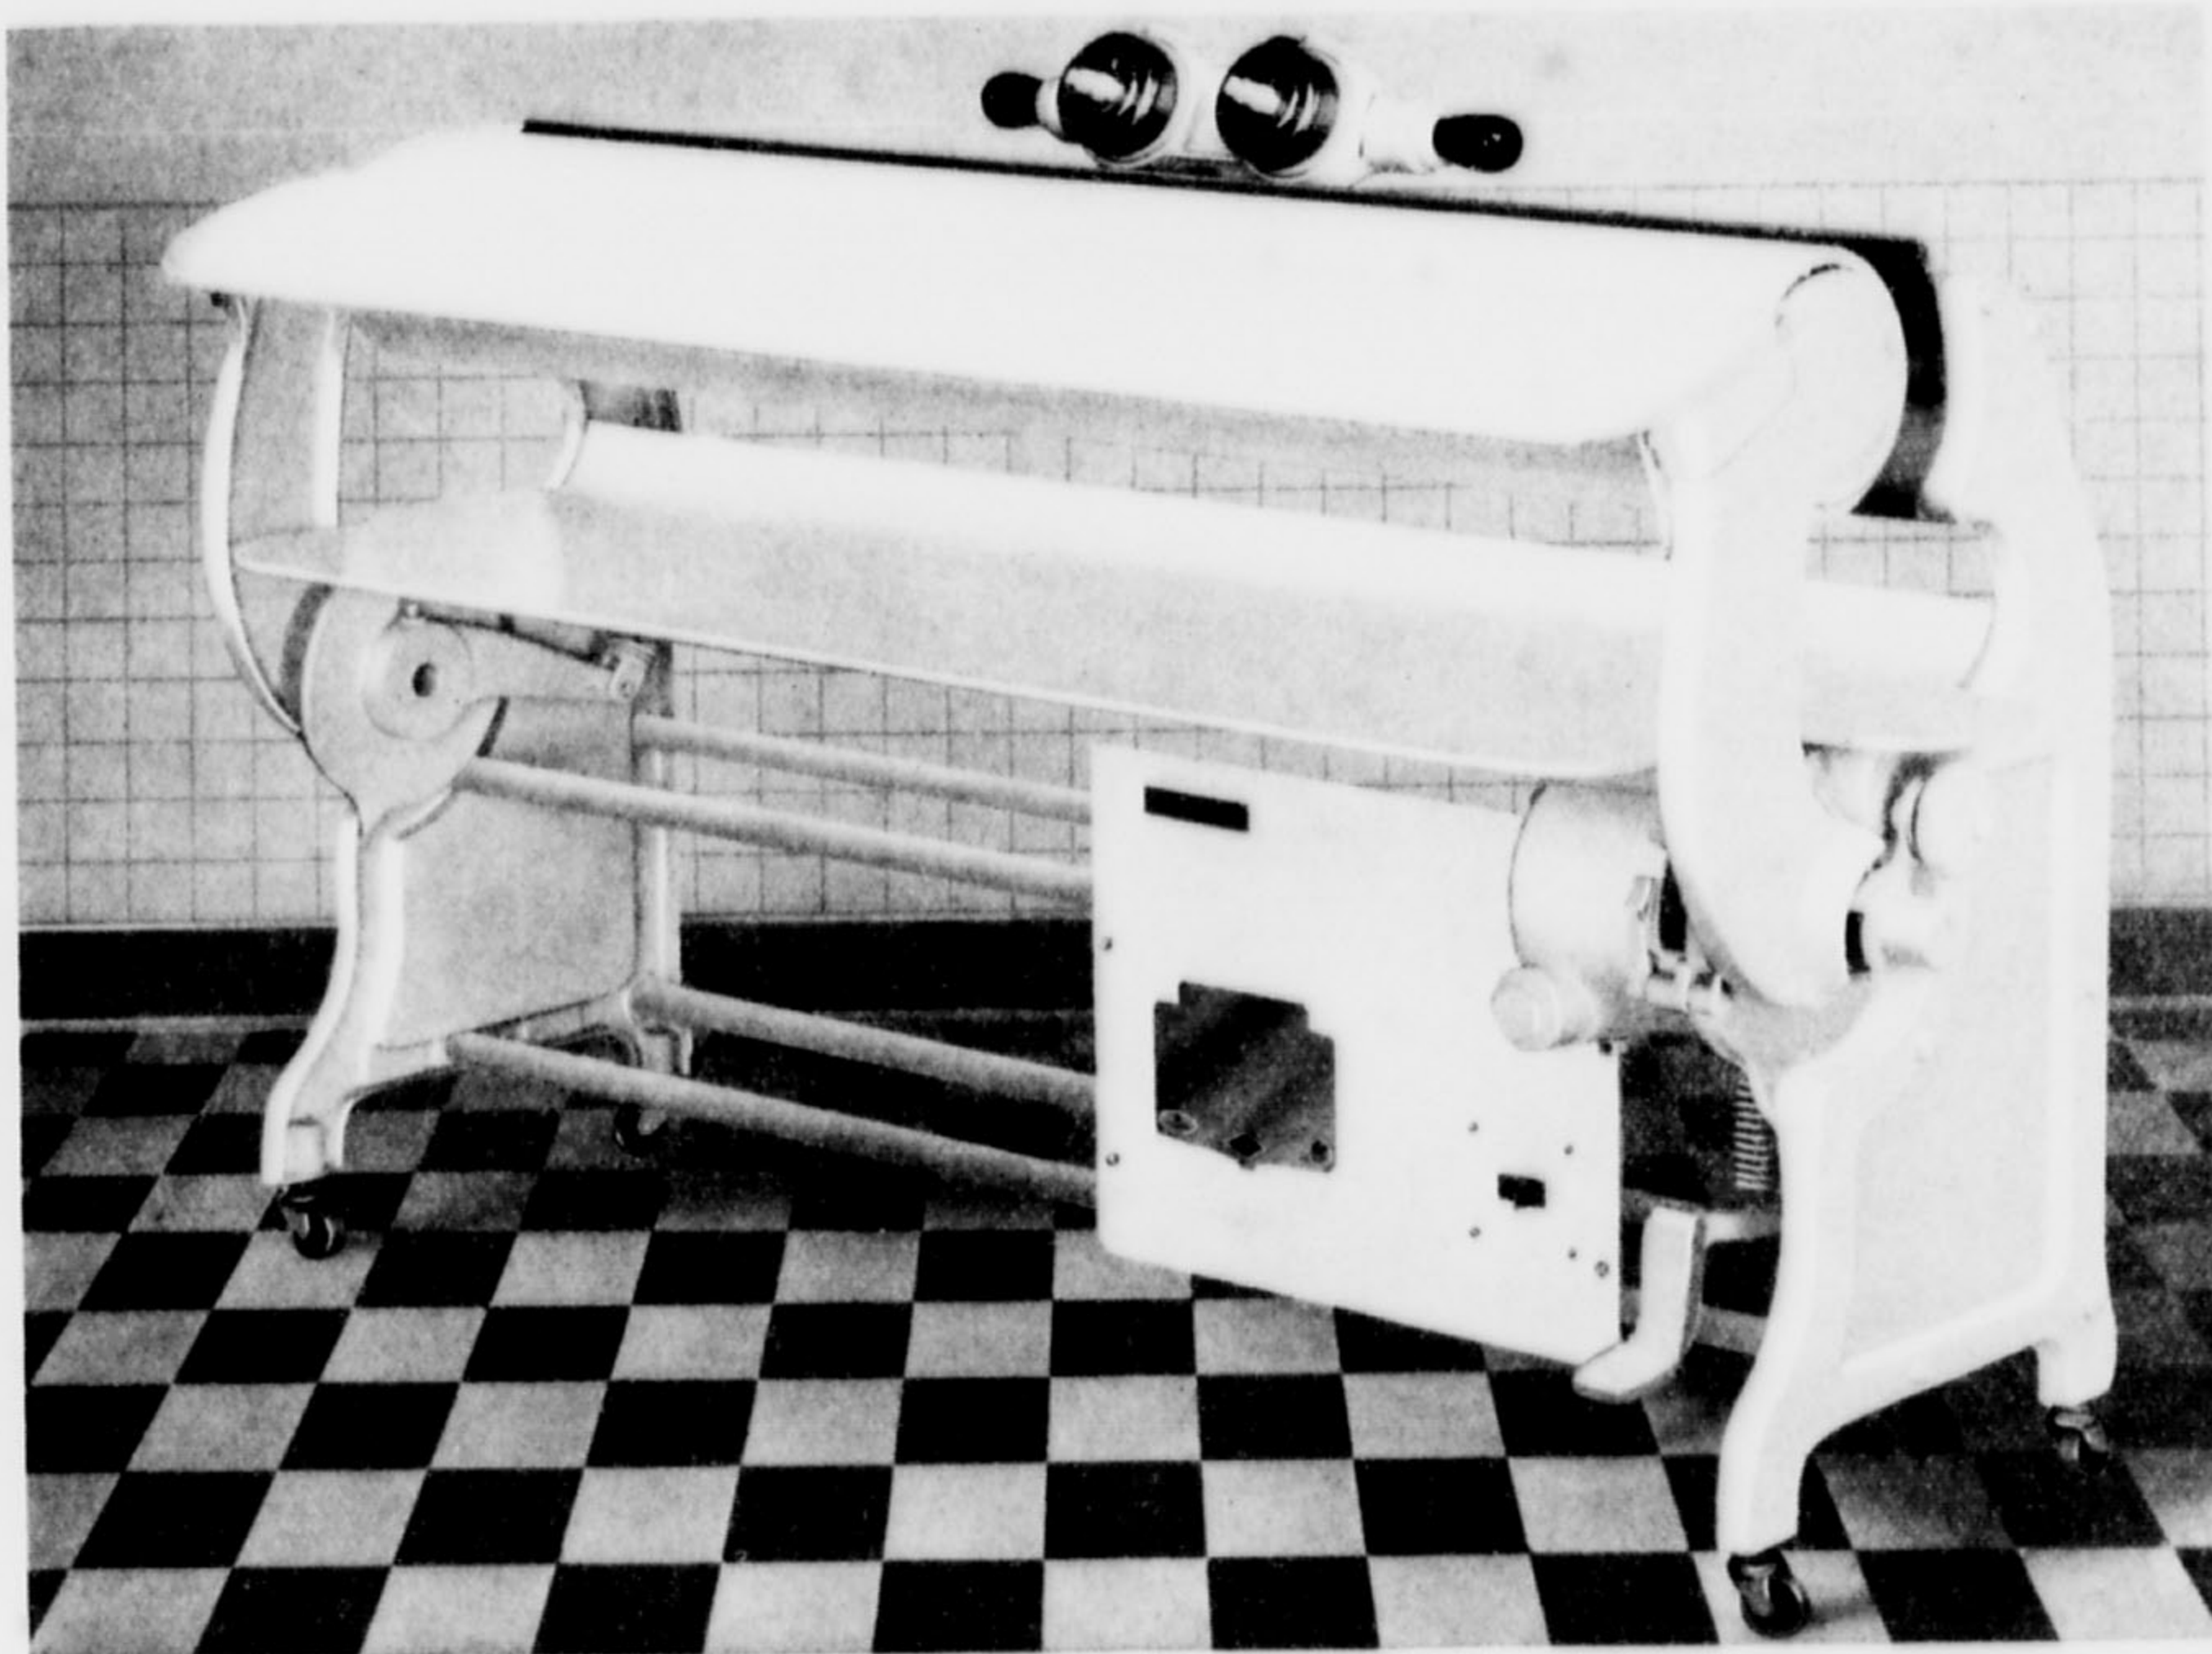

The tank is carried on two heavy arms, which move back and forth in the frame to give the necessary action. The power is applied at both sides, and four coil springs are used to take all jerk and jar from this motion.

The driving mechanism is simple in construction and noiseless.

48" Super Simplex Ironer

For Smaller Laundries, Manufacturing Plants
Institutions and Large Homes

Indian Affairs (RG 10 Volume 6470, file 890-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

48" Super Simplex Ironer

The 48" Super Simplex is a fully automatic Ironer designed particularly for the smaller laundry, manufacturing plant, institution and large homes—wherever a considerable amount of ironing is to be done at maximum speed and minimum operating cost. It is equally well suited to flat work and wearing apparel, and offers remarkable economy over the hand iron.

A slight pressure anywhere along the edge of the feed board actuates the automatic mechanism which quickly applies or releases pressure of the shoe against the roll. The operator is comfortably seated while ironing, avoiding fatigue and substantially increasing production. The two open ends of the roll make it possible to iron any kind of apparel, underwear, lingerie, house dresses—in fact anything, even pieces for which the hand iron has been considered indispensable until now.

The construction is exceedingly sturdy, insuring steady operation without breakdowns. The heavy end frames, firmly bolted to the shoe, form a rigid framework. The roll, of heavy gauge metal, is thickly padded to assure uniform ironing throughout its length. The automatic pressure mechanism is particularly rugged and dependable. An auxiliary foot-operated pressure release makes it possible to instantly drop the shoe away from the roll even in the event of electrical failure, line disturbance or blown fuse.

With the exception of the motor, the 48" Super Simplex requires oiling only at infrequent intervals—from two to four months, depending upon its use.

A $\frac{1}{4}$ HP, constant duty motor is connected to the driving mechanism by an endless belt. Mounted on sliding rails it is easily adjusted at any time to maintain correct tension.

The shoe is made of cast-iron, the ideal metal because of its great heat storage factor. When equipped for gas heating, a row of specially designed small burners—of the blow torch type—produces even, constant ironing heat. When electrically equipped, the well known indestructible Chromalox heating units—guaranteed for five years—give maximum heating efficiency, easily controlled by two heavy snap switches which offer three temperature ranges.

A comfortable bench for the use of the operator is furnished as standard equipment with the 48" Super Simplex Ironer.

Gas consumption: 33 cubic feet per hour.

Electric consumption: 3,350 watts per hour.

Shipping weight, gas heated: 390 lbs.

Shipping weight, electrically heated: 420 lbs.

Actual floor space: 61"x26".

St. Mary's Indian Residential School

UNDER THE DIRECTION OF

The Oblate Fathers

MISSION CITY, B. C. August 22nd., 1936

Mr. A. O'H. Deunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Deunt:

Last Fall when I requested the Department's assistance in equipping our Laundry there was no question of a Preventorium for this School. Since, the Preventorium has come into being and with it have come some new laundry problems which we believe best solved by a change in the articles asked for.

The changes are these: instead of the large mangle we would get two ironers- One large "institutional" and the other as used in ordinary households; instead of the large barrel-type washer we would prefer now a smaller one, as per Reatty Bros cat, to do such small washings as may be required by the Preventorium. These changes leave a balance of funds which we would like to apply on a larger boiler. As is evident from the estimates supplied, the cost of a sufficiently large boiler will far over-run the amount provided, but we feel the need of all these things urgent enough that rather than forego them we will make up the deficit.

Many thanks for your kind enquiry.

Yours very truly,

A. M. J. Gillen, O.M.S.
Principal.

UNDER THE DIRECTION OF

The Oblate Fathers

MISSION CITY, B. C. August 22nd., 1936

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Sir:

I am enclosing herewith the tender for the painting and roofing of the barn and shed respectively. Mr. Haedersdorfer, the tenderer, is he who gave me the figure last Autumn.

The delay in sending in this tender was due to a long period of indecision as to the advisability of stuccoing rather than painting the barn. Even yet, I am not quite satisfied that it would not be better for warmth and appearance to stucco. However, if the Department cares to leave me free to stucco should the decision be in favor of that, I would try to make up the additional cost.

Bakery equipment comes far higher than I expected. I cannot locate a mixer for the three hundred dollars appropriated. I would like it very much if the Department would give authority to purchase the first second-hand one that seems likely to give satisfaction. I have a couple of dealers on the lookout for one.

Yours very truly,

A.M.D. Gillen, M.S.

Principal.

The Principal,
St. Mary's School,
Mission City, B.C.

Dear Sir:

I wish to submit this tender for the work contemplated at your School this Summer:

To tear off all old shingles on the shed south-east of the barn and re-shingle the same with 5x shingles, using zinc nails throughout, and to stain the roof;

To scrape off the old paint from the barn and adjoining root-sheds, silo, and manure shed, to repaint same with two coats of pure white-lead and boiled linseed oil, and to stain the roofs with one coat of pure red oxide and linseed oil;

To put up and remove all scaffolding;

To supply only first-grade materials and to do all mixing of stains and paints on the School property;

To clean and whitewash the interior of the cow-barn and of the horse-stable, and to paint the stanchions and ventilators of same with metal paint;

All for the sum of \$850.00, as tendered several months ago, provided that I shall not have to do the work in so short a space of time as to require my hiring too much help.

If I should be favored with the work you may depend upon my reputation for good workmanship and materials being maintained.

OFFICE OF
INDIAN AGENT

File No. 1-8-A.

NEW WESTMINSTER, B.C.
August 22nd, 1936.

SIR:-

With reference to your letter No. 153-1-5 of July 11th, in which you allot the following amounts for repairs and replacements at St. Mary's Mission Indian Residential School:-

Washer and Mangle-----	\$850.00
Bakery Equipment-----	300.00
Painting Barn Etc.-----	850.00

I beg to report that I have taken the matter up with the Reverend Principal and am enclosing quotations as follows:-

1- 12 H.P. Vertical Boiler----	\$590.00
less \$100.00 allowed on old	
one-----	100.00
1-Simplex Ironer-----	\$490.00
1 Model A Beatty Ironer-----	285.00
1 Laundry 1900 Cataract Washer-----	116.00
Painting Barn Etc.-----	193.00
	850.00
	<u>\$1,934.00</u>

1700 220

This is \$234.00 in excess of the amounts allowed for these items, but the School is prepared to absorb this amount in respect to the Laundry Equipment where the difference lies. A letter of explanation from Father Gillen showing his reasons for changing from his original estimate is attached, from which you will see that the Preventorium, which will be in operation this School year, necessitates a larger boiler than that now in use.

A letter of explanation regarding the bakery equipment is also enclosed, from which it would appear that this apparatus will cost more than the \$300.00 applied for. I understand \$500.00 to be about the figure, though it would be possible to purchase a second-hand one for the original price submitted.

I shall be much obliged for your instructions on this latter question and would request that the sum of \$1,700.00 be applied for to cover the cost of the laundry equipment and barn painting, it being understood that the school absorbs the excess amount of \$234.00.

Your obedient servant,

A.O.N. Daunt.
A.O.N. Daunt.

MEMORANDUM:The Honourable the Superintendent General,-

Funds have been provided, in the Appropriation for Indian Education for the current fiscal year, to supply laundry equipment and to paint the barn, at the St. Mary's Mission Indian Residential School, Mission City, B. C. (Electoral District of Fraser Valley), as follows:

Laundry equipment	-	\$850.00
Painting barn	-	850.00

The local Indian Agent, after taking up the matter with the Principal, states the latter requested that the following laundry equipment be supplied:-

12 h. p. Vertical Boiler	-	\$490.00
Simplex Ironer	-	285.00
Beatty Ironer	-	116.00
Laundry Washer	-	193.00
		<u>\$1,084.00</u>

This is \$234.00 in excess of the amount provided for these items, but the school authorities are prepared to absorb this amount in respect to the laundry equipment. The Principal obtained a quotation from the Vancouver Iron Works, Limited, to supply the vertical boiler, at a cost of \$590.00, less \$100 for the present old boiler, also

- a quotation

- 2 -

a quotation from Beatty Brothers, Limited, Vancouver, for the supplying of the ironers and laundry washer, to the amount of \$594.00.

Regarding the painting of the barn, repairing shingles on roof and other work in connection with the barn, the Principal obtained a quotation from Martin Haedersdorfer, Mission City, B. C., for the sum of \$850.00 - the amount available for this purpose.

I would request your approval for incurring the above expenditure and that purchase of the vertical boiler be made from the Vancouver Iron Works, Limited, Vancouver; that the laundry equipment be obtained from Beatty Brothers, Limited, Vancouver; and that the work of painting and repairing the barn be given to Martin Haedersdorfer, Mission City, B. C.

Gentlemen:

I have your letter of the 24th ultimo, addressed to Mr. Orr, of this Department, regarding the supplying of laundry equipment for use at the St. Mary's Indian Residential School, Mission, B. C.

In reply I have to say that the question of supplying certain laundry equipment at this school is now before the Honourable the Minister. At the present time, I am not prepared to state whether any laundry machinery will be supplied this year.

Yours truly,

A. F. MacKenzie

EXTD.

Ottawa, October 29, 1936.

Dear Sir:

With reference to your letter dated August 22nd, last, relative to the supplying of laundry equipment and the painting of the barn, etc., at the St. Mary's Mission Indian Residential School, I now have to inform you that approval has been granted to incur the expenditure required for the above purposes, to the amount of \$850 for laundry equipment and \$850 for painting barn.

You may place an order with the Vancouver Iron Works, Limited, to supply the 12 h. p. vertical boiler, as per their quotation of August 18th, last, to Rev. Father Gillen, viz.: \$590, less \$100 for the present old boiler, the old boiler to be taken at the time the new one arrives.

You may arrange for the purchase, from Beatty Brothers, Limited, Vancouver, at the price quoted by them, of the following:-

- 1 Simplex Ironer,
- 1 Model "A" Ironer,
- 1 Laundry Cataract Washer.

This equipment should be supplied at the price quoted by the above firm in the letter to Father Gillen, dated July 20th, last, viz.: a total of \$594.

Regarding the painting of the barn, you may arrange with Martin Haedersdorfer, Mission City, to carry out the work as per the quotation submitted by him to the

- Principal

Principal, dated August 20th, last, viz.: \$850.

It is understood that the Department will only be responsible for the sum of \$850 towards the cost of the laundry equipment and the sum of \$850 towards the cost of painting and repairs to the barn - the amount in excess to be absorbed by the school authorities.

When the laundry equipment has been purchased, you should obtain an itemized account, in triplicate, covering the cost. This, you should attach to proper voucher forms, certify in the usual manner and forward for payment.

With reference to the work in painting the barn, the account should show in detail the work carried out, the materials supplied, the days or hours employed and the rate paid to the men engaged on the work.

Yours truly,

A. F. MacKenzie,
Secretary.

Re. St. Mary's School, Mission, B.C.

Dear Mr. Orr:-

Our British Columbia representatives, Messrs. Stanley Brock Limited, have just advised us that the quotation which they had submitted to the Principal of the above school, Father Gillen, under date of July 20th. 1936 for a Globe Washer and a 46" Canadian "S" Ironer, has been turned over to the Department at Ottawa from where, Father Gillen advises, purchase will be made, he having been relieved entirely of action in this matter.

The writer or our representative would be happy to call upon you the next time we are in your City, but, in the meantime, if there is anything you are able to do for us regarding this subject, we assure you that same would be very highly appreciated, indeed.

We would be indebted to you if you could advise us, at your convenience, whether this proposition has gone through or not, or if the Department is intending to place order for this equipment at an early date.

Thanking you in anticipation, with the writer's best regards, we are

Very truly yours,

[Handwritten signature]
SIR:-

The Reverend F. O'Grady, Principal of St. Mary's Mission Indian Residential School, has reported that the Fire Appliances at the School require renewing, and has submitted the attached list for the consideration of the Department.

As this is rather a technical matter, I would suggest that the District Resident Architect, Department of Public Works, Victoria, B.C., be asked to give his assistance and advice.

Also approved
This gentleman volunteered such aid should he ever be requested to do so, and, I understand, that he has so acted for the Department in connection with fire escapes at Lytton and, I think, Alert Bay Indian Residential Schools.

Your obedient servant,

E X T R A C T from Report of Mr. G. H. Barry, District Inspector of Indian Schools, Victoria, B. C., regarding his inspection of the ST. MARY'S MISSION INDIAN RESIDENTIAL SCHOOL on the 25th and 26th January, 1937.

Fire Protection:- In my last report I stated that four new Fire Escapes had been erected. For some reason the iron ladders at the bottom of these escapes stop short about eight feet from the ground. Wooden ladders, kept in a shed somewhere, are supposed to be placed at the bottom of escapes by the first pupil down. This is a very bad plan indeed and would of course hold up the escape of the pupils during an actual fire.

Owing to the terrible weather conditions I could not possibly hold a Fire Drill myself, and I would hesitate to hold a drill down the present iron fire escapes, particularly in very cold weather. In my opinion about seven feet of iron ladder should be at once added to each of the four fire escapes to take them to the ground or within a foot of it. This would make the holding of Fire Drills possible except in the worst weather and the children would have reasonable protection in case of fire. Should it be argued that boys would climb the escapes if such iron extensions be added, I may say that with wooden ladders available they can do this now.

In my last report, I mentioned that eight new Fire Extinguishers had been asked for, and though I looked for these, I was not able to trace them. Some of the present old extinguishers might be used in such places as the Manual Training Shop, but I feel certain that more extinguishers are needed here at Mission.

While there is good pressure in the pipes should it be necessary to fight a small fire, the Fire Hose is not sufficient. The Reverend Principal is measuring the extra quantity of hose necessary to give protection and will communicate with the Department through the Indian Agent. I understand that the school authorities are prepared to build small hose sheds near the outside Fire Hydrants or Stand Pipes. I am informed that though dug out twice a year these outside Fire Hydrants become rusted below ground level and could not possibly be turned on in case of fire at times other than immediately after attention has been given to them as mentioned.

The Fire Alarm system is not a general one. The buildings are scattered. I do think that several new alarm bells are required which should include at least two large gongs on the Boys' and Girls' sides respectively. With such gongs in operation general Fire Drills could be practised.

In general I may say that while the construction of the new buildings and repairs to the old have greatly reduced the fire risk at this school, I AM NOT SATISFIED WITH PRESENT CONDITIONS. I would therefore ask that the Department would have a general survey of this school made with regard to Fire Control with a view to the further reduction of risk to the children and staff, and that they ask for the views of the Indian Agent in this matter. I know that the present Principal is not satisfied and understand that he is writing to the Department at about the same time as this report goes forward to Ottawa.

EX.D.

Ottawa, February 6, 1937.

Dear Sir,-

The Department is in receipt of your No. 1-8-A of the 26th ultimo, with reference to the request of the Principal of the St. Mary's Mission Indian Residential School for certain fire appliances.

It is not considered necessary to secure the services of the District Resident Architect, Department of Public Works, Victoria, B. C. It is felt that, if you visit the school at an early date, you can go over the building carefully with the Principal and decide what additional fire appliances are absolutely necessary. You should then report to the Department, giving your recommendations and, also, an estimate of the cost involved.

For your information, I enclose an extract from the report of Inspector Barry regarding his inspection of the St. Mary's Mission School on the 25th and 26th ultimo. When visiting this school, you should also inspect the fire escapes and report the approximate cost of lengthening the fire escapes in order that they will reach practically to the ground.

I return the list of appliances requested by Father O'Grady, in order that you may have full information when you visit the school.

Yours truly,

R. A. Hoey.
Supt. of Welfare & Training.

File No.1-8-A.

153-1-5
NEW WESTMINSTER, B.C.
March 4th, 1937.

SIR:-

In your letter dated the 29th of October, File No.153-1-5, you gave authority to incur an expenditure of \$850.00 for painting the barn at St. Mary's Mission Indian Residential School.

This was not attended to by the late Principal, as he was transferred from the School in November, and the weather has been so inclement since the present Principal took control that it has been impossible to carry out the work.

The Reverend Father O'Grady now in charge of the School has asked me to request that this authority be transferred to the new fiscal year, so that the work may be proceeded with after the 1st of April, and I would recommend that, if possible, this course be followed.

520
The balance of the authority covering the ironer, washer etc., is being carried out now, and accounts will be rendered before the end of the fiscal year.

Your obedient servant,

A.O.N. Daunt.
A.O.N. Daunt.

Dear Sir,-

The Department is in receipt of your No. 1-8-A of the 4th instant, with reference to painting the barn at the St. Mary's Mission Indian Residential School.

It is noted that this work cannot be done before the end of the current fiscal year. Possibly, the paint could be secured and stored at the school and the account covering its cost forwarded before the end of the current month.

If the whole matter is allowed to stand until the next fiscal year, it is doubtful if the Department will have funds available to authorize the work.

Yours truly,

T. R. L. MacInnes.

ST. MARY'S INDIAN RESIDENTIAL SCHOOL.

Recommendations for Fire Protection at the above Institution.

GIRLS' BUILDING.

FIRE ESCAPES. One new Escape in front of building, coming from either end top floor in open "V" shape to top of porch, with supplementary escape from porch to the ground.
Counterbalanced additions from end of present two escapes to ground.

EXTINGUISHERS. Three "Foamite", or "Soda and Acid", 2½ gal on each of top and second floors, and two on ground floor.

GONGS. Three, - one on each floor, electrically connected.

HYDRANTS. Two. - One in rear, and one in front, with necessary 4" pipe to connect front hydrant with main at rear.

HOSE. One hose reel, with 250 ft. 2½" hose.

BOYS' BUILDING.

FIRE ESCAPES. One new Escape at rear of building, and counterbalanced additions from ends of present escapes (2) to ground.

EXTINGUISHERS. Three, - 2½ gal. extinguishers on each of floors 1, 2, and 3. Total 9.

GONGS. Three, - One on each floor, electrically connected.

HYDRANTS. Two. one front and one rear, with necessary 4" pipe to connect front hydrant with main at rear.

HOSE. One hose reel, with 250 ft. of 2½" hose.

PREVENTORIUM BUILDING.

FIRE ESCAPES. One Escape from East end of building to ground.

EXTINGUISHERS. Two - 2½" gal. extinguishers on top floor, 2 on ground floor, and 2 in basement shop. Total 6.
One Hydrant at Preventorium.

OUTSIDE CLASS-ROOM.

EXTINGUISHERS. One 2½ gal. extinguisher.

BAKERY BUILDING.

EXTINGUISHERS. Two - 2½ gal. extinguishers.

LAUNDRY BUILDING.

EXTINGUISHERS. One - 2½ gal. extinguisher.

STAFF HOUSE.

EXTINGUISHERS. Two - 2½ gal. extinguishers.

HOSE. One hose reel with 250 ft. 2½" hose.

BARN BUILDING.

EXTINGUISHERS. Four - 2½ gal. extinguishers.
One Hydrant at Barn.

SUMMARY

New Escapes, 3. Additions 4. Extinguishers 33, Gongs 6, Hydrants 6, Hose. 750 ft. Reels 3.

SPECIFICATION. (FIRE ESCAPES)

Brackets to be standard 3" x 3" x 5/16" angles securely fastened and rivetted to frame and properly bolted through to wall with plate and washers on inside of wall.

Balcony framings to be 2½" x 2½" x 1/4" angle securely bolted and rivetted to brackets etc.

Gratings to be 1/4" x 1-1/4" iron spaced 1" on centers and securely fastened in approved manner.

Stair Stringers to be 1/4" x 6" steel. Bottom of Stringers securely fastened to brackets top ladder to 1½" iron 5/8" rungs.

Treads to be 3/16" x 8" chequered plate with rounded nosings.

POOR COPY

File No.1-8-A.

153-1-5
NEW WESTMINSTER, B.C.
April 6th, 1937.

SIR:-

With reference to your letter dated the 6th of February, File No.153-1-5, regarding Fire Appliances at St. Mary's Mission Indian Residential School.

I beg to report that I went over this School very carefully with the Reverend Principal. It so happened that Mr. C.F. Dawson, District Resident Architect, Dominion Department of Public Works, Victoria, was in Mission on business for his own Department and I availed myself of his expert advice, as the matter appeared to be rather a large one.

I am attaching hereto for your information, a Schedule showing the additions recommended by Mr. Dawson to bring the School in line with the requirements for buildings erected by the Dominion Department of Public Works. This School, however, is not Government owned, but is the property of the Oblate Order, and perhaps the question of whether we have a liability for structural additions to a non-Government building may arise.

I have obtained preliminary estimates for the improvements suggested and the total is rather alarming, but it seems to me that we could considerably reduce the figure while maintaining a reasonably secure fire service. The cost of the additions to the Fire Escapes, as outlined in the Schedule, is as follows:-

Westminster Iron Works Limited-----\$3,290.00
Vancouver Art Metal Works Limited----- 1,636.00

Both these figures are for the same Department of Public Works specifications, which are attached for your information.

The Hydrants, extinguishers, gongs, hose and reels, pipe etc., are quoted by Andrew Sheret Limited, of Vancouver, at \$1,485.59, so the total cost would be somewhere about \$3,121.00.

FIRE ESCAPES- There are, at present, two escapes at the rear of the Girls' building, the top of both opening out of the large dormitory on the third floor. I think there should be a counter-balanced addition to the foot of both of these to admit of the rapid clearance of children.

It was suggested that we should build a large V shaped one on the front of the building, which would

ENCDS.

The Secretary,
Indian Affairs Branch,
Department of Mines and Resources, Ottawa, Ont.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

00R-COPY

would cost \$411.00, but I think the existing ones sufficient provided the bottom additions were made, at a cost of \$141.00 each or \$282.00 in all. We should, therefore, save \$411.00 on this item.

BOYS' BUILDING- There are also two Escapes here, and two more are suggested from the third storey to the ground at a cost of \$437.00 and one from rear gable extension to ground at \$221.00, but here again I think that counter-balanced additions to the bottom of the two existing escapes at a cost of about \$282.00 would suffice. This would save \$658.00 on this building.

PREVENTORIUM- One Escape from second-floor to ground is suggested at a cost of \$144.00, and I consider this to be imperative, as in the event of fire our patients in the Preventorium would be in grave danger without it.

The Fire Escape situation might, therefore, be met in a fairly adequate manner for an expenditure of a little over \$700.00, though this would not, I understand, bring it in line with Government architectural standards, which would cost according to my lowest bid \$1,636.00.

EXTINGUISHERS- A total of 33 at \$14.00 each was suggested, but I think a lesser quantity would suffice. Provision was made for three on each floor of both the Girls' and Boys' buildings or 18 in all. This seems rather excessive and I think might be reduced with safety. Similarly you will note that in the Preventorium building six are recommended and I think this might be cut down. I would also eliminate two in the Bakery Building and two out of the four in the Barn.

GONGS- A total of six gongs at \$16.93 each is mentioned, being three in the Boys' building and three in the Girls' building. It seems to me that two in each building should be ample.

HYDRANTS- Six are suggested. The six inch main runs along the rear of the buildings and it is proposed to place a hydrant at the rear of the Girls' building, Preventorium and Boys' building, and another in front of both Boys' and Girls' buildings. These latter would have to be connected up with the main at rear by four inch pipe. Another Hydrant is proposed for Barn, the cost of these is quoted at \$62.37 each and the pipe (about 200 feet) at \$152.40. I think we could eliminate the two front hydrants and connecting pipe, as the 750 feet of hose suggested should be ample from any one of the rear hydrants.

HOSE- Three reels each with 250 feet of 2½ inch hose are necessary. The reels are quoted at \$63.80 each, the hose 3 x 250 feet at \$55.13 comes to \$165.39 and nozzles etc. about \$19.47.

In addition to the Schedule of suggested improvements to bring the service to Department of Public Works standards, I am also enclosing the prices obtained for the various items, but personally I think the cost might be reduced to something like the following:-

Fire escapes

This is a reduction of \$1,406.93 on the estimated cost of bringing the Institution up to Department of Public Works standard, and is tentatively submitted for your consideration.

Your obedient servant,

A.O.N. Daunt
A.O.N. Daunt.
Indian Agent.

EX'D.

April 15th, 1937.

MEMORANDUM:

Mr. Dudley.

You will note Agent Daunt's letter of the 6th instant, with reference to fire appliances required at the St. Mary's Mission Indian Residential School.

Our main appropriation for the fiscal year 1937-38 included an item of \$500.00 for miscellaneous repairs at this school.

While all the fire escapes mentioned in the Agent's letter are, no doubt, more or less required, at the same time, in view of the fact that only the amount mentioned above has been specifically provided, I would recommend that the following work be done:-

(1) Fire escape on preventorium	- \$144.00
(2) Gongs - Girls' Building: 2 @ \$16.93	- 33.86
(3) Gongs - Boys' Building: 2 @ \$16.93	- 33.86
(4) Hydrants - 4 @ \$62.37	- <u>249.48</u>
	<u>\$461.20</u>

The balance of the work suggested in the Agent's letter will have to remain in abeyance until we are in a position to determine whether or not funds can be found in the current year's appropriation.

I will communicate with the Agent regarding the fire extinguishers.

Chief, Training Division.

1-8-A.

Ottawa, April 29, 1937.

Dear Sir:

The Department is in receipt of your letter of the 6th instant, with reference to fire appliances for the St. Mary's Mission Indian Residential School. Very careful consideration has been given to the contents of your letter, but I regret that, owing to lack of funds, it is not possible to favourably consider all the work that has been requested.

Our Main Appropriation for the present fiscal year includes an item of \$500.00 for miscellaneous repairs at this school. Consequently, at the present time the Department can only authorize the following:-

(1) Fire escape on preventorium	-	\$144.00
(2) Gongs - Girls' Building: 2 @ \$16.93	-	33.86
(3) Gongs - Boys' Building: 2 @ \$16.93	-	33.86
(4) Hydrants - 4 @ \$62.37	-	<u>249.48</u>
		<u>\$461.20</u>

The balance of the work mentioned in your letter will have to remain in abeyance until later in the year, when we may be able to provide additional funds, but, at the present time, it is extremely doubtful if we will be able to do so.

With regard to the extinguishers, it is noted that you quote a price of \$14.00 each. Please let me know the make of these extinguishers and if they are approved by the Underwriters' Association. When replying, you might state the minimum number of new extinguishers which you consider might be supplied.

Yours truly,

T. R. L. MacInnes
T. R. L. MacInnes,
Secretary.

A. O'N. Daunt

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

File No. 1-8-A.

New Westminster, B.C.
May 5th, 1937.

R

SIR:-

I beg to acknowledge receipt of your letter, File No. 153-1-5, dated April 29th, regarding fire appliances at St. Mary's Indian Residential School, and note that you can only allocate the sum of \$461.20 for this purpose at the present time.

In connection with the item "4 Hydrants", at a cost of \$249.48, authorized by you, I would point out that these articles, without Hose and fittings to go with them, would be useless expenditure, and I would recommend that they be left in abeyance until such time as the whole line can be purchased.

In view of the present financial stringency in this respect, I would suggest the following expenditure as likely to give better results from a fire protection point of view:-

(1)	Fire escape on Preventorium	-	\$144.00
(2)	Gongs Girl's Building, 2 @ \$16.93	-	33.86
(3)	" Boy's " " "	-	33.86
(4)	Extinguishers. Girl's 3 @ \$14.00	-	42.00
(5)	" Boy's 3 @ \$14.00	-	42.00
(6)	" Preventorium 2 "		28.00
TOTAL			<u>\$323.72</u>

With regard to the last paragraph of your letter, I beg to inform you that these extinguishers are manufactured by the Pyrene Company, are of the "Soda and Acid type", which was recommended by the District Resident Architect, as being better suited for a probable type of fire at the School, and they are acceptable to the Underwriters' Association.

I would however, certainly recommend that this matter be kept in mind, and that further improvements in the fire protection at this school be made as soon as possible.

Your obedient servant,

A. O. N. Daunt
A. O. N. Daunt,
Indian Agent.

Schroeder
Dear Sir:-

I am in receipt of a copy of the Auditor's report on St. Mary's Indian Residential School, Roman Catholic, Mission City, dated May 14th, 1937, and note on page 3 the following observation:-

"The fire hazard still remains a serious question, with no water supply available in the school for this purpose."

On referring this matter to Indian Agent Daunt, I found that there is an ample supply of water but that the old hydrants have outlived their usefulness and must be replaced before the available water supply could be used for fire fighting, should such occasion arise.

St. Mary's School is the property of the Oblate Order and just what responsibility rests on the Department as to structural additions and replacement of such equipment in property not owned by the Government is not known. In any case, I consider that the hydrants and hose asked for in Mr. Daunt's report 1-8-A of April 6th of this year should be installed at the earliest possible date, and would recommend that the Department take the necessary steps to have this done.

Yours faithfully,

D. M. MacKay

EXT.

Ottawa, June 24th, 1937.

Dear Sir,-

The Department is in receipt of a letter from Indian Commissioner MacKay, with further reference to providing fire appliances for the St. Mary's Mission Indian Residential School. Items to the amount of \$323.72 were authorized in official letter of the 13th ultimo. It has now been decided to authorize the following additional equipment mentioned in your letter of April 6th, last:-

Hydrants:-	4 @ \$62.37	-- \$249.48
Hose:-	Girls' Building - 1 @ 55.13	-- 55.13
	Boys' Building - 1 @ 55.13	-- 55.13
	Preventorium - 1 @ 55.13	-- 55.13
Reels:-	3 @ 63.80	-- 191.40
Couplings:-	3 @ 6.40	-- 19.20
Nozzles:-	3 @ 6.49	-- 19.47

In authorizing the above, the Department is expending a greater amount than was provided for repairs and equipment at the St. Mary's Mission Residential School this year. It will, therefore, not be possible to consider any further requests during the present fiscal year and you should so inform the Reverend Principal.

Yours truly,

T. R. L. MacInnes.
T. R. L. MacInnes.

MISSION CITY, B. C.

only five hundred dollars for St. Mary's School this year. I was very disappointed because the lack of fire protection is a constant worry especially during the School term. I know the Department is short of funds but adequate fire protection is always a necessity in a School. I have also other urgent improvements (renewal of the lighting system, which is defective and dangerous, installation of hot water heaters and showers for the children and a dryer for the laundry) all of which would cost about two thousand dollars. Of course I know the Oblates are supposed to maintain their privately - owned Schools but it is quite hard to do so from the per capita Grant. I understand estimates for each School are submitted to Parliament annually. When should requests for special Grants be sent in to the Department in order to have the estimates for Parliament prepared well in advance?

Six weeks after I was appointed Principal Captain Barry made his inspection. He made an unfavorable report of the School finding fault with almost everything. But what was slightly annoying was his insinuation that the present state of affairs was due to the change of Principals. I could not see his reason for such a statement, his having come so shortly after the former Principal had left and no changes having as yet taken place. Would his report influence the Department greatly in its attitude towards the School?

The above problems have been uppermost in my mind for some time and I thought it best to present them to you confidentially in hopes of your being able to help me with some very valuable suggestions.

I hope you will excuse the freedom I have taken in writing you a personal letter not having as yet made your acquaintance, but, as I say, I feel I know you through Charles, who was my best student in class, and to whom I'll ask you to convey my fondest regards.

yours very sincerely,

153/1/5

St. Mary's Indian Residential School

UNDER THE DIRECTION OF
The Oblate Fathers

MISSION CITY, B. C. May 17th. 1937.

Mr. Philip Phelan,
Department of Indian Affairs,
Ottawa, Ont.

Dear Mr. Phelan:

Although I have not had the pleasure of meeting you personally, yet I believe I am pretty well acquainted with you through several sources. I have heard our Oblate Fathers (Father Provincial, Father Forbes and others) speak often of you; Mr. Daunt, our Indian Agent, and Miss Dynes often mention your name, and last but not least I feel I know you in a way through your son Charles whom I had the happiness of teaching for a year at St. Patrick's College. So although we have not met, nor have had any correspondence so far on Indian Affairs, nevertheless I do not feel we are strangers.

I have a problem on my hands here at the School and I am asking your advice in an entirely personal way; this therefore is not an official letter.

Last October a Preventorium was opened on the School grounds for those children of the School Grant who are affected with T.B. It is a good venture and has met with a certain success this year. It is entirely in the hands of Dr. McQuarrie who has made very definite regulations as to how it is to be managed. The children are to be confined in the Preventorium, entirely separated from the rest of the School both for class and recreation. They are to be kept in bed a great part of the day, even the least affected. Now it is quite difficult to keep children (Indian children above all) confined all day to a room when they don't feel sick. Three of them ran away and upon being brought back they gave as a reason that they did not like to stay in bed all the time. Furthermore several of them are in the advanced stages of T.B. and are a source of infection to the others. It is impossible to isolate them entirely; they are really Sanatorium cases. Dr. McQuarrie does not want any of the children sent home for the holidays, especially the advanced cases; he says they will lose what they gained. But the recent X-Rays of Dr. Lamb show practically no improvement in the advanced cases and they are a danger to the rest of the School. I understand a Preventorium as a place for children in the first stages of T.B. who can be cured but not for Sanatorium cases which require hospital care. And could not those children who are only slightly affected go to class and recreation with the rest of the School but have the extra rest and special food provided for them in the Preventorium? Would you not think that the management of the Preventorium belongs more to the Principal, guided of course by the medical advice of the doctor? If you could make some suggestions as to how the situation should be handled I would be very grateful.

Mr. Daunt sent the Government Fire Inspector Mr. Dawson to examine our buildings, which are poorly protected against fire, and upon his recommendation a contract for extra fire escapes and a requisition for new hydrants, more fire hose and extinguishers were submitted to the Department. The cost would be quite high, almost to three thousand dollars, but nothing superfluous was asked for. The Department replied that they had set aside

POOR-COPY

EX'D.

Ottawa, August 6, 1937.

Dear Father O'Grady,-

I regret very much that I have apparently neglected to answer your letter of May 17th, last. I wish to assure you, however, at the outset, that I will be only too pleased to hear from you at any time in future and I will promise to reply more promptly.

I agree with you that the preventorium is an excellent idea and I can understand why you consider you should have slightly more to say in the management of it. Of course, the supervision of the preventorium and the regulations governing it come under the Medical Branch and it is not possible for me to make any changes in any of the instructions that they have given you. If you have not already done so, my suggestion would be for you to personally see Dr. McQuarrie and have a full and frank discussion of the whole matter with him. He has always impressed me as being very fair and I feel that such action on your part will result in complete understanding between both of you.

What Mr. Barry did or did not say regarding the St. Mary's Mission Residential School had nothing to do with the amount that we authorized for repairs and improvements. As a matter of fact, these repairs and improvements depend entirely upon the amount that we are able to secure when our appropriation is passed by Parliament. This year, we were only able to provide \$500 for repairs at the St. Mary's Mission School. As a matter of fact, we have already authorized Mr. Daunt to install fire appliances, etc., at a cost of approximately \$967.00.

Our Estimates for the coming session of Parliament will be prepared early in October and, consequently, any request you wish to make should reach us by that time. Such request should, of course, come through Mr. Daunt's office as it strengthens the matter considerably if you have the Agent's approval to what you ask.

As mentioned in the first part of this letter, I will be only too pleased to hear from you at any time. I trust that, as a result of a few months' experience at St. Mary's Mission School, you now feel that you have the work well under control. I am hoping that I will have an opportunity of getting to British Columbia next year.

Yours sincerely,

Rev. F. O'Grady, O.M.I.,

Memorandum:

THE DEPUTY MINISTER,-

Provision was made in the Appropriation for Indian Education for the fiscal year 1937-38 for the erection of fire escapes and the purchase of appliances to prevent fires at the St. Mary's Mission Indian Residential School. As this building is church-owned, it will be necessary to secure an Order-in-Council authorizing the expenditure in connection with the above, and I therefore enclose Memorandum to Council.

Certified to be a true copy of a Minute of a Meeting of the
Treasury Board, approved by His Excellency the Governor
General in Council, on the 29th OCTOBER 1937

MINES AND RESOURCES:

The Board had under consideration
a memorandum from the Honourable the Minister of Mines
and Resources reporting:-

"That it was found necessary to
provide fire escapes and appliances for the
prevention of fire at the St. Mary's Mission
Indian Residential School, in the Province of
British Columbia;

That the cost of the above will be
One Thousand Dollars (\$1,000); and

That this amount will be chargeable to
Vote No. 169, Indian Affairs Branch, Department
of Mines and Resources.

The undersigned, therefore, recommends
that authority be granted for the expenditure of
the amount of One Thousand Dollars (\$1,000) for
providing fire escapes and the purchase of
appliances for the prevention of fires at the St.
Mary's Mission Indian Residential School."

The Board concur in the above report
and recommendation, and submit the same for favourable
consideration.

A large, stylized signature is written over the text "Clerk of the Privy Council".

Clerk of the Privy Council.

The Honourable
The Minister of Mines and Resources.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF

The Oblate Fathers

MISSION CITY, B. C.

Oct. 11th. 1937.

Mr. A. O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Sir:

For the installing of the fire appliances which the Department supplied to this School June last the electrician submitted an invoice to the amount of \$51.81. Together with the required fixtures it was necessary to purchase 2 110 Volt Break Glass Switches @ \$ 10.00 each.

If the Department would authorize payment for same I would submit the necessary vouchers immediately.

Yours sincerely,

F. O'Grady O.M.I.

F. O'Grady O.M.I.
Principal.

[Handwritten signature]
SIR:-

Under date of April 29th, 1937, File No. 153-1-5, you authorized, among other items, the purchase of four fire Gongs at a cost of \$67.72 for St. Mary's Mission Indian Residential School.

I am now enclosing a letter from the Reverend Principal, in which he states that the cost of installation was \$51.81 including the purchase of two 110 Volt Break Glass Switches, and he requests that the Department meet this expenditure.

In view of the urgent need there was for this equipment, I would recommend that authority be given to pass this account for payment.

Your obedient servant,

Vancouver, B. C.,
March 10, 1938.

Sir: Re: St. Mary's Mission School,
 Water System.

As requested I made an inspection of the above water system on December 6th, 1937, and again on February 10th and 15th.

I found, as had been reported by the school authorities, that the reservoir was leaking, apparently through the sides and bottom. Owing to winter conditions obtaining, with the ground saturated, it was difficult to determine just how much was seepage from the reservoir and how much surface drainage and ground seepage. I found that little can be done to overcome the loss until dryer conditions prevail about midsummer. The flow of the creek is at present quite ample to supply all requirements and make good the loss by seepage.

The cost of effecting repairs to the reservoir should not exceed \$250.00.

POLLUTION OF WATER SUPPLY

In addition to the inspection of the reservoir I went over the watershed of the streams supplying the school and found a condition likely to have more serious consequences than the loss of water reported.

Several houses have recently been erected in close proximity to the reservoir, one house being located within ten feet of the creek about 100 yards upstream from the reservoir. The probability of the school's water supply being affected appeared so certain that I had samples of the creek water taken for exam-

Tap		0	0	plus	plus
Intake		0	0	0	plus
Above probable					
source of		0	0	0	0
infection					

Further samples will be taken weekly for some weeks.

It is evident that the water supply is being polluted, probably from the sources above referred to. The condition has been reported to the Indian Agent for action by the Medical Health Officer.

The situation is not satisfactory and steps should be taken to overcome the possibility of pollution of the creek, or a new source developed for the school's domestic supply.

SOURCE OF SUPPLY

The source from which the school obtains its water supply is a small unnamed creek near the northwest boundary of the school property. The creek in dry weather is fed by seepage from a high bank paralleling the course of the creek for a quarter mile or more. The dry weather flow is about 0.35 c.f.s. but in winter the flow is increased by surface drainage to several times that rate. The area from which

surface drainage affects the creek does not exceed 150 acres. All of the area is alienated and with the exception of several lots near the reservoir is unoccupied and little of it is developed.

The creek has been an unfailing source of supply for the school for a great many years.

Appended is a plan of the area referred to.

WATER SYSTEM

The water supply system comprises a storage reservoir of about 30,000 gallons capacity and a pipeline of sufficient size to provide for fire protection and power requirements. About 10 years ago the system was rebuilt, at which time the reservoir was enlarged to its present size. It is a wood-lined excavation at one side of the creek and is uncovered.

LOSS FROM RESERVOIR

About one year after the reservoir was reconstructed in 1927, leaks developed through the bottom and sides. Some repairs were carried out but were not entirely effective. As the loss was not sufficient to cause an interruption of the service a large expenditure was considered unwarranted. More recently the leakage has increased and on several occasions during the past two years there have been shortages. The diminished supply, although not affecting the school's domestic requirements, might present a serious difficulty in case of fire and, of course, the output of the power plant is reduced at times.

REPLACEMENT OF RESERVOIR

It is uncertain whether any measures taken for the reduction of seepage losses from the reservoir

Indian Affairs (RG 10 Volume 6470, file 890-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

would be effective for any lengthy period. The timber lining is showing evidence of decay in places and the probability is that replacement will be required before many years. It would probably be desirable to consider immediate replacement of the reservoir by a tank, more particularly since the area in the vicinity of the reservoir is being developed and pollution of the water supply on that account is likely to occur from time to time, if not continuously.

At the same time the point of intake could be moved upstream from the present location and above the probable sources of pollution.

PROTECTION OF WATER SUPPLY

With the object of securing for the school a reasonably safe source of water supply, I would recommend that the following course of development be proceeded with.

- (a) - Secure as much of the area adjacent to the source of the creek as possible, namely - Lots 211, 210, 209; about 8 or 10 acres of the S.E. corner of the Cade Estate, and the parcel marked Lot 9 on the accompanying plan. Schedule of land ownership is attached hereto.
- (b) Fence off the area surrounding the source of supply and construct an intercepting ditch to carry off surface drainage.
- (c) Erect a covered tank on Lot 213 and move the point of diversion to a point in Lot 211, just east of the road allowance.

I would suggest that the land may be secured either by purchase or exchange for some of the unused school land in Lot 4 Group 3, and Lots 204, 205 and 213. It need not necessarily be carried out at once but as opportunity presents itself. At present the owner of

Indian Affairs (RG 10 Volume 6470, file 890-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

R-COPY

Lots 210 and 211 will exchange for the school lots 204 and 205, and will remove his house for a consideration of \$200. and provide right-of-way for pipeline over the exchanged land. For the present this exchange would permit of the development recommended and probably remove the chief danger of pollution.

COST

The development suggested would require an outlay of approximately \$4100. exclusive of land purchased or exchanged. The immediate requirements, changing the point of intake and erecting a new storage tank would require an outlay of about \$3050.00.

ALTERNATIVES

Alternative to the changes recommended would be the development of wells, close to the school, as a source of domestic supply only - maintaining the existing system in its present condition for fire protection and power purposes. Such a source would probably provide a reasonably safe supply. The cost, however, for a pressure service is likely to be greater than that of the changes suggested.

Chlorination of the present supply as an alternative to the changes recommended should not be considered until all other reasonable measures have been taken to protect it.

RECOMMENDATION

I would recommend that the changes mentioned be carried out at the earliest moment possible and that the whole programme outlined be given consideration at an early date.

Yours truly,

APPROVED:

March 28, 1938.

Memorandum:

Mr. WardleRe - Storage Dam, Mission Indian Residential
School, New Westminster Agency.

At the request of Mr. D. M. MacKay, Indian Commissioner, Mr. Webb recently had Mr. Warren make an investigation of conditions at the above storage dam which is part of the water supply system serving the Mission Indian Residential School at Mission, British Columbia. A copy of Mr. Warren's report dated March 10th, 1938, is attached.

Apparently the request for this inspection arose out of the fact that the storage reservoir was leaking. However, when investigating the condition of the storage dam Mr. Warren found that some people had taken up residence in close proximity to the creek above the storage works and there was thus so much possible chance for contamination of the water supply that Mr. Warren decided it was advisable to extend his investigations to include a complete survey of the water supply system at this school.

Encl.

Samples of the water were obtained and upon analysis, show that there was contamination taking place. Immediately this information was available the local agent was advised so that he could have the school authorities take the necessary precautions to protect the school population. Mr. Warren's report, as to suggested action, may be divided into three parts:-

- (1) For temporary repairs of the storage reservoir it is estimated that \$250.00 would be required. This expenditure would however in no way improve sanitary conditions nor could it be guaranteed that further leakage might not occur in the future.
- (2) For an estimated expenditure of \$3,050.00 a new storage tank could be erected and the point of intake for the water supply might be changed. This would be permanent construction work along the lines of a complete system recommended by Mr. Warren and would do away with the present open reservoir and at least considerably improve sanitary conditions by eliminating part of the possible sources of contamination.
- (3) A complete development that would as far as reasonably possible, do away with chances of contamination of the water and provide a satisfactory service water supply system. It is estimated by Mr. Warren to cost \$4,100.00, exclusive of land purchase or exchange. This third scheme would involve the securing of certain areas adjacent to the creek from which water is obtained and the removal of some houses-----

2.

houses now on this land.

On the basis of ultimate costs, it will be noted that Mr. Warren is not in favour of drilling wells. Neither does he recommend treating the present water supply until all reasonable measures have been taken to protect it.

From the information available, there does not seem to be any doubt but that something should be done with regard to existing conditions at this school insofar as the water supply is concerned. It is, of course, recognized that the work that can be done is dependent upon funds available. However, under the circumstances, it hardly seems worth while considering the first proposition, namely, the spending of \$250.00 merely to make temporary repairs to the reservoir and leave the present unsanitary conditions. The expenditure of \$3,050.00 however under the second scheme would apparently give worth while results and if it is not felt that the whole scheme involving the expenditure of \$4,100.00 can be undertaken this year, it is recommended that if at all possible provision should be made for at least undertaking the work involved in scheme No.2.

Respectfully submitted,

T.S. Mills

Ottawa, April 8th, 1938.

Memorandum:

Dr. McGill.

Re - Storage Dam, Mission Indian Residential
School, New Westminster Agency.

I am forwarding herewith, copy of a memorandum from the Chief Engineer together with a report of Mr. W.C. Warren, on the condition of the water supply system of St. Mary's Mission School at Mission, B.C.

Three suggestions are made for the improvement of conditions. Our engineers consider that the first of these, namely, temporary repairs to the storage reservoir is hardly worth while in view of the unsanitary conditions present. If the sum of \$4,100.00 to complete the whole scheme is considered too large, it is thought that the expenditure under the second scheme of \$3,050.00 would give worth while results.

Memorandum:

MR. WARDLE

Re: Storage Dam, Mission Indian Residential
School, New Westminster Agency.

I am in receipt of your memorandum of April 8
in connection with the above.

This was the first intimation that I had
received that the water supply system at the St. Mary's
Mission Residential School was unsatisfactory.

It is noted that in order to complete the
necessary work in a satisfactory manner it would require
an expenditure of \$4,100.00 exclusive of land purchase
or exchange. No provision was made in our current
year's appropriation for such a large amount and it is,
therefore, practically impossible for this Branch to
consider doing anything this year.

I am writing Commissioner MacKay requesting
him to again discuss the whole matter with Mr. Webb and
Mr. Warren and no doubt they will report further to you.

Stoness
Director.

EXD.

Ottawa,
April 12, 1938.

Dear Sir:

I am in receipt of a report from the Surveys and Engineering Branch in connection with the storage dam and water supply system at the St. Mary's Mission Indian Residential School. I understand that Mr. Webb made a careful investigation of conditions at the St. Mary's School at your request.

Possibly you have also received a copy of the report submitted by Mr. Warren in which he states that the suggested improvements would involve an expenditure of \$4,100.00 exclusive of land purchase or exchange. As this is the first intimation that the Department has received that the water supply system at the St. Mary's School is unsatisfactory no provision has been made in our appropriation for the fiscal year 1938-39 for this expenditure.

The only amounts included in this year's appropriation for the St. Mary's School were the following: Paint \$400.00, Laundry dryer \$350.00, Hot water heater \$250.00, or a total of \$1,000.00.

I would appreciate if you would again discuss with Mr. Webb and Mr. Warren the water supply system at this school. If, upon reconsideration, they feel that an expenditure of \$1,000.00 would be of any permanent value this Branch would be prepared to provide this amount on the understanding that the other items

Major D. M. MacKay,
Indian Commissioner,

of expenditure mentioned above would not be incurred this year. As you can understand our estimates have already been submitted to Parliament and it is not possible to make any additions. There are so many demands on the appropriation that we cannot consider increasing expenditure over the amount actually provided for any particular Residential School.

I would appreciate hearing from you when you have further discussed the matter with Mr. Webb and Mr. Warren.

Yours very truly,

James
Director.

INDIAN AFFAIRS
BRANCH

Dear Sir:

I beg to acknowledge your 153-1-5, of the 12th instant, referring to the contamination of the water supply system at the St. Mary's Mission Indian Residential School. I beg to inform you that I have this day interviewed Mr. Webb and Mr. Warren, our Engineers, in this matter. The whole issue is somewhat complicated.

Firstly, there would appear to be no doubt that this water supply is contaminated, and further, with further settlement higher up the creek it is likely to be even further contaminated in the future. I first ascertained from Mr. Webb as to whether should we expend the \$4,100.00 suggested to put in fresh works if that would actually solve the problem and prevent further contamination. Mr. Webb stated that it would probably do so temporarily but could give no guarantee that it would do so should further parties settle higher up the creek, as they are apparently proposing to do. The other alternative is the purchase outright or part exchange of land, but there would appear to be a hitch also in this procedure as it is difficult at the moment to say how much land would have to be purchased or exchanged in order to get complete immunity from contamination. The other alternative that suggested itself to me would be for the school to hook up with the Mission City water system, a matter of connecting up for 500 or 600 feet. I therefore telephoned Indian Agent Daunt this afternoon to ascertain the possibilities of connecting up with the Mission City water system, and as soon as he has any data upon this, he is to let me know.

In the meanwhile, owing to the possible danger of contamination at any time, I have issued orders to Indian Agent Daunt to order in writing that the School authorities see that all water now being used for drinking purposes is boiled. He is to send me

Dr. H. W. McGill,

a copy of his letter to the Principal. He, however, informs me that both Dr. McQuarrie and himself have already instructed the Principal to that effect, though not in writing.

As soon, therefore, as I hear from Mr. Daunt as to the possibilities of linking up with the Mission City water system, I will let you know.

In the meanwhile I should like to know exactly what the feelings of the Department are towards expenditure of any kind in this case, having in view the fact that the school and grounds are not Government property, as most of our residential schools are. Is it considered that we should be responsible for works of this kind on what is, I presume, private property, or is it considered that the onus is upon the owners, and that when paid a per capita grant that protection of this sort should be given by them. I ask this because I am not quite clear as to what angle should be taken in viewing the matter in general.

Yours very truly,

G. S. Pragnell.

EX'D.

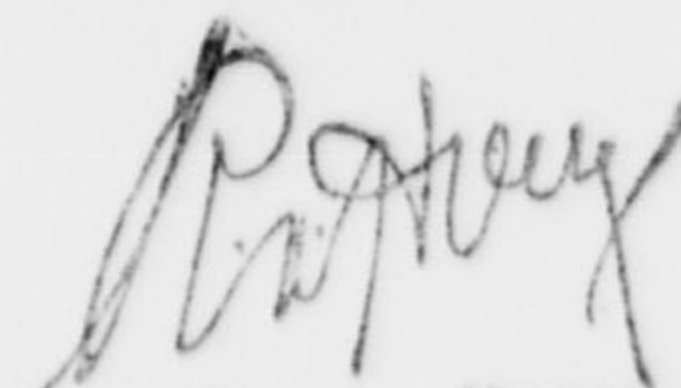

Ottawa,
May 4, 1938.

Dear Sir:

I am in receipt of your letter of the 25th ultimo with reference to the water supply at the St. Mary's Mission Residential School.

I note that Indian Agent Daunt intends to ascertain the possibility of hooking up with the Mission City water system. In this event he should inquire the cost of water service. If such procedure is undertaken it would be well to discuss the matter with the Principal of the St. Mary's Mission School in order to make certain that the school management is favourable to this method as the cost of water service would have to be paid from school funds.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

NEW WESTMINSTER AGENCY INSPECTION REPORT NO.10

Sir:

I visited this agency on the 5th of May.

X

X

X

We discussed various matters pertaining to the agency, the principal one being the reputed contamination of the water supply at St Mary's Mission Residential School. This matter is being dealt with from the Commissioner's office. Personally I think, and Agent Daunt agrees with me in that the best solution is to connect the school with the Mission City water supply, at a cost, I understand, of about \$900.00. It is now stated that there is no infection from the Japanese settler complained of, and that possibly the Provincial Health Authorities can prevent further settlement in the watershed. I doubt this myself, without purchase of the land in compensation. The attitude of the Department in the matter has still to be ascertained over the question of responsibility for expenses in the case, seeing that the property is not Government owned. Agent Daunt is to report to the Commissioner's office more fully on the matter.

MEMORANDUM:

Mr. Wardle.

Re: Storage Dam, Mission Indian
Residential School, New West-
minster Agency.

In a letter dated the 28th ultimo, Mr. Webb advises that Indian Commissioner MacKay had informed him that morning by telephone that he is still making investigations into the problem regarding the above water system with the local Indian Agent and school authorities. Mr. MacKay further advised Mr. Webb that he would get in touch with him as soon as he had formed an opinion as to what was best to be done, having in mind the recommendations which were made in Mr. Warren's report of March 10th, 1938. You will recall that a copy of the report referred to was attached to our memorandum of March 28th last.

Mr. Webb advises that the suggestion has been made that it might be more economical for the school to be connected up with the local water supply system at Mission City, and that this phase of the question will also be looked into by Indian Commissioner MacKay.

ST. MARK'S INDIAN RESIDENTIAL SCHOOL.

Mission City, B.C.

August 13, 1938.

Mr. A.O.N. Daunt,
Indian Agent,
New Westminster, B.C.

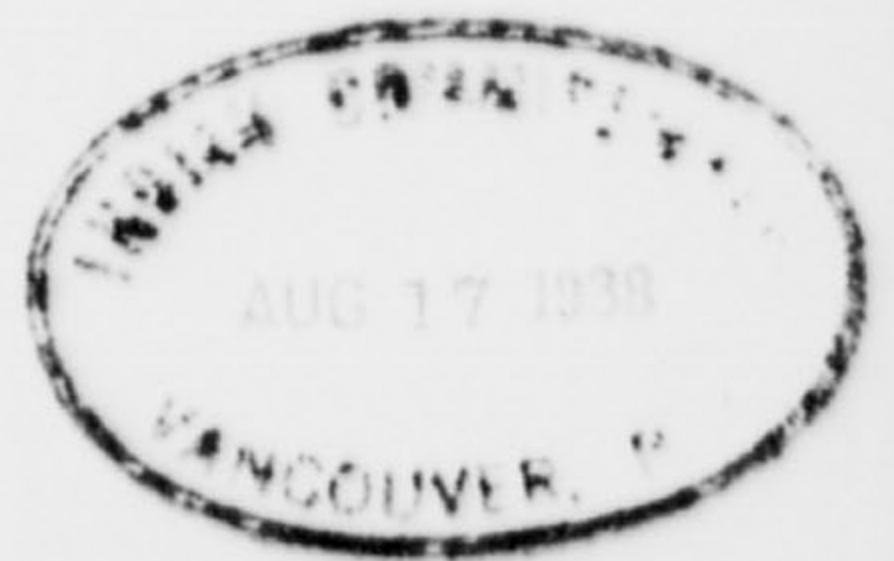

Dear Mr. Daunt:-

I am enclosing the estimate and letters on the dam and the surrounding properties. The Jap, rather than lower his price, would consent to move his buildings to a reasonable distance from the stream about November 1. But I still think there would be danger of contamination so the best thing to do is to buy him out. He will take \$300.00 and four acres or \$550.00 cash. The latter amount is not stated in his letter but that is what he told me in conversation. I would give him four acres which are not of any use to the School, if the \$300.00 could be supplied from this year's extra Grant for repairs etc. as Major MacKay suggested. I think that would be the best way to solve the problem.

I will be seeing you the latter part of next week and will discuss any further difficulties that may arise.

Yours very truly,

(Sgd.) F. O'Grady, O.M.I.

NEW WESTMINSTER, B.C.
August 16th, 1938.

Your Reference No. 30/9/3337.

Dear Sir:-

With reference to the question of the Water Supply at St. Mary's Mission Indian Residential School, I beg to enclose, in duplicate, the following:-

1. Copies of letter from the Reverend Principal, in which he agrees to give the Japanese, H.M. Okamura, four acres of land as part price of the Lots which are affecting the School water.
2. Copies of letter from H.M. Okamura, in which he offers, (a) to trade his Lots for \$300.00 and four acres of land, (b) move the buildings back "the required distance" from the creek, or (c) consider a cash proposition.
3. Copies of letter from William Chell, offering to sell Lot 209, which though at present unoccupied, might become a future menace, for \$250.00.
4. Copies of Estimate from Mr. W.F. Swan, for repairs and improvements to the Dam, at a cost of \$1,975.00.

The Reverend Principal mentions that in conversation, the Japanese agreed to accept \$550.00 cash for his Lots 210 and 211, but that he was prepared to turn over four acres of School land, if the Department would provide \$300.00 from the repairs credit of this Institution. I think this will probably be the best solution of the difficulty so far as the two Lots 210 and 211 are concerned.

With regard to Lot 209, William Chell, at the present moment there is no danger from this source, but it is in the same position as the Japanese Lots, and once occupied will become an immediate danger. It will be cheaper to purchase it now, than later, and I would recommend it for consideration along with the other two Lots 210 and 211.

Regarding the Estimate of Mr. W.F. Swan for Dam repairs etc. at \$1,975.00, it is a matter for an Engineer to compare it's merits with the \$4,100.00 estimate of the Dominion Water Power Branch.

The School is a Church Institution, not a Government one, and I do not know what the reaction of the Department would be towards such an expenditure under these circumstances. It would undoubtedly be very much to the advantage of our Indian pupils to have the rotting timbers removed and the dam properly roofed. The Department have incurred previous expenditure in connection with this Dam

ENCLOS.

IN YOUR REPLY REFER TO
NO 30/9/5444
ALSO TO DATE OF THIS LETTER

Dear Sir:

Re your File 153-1-5 of April 12th
and subsequent correspondence.

With reference to the marginally noted subject, I am forwarding herewith a copy of a letter from Mr. Indian Agent Daunt, together with the copies of the letters to which he refers.

From a personal examination of the situation on the ground, I am satisfied that the safest way at present to satisfactorily deal with the matter is by purchasing lots 209, 210 and 211. The Japanese owner is willing to sell lots 210 and 211 for \$550.00 cash, or would accept \$300.00 cash and four acres of school land. Reverend Father O'Grady is willing to transfer four acres of school land to Mr. Okamura, provided the Department contributes the \$300.00 in cash required to complete the purchase.

There is also lot 209 to be considered and I agree with Mr. Daunt that this parcel should, if possible, also be secured. This would involve a total outlay by the Department of \$550.00, and if taken from the amount provided for repairs at this school would leave a balance of \$450.00 from the \$1000.00 allotted.

As it is essential to take immediate steps to safeguard the school's water supply, and as the purchase of lots 209, 210 and 211 is the means by which this can be accomplished with the least outlay and also the least delay, I would recommend that the Department favorably consider an expenditure of \$550.00 for this purpose.

H.X.D.

Ottawa,
August 27, 1938.

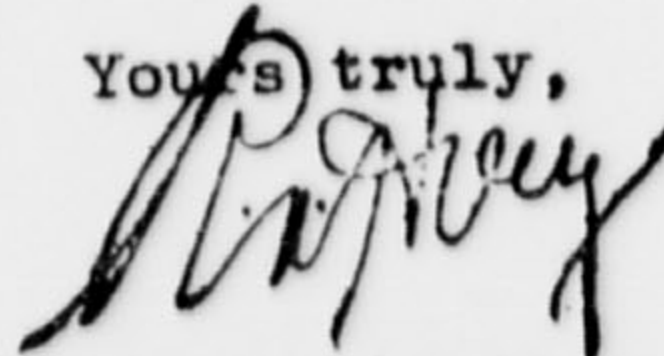

Dear Sir:

I am in receipt of your letter of the 19th instant together with copy of letter received from Indian Agent Daunt regarding the water supply at the St. Mary's Mission Indian Residential School. The Department approves the proposal to purchase certain blocks of land in order to protect the school's water supply system. However, I regret that although funds are available for repairs and improvements at this school the Department cannot favourably consider purchase of these blocks of land. As you are aware the land at present used by the school is owned by the Church authorities. It is proposed to exchange part of this for part of the new land required. This would result in the Department owning some land in connection with the school and the Church authorities the balance. Present regulations require the securing of an Order in Council and searching of title by the Justice Department. I feel certain that the matter would become so involved that it would be extremely difficult, if not impossible, to secure the necessary Order in Council. Under these circumstances I hope that the school management will find it possible to provide the \$550.00 required for the purchase of these extra lots.

The Department would, however, be prepared to consider providing the funds necessary for the repairs to the dam provided these do not exceed Mr. Swan's estimate of \$1,975.00. If the school authorities purchase the lots mentioned in your letter you might secure other estimates on the repairs to the dam and forward these for our consideration.

Major D. M. MacKay,
Indian Commissioner,
P.O. Box 70,
Vancouver, B. C.

Dear Sir:-

I am forwarding herewith reports of the inspections, of boilers and machinery, made by Mr. T. J. Arnall, Engineer, Dominion Public Works Department, at the following Indian Residential Schools in B. C.:-

St. Mary's Indian Residential School, Mission
City, B. C., New Westminster Agency.
Coqualeetza Indian Residential School, Sardis,
B.C., New Westminster Agency.
Sechelt Indian Residential School, Sechelt,
B.C., Vancouver Agency.

Copies of these enclosures have been forwarded to the Indian Agents concerned; and Certificates have been sent to the Principals for posting in the boiler rooms of the respective Schools.

Yours faithfully,

D.M. MacKay.

SPECIFICATIONS

for

Labor and Material for Reservoir and Wing Dam to be erected
for O.M.I. in Mission Townsite.

.....

All work to be done in a workmanlike manner. The Contractor shall furnish all materials and labor, etc. required herein specified. They shall be liable to any accident to persons or damage to property during progress.

The Contractor shall do all necessary excavations for reservoir and wing dam.

After concrete is completed and thoroughly set, the reservoir and wing dam shall be reinforced by fill in and thoroughly tamped.

Inside of reservoir will be given one coat of waterproof cement.

All concrete shall be mixed in the proportions of one part cement, three parts sand and three parts gravel and reinforced by one half inch ($\frac{1}{2}$ ") reinforcing iron not more than two feet (2') apart.

The reservoir will be cross beamed with 3" by 6" I Beams 8' apart, anchored in concrete with two $\frac{3}{4}$ " by 6" bolts at each end. The wing dam will be built from solid foundation to 18" above water line and shall extend from high bank to high bank approximately 60" high.

The roof over reservoir will be constructed with 2" by 4" rafters 2' apart and 1" by 6" sheathing and covered with No. 1 XXXXX shingles or split cedar shakes and provided with door to south end and window to north end, also plank gangway to run full length of tank on top of I Beams.

Your Reference No. 30/9/5693.

Dear Sir:-

With reference to your letter dated the 2nd of September, regarding the water supply at St. Mary's Mission Indian Residential School. I beg to forward you herewith, triplicate copies of a letter, in which the Reverend Principal confirms his telephone conversation with yourself this morning, and agreeing to finance the purchase of Lots Nos. 209, 210 and 211 from the School funds.

I trust that this will meet the situation, in so far as the acquisition of the land is concerned.

I am further enclosing Form No. 37½, covering three Tenders received in connection with the repairs and improvements of the School Dam. One copy of the Tender of Mr. Swan is attached, as you already have two on file, and three copies each of Tenders from Mr. A.S. Rankin and Mr. L. Black, respectively. These latter Tenders are based on the same specifications and plans as submitted by Mr. W.F. Swan.

As Mr. Swan is the lowest Tenderer, and I am given to understand the most reliable of the trio, I would recommend that consideration be given his bid.

If it is intended to proceed with this work, it should be authorized with as little delay as possible, in order that it may be completed before the cold weather sets in.

Yours truly,

A.O.N. Daunt

Dear Sir:

Your file 153-1-5.

I beg to refer to your letter of August 27th regarding certain proposals to protect and improve the water supply of St. Mary's Indian Residential School. The school management have not only agreed to purchase the property totalling \$550.00 referred to in the correspondence, but have undertaken to fully safeguard the supply by purchasing additional lands along the source of supply.

As requested, estimates have been received as follows, and are submitted herewith:-

W. F. Swan	-	\$1,975.00
A.S. Rankin	-	2,175.00
L. Slack	-	2,220.00

From the information obtained here, Mr. Swan appears to be a very reliable man, and both Father O'Grady and Mr. Daunt are satisfied that all the work in connection with the project would be well and carefully done by him. I would recommend favorable consideration of Mr. Swan's tender. If funds are available this work should be undertaken at the earliest possible date in order to have all the cement work completed before the season's frosts set in.

Yours faithfully,

15/9/6244.

12th Oct., 1938.

Dear Sir:-

In a communication received from the Department dated 27th August last, File 153-1-5, it is stated that: "the land at present used by the school is owned by the Church authorities." This remark was made in connection with the water supply question for St. Mary's Indian Residential School, Mission, B. C.

I happened to mention this fact to Mr. Webb, of the Dominion Water and Power Branch and he stated to me that some years ago in the late Mr. Ditchburn's time when the water Power Branch was building the said water system for the School, the question of easement over the land arose, and Mr. Ditchburn in a letter dated August 31st, 1927 (a copy of which is on file here) stated that "so far as District Lot No. 2 is concerned, this Department pays the annual taxes on the same and holds a lien against the property covering the value of a new barn erected a few years ago at a cost of about \$11,000.00. District Lot No. 2 comprises 155 acres and is deemed to be sufficient for all purposes in connection with the maintenance of the School. The Roman Catholic Church or Oblate Fathers own the balance of the property mentioned in my letter."

On December 1st, 1930, Mr. Ditchburn in writing to Indian Agent Daunt said "that in view of the fact that I ascertained whilst at Mission that Lot 2, Group 3, Tp. 17, on which St. Mary's Mission Residential School is located, is exempt from taxation by the Municipality of the District of Mission, no account for taxes should therefore be sent to Ottawa for payment. The whole of Lot 2 was exempted in 1925 from the payment of Municipal taxes but through some error on the part of the Church authorities, accounts have been sent in for the taxation of Lot 3, which, though adjacent to school property, has no connection with Lot No. 2, which is exempted."

IN YOUR REPLY REFER TO
NO **15/9/6244.**
ALSO TO DATE OF THIS LETTER

P.O. BOX 70
VANCOUVER, B.C. **12th Oct., 1938.**

Dear Sir:-

In a communication received from the Department dated 27th August last, File 153-1-5, it is stated that: "the land at present used by the school is owned by the Church authorities." This remark was made in connection with the water supply question for St. Mary's Indian Residential School, Mission, B. C.

I happened to mention this fact to Mr. Webb, of the Dominion Water and Power Branch and he stated to me that some years ago in the late Mr. Ditchburn's time when the Water Power Branch was building the said water system for the School, the question of easement over the land arose, and Mr. Ditchburn in a letter dated August 31st, 1927 (a copy of which is on file here) stated that "so far as District Lot No. 2 is concerned, this Department pays the annual taxes on the same and holds a lien against the property covering the value of a new barn erected a few years ago at a cost of about \$11,000.00. District Lot No. 2 comprises 155 acres and is deemed to be sufficient for all purposes in connection with the maintenance of the School. The Roman Catholic Church or Oblate Fathers own the balance of the property mentioned in my letter."

On December 1st, 1930, Mr. Ditchburn in writing to Indian Agent Daunt said "that in view of the fact that I ascertained whilst at Mission that Lot 2, Group 3, Tp. 17, on which St. Mary's Mission Residential School is located, is exempt from taxation by the Municipality of the District of Mission, no account for taxes should therefore be sent to Ottawa for payment. The whole of Lot 2 was exempted in 1925 from the payment of Municipal taxes but through some error on the part of the Church authorities, accounts have been sent in for the taxation of Lot 3, which, though adjacent to school property, has no connection with Lot No. 2, which is exempted."

Sir: Re: Storage Dam, Mission Indian
 Residential School, New West-
 minster Agency.

Referring to your enquiry of the 14th
ultimo regarding water supply for the above in-
stitution.

Subsequent to my communication to you of
June 28th last we have received no advice from the
Commissioner of Indian Affairs indicating what
works were desired by his Branch. Upon recent en-
quiry, I am in receipt of a letter from Mr. MacKay
dated October 3rd, copy of which is enclosed, which
is self-explanatory. From Mr. MacKay's letter it
would appear that the Indian Affairs Branch are
considering a proposal which has not emanated from
this office, to construct a dam at a cost of \$1900,
the school authorities to be responsible for the
construction works.

This is the first intimation I have had
of this proposal and cannot comment on it.

You will note that Mr. MacKay states that
the sum of money required for the construction of
the dam is not to be taken from any engineering ap-
propriation in connection with irrigation or other
works for British Columbia.

Your obedient servant,

(sgd) C.E. Webb,

District Chief Engineer

Sir: Re: Storage Dam, Mission Indian School

Thanks for your letter of the 3rd inst. wherein you outline proposals made by the Indian Affairs Branch and the Mission school authorities, for the construction of a dam for which a tender of \$1900 has been submitted by contractors, the school authorities to be responsible for the construction work.

In compliance with your request of November 4, 1937, we investigated the conditions of the storage dam and submitted a report by Mr. Warren dated March 10, 1938, covering our proposals. The present programme of work seems entirely different from our proposals. I will be glad therefore to be advised as to who the contractors referred to are, and who requested tenders from them and under what specifications were these tenders submitted.

If the work is carried out as now suggested I presume we will not be called upon to give any engineering supervision.

Yours very truly,

C.E. Webb,
District Chief Engineer.

P.O. Box 70,
Vancouver, B.C.
3rd October, 1938.

Dear Mr. Webb:

I have your 37332-2 of the 1st instant, which is in reference to improvements in the domestic water supply for the Indian Residential School at Mission, B.C.

You state that Mr. Mills has written you, enquiring as to the status of the project. In answer I have to say that the suggestion was originally made to the Department to purchase certain land to protect the source of this water supply from contamination. The Department, however, objected to the purchase of this land for the reason that the rest of the land for the Mission School is private property and does not belong to the Government. As an alternative, they stated that they would pay the \$1,900 required for the construction of a dam: This \$1,900 being according to the tenders submitted by contractors. The School authorities are to be responsible for this construction but, of course, to submit proper accounts as usual.

I am informed that this sum of money is not to be taken from any engineering appropriation in connection with irrigation or other works by B.C., but is to be taken direct from an appropriation set apart for School and Education purposes. I presume that after this work is completed the Department will require that the construction be passed upon as satisfactory before they pay the \$1,900. I presume, of course, that your Department may be asked to examine this. Should, too, the sum of money be not sufficient the School authorities themselves will have to be responsible for any balance required. It, therefore, means that as far as we are concerned, we shall have nothing to do with the project, except as I suggested the possible request for examination.

Yours very truly,

G.S. Pragnell.

MEMORANDUM:

Mr. Wardle.

Re: Storage Dam, Mission Indian
Residential School, New
Westminster Agency.

You will recall that our memorandum of March 28th last transmitted a copy of a report prepared by Mr. Warren dated March 10th, 1938, with reference to the above. Correspondence since the above date has indicated that the Indian Affairs Branch were investigating this matter and our memorandum to you of July 5th last advised regarding the last report we had received from Mr. Webb in this connection.

In order to ascertain the present standing of this project, Mr. Webb was recently written and we now have a report from him. Copies of this correspondence now received from Mr. Webb are attached, and it would appear from same that no further action in connection with same, insofar as this Service is concerned, is necessary at least until we hear further from the Indian Affairs Branch.

Encls.

Respectfully submitted,

T. S. Mills

Memorandum:

Dr. McGill

Re: Storage dam, Mission
Indian Residential
School, New Westminster
Agency.

I am forwarding herewith correspondence in regard to the proposed construction of a storage dam at the Mission School at a cost of \$1,900. You are probably familiar with the circumstances.

It would appear from the letter addressed by Mr. Pragnell to Mr. Webb that this branch will have nothing to do in connection with the construction of this dam other than to comply with the possible request to examine the structure. I should be glad if you would confirm this understanding.

Director.

Memorandum:

DEPUTY MINISTER

Re: St. Mary's Mission Indian
Residential School

The water supply for this school has caused us considerable concern during the past few months and at our request one of the engineers of the Surveys & Engineering Branch made an exhaustive survey. He estimated that the cost of placing the water supply in proper condition would involve an expenditure between \$3,000.00 and \$4,000.00. To carry out his suggestion would require the purchase of additional land. As the land at this school is not at present owned by the Department Indian Commissioner MacKay was written with a view to ascertaining if the school authorities would purchase the additional land required.

He has replied by stating that the school management has now purchased all the land necessary to ensure no interference with the water supply system of the school.

Considerable repairs and improvements are necessary to the school reservoir and wing tank and Commissioner MacKay has obtained quotations for this work from the following:

W. F. Swan, Hatzic, B.C.	\$ 1,975.00
A. S. Rankin, Mission, B. C.	2,175.00
L. Slack, Hatzic, B. C.	2,220.00

Indian Affairs (RG 10 Volume 6470, file 890-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

R-COPY

Commissioner Mackay recommends that favourable consideration be given to Mr. Swan's quotation.

Funds for the purpose are available in the current year's appropriation and as it is most important to have a plentiful supply of good water at this school I should appreciate it if the Honourable the Minister would approve authorizing Mr. Swan to proceed at once. I may add that when Mr. Swan completes his contract the Surveys & Engineering Branch will inspect the work.

St. Mary's Indian Residential SchoolUNDER THE DIRECTION OF
The Oblate Fathers

MISSION CITY, B. C.

June 5th, 1939.

R

Dear Mr. Phelan;

Before Father O'Grady left this school for Kamloops, he mentioned you as one, who had always shown him the utmost consideration and kindness in all matters pertaining to the school. I would therefore ask you to please help me in a matter of great urgency which has recently cropped up. You are no doubt aware that Father O'Grady and before him, Father Gillen, made many and extensive improvements at St. Mary's School. However the lack of money prevented them from taking care of all the necessary repairs and I find myself left with a doubtful legacy, in the form of a very unsatisfactory hot-water system and heating equipment. This has long been a serious problem of the school and I would like to have it remedied as soon as possible.

Our heating plant is situated midway between the boys' and girls' buildings, a distance of about 200' from each. The pipe that carries the steam is uninsulated and I judge that at least one third of our heat is wasted; so much so that it is impossible to adequately heat the girls' building, which is larger than the boys'. To remedy this trouble it is necessary to have a concrete conduit built to protect the pipes and preserve the heat, carried to both buildings.

That is one problem; the other and by far, the more urgent is the installation of a hot-water system. At present, with a lot of trouble, we arrange for the children's baths in the laundry building. This is most unsatisfactory and is a constant source of worry in the winter, inasmuch as this building is situated at considerable distance, and exposes the children to the danger of colds etc. What is needed is the installation of a hot-water system in the central heating plant, operating from the furnace. Then the children could have their baths in their respective buildings. I might add that a sort of temporary remedy was tried in the form of electric heaters, as it was necessary that we have some hot water in the buildings, especially for the infirmary. These were found to be of ^{no} practical use because they were far too expensive and they are being removed at the end of the school term in June. That leaves us with no hot water in either building.

POOR COPY

page two.

I have no money to install this necessary equipment and trust that the department, which has always shown such consideration to the school, especially where the welfare and comfort of the children were concerned, will help me. I have already forwarded estimates, covering the work, both the hot-water system and the conduit, through Mr. Daunt. This was several weeks ago and, no doubt, by now the matter has been referred to Ottawa. The work should be done this summer and I am anxious to get it started as quickly as possible. I have given you as many details of the affair as I could, in the hope that you would interest yourself in our need and try to obtain the special grant necessary. Unless we obtain this grant I do not know what we will do.

I received a Hansard report the other day and noticed where our school was mentioned. It was in connection with the number of children that are maintained here over and above the school grant. I mention this merely in the hope that you will take this added expense into consideration, as we are thereby left with no surplus to take care of the work alluded to.

Miss Dynes, at the New Westminster office has told me that you will be attending the Knights of Columbus convention in Seattle this summer. I hope that you will find time to visit the school as I would be very glad to meet you. It is too bad that at this time the children will not be in school, as we have a little band here that has consistently won first place in the Vancouver Music Festival, and I would have liked you to see and hear them. Trusting that you will give my request your favourable attention, I remain,

Very Sincerely Yours,

A. H. Fleury, O.M.I.

Ottawa,
June 13, 1939.

Dear Father Fleury:

I was absent from the office on business when your letter of the 5th instant was received. However, Mr. Hoey sent an air mail letter to Indian Agent Daunt requesting him to forward full particulars of what is required at the St. Mary's Mission residential school. Until you receive detailed information in this regard it is impossible for me to state exactly the total expenditure that we can incur. We have provided some funds for St. Mary's Mission school and if the improvements are not too extensive there is no doubt that we will be able to handle the matter.

I am not certain yet if I will stop for any length of time in Vancouver this summer but if I do so I will certainly visit your school.

Yours truly,

Philip Phelan,
Chief, Training Division.

AIR MAIL

Ottawa, June 9, 1939.

Dear Sir:

The Department is in receipt of a letter from the Reverend A. H. Fleury, O.M.I., Principal of the St. Mary's Mission Indian Residential School, Mission, B. C. Father Fleury in his communication states:-

"I have no money to install the necessary equipment at this school and trust that the Department, which has always shown such consideration to the school, especially where the welfare and comfort of the children are concerned, will help me. I have already forwarded estimates covering the cost of the work - both the hot water system and the conduit - Through Mr. Daunt. This was several weeks ago and no doubt by now the matter has been referred to Ottawa."

There is nothing on record here to indicate that the estimates to which Father Fleury refers have been forwarded to the Department. It is of the utmost importance that repairs to Indian residential schools should be undertaken, if at all possible, during the vacation period. I would appreciate it, therefore, if you could forward immediately the information supplied you by the Principal of the St. Mary's School, together with any recommendations you may care to forward. If this information has been forwarded to the Commissioner's office, please ask that it be sent forward to Ottawa.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF
The Oblate Fathers

MISSION CITY, B. C.

May 18th, 1939.

Dear Mr. Daunt;

I am enclosing quotations received from Fred Welsh & Son, Vancouver and W.F. Swan of Hatzic in connection with the installation of a hot-water system at the school.

The quotation from Fred Welsh & Son covers the installation of a storage tank, heaters etc. which are necessary to provide a sufficient supply of hot water for the bathing purposes of the children. As you are well aware, this has been, for a long time, an unsolved problem at the school, where we have found it necessary to arrange for the proper bathing of the children under very unsatisfactory and trying conditions. The installation of electric heaters proved a failure as well as an additional expense and what little help they furnished will soon be no more as they are being removed at the end of this month, leaving us in a very difficult position. You may see then how acute our problem is; the only satisfactory solution being the installation of heating equipment as outlined in the enclosed quotations. This installation will give the school a permanent and reliable hot-water system. The installation of the showers, included in the quotation, is of course a necessary complement of the heating system.

In regard to the quotation of W.F. Swan, you will recall how our boiler room is situated midway between the boys' and girls' buildings, with the steam pipes, running underground to each. With the additional hot-water pipes it is quite necessary that some adequate insulation and protection be given these pipes, else a large part of the heat would be wasted, in fact, I doubt whether the hot-water arrangement would be feasible at all without the insulation as provided in the estimate. Needless to say, there are many other features connected with this whole matter, which will mean certain expense and trouble, for instance, the drainage of the boiler room. However the main items are the hot-water equipment and the concrete trench. I must admit that the installations are an expensive item and the question has me worried quite a bit. However I rely greatly upon your appreciation of our difficulty and I trust that the Department, in view of their past considerations towards the School will pass the estimates for

Dear Sir:-

I beg to forward you herewith, in duplicate, copies of a Tender received from Mr. Fred Welsh & Son, Vancouver, B.C., in connection with the installation of a Hot Water System at St. Mary's Mission Indian Residential School, and amounting to \$2,875.00..

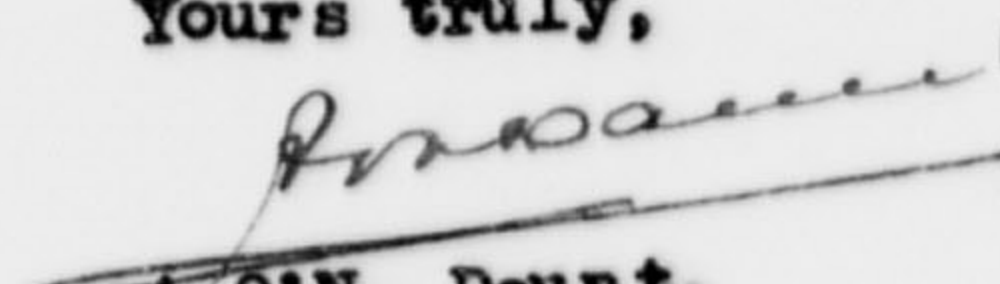

I am also enclosing duplicate copies of a Tender from Mr. W.F. Swan of Hatzic, for the concrete and tunnel work in connection with this system, which amounts to \$985.00.

This has reference to the item of \$4,000.00 submitted in my estimates for this School, for the present fiscal year.

An explanatory letter from Reverend A.H. Fleury, Principal, is also attached.

The Hot Water System of this School, has always been a source of trouble, and I would strongly recommend that favourable consideration be given by the Department to have this work carried out, as suggested by the Reverend Principal.

Yours truly,

A.O.N. Daunt.
Indian Agent.

EXTD
Ottawa,
June 16, 1939.

Dear Sir:

I am in receipt of your letter of the 9th instant enclosing communications received from Indian Agent Daunt and the Principal of the St. Mary's residential school in connection with the installation of a hot water system at an estimated cost of \$3860.00.

In the current year's appropriation an amount of \$2525.00 was provided for repairs, improvements and purchase of new equipment at the St. Mary's residential school during the current fiscal year. This Branch is prepared to recommend to the Honourable the Minister that the amount just stated be allowed toward the cost of the installation of the new hot water system. This would, of course, involve an expenditure of \$1335.00 on the part of the school management as owing to the present setup of our appropriation it is not possible for the Department to exceed the amount specifically provided for this school.

Before submitting the matter for the attention of the Honourable the Minister I wish to know if, in the event of our expending the amount of \$2525.00, the school management is willing to provide the balance.

Yours truly,

Major D.M. MacKay,
Indian Commissioner,
P.O. Box 70,
Vancouver, B. C.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF
The Oblate Fathers

MISSION CITY, B. C.

June 27th, 1939.

Dear Mr. Daunt;

I am sorry that I have kept you waiting for my decision in regard to the expenditure on the hot water system and concrete trench. I wanted to weigh the matter over very carefully before committing the school to the large amount of \$1335.00, which is the difference between the appropriation of the Department and the total cost of the improvements needed at the school. I had hoped to find some part of the equipment, which I could curtail for the present and thereby reduce the expenditure of the school to a smaller figure. I found this impossible, inasmuch as the items, covered by the estimates, have already been reduced to the minimum and besides they depend on and complement each other in such a way as to cause dissatisfaction and unnecessary expense were any part to be put off till a later period. In view of these facts, I have decided to provide the balance of \$1335.00 out of the school funds, as suggested in the letter of Mr. R.A. Hoey to the Commissioner, Major MacKay. I presume that the Department will advise as to the manner in which the school's share (\$1335.00) should be directed towards the cost of the estimates, if they approve of my decision.

I wish to take this opportunity of expressing my appreciation of the Department's consideration in being prepared to allow the sum of \$2525.00 towards the expenditure of equipment for the school. Naturally, I was disappointed in not receiving the full amount, but nevertheless, I feel that my request was given every consideration. Many thanks to yourself for your kind interest.

Very Sincerely Yours,

A.H. Fleury, O.M.I.

PLEASE QUOTE
FILE **1-8-A.**

NEW WESTMINSTER, B.C.
June 28th, 1939.

Your File No. 15/9/9897.

Dear Sir:-

In reply to your letter dated the 21st of June, regarding the application of the Reverend Principal of St. Mary's Mission Indian Residential School, for the installation of a pipe tunnel, and a hot water system.

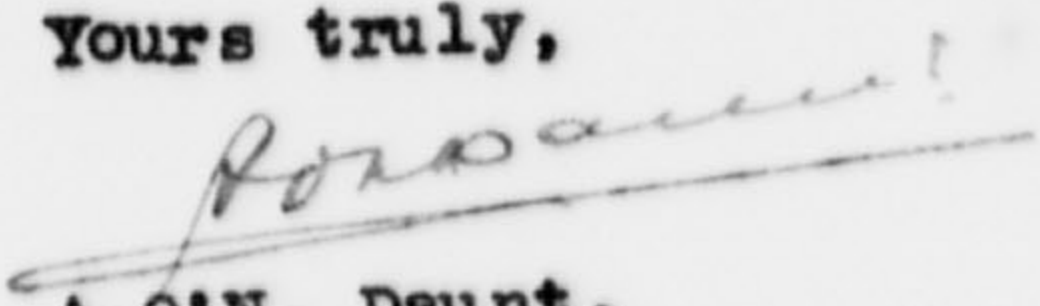

I beg to forward you herewith, in duplicate, a letter received from Reverend A.H. Fleury, Principal, in which he agrees to accepting the amount of \$2,525.00 from the Department towards the cost of this work, and further agrees to provide the balance of \$1,335.00 out of the School funds.

You will note that he desires to be advised as to the manner in which the School's share should be directed towards the cost of the estimates.

I would suggest myself that in the event of the Department giving authority for this work to be undertaken, an account for the full amount of \$2,875.00, in connection with the domestic hot water system portion be submitted to us, and showing at the foot thereof as, "amount absorbed by the School, \$350.00", and leave the net bill payable by us to the Hot Water System Contractors of \$2,525.00. The School would then assume the entire cost of the tunnel, viz: \$985.00, and be accountable to the Hot Water System Contractors for the balance of \$350.00.

This will simplify the bookkeeping in the matter, and enable us to apply our appropriation on one account only.

Yours truly,

A.O.N. Daunt.
Indian Agent.

ALSO TO DATE OF THIS LETTER

P.O. BOX 70
VANCOUVER, B.C.

153-1-5
June 29, 1939.

Dear Sir:

Re Your File 153-1-5.

I have to refer to Mr. Hoey's letter of June 16th, and previous correspondence, regarding the construction of a pipe tunnel and installation of a hot water system at St. Mary's Mission Indian Residential School. You will recall that the Department advised that an amount of \$2525.00 was available for this work on condition the school would provide the balance of \$1335.00 required out of school funds. Rev. Father Fleury, O.M.I., Principal of St. Mary's School, has now advised through Mr. Indian Agent Daunt that the school is prepared to assume responsibility for the payment of this balance in order that these much needed improvements may be carried out. A copy of Rev. Father Fleury's letter to Mr. Daunt in the matter is attached, together with a copy of Mr. Daunt's letter to this office.

It will be observed that Mr. Daunt suggests that an account for the full amount of \$2875.00, being the tender of F. Welsh and Son for the installation of the hot water system, be submitted to the Department, indicating thereon the amount to be absorbed by the school, i.e., \$350.00, leaving a net bill of \$2525 payable by the Department to the contractors. Briefly, the Agent suggests that the \$2525.00 to be provided by the Department be applied to the costs of the hot water installation and that the balance of these costs, together with the full cost of the pipe tunnel, be taken care of by the school. This seems to be a simple and suitable way of dividing the responsibility for the payment of the costs involved. Under these arrangements I should imagine that the Department would wish to let the contract for the heating system and allow the school to make their own arrangements with respect to the construction of pipe tunnel.

The Secretary,
Indian Affairs Branch,

Memorandum:DEPUTY MINISTER

Re: St. Mary's Mission Indian Residential
School, Mission, British Columbia -
New Westminster Indian Agency -
Electoral District of Fraser Valley.

At the time of the preparation of the estimates for the current fiscal year, the Principal of the above-mentioned church-owned Indian residential school brought to the Department's attention, through the office of the Indian Commissioner, the necessity for the installation of pipe tunnel and a hot water system. As a result of this request, an amount of \$2,525.00 was included in our appropriation for the fiscal year 1939-40 for repairs and improvements at the St. Mary's Mission School.

The Reverend Principal of the school has obtained a quotation from Fred Welsh & Son for installing the hot water system and a quotation from W. F. Swan Hatzic, B.C., for the labour and material in connection with the concrete tunnel.

I enclose these quotations for your information. You will note that Fred Welsh & Son quote a price of \$2,875.00 and Mr. W. F. Swan, \$985.00, or a total cost of \$3,860.00.

The school management is prepared to pay from school funds the expenditure over and above the amount

provided -

July 10/39.

Estimate for installing Hot Water and
Shower installations to boys' and girls'
Schools, Mission, B.-C.

Dear Sir:

We will furnish all material for the
installation of the following equipment:

Tank Heater.

- 1 - W-10 Dored High-Test Heater with
a manufacturer's rating of 100-degree
raise every three hours.
- 1 - Storage Tank, 42"x10', with a capacity
of 600 Imperial gallons. This tank to
be constructed with man-hole and to
comply with B. C. Government Boiler
Act, with Safety Valve as required under
the Act. To be installed on Pipe Stand.
- 1 - Red-Head Steam Water Heater, #12, with
capacity of 500 gallons per hour, with
steam pressure of two lbs.

We will connect Storage Tank with Boiler
and Auxiliary Steam Heater with 2½" flow and re-
turn pipes.

Connect steam and return from existing
Steam Boiler to Auxiliary Heater.

Cover Boiler, Heater, and Tank with
asbestos covering, canvassed and painted.

Connect 2-inch cold water supply to
Tank with control valves.

Should present water supply now in boiler
room be of insufficient capacity, same to be en-
larged at owner's expense.

From Hot Water Storage Tank, carry 1½" galvanized hot water service to each building with ¾" return circulating system. On return circulation install a Hot Water Circulator, same to be controlled by electric Aquastat in Storage Tank. Connect same to suitable connection to be provided by owner, in Boiler Room.

Cover with 3-ply asbestos covering, supply and return Hot Water Mains to buildings.

Install control valves to each building from Storage Tank.

SHOWERS.

We will supply and install all necessary waste, vent and water supplies for five showers in boys' school and six in girls' school. Floor of shower room in girls' school to be covered with sheet lead and finished with cement, owner to install necessary partitions.

On water supply to these showers we will install mixing valves placed in convenient locations. These are necessary on installations of this description, to safeguard against any scalding from excessively hot water.

Waste from showers to terminate three feet clear of building, further drainage accommodation to be provided by owner.

We will further make hot water connections to the existing hot water supply in each building.

Sleeping accommodation and board to be provided for workmen while work is being carried on.

We will do all of the above work for the sum of \$2,375.00.

Thanking you, we remain,

Yours truly,

FRED WELSH & SON.

Dear Sir:

I desire to acknowledge the receipt of your letter of the 29th ultimo with reference to the construction of a pipe tunnel and installation of a hot water system at St. Mary's Indian residential school.

It is noted that the Reverend Principal has obtained a quotation from Fred Welsh & Son for installing the hot water system and a quotation from W. F. Swan for the labour and material in connection with the concrete tunnel at a total cost of \$3860.00.

As you have previously been informed an amount of \$2525.00 was provided in the current year's appropriation for repairs and improvements at the St. Mary's Mission residential school. You may, therefore, inform the Principal that he may proceed with the work on which he has received tenders from the firms mentioned above. The Honourable the Minister has approved of a payment of \$2525.00 on the expenditure incurred. This amount will be paid when you submit an account showing that the amounts mentioned above have been expended. When this is done the Department will reimburse the school authorities to the extent of \$2525.00.

Yours truly,

Major D. M. MacKay,
Indian Commissioner,
P.O. Box 70,
Vancouver, B. C.

Philip Phelan,
Chief, Training Division.

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

September 11th, 1939.

Dear Mr. Daunt;

I am enclosing herewith quadruplicate invoices from Fred Welsh & Son, covering the installation of the hot-water equipment, and also invoices, received from W.F. Swan covering the erection of the concrete tunnel. You will please note that these invoices are receipted, having been paid in full out of the school funds. The payment of these accounts is in accordance with instructions, received from the Department. I am now forwarding the receipts to the Department so that the school may be re-imbursed in the amount of \$2525.00, which amount was allotted to the school for repairs and improvements during the current year.

It is hardly necessary to say that the payment of these accounts--an amount totalling \$3860.00--has made very large inroads in our finances. Consequently I would be very pleased if you would arrange to have the account go forward to the Department as quickly as possible, so as to reduce to a minimum the possibility of an overdraft at the bank, which would make an additional drain on the school funds. This is a time of the year when much additional supplies, such as clothing and food must be purchased and I would like to meet the payment of these items without any embarrassment. I might add that Mr. P. Phelan personally examined the work that has been done, on his visit to the school and found it satisfactory. He assured me that the department would speedily re-imburse the school, when the accounts were received at Ottawa.

For my own part, I would like to add that the improvements made this year, through the kind co-operation of the Department, have far exceeded my expectations in the comfort and sanitation they provide for the children. In addition I have been assured by reliable heating experts that a considerable saving in fuel will be effected by the installations. I wish to take this opportunity of expressing my appreciation of the kind consideration of the department in making these improvements possible and also to thank you personally for your interest in the school and the welfare of the children.

Very Sincerely,

A. H. Fleury, O.M.I.

NEW WESTMINSTER, B.C.
September 13th, 1939.

Dear Sir:-

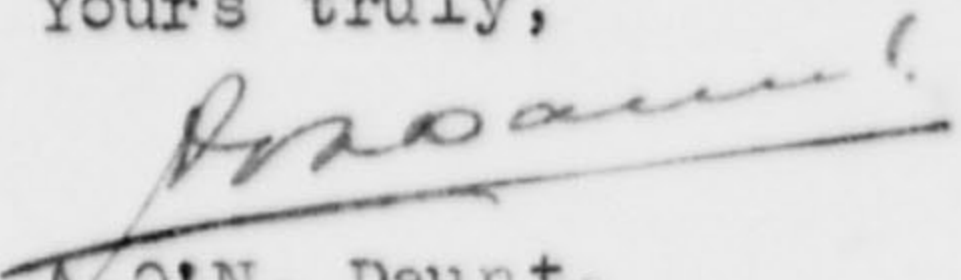

I beg to forward you herewith, Agency Voucher No. 430 for \$2,525.00 in favour of Reverend A.H. Fleury, Principal of St. Mary's Mission Indian Residential School, and representing a refund of the amount authorized by the Department in their letter to you of July 17th, 1939, File No. 153-1-5.

I am also attaching a letter from the Reverend Principal, in which he requests that this amount be refunded at as early a date as possible, in view of the fact that he is carrying an overdraft at the Bank, which he desires to liquidate immediately.

This Voucher has been carefully checked by me, and supporting statements are attached in respect to those items in the Contract, which call for detail.

I will be much obliged, therefore, if you will forward it to Ottawa, at your early convenience.

Yours truly,

A.O.N. Daunt.
Indian Agent.

VANCOUVER, B.C. Sept. 15, 1939.

Dear Sir:

Your File 153-1-5.

I beg to refer to your letter of July 17th authorizing an expenditure of \$2525 on the construction of a pipe tunnel and installation of a hot water system at St. Mary's Indian Residential School, Mission.

Accounts in connection with the work undertaken have been paid by the school totalling in all \$3860, and a refund of the amount authorized by the Department, i.e., \$2525, should now be made to the school. The accounts with covering letters from Mr. Indian Agent Daunt and the Rev. Father Fleury are forwarded herewith.

It would be greatly appreciated if the Department would refund the amount due to the school at the earliest possible date.

Yours faithfully,

Enc

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

October 14th, 1939.

Mr. R.A. Hoey,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Hoey;

I have recently received a cheque in the amount of \$2525.00, representing the amount that the department allotted towards the completion of the new hot-water system at the school.

Knowing the interest that you have taken in this matter, I am glad to be able to report that the new equipment is giving exceedingly good service and is a great benefit to the school. Besides giving increased sanitation and comfort to the children, it will, in time, prove to be a very economical measure for the school. The receipt of the department's cheque was very welcome as it has filled, to a great extent, the gap, occasioned school finances by the payment for this work.

I wish to express my appreciation of your kind efforts in this matter as well as in regard to a restoration of the five-percent increase in the grant.

Very sincerely,

A. H. Fleury, O.M.I.

PLEASE QUOTE
FILE 1-8-A.

NEW WESTMINSTER, B.C.
May 20th, 1940.

Dear Sir:-

I beg to forward you herewith, Estimates in connection with repairs requested by the Reverend Principal of St. Mary's Mission Indian Residential School, to the total amount, based on the lowest tender in each case, of \$1,674.61.

The amount of \$4,953.22 was asked for in the Estimates for work at this School, but the Reverend Principal has reduced his requests and limited them somewhat to meet the exigencies of the present situation.

I am also forwarding a letter, in duplicate, from the Reverend Principal, covering each of the items asked for and which appears to give complete information on the subject.

The following is a list of the items requested:-

- (A) W.F.Swan- Estimate on two Septic Tanks-----\$250.00
Only one tender is submitted in this connection as Mr. Swan is the only person in the District, capable of performing the work, and we have had previous experience of his capability in connection with St. Mary's Mission Residential School Dam, and the barn at Kamloops Indian Residential School.
- (B) Clayburn Company, Limited- Pipes in connection with the above Septic Tanks----- \$243.75
One tender only is submitted for this service, as they are the only people in the District manufacturing these supplies.
- (C) W.J. Windebank- Toilet Installations----- \$268.00
The second tender from Fred Welsh & Son, Vancouver, for \$305.00 also submitted in this connection.
- (D) W.F. Swan- Repairs to Root Cellar----- \$300.00
One tender only is submitted in this connection, as Mr. Swan is the only person in this District capable of doing this work.
- (E) Marshall-Wells B.C. Limited- Paint for various School Buildings----- \$195.48
The second tender from the General Paint Corporation of Canada Limited, to the amount of \$219.30 is also enclosed.
- (F) Marshall-Wells B.C. Limited-Improvements to Fire-Escapes----- \$117.38
The second tender from Fred Welsh & Son of Vancouver, for \$181.00 is also enclosed. This latter tender includes installation, but I think that this is a matter which could well be attended to by the School.
- Forward----- \$1,374.61

ENCLS.

Major D.M. MacKay,
Indian Commissioner for B.C.,

Brought Forward-----\$1374.61

(G) W.F. Swan- Drainage Tunnel from Boiler Room----- 300.00
The Sketch and Estimate from Mr. W.F. Swan is attached. An explanation in connection with this request is fully set forth in a letter received from the Reverend Principal attached.

Total----- \$1,674.61

The Reverend Principal appears very reasonable in his demands, and has cut down the requests submitted last Fall to a minimum, so I would recommend the present list for favourable consideration by the Department.

Yours truly,

A.O.N. Daunt

Dear Sir:

I enclose herewith an application, dated 20th instant, received from Mr. Indian Agent Daunt for various repairs, etc., requested by the Reverend Principal of St. Mary's Mission Indian Residential School, amounting to \$1,674.61, based on the lowest tenders and would recommend consideration of same if and when funds become available for this purpose.

Should it transpire that the full amount requested cannot be provided I would appreciate being advised of the amount at the disposition of the Department for this school, when the Indian Agent will be requested to advise me of the work that is most urgent.

Yours faithfully,

Ottawa,
May 30, 1940.

Dear Sir:

I am in receipt of your letter of the 23rd instant recommending a total expenditure of \$1,674.61 at St. Mary's Mission Indian Residential School.

As the items included in the above amount cover work that is necessary you may arrange for carrying out the various suggestions contained in Mr. Daunt's letter. As this is a Church-owned school it is necessary for us to obtain an Order-in-Council before the funds will be actually available. Due to present conditions some time may elapse before the necessary Order-in-Council is secured. Consequently, money will not be available for a few weeks. However, you might make arrangements for the work and as soon as funds are available I will advise you.

For your information I may say that in the current year's appropriation the following amounts were provided for repairs, improvements and purchase of new equipment at St. Mary's Mission School:

Repairs to drainage tunnel	- \$ 500.00
Painting buildings and repairs to shower and toilet room	- 1,005.00
Hot water installation	- <u>1,345.00</u>
Total	- \$2,850.00

You understand, of course, that the amount of expenditure being authorized in this letter, namely, \$1,674.61, will be deducted from the above. The

AIRMAIL

Dear Sir:

Replying to your letter of May 30th, your file 153-1-5, I would advise that all arrangements for this work short of the purchase of the materials have been made, and I should appreciate being advised if I may now proceed to place the necessary Purchase Orders, as your instructions are not definite on this point. It is just possible that if the placing of the Purchase Orders is delayed until funds are made available by Order-in-Council that new quotations on some of the material will be required because of the upward trend in prices. I should therefore like to have your reply by airmail.

Yours faithfully,

D. M. MacKay.

AIR MAIL

Dear Sir:

I am in receipt of your letter of the 6th instant with reference to the amount provided for the St. Mary's Mission Indian Residential School.

In writing to you on the 30th ultimo I desired you to understand that you could proceed with the work outlined in Mr. Daunt's letter of May 20 which you forwarded under cover of your letter of May 23.

This would involve a total expenditure of \$1674.61. As I stated in my letter of the 30th ultimo a total amount of \$2850.00 is provided in the current year's appropriation for repairs, improvements and purchase of new equipment at the St. Mary's Mission School. After the expenditure already authorized is approved there will be a balance of \$1175.39. Before authorizing this latter amount the Department would appreciate detailed information from you regarding the manner in which you consider it should be expended.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

IRON FIREMAN - Automatic HEATING EQUIPMENT

560 VERNON DRIVE
VANCOUVER, CANADA

June 18th
1940

Owing to prevailing conditions beyond
our control. All quotations are subject
to prompt acceptance.

Reverend Father A.H. Fleury,
St. Mary's Industrial School
MISSION, B.C.

Dear Father Fleury:

Following your visit to us yesterday we are very pleased to fulfill your request and submit for re-consideration the proposal we made in April 1938 to instal our IRON FIREMAN Automatic Coal Burner in the main heating boiler of your School.

You advise us that the situation of the boiler room and other details are practically the same as in 1938, with the exception that the drain in the boiler room which we recommended at that time has been installed three feet below the boiler room floor, and this has been taken into consideration in presenting our proposal to you at this time.

The boiler room is located separately from the main building and is equipped with a Leonard HRT Steam Boiler #7769, with a rated capacity according to our records of 90 boiler horsepower, carrying steam pressure up to 15 lbs. As the distance from the crown sheet of the boiler to the floor is only 37" it will be essential for efficient operation of the boiler to provide more combustion space, and to do this it will be necessary to instal the stoker mechanism in a water-tight concrete pit 24" deep, and we have included the carrying out of this work in our proposal.

The stoker then will be installed in front of the boiler and its operation will be controlled by means of a Room Thermostat, to be located in the Principal's office, which we understand is approximately 150 feet distant from the boiler room and necessary electric wiring has been figured in our price to take care of this. We understand that the main electric service is 220 volt, 60 cycle, 3 phase, and the service connection is located 250 ft. from the boiler room and it has been necessary for us to figure on carrying our electric wires this distance in order to complete a satisfactory installation.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR-COPY

2.

As it may be desirable at times to operate the Stoker mechanism from the boiler room by your Engineer without controlling the same by the Thermostat, we will provide a Cut-off Switch in the boiler room to make it possible for the Stoker mechanism to be controlled when most convenient by the Engineer.

In order to give you maximum results from Stoker firing and based on the boiler capacity, we are recommending our No. 4-A Long Model IRON FIREMAN, which is illustrated and described in detail in the accompanying Specification Sheet.

You will appreciate the outstanding advantages of automatic firing by means of an Iron Fireman Stoker, first from the advantages you will receive in your School building from automatically controlled temperatures during all weather conditions. This results from having thermostatically controlled operation, and also by maintaining uniform steam pressure under the boiler by means of the Iron Fireman Steam Pressure Regulator.

Further, there will result a definite reduction in boiler room labor costs, as instead of continual firing by your Engineer (as at present), with the Iron Fireman installed it will only be necessary to clean the fire occasionally and replenish the hopper with coal, as the firing will be taken care of automatically by the Stoker as heat is required and called for by the automatic controls.

The economical operation of Iron Fireman has been provided in thousands of cases, by the utilizing of low priced and the smaller sizes of coal, as against lump coal or Mine Run Coal which is usually necessary when the boiler is manually fired. We therefore are pleased to submit our proposal to you again and trust that this time we may be able to arrange for the installation of the Iron Fireman Stoker, which would be carried out with promptness and efficiency and everything possible would be done to give you entire satisfaction.

The cost of making this installation as outlined in detail, will be

One Thousand, Seven Hundred and Seventy Five dollars
(\$1775.00)

Indian Affairs (RG 10 Volume 6470, file 890-5, part 5)

3.

This of course is based on today's prices on equipment and due to changes in material and supplies and other circumstances beyond our control this price is subject to change without notice, so that a prompt decision would be most desirable, and of course terms of payment on the above price are cash, or thirty days after completion of installation.

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

July 9th, 1940.

Mr. A.O.N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith the balance of the school estimates, covering repairs and equipment for the current year, as requested in your recent letter. The estimates cover the following items:

Primary class room. Due to the crowded condition of the present secondary grade class room, it has been found necessary to construct a new room for the primary grade. The labour will be supplied by the school, and the room when finished will be as up-to-date as possible, giving the little children healthier and more adaptable quarters.

Laundry drying room. It has long been a problem at the school to dry the washing especially during the winter months, when the season is very rainy. Up till now the room that has been used has imposed a heavy burden on the children and staff and is dangerous from the viewpoint of health. A survey of other institutions, made with the advice of a laundry engineer, has resulted in plans for a drying room, which will give excellent service and do away with the uncomfortable and unhealthy conditions hitherto prevalent. Quotations are enclosed covering the three different phases of construction: lumber quotation from the Valley Lumber Yards for the construction and insulation of a room 10x10x8; piping quotation from the Marshall-Wells Co. and the McLellan McFeely and Prior Co.; quotation on the rack carriers from the Beatty Brothers Ltd. As in the case of the class room the labour and installation will be done by the school.

Fuelling system. Quotations are enclosed covering the installation of an automatic stoker in the boiler room. These quotations are from the Roswite Co. and the Canadian Sumner Iron Works. Because the three main buildings are heated from the central boiler, it is essential that a system of controlled heating be installed. Besides the economy afforded by such a system, there is the much more important advantage of having a steady supply of warmth fed to these different buildings. In this respect the preventorium will derive distinct advantages as the present system does not supply the uniform heat so indispensable to the progress in health of the sick children. The amount necessary to install this equipment exceeds that allowed by the department for repairs and equip-

ment at the school for the present year, after the materials for the class room and the drying room have been deducted. However, if an amount, sufficient for an initial payment were supplied by the department out of the balance of the school allotment, the school could arrange to handle the remainder of the cost in a series of monthly or quarterly payments.

In all of these items the main consideration has been the health and educational advantages of the Indian children. This is in line with the policy of the department in the assistance it gives the schools for providing the utmost in the fields of mental and physical education. The primary class room will fill a long felt need in providing a system of thorough elementary education for the small children and above all, will overcome the crowded condition of the present room. The drying room is designed not only for a more efficient handling of the large weekly laundry, but especially to do away with the staff and children working under extremely difficult conditions in an overheated room. The proposed fuelling system guarantees a controlled supply of warmth to the different buildings, occupied by the staff and children. Dr. McQuarrie has often mentioned that the preventorium is not adequately heated for the sick children, mainly because there is no uniformity in the supply of heat. In this last item there is also the economic factor to be considered. For several years the school has maintained the extra burden of caring for about thirty children over and above the paid quota. This has been done in the interests of the Indian people and in the desire to co-operate with the Department of Indian Affairs to the fullest extent in providing educational facilities for the Indian children. To reduce the pupilage to the minimum would, under present circumstances, bring a strong protest from the Indian parents. I can understand that at the present time it is difficult for the department to raise the quota for the school, but I feel confident that, where possible, an effort should be made to assist the school to operate as economically as possible. The recent reductions in the school grants have been accepted sympathetically in the knowledge that only an extreme crisis would prompt such a move. I feel very grateful to the department for the allotment of \$2800 for extraordinary expenses at the school and would like to express my intention to use this grant only for what is absolutely necessary. I wish to thank you personally for your kind interest and co-operation in this matter.

Very sincerely,

A. H. Fleury. O.M.I.

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

July 9th, 1940.

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith the balance of the school estimates, covering repairs and equipment for the current year, as requested in your recent letter. The estimates cover the following items:

Primary class room. Due to the crowded condition of the present secondary grade class room, it has been found necessary to construct a new room for the primary grade. The labour will be supplied by the school, and the room when finished will be as up-to-date as possible, giving the little children healthier and more adaptable quarters.

Laundry drying room. It has long been a problem at the school to dry the washing especially during the winter months, when the season is very rainy. Up till now the room that has been used has imposed a heavy burden on the children and staff and is dangerous from the viewpoint of health. A survey of other institutions, made with the advice of a laundry engineer, has resulted in plans for a drying room, which will give excellent service and do away with the uncomfortable and unhealthy conditions hitherto prevalent. Quotations are enclosed covering the three different phases of construction: lumber quotation from the Valley Lumber Yards for the construction and insulation of a room 10x10x8; piping quotation from the Marshall-Wells Co. and the McLellan McFeely and Prior Co.; quotation on the rack carriers from the Beatty Brothers Ltd. As in the case of the class room the labour and installation will be done by the school.

Fuelling system. Quotations are enclosed covering the installation of an automatic stoker in the boiler room. These quotations are from the Roswite Co. and the Canadian Sumner Iron Works. Because the three main buildings are heated from the central boiler, it is essential that a system of controlled heating be installed. Besides the economy afforded by such a system, there is the much more important advantage of having a steady supply of warmth fed to these different buildings. In this respect the preventorium will derive distinct advantages as the present system does not supply the uniform heat so indispensable to the progress in health of the sick children. The amount necessary to install this equipment exceeds that allowed by the department for repairs and equipment.

INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE 1-8-A.

NEW WESTMINSTER, B.C.
July 11th, 1940.

Your Reference No. 15/9/6119.

Dear Sir:-

With reference to your letter of June 12th, in which you informed me there was a balance of \$1,175.39 for repairs, improvements and purchase of equipment for St. Mary's Mission Indian Residential School, in addition to various items for which you had placed Purchasing Orders.

I am enclosing herewith, in triplicate, a letter from the Reverend Principal setting forth further requests, together with tenders covering same.

These are as follows:-

Primary Class Room: Tender from the Valley Lumber Yards, Limited, Mission for material, labour to be supplied by School..... \$68.38

Laundry Drying Room- Two Tenders-	
Marshall Wells.....	\$307.66)
McLennan, McFeely & Prior, Ltd.....	336.49)
Laundry Drying Room Rack Carriers-	
Beatty Brothers.....	66.00
Lumber-Valley Lumber Yards Limited-----	140.43

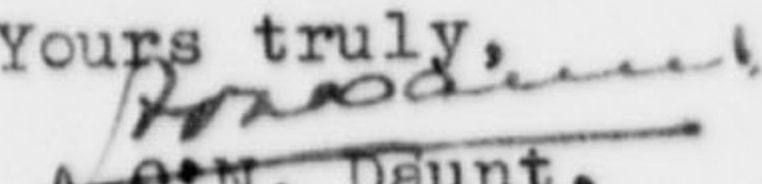

Automatic Stoker- The Reverend Principal asks for a grant of \$500.00 to take care of the down payment, and proposes to pay off the balance from School Funds. Two Tenders-Roswite Company- \$1,495.00 and Canadian Sumner Iron Works- \$1,775.00 are attached..... 500.00

\$1,082.47

It will be seen, therefore, that taking the lower tender for Drying Room Hardware, that of Messrs. Marshall-Wells B.C. Limited, and including the grant of \$500.00 asked for in connection with the Automatic Stoker, the Reverend Principal is requesting an expenditure of \$1,082.47 out of the \$1,175.39 available.

The letter from the Reverend Principal which is attached, gives a very clear exposition of the situation, and I am in entire agreement with the necessity for the Primary Class Room and the Drying Room. These items total \$582.47. There is also no doubt that better heating and lower costs would be obtained from the use of an automatic stoker. In view of reduced grants, it is very difficult for the School to find the initial payment, hence the application for this assistance.

If these Funds are still available, I would recommend the requests to the favourable consideration of the Department.

Yours truly,

A. G. N. Daunt.
Indian Agent.

IN YOUR REPLY REFER TO

NO **15/9/6717.**

ALSO TO DATE OF THIS LETTER

17th July, 1940.

S. H. Mackay
Dear Sir:- Your File 153-1-5.

I have to refer to your letter of the 8th ultimo, in connection with the application of St. Mary's Indian Residential School for a grant for repairs, advising that a balance of \$1175.39 would remain from the appropriation for this school after payment for the work outlined in Mr. Indian Agent Daunt's letter of May 20th.

I am enclosing herewith Mr. Daunt's further letter of July 11th, accompanied by a letter from the Rev. Principal, and tenders secured by him, for additional work enumerated by Mr. Daunt, amounting to \$1,082.47.

It will be observed that \$500.00 of this amount is for an initial payment of \$500.00 on an automatic coal stoker for the School's heating plant. If this proposition is acceptable to the Department, it would appear to me that it would be preferable to make this in the form of a cash grant to the School and permit the Rev. Principal to carry on his own negotiations in respect to the stoker in order to avoid any future difficulty that may arise in this connection during the period of paying off the balance due on the outfit. Otherwise, I would approve of Mr. Daunt's recommendation that the application be given favourable consideration and would appreciate your further advice in due course.

Yours faithfully,

:HN

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

July 22nd, 1940.

Mr. P. Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Phelan;

Due to unavoidable circumstances, I was forced to make up my list of estimates in two sections this year. The first part, including the erection of septic tanks, toilets, root-cellar, painting, fire escapes and drainage tunnel (covering letter dated May 18th) were passed by the department and I am glad to say that the work on these items is almost completed.

In my letter dated July 9th, to Mr. Daunt, Indian Agent, I listed the second part of the estimates. This covered repairs to classrooms, laundry and fuelling system. In an effort to keep the cost down to a minimum, I secured prices on material and labour, rather than contracting for the work. This took considerable time and accounts for my delay in getting the second part of the estimates through. The Commissioner's office advised me that these estimates were forwarded to Ottawa about July 11th. I would be very glad if you would check up on this matter, with a view to expediting the passage of these estimates through the various channels of the department. It is imperative that the different works be completed before the school opens in September. Needless to say, I feel very grateful to the Department for the assistance provided St. Mary's School this year. With kindest regards to yourself.

Very sincerely,

A. H. Fleury, O.M.I.

Ottawa,
July 29, 1940.

Dear Father Fleury:

I have your letter of the 22nd instant regarding the second part of your estimates. These have already been received from Indian Commissioner MacKay's office and arrangements are being made to purchase the supplies requested.

I regret, however, that we cannot see our way clear to allowing an amount of \$500.00 toward the purchase of an automatic stoker. Apparently your idea is that the amount of \$500.00 would be used as a first payment. Present regulations make it impossible for us to allow a grant in this manner.

If you found it possible to pay the full account for the stoker and forwarded us a receipted bill to that effect we might be able to arrange to allow you \$500.00 toward its cost but I am not even certain that we could do this, although we have made such payments in the past. You will note the distinction -- in the one case the stoker has been paid for and we are just assisting in its cost; in the other case the auditor would question the payment as he would point out that we have no guarantee that the balance would be paid. I say this in no spirit of reflection on yourself but you will understand that auditors regard these matters in a very hard-boiled attitude.

Yours truly,

Rev. A. H. Fleury, O.M.I.,
Principal,
St. Mary's Mission Indian
Residential School,

Dear Sir:

EX'D.
G

I am in receipt of your letter of the 17th instant, enclosing requisitions for supplies requested by the Principal of the St. Mary's Mission Indian Residential School.

The Purchasing Agent is being requested to arrange purchase of the material required for the primary classroom, also the material and equipment for repairs to the laundry drying-room.

Careful consideration has been given to the request for an amount of \$500 as an initial payment on the cost of an automatic coal stoker. I regret that it is not possible to make this allowance.

For your information, I may add that the Principal wrote me direct regarding his request, and I enclose copy of my reply.

Yours truly,

ENC.

Philip Phelan,
Chief, Training Division.

AIR MAIL EX'D.
G

Dear Sir:

I desire to refer to your letter of the 17th ultimo enclosing letter dated the 11th ultimo from Indian Agent Daunt in connection with repairs, improvements and purchase of equipment for the St. Mary's Mission Indian Residential School.

For the laundry drying room the enclosed two tenders were submitted and Mr. Daunt's letter stated that the totals of them were as follows:

Marshall Wells	\$ 307.66
McLennan, McFeely & Prior Ltd.	336.49

From the above information it was considered that the tender of Marshall Wells was the lower. However, on checking the attached statements it is found that Marshall Wells did not quote on 2 only -- 20 pipe 1½" headers. On reviewing the quotation of McLennan, McFeely & Prior you will note two items marked "X". These apparently are the items on which Marshall Wells did not quote and if you deduct their cost from the total of McLennan, McFeely & Prior's tender it would make it less than that of Marshall Wells. Please let me know if we are correct in considering the tender of McLennan, McFeely & Prior the lower of the two. When replying the attached quotations should be returned.

Yours truly,

Major D. M. MacKay,
Indian Commissioner,
P.O. Box 70,
Vancouver, B. C.

Philip Phelan,

IN YOUR REPLY REFER TO

15/9/7264.

ALSO TO DATE OF THIS LETTER

P.O. BOX 70
VANCOUVER, B.C.

August 15, 1940.

Airmail

Dear Sir:

I have to refer to your letter of August 2nd, regarding tenders on equipment required for the laundry drying room of the St. Mary's Mission Indian Residential School.

Quotations of both firms are for the same materials. Neither of them quoted on the "2 only, 20 pipe 1 1/4 inch headers", as these are being secured by the Principal at the expense of the school from another firm.

Marshall-Wells B.C. Ltd. included the cost of threading in the price of \$114.40 for "800 ft. of 1½ inch black iron pipe" whereas though McLennan, McFeely and Prior Ltd. refer to cutting and threading in the item "800 ft. 1½ inch black plain end ammonia pipe—\$111.52", this amount was not intended to cover these services, as same were provided for in the items "40 only cuts on 1½ inch pipe—\$4.00" and "160 only threads on 1½ inch pipe—\$32.00." Please see the attached letter from McLennan, McFeely and Prior Ltd. confirming this. The tender of Marshall-Wells B.C. Ltd. at \$307.66 is the lower.

I trust the foregoing explains the matter and that the purchase of this equipment will be proceeded with at an early date as the Rev. Principal is anxious to have the improvements completed, if at all possible, before the school opens.

Yours faithfully,

D. M. MacKay.
Indian Commissioner for B.C.

 OTTAWA, ONT.

Dear Sir:

Please accept our thanks for your remittance
 in the amount of \$115.06 by your cheque #A083776.

According to payment voucher attached to
 cheque, this is in payment of our invoice #68661 of
 June 22nd - your order #26602A. Our records show this
 invoice as amounting to \$118.38 with discount
 deductible of \$2.32, leaving a balance payable of
 \$116.06.

It appears that \$1.00 has been deducted for
 some purpose, and we would appreciate it very much if
 you could let us have the details of this deduction in
 order that we might complete and reconcile our records.

Thanking you in anticipation of your kind
 attention, we are

Yours truly,

MARSHALL-WELLS B. C. LIMITED

Copy for A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Ottawa, September 10, 1940.

Dear Sirs:-

Ch.No.83776, August 24/40 - \$115.06

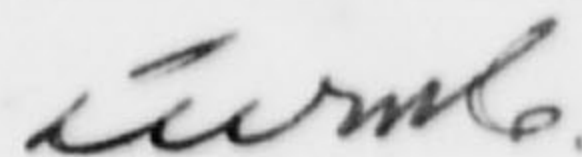

EXD.

The above-noted cheque was forwarded to you in payment of your account of June 22, 1940, rendered at \$118.38.

In explanation I wish to say that Mr. A.O'N. Daunt, Indian Agent at New Westminster, B.C., when he forwarded the account under cover of his voucher No.291, July 20, 1940, \$115.06, drew attention to the fact that Purchase Order No.26602A contained an error of \$1.00, threading pipe - 4 only at .20¢ would amount to .80¢ while the account showed \$1.80. Mr. Daunt made the necessary correction.

I am sending a copy of this letter to Mr. Daunt and if you require any further information kindly communicate with him.

Yours truly,

L.W. McCutcheon
Chief Treasury Officer.

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

August 15th, 1940

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith three bills from W.F. Swan, contractor, covering the following items of work, completed at the school this summer, and authorized by the department.

<u>Repairs to root cellar</u>	\$300.00
<u>Two septic tanks</u>	\$250.00
<u>Drainage tunnel</u>	\$300.00

In regards to the last item, you will note that the total cost amounted to \$69.00 more than the department allowed. I have paid this amount (\$69) out of school funds, receipt of which is noted on the invoice. This leaves a balance of \$300.00, which is the amount authorized by the department. In each case the work has been completed very satisfactorily and I have endorsed the bills to that effect.

I need hardly say how pleased I am upon the satisfactory completion of the different work. I appreciate very much your kind co-operation and the kindness of the department in giving consideration to my requests. I trust that you will find the bills properly completed.

Very sincerely,

A. H. Fleury O.M.I.

July 9th, 1941.

1 Mac
W.H.
1800

Mr. P. Phelan,
Chief Training Division,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Phelan;

I am writing you in regard to the estimates for proposed repairs at the St. Mary's Indian Residential School for this summer. It has been found necessary to change some of the items due to emergencies that have recently arisen. You can well understand these alterations in view of the fact that my previous list of proposed repairs was dated July 16th, 1940, and forwarded to Mr. Daunt under that date. At the time the repairs listed on the previous list seemed the most urgent, but a year has passed since then and we are confronted with new and more urgent problems.

The former list called for repairs to the boys' building, the gymnasium and installations in the cannery and certain washrooms. Now, I consider it more important to have repairs made to our water pipe-line, corrections made in the wiring of the administration building and additional lengths of hose supplied. The installations in the cannery is still an important item as well as several paint jobs in certain rooms of the school. The total amount will run about the same as on the previous list. To explain the changes I might mention that last winter we had considerable trouble with leaks in part of the pipe-line, where the pressure is greatest. The fire we had last fall revealed that many sections of our fire hose is not in very good condition. I have already spent quite a sum standardizing our wiring and would like to finish it this summer. These three items with the installations in the cannery and the paint work should reach about the same total as the previous list amounted to. I want you to have this information about the change in our list so that you will understand why it is necessary. I am at present securing quotations on the above work, which I will forward to Mr. Daunt, within a few days.

Very sincerely,

A. H. Fleury, O.M.I.

Ottawa, July 16, 1941.

Dear Father Fleury:

I have your letter of the 9th instant, with reference to repairs and improvements at the St. Mary's Indian Residential School.

I note that you are forwarding the necessary information to Indian Agent Daunt, and when his recommendation reaches the Department careful consideration will be given to your request. For your information I may say that there is an amount of \$1,800 in the current year's appropriation for repairs and improvements and the purchase of new equipment at your school.

Yours truly,

Philip Phelan,
Chief, Training Division.

REF. 

OTTAWA, August 12, 1941.

The Director,
Indian Affairs Branch,
Dept. of Mines & Resources,
O t t a w a.

Dear Sir,-

Re: Indian Residential School,
Mission City, B.C.

The following report dated the 6th instant has been received from the District Resident Architect at Victoria:-

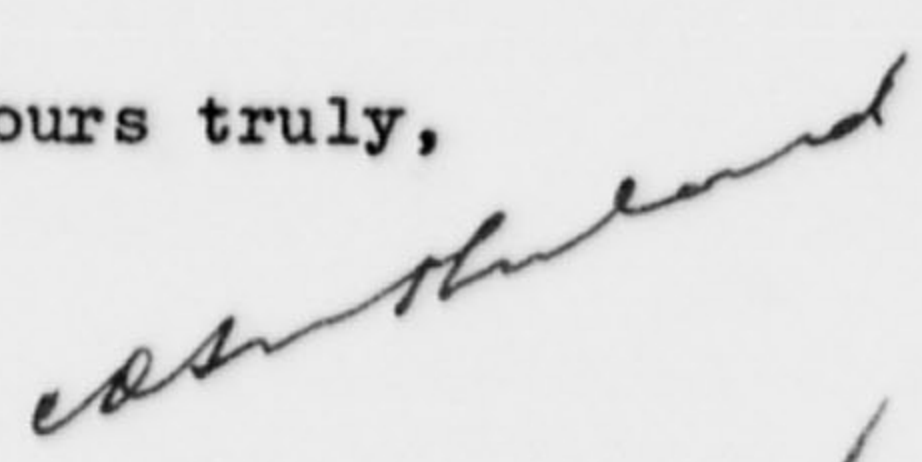

"Enclosed you will please find, in duplicate, reports of the inspection of the boilers and machinery at the Indian Residential School, Mission City, as asked for by the Indian Affairs Branch.

"Attached to the reports you will find copies of the certificates issued in connection with the boilers.

"Copies of the boiler machinery reports together with the certificates have been forwarded to Mr. D.M. MacKay, Indian Commissioner for B.C., Federal Building, Vancouver".

Copies of the reports as submitted by the Resident Architect, are enclosed.

Yours truly,

C. D. Sutherland,
Chief Architect.

MISSION PUBLIC SERVICE CO., LTD.

W. M. Smith, Managing Director

BOX 261
MISSION CITY, B. C.

September 15, 1941.

Father Fleury,
O.M.I.
Mission City, B.C.

Dear Sir:-

Following our conversation and your information re one of your pipe lines to be replaced we beg to tender a price of \$598.00 for replacing approximately 750 feet of 4 inch pipe line on your property.

SPECIFICATIONS.

Old line to be dug out, pipe removed and replaced with a new 4 inch wood pipe laid in the same trench. Trench is then to be backfilled and the surface left as level as possible.

Connections to be made to present fittings, such as hydrants, stand-pipes etc.

All old cast-iron fittings, such as T's, bends etc. to be cleaned of rust and corrosion before replacing.

All new cast-iron fittings required shall be charged at cost.

No. 1, double-burlapped wood pipe of 200 foot head to be used.

All work will be done as soon as possible and in a workman-like manner, and with as little interruption as possible to present water service.

Above tender is based on a ~~price~~ length of 750 feet. If less than this a deduction of 75 cents per foot will be allowed, if more than 750 feet an addition of 75 cents per foot is to be made.

The above price is for double-burlapped pipe which we use as it protects the wood from fungus organisms and rot and is thus worth the extra cost. If plain pipe is wanted deduct 7 cents per foot from above price.

Yours truly,

MISSION PUBLIC SERVICE CO. LTD.

†

MISSION, B. C.

September 30th,
1941

Mr. A.O'M. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith quotations on repairs and equipment for the St. Mary's Indian School for the current year. The items are as follows:

Cannery equipment: one retort needed for the canning of vegetables to provide economical and abundant food for the winter months. Quoted on by Murray-Latta Co. sole manufacturers in the amount of\$125

Fire Hose: 500 feet of fire hose urgently needed for protection of buildings. Rubber lined hose is the only type that is at all dependable. Quoted on by the Good-year Co. in the amount of\$350
Bi-Lateral Hose Co.....\$355

Electrical Repairs: Repairs and equipment in the administration building needed to complete standardization of wiring as a safety measure. Quoted on by the Valley Electric Co. in the amount of.....\$125
and W.J. Windebank.....\$120

Repairs to pipe line: A new section about 700' long is needed to replace old pipe line which has given much trouble and expense during the past year. Quoted on by the Mission Public Service Co. in the amount of.....\$598

There are in addition to the above, several other items of repairs and equipment, for which I have not yet secured satisfactory quotations. In some cases I have previously obtained prices but have been lately advised that, due to fluctuations in prices, the quotations will have to be revised. In one other case I have not been satisfied with the price offered and am trying to contact more reliable firms. As soon as these are completed, I will forward them. Rather than hold up what I had at present prepared, I am sending what quotations are complete.

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B. C.

- 2 -

I understand that the Department has allowed the amount of \$1800 for repairs and equipment at the school. I appreciate the co-operation shown by the department in this instance and their desire to assist the school in coping with increases in the cost of living and reduced revenue. The repairs and equipment asked for in this letter will mean a definite saving for the school as well as assuring the safety and comfort of the children.

Some of the items in the present quotations are different from those submitted in the estimates of over a year ago. This is due to the fact that during the long interval new and more urgent necessities arose which prompted a change from former needs. I discussed this matter with Mr. Phelan while in Ottawa and he reassured me that the Department would take this into consideration.

I am very anxious that we begin the necessary repairs and installations as soon as possible. I would be pleased therefore if you would assist in whatever way possible. With many thanks for past co-operation.

Very sincerely,

A. H. Fleury, O.M.I.

Dear Sir:-

I beg to forward you, herewith,
in triplicate, a request from the Reverend Principal
of the St. Mary's Indian Residential School, accompanied
by quotations, also in triplicate, for sundry repairs,
and installations at the school.

The projects concerned are all very
necessary, and their completion will tend greatly to the
health, safety, and general welfare of the Indian pupils.
They have already been discussed at Ottawa, by the Reverend
Principal, and I would recommend that they be forwarded to
the Department, for consideration, and if possible, given
approval.

Yours truly,

Mission, B.C.

Dear Sir:

As requested, we now quote on one canning retort
as described hereunder:

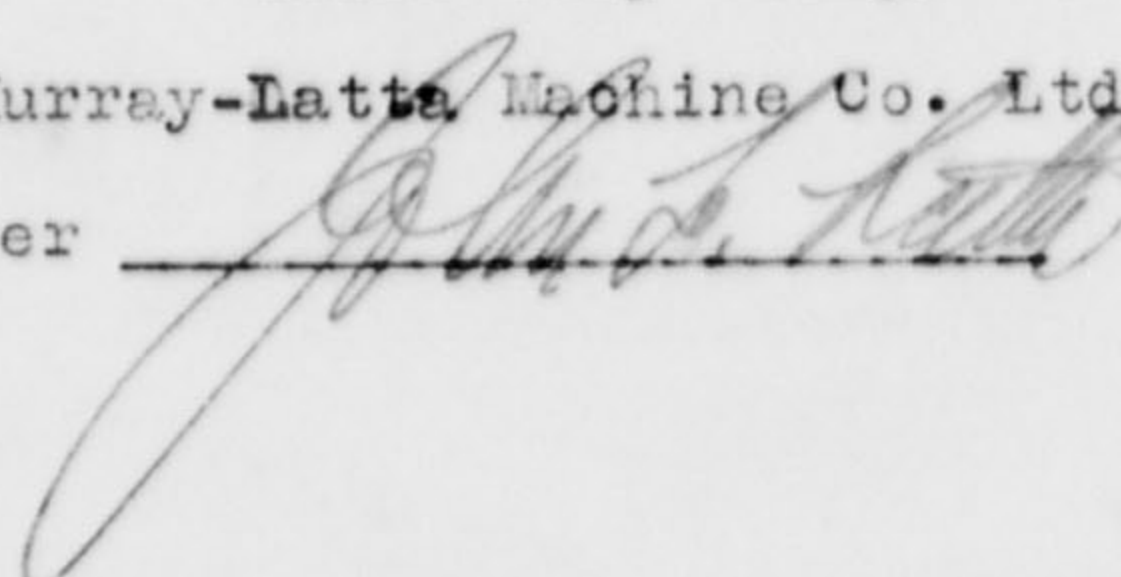

One 20" dia. x 33" deep vertical retort, capacity
156 - 1 lb. tall cans; passed by boiler inspection
department for a working pressure of 15 lbs.; with
standard equipment consisting of safety valve, thermometer
and pressure gauge; also 3 wire baskets for holding cans-

Price \$ 125.00, plus sales tax if
applicable, f.o.b. our works, Vancouver.

We have this retort in stock, and can make
immediate shipment.

Yours very truly,

Murray-Latta Machine Co. Ltd.,

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

September 30th,
1941

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith quotations on repairs and equipment for the St. Mary's Indian School for the current year. The items are as follows:

Cannery equipment: one retort needed for the canning of vegetables to provide economical and abundant food for the winter months. Quoted on by Murray-Latta Co. sole manufacturers in the amount of\$125

Fire Hose: 500 feet of fire hose urgently needed for protection of buildings. Rubber lined hose is the only type that is at all dependable. Quoted on by the Good-year Co. in the amount of\$350
Bi-Lateral Hose Co.....\$355

Electrical Repairs: Repairs and equipment in the administration building needed to complete standardization of wiring as a safety measure. Quoted on by the Valley Electric Co. in the amount of.....\$125
and W.J. Windebank.....\$120

Repairs to pipe line: A new section about 700' long is needed to replace old pipe line which has given much trouble and expense during the past year. Quoted on by the Mission Public Service Co. in the amount of.....\$598

There are in addition to the above, several other items of repairs and equipment, for which I have not yet secured satisfactory quotations. In some cases I have previously obtained prices but have been lately advised that, due to fluctuations in prices, the quotations will have to be revised. In one other case I have not been satisfied with the price offered and am trying to contact more reliable firms. As soon as these are completed, I will forward them. Rather than hold up what I had at present prepared, I am sending what quotations are complete.

St. Mary's Indian School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

- 2 -

I understand that the Department has allowed the amount of \$1800 for repairs and equipment at the school. I appreciate the co-operation shown by the department in this instance and their desire to assist the school in coping with increases in the cost of living and reduced revenue. The repairs and equipment asked for in this letter will mean a definite saving for the school as well as assuring the safety and comfort of the children.

Some of the items in the present quotations are different from those submitted in the estimates of over a year ago. This is due to the fact that during the long interval new and more urgent necessities arose which prompted a change from former needs. I discussed this matter with Mr. Phelan while in Ottawa and he reassured me that the Department would take this into consideration.

I am very anxious that we begin the necessary repairs and installations as soon as possible. I would be pleased therefore if you would assist in whatever way possible. With many thanks for past co-operation.

Very sincerely,

A. H. Fleury, O.M.I.

A.H. Fleury, O.M.I. Principal.

PLEASE QUOTE
FILE **1-8-A.**

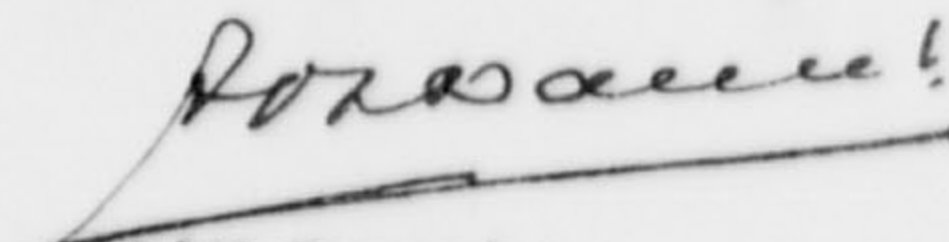

New Westminster, B.C.
October 2nd, 1941.

Dear Sir:-

I beg to forward you, herewith,
in triplicate, a request from the Reverend Principal
of the St. Mary's Indian Residential School, accompanied
by quotations, also in triplicate, for sundry repairs,
and installations at the school.

The projects concerned are all very
necessary, and their completion will tend greatly to the
health, safety, and general welfare of the Indian pupils.
They have already been discussed at Ottawa, by the Reverend
Principal, and I would recommend that they be forwarded to
the Department, for consideration, and if possible, given
approval.

Yours truly,

A.O.N. Daunt,
Indian Agent.

IN YOUR REPLY REFER TO
NO **15/9/4471**
ALSO TO DATE OF THIS LETTER

October 4, 1941.

Dear Sir:

I beg to forward herewith, in duplicate, a request from the Reverend Father Fleury, O.M.I., accompanied by quotations for certain equipment and repairs required at St. Mary's Indian Residential School, Mission, B.C.

It would appear from the Reverend Principal's letter that this matter has already been discussed with the Department and the expenditure involved approved and I should, therefore, appreciate being advised of the action you wish this office to take in the matter.

The policy of informing Principals of Indian Residential Schools of the maximum amount allowed to the school without first advising this Division of your administration would appear to be somewhat unsound and likely to lead to requests for maximum expenditures irrespective of the actual urgent needs of the school. This procedure might also influence the attitude of the Principal to the extent that he would consider the reference of such matters to the Agent or the Commissioner unnecessary or merely a matter of form.

Yours faithfully,

D.M. MacKay,
Indian Commissioner for B.C.

Ottawa,
October 24, 1941.

Dear Sir:

I have your letter of the 4th instant enclosing quotations for equipment and repairs required at the St. Mary's Mission Residential School.

The Principal of this school called at the Department during the summer and in the course of a discussion with the officials in the Branch he was informed of the amount of money available for repairs and improvements. The total amount available was requested in the estimates submitted through your office and it is felt that you must have been aware of what was really necessary.

It has been decided to authorize the following:

1. Purchase of cannery equipment at a cost of \$125.00
2. Purchase of fire hose at a cost not exceeding 350.00
3. Electrical repairs at a cost not to exceed 120.00
4. Repairs to pipe line -- It is noted that the cost of doing this work is estimated at \$598.00. Apparently it is necessary but the Department can only see its way clear to allow an amount of \$475.00 toward its cost. The balance will have to be paid by the school from their own funds.

Major D.M. MacKay,
Indian Commissioner,
P.O. Box 70,
Vancouver, B.C.

GOVERNMENT OF CANADA

Department of Indian Affairs

NOTICE

By the provisions of an Order in Council, approved by His Excellency the Lieutenant Governor at Quebec on April 21st, 1928, the lands shown herewith are reserved for HUNTING and TRAPPING purposes for INDIANS only.

Persons, other than INDIANS, are therefore forbidden to hunt game or trap fur bearing animals within the boundaries of these areas.

AVIS

Par un Ordre en Conseil, approuvé par son Excellence le Lieutenant-Gouverneur à Québec le 21 Avril 1928, les territoires indiqués ci-contre sont réservés pour la CHASSE et le TRAPPAGE pour les INDIENS exclusivement.

Il est par conséquent défendu à toute autre personne, qu'aux INDIENS, de chasser du gibier ou de trapper des animaux à fourrure dans les limites de ces territoires.

HAROLD W. MCGILL,

DUNCAN G. SCOTT,

Deputy Superintendent General.

Attention Mr. D.J. McKay.

Dear Sirs:

Many thanks for your letter of November 7th enclosing
your Purchase Order #2961A.

Unfortunately this Purchase Order covers our quotation
of July 12th which was cancelled by our quotation of
August 11th. Since that time prices have increased, and
the present price on the required hose is 86¢ per foot.

Shall we complete your order on this price basis?

Yours very truly,

THE GOODYEAR TIRE & RUBBER COMPANY OF CANADA LTD

Archdiocese of Vancouver
Archbishop's Office

646 Richards St.
Vancouver, B. C.

March 20, 1942

Mr. R. A. Hoey,
Superintendent of Welfare and Training,
Indian Affairs Department,
Ottawa, Canada.

Dear Mr. Hoey:

When the Provincial of the Oblate Fathers was here a few weeks ago I discussed with him the possibility of having a Junior High School attached to the Catholic Indian Residential School at Mission which would comprise Grades VII, VIII, and IX, to which would be recommended Indian children from any of our Catholic schools for special teaching and study hours in those grades.

To make this possible it would be necessary to have

1. Two additional rooms, one for boys on the boys side and one for girls on the girls side.
2. Permission from the Government to allow eligible boys and girls to be transferred from other schools to this school
3. Properly qualified first-class teachers, one for boys and one for girls.

We have felt for a long time that such a school might encourage the Indian children to advance a little higher in education and also fit the eligible ones among them to give leadership among their people when they grow older.

Knowing how interested you have always been in the welfare of the Indian people and your sympathetic understanding of our Indian problems here, I would be glad to have your advice on this important matter.

We hope to have a meeting of our missionaries and principals of our Indian schools in the week following Easter at Kamloops, having in view the advancement and care of the Indian people in these difficult times.

Assuring you of our keen appreciation of all your efforts on behalf of the Indian people and of your assistance at all times, I beg to remain with kind personal regards

Very sincerely yours,

W. M. Duke

POOR COPY

Ottawa, March 27, 1942.

Dear Archbishop Duke:

I have for acknowledgment Your Grace's letter of March 20, in which you discuss the desirability of making provision in the future for the establishment of a junior high school section at the Indian Residential School, Mission, British Columbia.

I find it somewhat difficult to discuss your proposal in any practical or worthwhile sense, in view of existing conditions in the Dominion.

Our building program has been completely suspended during the last two years. It is my understanding that no provision has been made for the erection of any public buildings, other than those necessary for our war effort. Repairs, too, have been kept down to the lowest possible figure and there is, as you know, at this date an acute shortage of certain building materials, such as steel, tin, electrical equipment, roofing, etc.

It is gratifying to be able to report, however, that despite these restrictions a great deal of thought has been given to our Indian educational policy and to ways and means whereby it might be better adapted to the needs of the Indian population. We have now on the staff of this Department an official who prior to his appointment was in charge of the vocational section of the Balfour Technical School, Regina, Sask. This official is at present engaged in working out a course of vocational instruction which, it is our hope, will be incorporated in the courses of study provided at all Indian residential schools during the period that lies ahead of us. Lack of equipment and lack of suitable buildings are, of course, obstacles that still have to be overcome. In addition to this, a survey has recently been undertaken in the province of Ontario by a psychiatrist, working under the direction of the Ontario Department of Education. This official has made a complete I. Q. survey at practically all our Indian residential schools in Ontario, and we are awaiting the report with the utmost interest.

The Minister of the Department is very definitely of the opinion that the courses of study provided at Indian residential schools should become increasingly more practical and vocational in character. The success achieved by Indians who have taken what we usually term a straight academic course has been on the whole rather disappointing. Those who have returned to the reserves have returned, not to give leadership, but to become agitators in a very radical and destructive sense. Then, too, there is a tendency on the

part -

ARCHIVES PUBLIQUES
CANADA

POOR COPY

part of Indians who undertake this course to abandon it during the first or second year. Pupils who do this appear to go out into life with a disgruntled inferiority complex which is not at all helpful in improving living conditions on our Indian reserves.

You will be interested to learn that during the last two years I have been a member of the Canadian Legion National Educational Committee. It is the duty of this committee to provide vocational and academic courses for members of the Military Forces. I have been deeply interested in the large number of requests we have had from matriculants and from university graduates for practical courses such as auto mechanics, radio and telegraphy, electric welding, shorthand, typing, etc. It would appear that Canada has fallen far behind the European countries and even the United States insofar as adequate provision for vocational instruction is concerned.

I am afraid, however, that these thoughts I have been expressing will not prove very helpful to you, should you find it convenient to attend the conference at Kamloops, referred to in your communication, and it is certainly my hope that you will be able to attend the conference and let the principals and teachers who may be present have the benefit of your experience. My opinion at the moment is that, rather than organize high school or junior high school divisions at our regular residential schools, we should canvass the possibility of having a limited number of our brighter boys and girls attend classes at adjoining high schools, for example, the high school or technical school at Kamloops. These students, in my judgment, should remain at the school as grant-earning pupils, on the understanding that the Department would make a special grant to cover their tuition or instructional fees, at the adjoining high school or collegiate institute. This suggestion is not practical, of course, where there are no adjoining high schools. It has been attempted in the East, however, with a certain amount of success and would, in my judgment, be more successful in the East if Indian pupils were encouraged to take up vocational rather than academic courses. Where there is no adjoining high school, a few of the brighter boys and girls might be kept on at a number of our residential schools on the recommendation of the principal and provided with at least Grade 9 instruction, plus a certain amount of vocational instruction.

May I suggest to you that unless there are difficulties standing in the way, that I cannot think of at the moment, Inspector Barry be invited to the Kamloops conference. As you know, Inspector Barry has had years of experience in the inspection of Indian residential schools. He has already met, and discussed vocational instruction with, Mr. Doucet, of this Department, the official to whom I have already referred, and would, I feel confident, be in a position to guide and direct any discussion at the conference into worthwhile channels. It is scarcely necessary to add that

any -

any resolutions passed at the conference or any suggestions in respect to ways and means whereby our educational program could be improved would be very sympathetically received and very carefully reviewed by the officials here. May I thank you very much indeed for your letter. Your interest in the education of the Indians and in ways and means whereby our program can be better adapted to their needs is very much appreciated.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

June 1, 1942

Mr. R. A. Hoey,
Superintendent of Welfare & Training,
Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA, Ontario.

Dear Mr. Hoey:

I received your kind letter of March 27th regarding the possibility of beginning a Junior High School either at Mission City or Kamloops.

The matter came up at the meeting of the missionaries and principals of Indian Schools held at Kamloops on April 7th and 8th. The consensus of opinion was that Kamloops would be the better place and would be more central for our work on the Missions and the climate would also be more conducive to the health of the children.

We would appreciate first permission from the Government to allow eligible boys and girls to be transferred from other schools to this proposed school, which would simply be two additional rooms, one on the boys side and one on the girls side, and for which we would try to provide first-class teachers, one for boys and one for girls. Nothing radical is contemplated and if the permission to transfer eligible boys and girls was obtained, we would proceed slowly to perfect such a Junior High School.

Captain Barry was unable to be present at the Conference on account of sickness at that particular time, but the two days were profitably spent in convention in the interests of the Indian people.

We appreciate very much your sympathetic understanding of the work here at all times and for which we are very grateful.

With kind regards, I beg to remain

Very sincerely yours,

W. M. Duke

W. M. D u k e
Archbishop of Vancouver

P.S. If we could have the permission shortly I could plan with the Fathers at Kamloops who could make a start on it next Fall.

Records File
Ottawa, June 3, 1942.

My dear Archbishop Duke:

I have for acknowledgment Your Grace's letter of June 1, in which you refer to the conference of missionaries and principals of Indian residential schools, held at Kamloops on April 7 and 8.

It is just possible that you may have learned that we have had under consideration for the last week or 10 days a request from the Department of Labour for the use of a limited number of our residential schools for the care and treatment of a group of Japanese citizens who appear to be suffering from tuberculosis and other physical disabilities. At the last conference called by the Government, at which all the churches were represented, it was agreed that the following schools might be placed at the disposal of the Labour Department:- Edmonton (U. C.), Youville (R. C.), Elkhorn (C. E.) and either Kootenay or Cariboo (R. C.). This decision will, of course, tax to the utmost extent possible the available space at our other residential schools and in addition tax any space that might be hurriedly provided. I have already discussed with Father O'Grady ways and means whereby the Kamloops School might take over a number of the pupils now enrolled at the Kootenay School.

You will readily appreciate that, in view of this decision, it is almost impossible for the Department to seriously consider provision for high school students at this particular time. I still think, however, that where the principals of our schools encounter a particularly bright and promising pupil, provision should be made whereby this boy might be permitted to remain two or three years longer at a residential school and be permitted to pursue his high school studies at the nearest high school or collegiate institute in the district. I am disposed to think that this is about all we can do during the war period.

May I embrace this opportunity to thank you very heartily for your interest in this matter. The subject is one to which I have given a great deal of thought. Any additional suggestions that may occur to you will of course always be welcomed.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

Most Reverend W. M. Duke, D.D.,

EXD
A

Dear Sir:

In the current year's appropriation an amount of \$1750.00 is available for repairs, improvements and purchase of new equipment at the St. Mary's Mission Indian Residential School. You should interview the Principal immediately with a view to determining the best manner in which to expend these funds. In the event of any material or supplies being required detailed information should be furnished, as this is required by our Purchasing Branch. Your recommendations should be forwarded to the Department through the office of Indian Commissioner MacKay.

Due to present conditions it is most important that we hear from you at the earliest possible date. As you are aware, it is extremely difficult to obtain deliveries on many items and, therefore, the sooner the order is placed the better for all parties concerned.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

EXD.

Dear Mr. Hoey:

I received your kind letter of June 9th.

My answer has been delayed due to my Confirmation trip.

I was aware of the request of the Department of Labour for some of the Residential Schools for the Japanese, and learned of the decision concerning them.

The last paragraph of your letter will help us to give advantage to particularly promising pupils, even during the war period; after which I trust greater facilities for the Indian children may be provided.

I would like to thank you for the kind understanding of the Indian problem, on the compassionate solution of which the happiness of so many souls depend.

Very sincerely yours,

+ Most Rev. W.M. Duke

AIR MAIL

Dear Sir:

Your File 153-1-5

I beg to refer to Departmental letter of June 17th addressed to Mr. Indian Agent Daunt advising that an amount of \$1750.00 is available from the current year's appropriation for repairs, improvements and purchase of new equipment at St. Mary's Mission Indian Residential School.

In this connection I beg to advise that the Rev. Father Fleury visited this office yesterday and requested permission to purchase lumber to the value of \$150.00 to enlarge and repair the fuel storage bins at the school. It is difficult to get quotations on lumber required from local firms because of the prevailing demand for this material, the daily output of some mills having already been sold for some weeks ahead. Under the circumstances, I would recommend that the Rev. Principal be authorized to purchase lumber up to the amount stated as opportunity offers. The vouchers, of course, will be submitted in the usual way and where necessary a covering purchase order will be issued.

Please let me have a reply by air mail.

Yours faithfully,

D.M. MacKay
D.M. MacKay,

Re: Repairs, St. Mary's Mission
Indian Residential School.

Dear Sir:

I desire to acknowledge receipt of your Air Mail letter of the 14th instant, in which you submit for departmental consideration a request received by you from Father Fleury, for permission to purchase lumber at a cost not exceeding \$150.00 for repairs at the marginally noted school.

In view of local conditions as described in your letter, the suggestion made by Father Fleury is acceptable to the Department and approved.

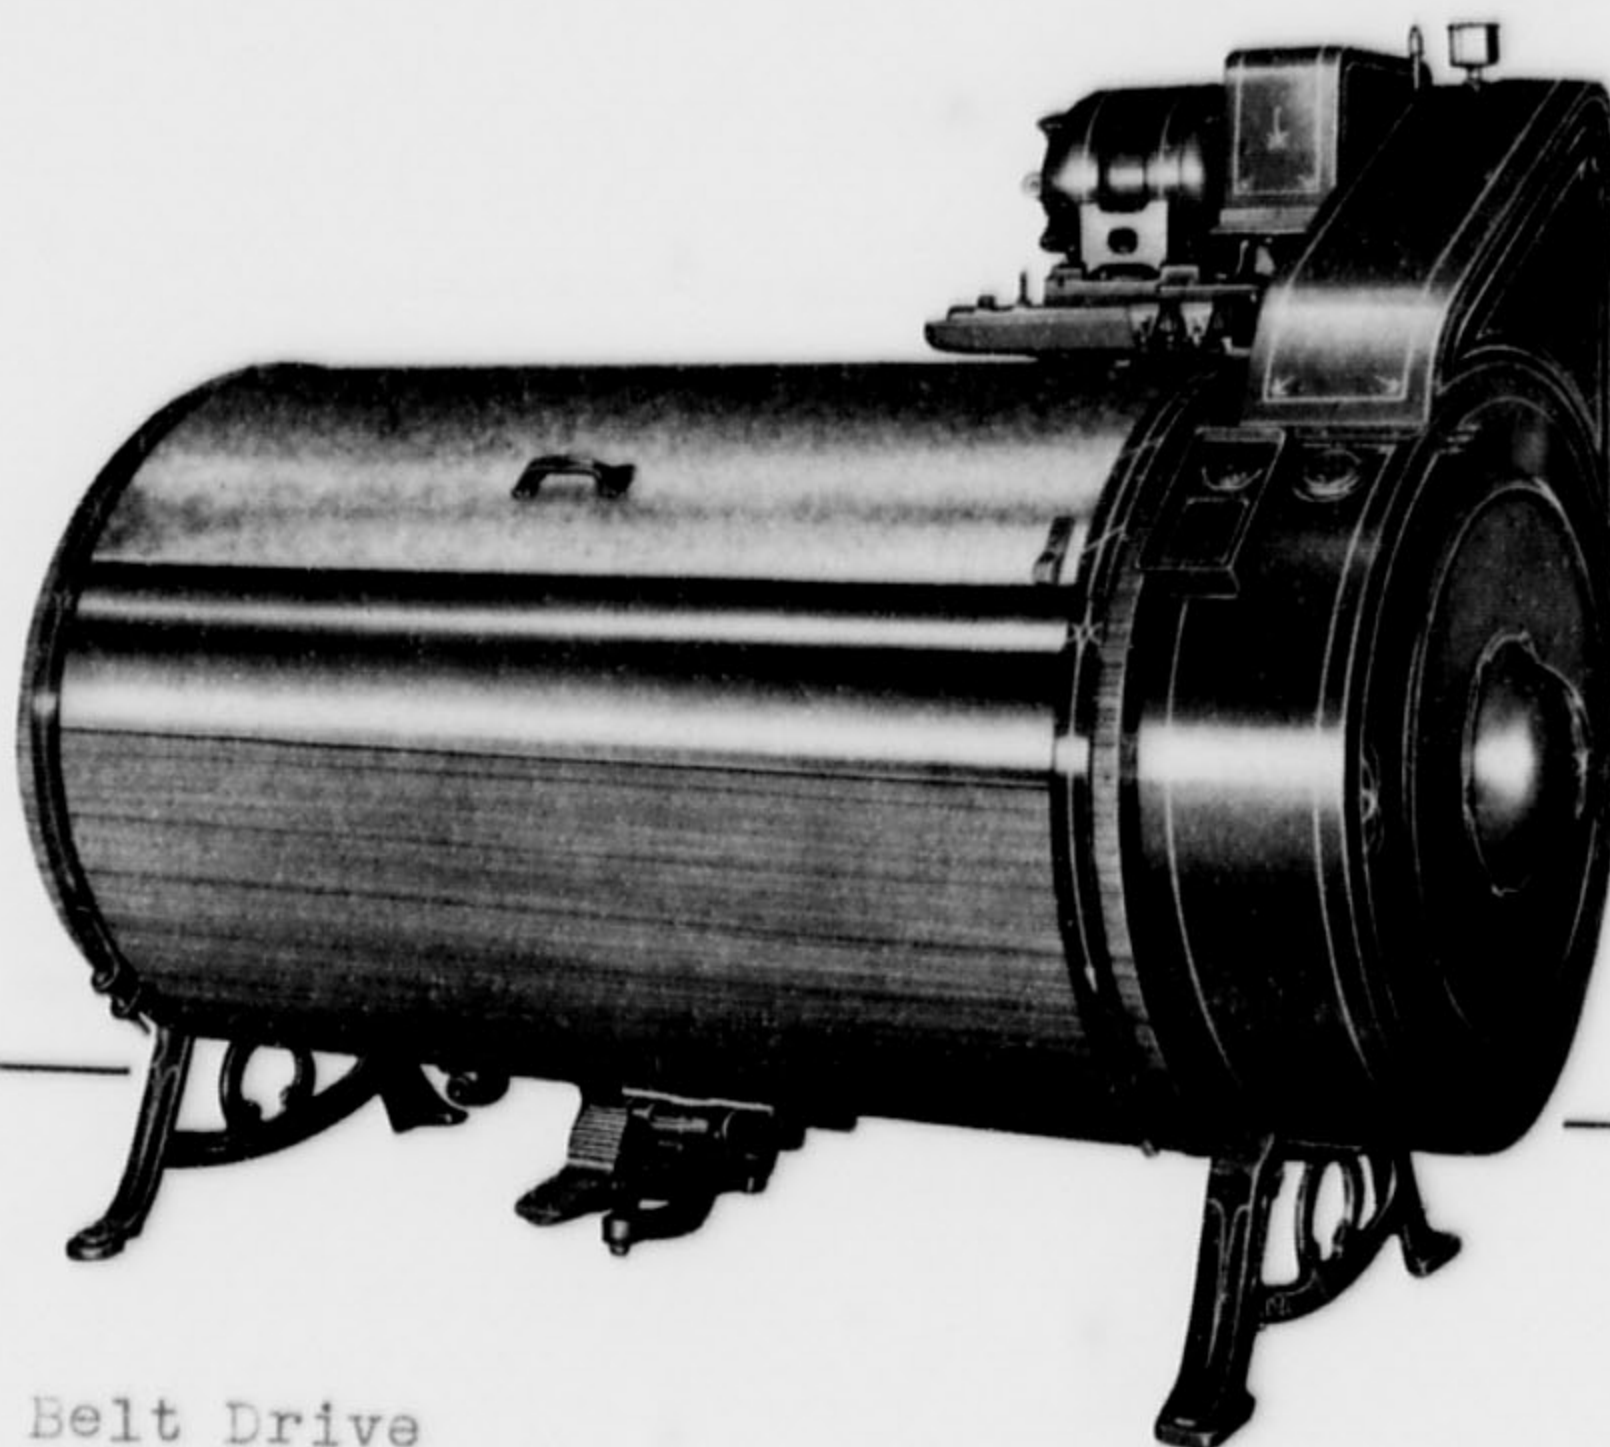

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Belt Drive

The Canadian Globe Wood Washer

With Cylinder 30-Inches in Diameter and larger
Direct Chain Motor Drive—Single Geared

The Canadian Globe Wood Washer quoted shall have a cylinder thirty (30) inches in diameter by inches in length outside measurements, and shall have one door, one compartment, with (galvanized) (brass) trim, (with) (without) safety devices.

Cylinder—Shall have heads, staves, and ribs of selected long leaf yellow pine.

Staves shall be cut from 1½-inch stock, rabbeted at heads and secured to the heads by wood dowels.

Heads shall be cut from 2-inch stock, and gained to receive lifting ribs.

Lifting ribs shall be cut from stock 3-inches by 5-inches. Ribs shall be rabbeted at heads. Three lifting ribs shall be provided.

Door closing ribs at the bottom and the top of the door opening shall be provided. Door closing ribs shall be cut from 3 by 3½-inch stock.

The door closing rib at the bottom of the door opening shall be fitted with a stainless steel angle, and the door closing rib at the top of the door opening shall be fitted with a stainless steel channel to insure tight fitting doors.

The lifting ribs shall be secured to the cylinder heads by means of a ½-inch galvanized iron bolt, extending through the cylinder hoop, ribs and into a recess in the head.

Door opening shall be 12-inches wide. Hinges shall be wide and well ribbed and shall rest on the cylinder hoops the full length of the hinge. Hinge battens shall be of brass. Cylinder shall be banded with wide, heavy stainless steel hoops fastened to staves by Monel Metal screws. Where

the door is 27-inches long or longer a hoop shall be fitted between the heads and shall completely encircle the cylinder except at the door opening.

Meehanite metal trunnions shall be securely attached to the cylinder heads.

Tub—Shall have heads and staves of clear or better fir.

Staves shall be cut from 1½-inch stock for sizes up to and including 36-inch length, and from 2-inch stock for sizes 48-inches in length and longer. Staves shall be tongued, grooved and rabbeted to fit over heads to which they shall be secured by wooden dowels.

An upwardly sliding galvanized iron door shall operate in guides provided on adjustable, encircling bands or hoops, fitted with take-up bolts.

A gauge glass shall be mounted on the left tub head.

A sheet brass splash apron shall be provided at the bottom of the door opening to protect the staves.

Frames—Cast Meehanite metal frames of heavy design, rigidly bolted to the tub heads, shall support the weight of the cylinder and tub.

A heavy cast Meehanite metal upright bolted to the right-hand frame and tub head shall support the motor, motor bracket, and driving mechanism.

Bearings—The journals of the trunnions shall operate in cast-iron babbitt lined bearings equipped with easily accessible lubricators. Journal bearings shall be supported by the cast Meehanite metal frames. Bearings for intermediate and drive shafts shall be of the roller type.

POOR-COPY

The Canadian Globe Wood Washer—Continued

With Cylinder 30-Inches in Diameter

Direct Chain Motor Drive—Single Geared

Water Inlet—A 2-inch water inlet connection shall be provided at the rear of the tub.

Steam Inlet—The admission of steam to the washer shall be through a steam spray flange located in the center bottom of the tub.

Outlet—The outlet valve shall be of the foot operated, positive closing type, 4-inches in diameter.

Safety Devices—Shall consist of a hook for holding the cylinder door open, and brass supply door on the tub door.

Trim—Galvanized trim shall include stainless steel hoops, galvanized hinges and galvanized iron latches on cylinder.

Brass trim shall include stainless steel hoops, brass hinges and brass latches on cylinder.

Drive—Cylinder shall be driven from the right-hand end by means of a combination multiple roller chain and spur gear drive. Gears shall be machine cut.

Guards—The drive shall be completely enclosed in sheet metal guards. The gear guard shall be full width, full diameter.

Electrical Equipment—Shall conform to applicable sections of standards of the National Electrical Manufacturers Association.

All wiring between electrical units mounted on the machine shall be furnished installed in accordance with the National Electrical Code.

Motor—The drive motor shall be ball bearing, grease lubricated type, of ample capacity to operate the washer under continuous, full load operating conditions, without the motor temperature rise exceeding the limits allowed by N.E.M.A.

Controller—A controller in a sheet metal en-

closure with a removable cover, shall be furnished mounted on the rear of the machine for control of the drive motor.

The controller shall incorporate a motor driven timer with magnetic contractors for reversing the drive motor, thermal type overload relay and pilot circuit fuses.

Timer shall insure that the number of cylinder revolutions between reversals are uniform with but slight difference in either direction of rotation.

Where needed controller shall incorporate protective resistance and relays.

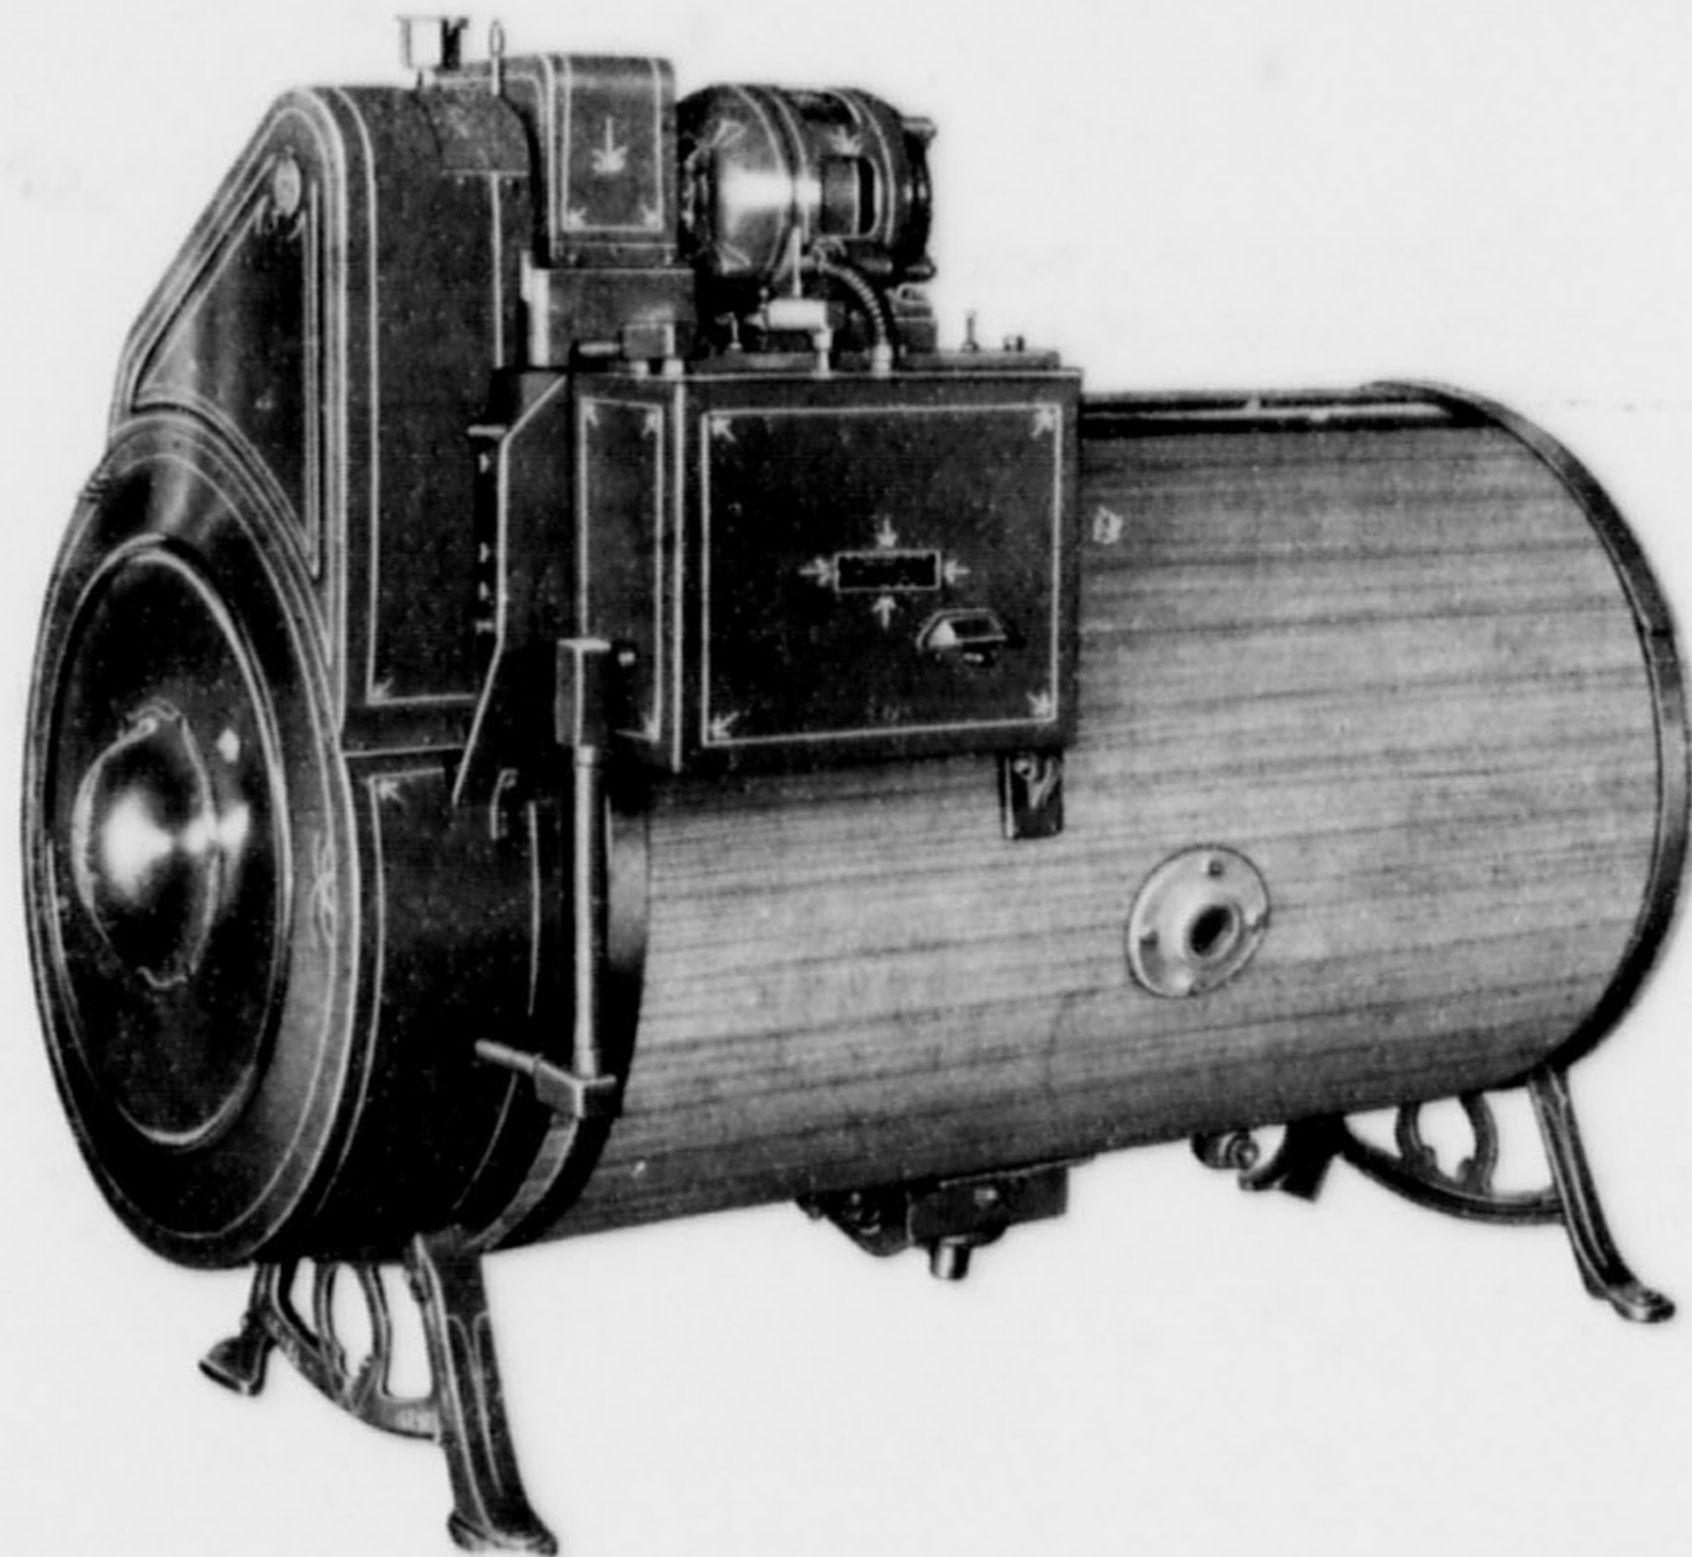

Interlocks—The sliding tub door shall be electrically interlocked in such a manner that opening the tub door interrupts the electric service, causing the setting of the brake and stoppage of the cylinder and prevents further movement of same under power, except for inching.

Operating Switch—Shall be mounted on the washer at a point easily accessible to the operator and shall incorporate push buttons necessary for obtaining normal machine functions and operations.

Brake—Shall consist of a spring set, electro-mechanically released, shoe type brake for stopping the cylinder movement and maintaining cylinder at rest.

Wiring—Wiring in conduit shall be furnished connecting motor, operating switch, interlock switches and controller, with provision at controller for service connections. Service disconnect switch shall be furnished by customer.

Lubrication—Grease gun fittings shall be provided on all important bearings. Chain shall be lubricated by means of a wick oiler.

"Good Equipment Makes a Good Farmer Better"

1905 MAIN STREET
VANCOUVER, B.C.

August 1, 1942

The Indian School
Mission, B. C.

Attention: Father Fleury

Dear Sir:

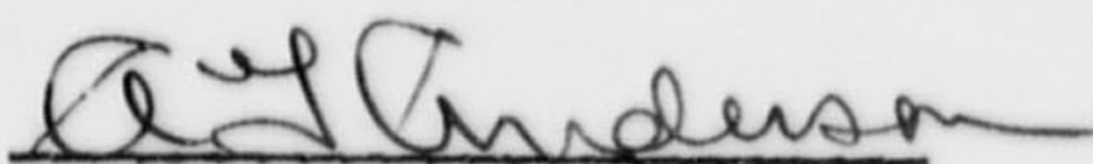

On checking over your cream separator we find it in very poor shape, the spindle bearings are badly worn and the bowl is out of balance. We would suggest that you should get a new machine with an electric motor.

We are prepared to furnish you with a 1000 pound separator with stainless steel tinware and direct driven motor taking your old machine in trade for a difference of \$175.00.

We have one of these machines on hand at the present time so can make immediate delivery.

Yours truly

POOR COPY

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B.C.

Sept. 16th, 1942.

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith quotations, covering different items of repairs and equipment, as stated in my estimates of last year. The delay in submitting these quotations is not at all to my liking, but can be very well understood, due to present restrictions on labour and material. I understand that the Department has allowed a sum for our expenditure on repairs and equipment and I would greatly appreciate your help in presenting these quotations to the Department as quickly as possible, so that there will not be a further delay. The enclosed quotations cover the following items:

A. Alterations to girls' recreation hall	\$175.00
B. Repairs to boys' building	955.00
C. Repairs to boiler	22.50
D. Repairs in laundry	39.50
E. Dairy equipment	176.00 175.00
F. Laundry equipment	720.00
G. Lumber for coal shed	150.00

A-B. The work on the boys' and girls' buildings is especially imperative, as it will relieve the crowded condition of the present time. During the past few years, we have been practically forced to take in more children, and in thus trying to co-operate with the Department and the Indians, we find the changes most urgent. Moreover, there are certain features of these buildings which need repair badly.

C. The brick-work on the front of the boiler needs to be renewed, to prevent the plate from bending. We have recently installed a large automatic stoker and the repairs to the brick will greatly assist the stoker's efficiency.

D. In order to keep the laundry from getting too hot and thereby cause hardship on the children and staff, I wish to replace the laundry stove, which is worn out, with a brick insulated stove. On this item and the preceding one, I have secured very good quotations.

E. The cream separator in the dairy is quite worn out and we need a new one. It has been the practise to supply milk from the Mission herd, to the School at about half of the commercial rate, thereby saving school funds and yet giving the children plenty of fresh milk daily. I would be glad therefore if the Department would assist in obtaining this item.

F. We have been trying to obtain a new washer in the laundry for years. Just when the way seemed clear to obtain it, some more pressing need arose and the washer had to wait. By now, both our washers are in poor shape. They are hard to obtain

Indian Affairs (RG 10 Volume 6470, file 890-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

00R-COPY

but I have secured a quotation on one in the amount of \$720.00. This sum, however, brings the total of the quotations to \$488.00 more than the \$1750.00, which the Department has allowed for repairs and equipment. Consequently, while it would be more helpful to have at least one new washer, that we could depend on, if the Department allows this extra amount, it might be possible, on the other hand, to have the present machines repaired to an extent, which would not exceed the grant. In other words, while I think it better to have a new washer for the laundry, I am prepared to obtain quotations on the repairing of the present washers up to an amount of approximately \$232.00.

G. On authority of the Department, through the kind co-operation of the Commissioner, we have secured \$150.00 worth of rough lumber to build a coal-shed. Quadruplicate copies of this bill will be submitted in due time. I wish to express my thanks to the Department for their promptitude in this matter.

I trust that you will find all the enclosed quotations in good order. It has been so difficult to obtain estimates due to shortages and yet I felt that I had to keep on trying under very difficult circumstances, because of the extreme urgency of our needs at the school. I could only obtain quotations from single firms and contractors, but in each case I was fortunate enough to make connections with reliable firms, who have previously done excellent work at the school. I feel sure that whatever expenditure is made will result in first-class work and materials.

Now that the quotations are all ready, after the trouble and delay of getting them, I am more than anxious that the work be completed and the equipment installed as soon as possible, so that we can benefit by them. I would be very pleased, therefore, if you would kindly see that these matters reach the Department at an early date. I feel sure that you will co-operate with me in this regard, after so many evidences of your kind interest in the school, in the past.

Very sincerely,

A. H. Fleury, O.M.I.

A.H. Fleury, O.M.I. Principal.

INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE 1-8-A.

NEW WESTMINSTER, B.C.
September 18th, 1942.

Dear Sir:-

Under date of June 17th, 1942, File No. 153-1-5, the Department advised me that the amount of \$1,750.00 is available for repairs, improvements, and purchase of new equipment at the St. Mary's Mission Indian Residential School. I at once took the matter up with the Reverend Principal, but owing to present conditions the greatest difficulty has been experienced in getting quotations from the various Firms.

I am now enclosing quotations marked in order of merit as follows:-

(A) A.E. Watkins, Mission City, Alterations to girls' recreation hall.....	\$175.00
(B) A.E. Watkins, Mission City, Repairs to boys' building.....	955.00
(C) W. & J.W. Lightburn, Mission City, Repairs to Boiler.....	22.50
(D) W. & J.W. Lightburn, Mission City, Repairs in Laundry.....	39.50
(E) McCormick-Deering Implements, Limited, Dairy Equipment.....	175.00
(F) The Canadian Laundry Machinery Company, Limited, Laundry Equipment.....	720.00
	\$2,087.00

A letter from the Reverend Principal is also enclosed, giving the full details of these expenditures. In this letter item "G", lumber for coal shed at \$150.00 has already been authorized by the Department under date of August 17th, 1942, File No. 153-1-5. This, therefore, reduces the available amount to be expended to \$1,600.00, while the total of the quotations herewith submitted amount to \$2,087.00, or \$487.00 over the amount allowed.

The Reverend Principal in his letter comments upon this and says he is prepared to obtain quotations for repairing the present washers up to an amount of approximately \$232.00, which would approximately balance the credit. As these repair jobs on old material are not very satisfactory, it would be very much better if the new washer could be supplied, as it is certainly badly needed at the School.

ENCLS.

Major D.M. MacKay,
Indian Commissioner for B.C.,

I would recommend that this be given every consideration, and if it is at all possible to do so that the full amount of the present requisitions be allowed.

The Reverend Father Fleury is doing particularly good work at this School, and the Department will appreciate the necessity of efficient laundry equipment, if cleanliness is to be maintained in so large a School population.

Yours truly,

A.O.N. Daunt.
Indian Agent.

Dear Sir:

I enclose herewith Mr. Indian Agent Daunt's letter of the 18th instant forwarding the application of St. Mary's Mission Indian Residential School for a grant of \$2087 as set out in the Agent's letter.

It is noted that Mr. Daunt states that \$1750 has been made available by the Department for the School and of this \$150 has already been spent or authorized for a coal-shed, which would leave a balance of \$1600 or \$487 less than the amount requested.

It would be appreciated if you would kindly advise me if the Department is prepared to provide funds to the extent requested.

Yours faithfully,

D.M. MacKay

Memorandum

September 30, 1942.

Mr. R.A. Hoey

Major MacKay's letter of the 22nd instant, together with Mr. Daunt's letter and other explanatory data on your file #153-1-5 re expenditures for St. Mary's Mission Indian Residential School, was submitted to Mr. Jackson yesterday for decision. His ruling is that it will be in order to incur expenditures for necessary repairs and equipment at a cost not exceeding \$1600.00, (the balance of the original appropriation of \$1750.00) and that these expenditures should be made by or under the direction of Major MacKay.

When the repairs have been made and equipment has been delivered, vouchers and invoices should be sent to this office for the usual action.

I am returning herewith your file as received.

H.J. Davidson
Departmental Purchasing Agent.

AIR MAIL

Dear Major MacKay:

Re: Grants, St. Mary's Mission Residential School.

I am sending forward herewith copy of a memorandum received by this Branch from the Departmental Purchasing Agent. This memorandum, you will note, is self-explanatory.

In a discussion with the Chief Executive Assistant on this matter he expressed the opinion that the dairy equipment might well be borne by the school itself from the per capita grant. He expressed the opinion that it ought to be possible to work out a policy whereby certain repairs to Church-owned buildings might be borne by the Department, while certain supplies, such as dairy equipment, furniture etc., should be borne by the school authorities. He is of the opinion that our present policy is somewhat haphazard and faulty. This is a matter to which I should like to turn my attention just as soon as the limited time at my disposal will enable me to do so. In the meantime you might exercise your best judgment in the expenditure of this grant.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

AIR MAIL.

Dear Sir:

Your File 153-1-5.

I have your letter of September 30th regarding the current year's appropriation available for repairs etc., at St. Mary's Indian Residential School together with a copy of memorandum from the Departmental Purchasing Agent.

Arrangements are being made to proceed to carry out the works listed under A, B, C and D of the list submitted by Mr. Indian Agent Daunt, copy of which was supplied to the Department.

As the expenditure under B amounts to \$955.00 it will be necessary for the Departmental Purchasing Agent to issue a Purchase Order to cover this item and, it will be appreciated if the necessary action could be taken in this respect as soon as possible. In the meantime Mr. Indian Agent Daunt has been instructed to advise Mr. Watkins to proceed with the construction.

It seems quite reasonable that the cost of the dairy equipment requested under E should be met by the school from the school funds.

The request for laundry machinery under item F will be further discussed with Mr. Indian Agent Daunt and the Reverend Principal before any action is taken in the matter.

Yours faithfully,

/M.

A

Dear Sir:

I have your letter of the 5th instant, with reference to the repairs at the St. Mary's Indian Residential School. With reference to the third paragraph of your letter, I do not consider it necessary to have the Purchasing Agent issue a purchase order at the present time. If you refer to the copy of the memorandum forwarded with Mr. Hoey's letter of the 30th ultimo, you will note that all that is necessary for you to do is to forward the vouchers and invoices and purchase orders will then be issued here.

Yours truly,

Philip Phelan,
Chief, Training Division.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B. C.

December 16th, 1942.

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

I have forwarded to you under separate cover triplicate copies of invoices, covering the following repairs and equipment for St. Mary's Indian School:

A.T. Watkins, \$175.00. Alterations and repairs in girls recreation hall.

W. & J.W. Lightburn, \$62.00. Repairing brickwork on boiler (\$22.50) building heating plant in laundry (\$39.50).

Valley Lumber Yards, \$150.00. Supplying lumber for erection of coal shed.

Authorization for the first two items was received from you in the usual manner. Authorization for the third item was received from the Indian Commissioner, directly.

There were also two other items on our estimate list for which we received authorization, namely, alterations to the boys' building and repairs to laundry washers. At present the contractors cannot do this work due to the shortage of materials. I have been very disappointed because of this and hope that, before long some arrangements may be made.

Very sincerely,

A. H. Fleury

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B. C.

March 1st, 1943.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Phelan;

I was unable to use the full allotment of money for repairs and equipment, allowed by the Department, to St. Mary's School, for the current fiscal year. Much needed repairs had to be postponed, because the contractor could not get the materials. This has been quite a disappointment to me as well as being a continuance of the conditions that I wished to remedy. However it could not be helped. The repairs were, namely, an addition to the boys' recreation hall and re-conditioning a large washer in the laundry.

Now, I have been faced with a new and immediate expense: a new drainage system has to be installed from the central building, to avoid the drainage backing up into the kitchen basement and manual training shop. The cost is estimated at \$208.00. I know there is not much time left, but would it be possible to draw on the unused part of our allotment for this work. Otherwise it would entail a serious expense on the normal funds of the school, which are none too plentiful, right now. I can have the work and the bills put through this month, if you will advise me.

Kindly reply at once as I am worried about this condition and the expense involved in correcting it.

With kind personal regards.

Very sincerely,

A. H. Fleury, O.M.I.

Copy sent to Major MacKay

Ottawa,
March 5, 1943.

AIR MAIL

Reverend Sir:

I desire to refer to your letter of the 1st instant, addressed to Mr. Phelan, with reference to the amount allotted for repairs and equipment at the St. Mary's Mission Residential School during the current fiscal year. I am extremely sorry to learn that the repairs and equipment previously authorized have not been secured. I presume that there are no outstanding accounts and, if this is correct, only \$387.00 has been expended out of \$1750.00 provided.

In view of the above the Department approves an expenditure of \$208.00 for material and labour in repairing the drainage system in order to avoid sewage backing up into the kitchen, basement and manual training shop.

I note from your letter that you can have this work and the accounts put through this month.

I am advising Indian Commissioner MacKay of the authority granted to you. He in turn will notify Indian Agent Daunt and you can, therefore, submit your accounts through Mr. Daunt's office.

Yours truly,

Rev. A.H. Fleury, O.M.I.,
Principal,
St. Mary's Residential School,
Mission, B.C.

R.A. Hoey,
Supt. of Welfare & Training.

AIR MAIL

Major D.M. MacKay, Indian Commissioner, P.O. Box
70, Vancouver, B.C.

For your information I enclose copy of a letter being sent to the Principal of the St. Mary's Mission Residential School. You will note that an expenditure of approximately \$208.00 is being authorized on the assumption that there are not sufficient outstanding accounts to require the total amount provided in the current year's appropriation. You will recall that I wrote to you on September 30 last authorizing an expenditure not exceeding \$1600.00. It appears from the Principal's letter that the repairs had to be postponed because the contractor could not get the materials. As pointed out to the Principal, I am extremely sorry to learn that this condition arose. Possibly you will still be able to secure some of the material before the close of the current fiscal year. If so, it will relieve our appropriation for the coming fiscal year.

R.A. Hoey,
Supt. of Welfare & Training.

[Handwritten signature]

Mr. R.A. Hoey,
Sup't. Welfare & Training,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Hoey;

I wish to acknowledge and thank you for your letter of March 5th, authorizing \$208.00 towards the expense of building a drainage system. The need for this repair job came on so suddenly and I was so ill-prepared for it financially, that it is quite a relief to have the Department assume the expense.

You can readily believe how disappointed I was when I could not get the repairs completed that I had contemplated; and towards which the Department had kindly allowed \$1750.00. The items which would have made up the unused portion of the grant were: an addition to the boys' recreation hall and the repair of a washer in the laundry. I had the estimates approved and then the washer people (the only firm out here that could make the repairs) turned their entire plant over to war work, and consequently could not do the work they quoted on. The carpenter tried his best, but could not get the materials for the repairs to the recreation hall. Thousands of feet of lumber float past our school every day, but there was none for us. However prospects look brighter this year, for certain supplies, and I am glad of it, because if the repairs were urgent last year, they are doubly so now.

We have a large enrollment this year and the children are well. We are busy putting in a very large garden in view of imminent shortages. Again thanking you for your kind letter.

Very sincerely,

A. H. Flenny, O.S.A.

Ottawa,
April 7, 1943.

Mr. A. O'N. Daunt, Indian Agent, New Westminster,
B.C.

The Department is in receipt of your voucher No. 686 for \$208.00 issued in favour of W.J. Windebank, P.O. Box 162, Mission City, B.C., covering the cost of work on the drainage system at the St. Mary's Mission Indian Residential School. This voucher amounted to \$208.00 but by the time it had reached here the amount specifically provided in the appropriation for the fiscal year 1942-43 for this school had been reduced to \$202.31. We are issuing a cheque for this amount to Mr. Windebank but, as we cannot overexpend the amount provided in the case of Church-owned residential schools, it will be necessary for the Principal to forward Mr. Windebank a cheque for \$5.69 from school funds. It would be appreciated if you would arrange this.

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

I beg to report that I inspected Boiler No.: 300 Ontario
on the 17th day of June, 1943, and have found it in
the following condition:

Owned by the Department of: Mines & Resources, Indian Branch.

Located at: Indian Residential School, Mission City, B. C.

Manufactured by: E. Leonard & Sons, London, Ont.

Date: Not stamped on H.P. 90 plates. Size: 60" by 14"

Type: Horizontal return tubular Condition of Plates: Good

Condition of Stays: Good Condition of Rivets: Fair

Condition of Tubes: Fair Working Pressure Allowed: 30 lbs.

Safety Valves Set at: 15 lbs. Condition: Tight and works freely.

Hydrostatic Test: 50 lbs. Hammer Test: Sound

Deflection Test: Normal Condition under Test: Good

Steam Valves: Tight Feed Valves & Checks: Tight

Steam Gauge: Correct Water Gauge: Good

Test Cocks: Good Fusible Plug: Good

Blow-Off Cock: Good Blow-down Pipe: Good

Side Walls: Good Bridges: Good

Front Walls: Good Back Walls: Good

Front Arches: Good Back Arches: Good

Smoke Pipe & Breechings: Good Firebars: None.

Stokers: Iron Fireman No. 100, condition good.

Amount of Coal used: No record Kind: Bituminous Stoker

Quality: Satisfactory B.T.U. per lb.: 12,000 to 12,500

REMARKS:

Use a little more lime and soda in feed water.

Controls checked and are operating satisfactorily.

Major D.M. MacKay, Indian Commissioner, Vancouver, B.C.

I beg to forward you herewith, a letter, in duplicate, received from Reverend A.H. Fleury, Principal of St. Mary's Mission Indian Residential School, which is self explanatory.

In view of the difficulty in obtaining material, I would recommend that the suggestions of the Reverend Principal receive favourable consideration by the Department, as otherwise it will be almost impossible to have any of the work completed before the end of the fiscal year.

for A.O.N. Daunt,
Indian Agent.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

†

MISSION, B.C.

August 9th, 1943.

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

For the past two years we have been trying to effect many necessary repairs and improvements at the St. Mary's School, without much success. This lack of success has been due to the scarcity of material and labour. Urgent repairs to the recreation halls, gymnasium, laundry and classrooms have been initiated, then have had to be dropped, because the contractors who had previously quoted on the work, had not the materials nor the labour at the time when permission came through from the department at Ottawa.

This has been very disappointing to me and the department has also expressed regrets that the work they so kindly authorized could not have been completed. No blame can be attached in these matters and it may be said that such difficulties are to be expected during the time of war. However, I feel that the main trouble in having the repairs completed lies in the fact that no contractor cares to commit himself to a quotation, unless his figures can be accepted immediately. The same with materials. Several times I have located items and then when authority came to purchase them, they were gone. If the repairs were not urgent, I could reconcile myself to waiting until such time as things were normal. However you can readily understand that, in an institution like this, there are always certain repairs that cannot be put off. A number of such repairs have been completed and paid for out of the ordinary school funds, because they demanded immediate attention and the school funds were the only source of credit at hand.

In view of the fact, therefore, that certain items of repair and equipment are so necessary at the school, and that the ordinary channels of estimates, quotations and authorization from Ottawa, at the present time, handicap their completion, I would respectfully suggest and ask for a more efficacious procedure. If it could be arranged that, after my listing the more urgent items and their probable cost, authority would be given to go ahead with the repairs up to the limit of the amount listed. The accounts could then be sent to the department for payment, or paid by me and re-imbursement applied for. This method would, I am sure enable many of the necessary repairs to be completed.

The following are the items and their probable cost:

- A. Installation of wash basins in boys' and girls' dormitories, to accomodate about 20 each; four toilet bowls; labour and material\$400.00
- B. Connecting hot water system to Preventorium; pipe, digging of trench and connections\$210.00
- C. Repairs to radiators and replacements where necessary; materials and installation\$175.00

Indian Affairs (RG 10 Volume 6470, file 890-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

OR-COPY

- D. Extension to the boys' recreation hall. A very urgent matter that has been pending some time. I have located a mill that will supply the lumber and a contractor to supply the labour. This work was planned for last year but the contractor could not get materiel. Material and labour for the above\$1100.00
- E. Manual training lumber \$180.00
- F. Repairs to heating system in men's building..... \$205.00
- G. Reshingling and painting roof of boys' classroom.. \$195.00
- H. Fireproof roofing, either iron or patent, for roof of laundry around the smoke stack \$80.00
- I. Lumber for repairs to dairy, barn and bull-pen.... \$450.00

I submit the above items for the approval of the Department. Your records will show that during the past two years the Department authorized generous amounts for these and similar repairs, but the work could not be done at the time. I hope that, with the kind co-operation of the Department, this work may now be done, in the interests of the school and the welfare of the Indian children.

In many of the above cases, I have anticipated using re-conditioned material, for economical reasons and also because it is the only way to procure it. I would like to assure you and the Department, that if they authorize the work as listed above, which is so necessary, a very conscientious effort will be made not only to have the work done satisfactorily, but also as economically as possible. I would be very grateful if you would forward my request to the Department as soon as possible. Just this morning, while phoning to get prices on shingles, the mill told me that they had fairly large stocks on hand this week, but could not say what stock they would have next week. I mention this to show how conditions are and how advantageous it would be if I had the authorization requested in this letter.

Very sincerely,

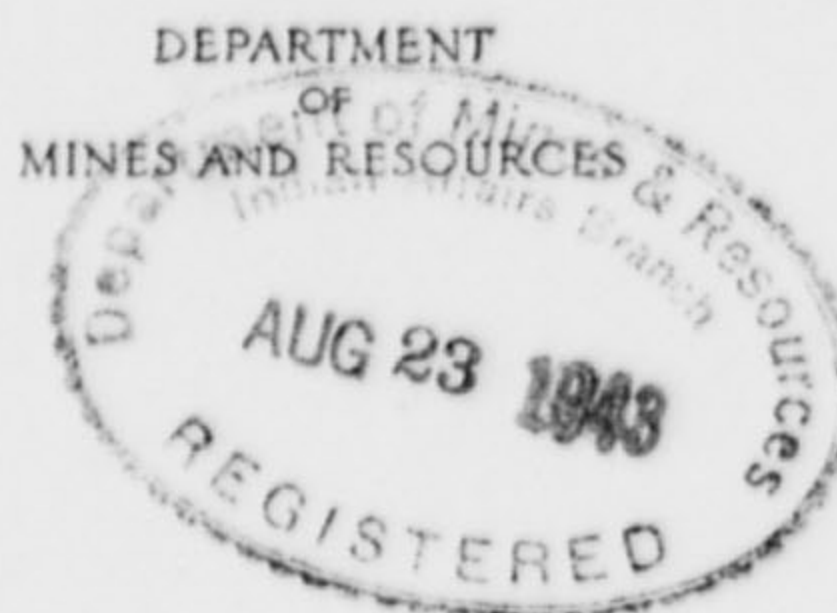

A. H. Fleury, O.M.I.

A.H. Fleury, O.M.I. Principal.

ALSO TO DATE OF THIS LETTER

P.O. BOX 70,
VANCOUVER, B.C. August 19, 1943.

Indian Affairs Branch, Department of Mines and Resources,
Ottawa, Ontario.

I enclose herewith a letter from Reverend
Father Fleury listing certain repairs and improvements
required at St. Mary's Mission Indian Residential School,
together with a copy of the covering letter from Mr. Indian
Agent Daunt forwarding the application to this office.

Provision was made in the current year's
estimates as follows for this work:-

Repairs to Buildings

Painting roofs of barn and two classroom buildings	\$160.00
Stove and repairs to laundry	\$145.00
	<u>\$305.00</u>

New Buildings and Works

Assistance towards the cost of rebuilding the gymnasium	\$1400.00
--	-----------

The Principal included an item of \$2400.00 for the construction
of a root cellar but this was deleted here as I was unable to
see my way clear to recommend this expenditure in view of
existing conditions.

We have no information here as to what has been
provided for repairs and improvements to this school but, no
doubt, the Department has made some provision and will advise
in due course the extent of the work that may be undertaken at
Departmental expense.

AIR MAIL

Major D.M. MacKay, Indian Commissioner, P.O. Box
70, Vancouver, B.C.

I am in receipt of your letter of the 19th instant, enclosing letter from the Principal of the St. Mary's Mission Residential School, with reference to repairs and improvements that he considers are necessary.

In the current year's appropriation an amount of \$1350.00 was provided for repairs, improvements and purchase of new equipment at this school. You may, therefore, confer with the Principal and arrange for the expenditure of this amount in the best possible manner. I agree with you that in view of present conditions there is no objection to the Principal making purchase as opportunity offers, but such purchases should be subsequently covered by your issuing a purchase order, a copy of which should be attached to the account when you submit same for payment.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B. C.

October 19th, 1943.

Mr. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am giving herewith a statement of the repairs and expenditures, contemplated as a result of the Department's kind authorization of \$1350.00 in this regard.

- A. Shingling and repairing roofs of boys' classroom building and part of the laundry. \$295.00
- B. Painting of entire boys' classroom building; interior of staff building; laundry roof; chicken-house roof and walls; dairy; part of junior classroom and several rooms in administration building. Labour and materials \$398.00
- C. Lumber for dairy barn floor and partition; bull-pen; partitions in girls' dormitory; chicken house; repairs to porch in men's building; building of creamery in kitchen basement; partitions in boys' dormitory toilets; bins and cupboards in kitchen; repairs to roof of dairy; one set of barn doors. Materials only \$325.00
- D. Installation of heating system in men's staff building, consisting of hot air furnace, flues, and 7 outlets. Labour and materials \$205.00
- E. Addition to toilet and wash facilities in boys' and girls' dormitories; 8 toilet bowls; 3 large wash basins; complete connections; Labour and materials \$315.00

Some of the work has already been completed, while other parts are in progress. The total of these amounts exceed the Departmental authorization of \$1350.00 and this difference will either be taken out of school funds or the work limited. Already a substantial reduction has been made in the proposed toilet installations, by arranging to have the wash basins made up locally instead of purchasing from the trade. Full accounts in detail will be forwarded to your office, when the work has been satisfactorily completed.

Very sincerely,

A. H. Fleury, O.M.I.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B. C.

November 11th,
1943

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith bills in triplicate of Mr. A. Lamothe, Chilliwack, B.C. who has recently completed the painting of our buildings. These buildings have been badly in need of repair for some time and I consider myself fortunate in having been able to get the work done. The moreso, as Mr. Lamothe very generously reduced his usual prices by almost 20 per cent in our behalf.

The work has been satisfactorily done and has made quite an improvement around the place.

Would you be kind enough to arrange to have these bills go through as quickly as possible.

Very sincerely,

A. H. Fleury out.

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt:

I am enclosing herewith bills in triplicate, which covers work done by W. Swan, General Contractor. This work included installations of toilet bowls, tanks, urinals and wash-basins and also the erection of several partitions in the boys' dormitory. The work has been completed to our satisfaction and I am very glad that we were able to have this done, through the kindness of the Department.

Mr. Swan's account amounts to \$458.95. I have paid him the sum of \$37.41, leaving a balance of \$421.54. This last amount coincides with the amount due us from the allotment of \$1350.00, after previous bills have been deducted.

I trust that you will find the accounts satisfactory and I would be pleased if you would forward the cheque of Mr. Swan, in my care.

Very sincerely,

A. H. Fleury, O.M.I.

April 17th,
1944

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

INDIAN OFFICE
NEW WESTMINSTER

APR. 19 1944

Dear Mr. Daunt;

I am listing below several items of athletic and sporting equipment, which are needed for the coming year at the St. Mary's Indian Residential school. I understand that the Department is pleased to supply such on request.

8 soccer footballs #5	good quality.
2 Canadian rugby balls	" "
12 Outseam softballs	" "
4 Padded tumbling mats	12' long.

As part of the health and recreational program of the school, athletics are promoted. We have developed two outstanding soccer teams, senior and junior, which have competed successfully with district high schools.

Last year we had one team of gymnasts competing in Vancouver for the Pro-Rec; this year we have three teams going in on the 25th of April. Moreover they will take part in the Provincial Recreation display, which is to be staged at the Forum on that date. So far we have made all our own equipment, horses, parallel bars, springboards etc. The mats are something we cannot make however. Mr. Matheson, Provincial Director of the Pro-Rec, is very enthusiastic about the boys work, and I feel that we owe him a deep debt of gratitude for the interest he has shown. It would be very encouraging for him as well as for myself if the Department would kindly supply the mats. The work we have started is important and has possibilities of great development as part of the Canada National Fitness Campaign, which is now so much to the fore.

Very sincerely,

A.H. Fleury Ouel
A.H. Fleury, O.M.I.

PLEASE QUOTE
FILE 1-8-A.

Indian Affairs Branch, Department of Mines and Resources,
Ottawa, Ont.

I beg to forward you herewith, a request
received from Reverend A.H. Fleury, Principal of St.
Mary's Mission Indian Residential School, for the
following athletic and sporting equipment:-

*auto
lucy
p...*

8 soccer footballs #5	good quality.
2 Canadian rugby balls	" "
12 Outseam softballs	" "
4 Padded tumbling mats	12' long.

A full explanation from the Reverend
Principal, is included in his letter.

These athletic activities are of very
great value in the training of Indian youths, and
their participation in athletic events are a useful
object lesson to the general public as to the up-
bringing and training we are giving these people.

I would, therefore, recommend the request
to the favourable consideration of the Department.

A.O.N. Daunt
A.O.N. Daunt,
Indian Agent.

Copy sent to Mr. Daunt

Ottawa,
April 25, 1944.

Major D.M. MacKay, Indian Commissioner, P.O.
Box 70, Vancouver, B.C.

The Department is in receipt of a request from the Principal of the St. Mary's Mission Residential School for the following athletic and sporting equipment:

8 Soccer footballs #5	good quality
2 Canadian rugby balls	" "
12 Outseam softballs	" "
4 Padded tumbling mats	12' long

It is practically impossible to secure any inflated rubber goods here. However, there may be some in different stores throughout the country. Under the circumstances it has been decided to authorize you to purchase the above equipment, if available.

P.O. Box 70,
Vancouver, B. C.

Attention: Mr. D. M. MacKay
Indian Commissioner for B.C.

Dear Sirs:

Re: 215-9-3095

With reference to your enquiry of May 2nd for sport-
ing items, regret to say that the stock condition of sporting goods
today is not good owing to the difficulty of securing delivery from
the factory and the output is under the Department of Munitions and
Supply control. We would, however, be pleased to send an order down
to the factory stating who for and we hope the Department of Munitions
would allow same to be completed.

We will have to quote on the following items for de-
livery at factory convenience and quote alternatively in one or two
cases. In regard to the Tumbling Mats, if ordering please specify
the width required.

8 soccer footballs #5, sewn, complete with valve	\$ 8.00 each
2 Canadian Rugby balls - H5V Official	6.65 each
Alternative: - J5V Inter-Collegiate	8.35 each
12 Outseam softballs - #12R0	13.20 doz.
Alternative: - #120 PB outseam	15.35 doz.
4 padded tumbling mats 12' long	.70 per sq.ft.

These tumbling mats are burlap covered which is the
only type available today and they are made up as ordered, delivery
taking approximately one week after receipt of order.

We wish to thank you for your enquiry and would be
pleased to enter your order under the above conditions. Prices are

19th June, 1944.

Indian Affairs Branch, Dept. of Mines and Resources,
Ottawa.

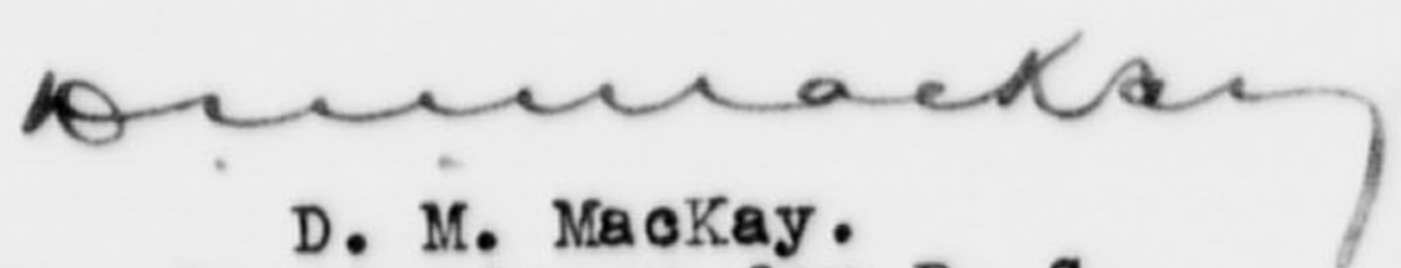

Your File 153-1-5

I have to refer to your letter of April 25th, authorizing the purchase of sporting equipment for St. Mary's Indian Residential School, Mission.

Enclosed is a tender from Marshall-Wells B. C. Ltd., Vancouver, the only firm that was prepared to quote in full on this equipment.

It will be noted that the tumbling mats are quoted at 70¢ per sq. ft. Father Fleury now advises that three mats 5' x 15' are required.

The total amount of this expenditure amounts to \$248.00, f.o.b. Vancouver and, in view of the amount involved, I would ask the Department to kindly confirm their letter of April 25th.

D. M. MacKay.
Indian Commissioner for B. C.

Ottawa,
June 24, 1944.

Major D.M. MacKay, Indian Commissioner, P.O. Box
70, Vancouver, B.C.

I have your letter of the 19th instant, with reference to sporting equipment for the St. Mary's Residential School. I note that Marshall-Wells quote on the basis that the supplies mentioned will be released. I doubt very much if any of the articles mentioned would be supplied, due to the fact that practically the whole output of athletic goods has been frozen and is being used exclusively for the Armed Forces. I suggest that if you can secure some softballs locally you purchase 12 and supply them to the school. It appears from your letter that the tumbling mats are made locally and you may purchase 2 of these.

I think it advisable that you should point out to Father Fleury the present condition of the athletic equipment market. It is simply impossible to secure, in any quantity, the articles that he mentions from any wholesale firm.

R.A. Hoey,
Supt. of Welfare & Training.

Ottawa,
September 27, 1944.

Reverend Sir:

There is approximately \$1000 unspent in the current year's appropriation for repairs, improvements and purchase of new equipment at the St. Mary's Mission Residential School. If this amount is not required, there is no necessity for taking any further action. However, if any improvements are necessary, you should discuss them with the Indian Agent and forward the necessary requisitions through Indian Commissioner MacKay's office.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Rev. A.H. Fleury,
Principal,
St. Mary's Mission Indian Residential School,
Mission, B.C.

Indian Affairs Branch, Department of Mines and Resources,
Ottawa.

I enclose herewith Mr. Indian Agent Daunt's letter of October 24th and letter from the Reverend Principal of the St. Mary's Indian Residential School in connection with repairs and equipment required at the School.

It will be noted that Mr. Daunt requests authority to proceed with the work to the extent of \$1,000, following which full details will be supplied to this Office in order that Purchase Orders may be issued if required. As Mr. Daunt points out, materials are difficult to obtain and, frequently when a quotation is obtainable, materials are disposed of before we have time to issue a Purchase Order. If the proposal suggested by Mr. Daunt is agreeable to the Department, I would recommend that authority be granted to proceed with the work and purchase of equipment as outlined in the Reverend Principal's letter.

NEW WESTMINSTER, B.C.
October 24th, 1944.

Major D.M. MacKay, Indian Commissioner, Vancouver, B.C.

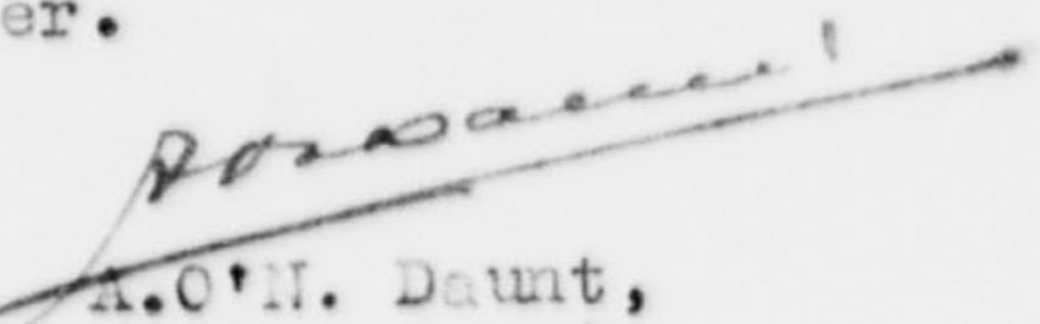

The Reverend Principal of St. Mary's Indian Residential School, is in receipt of a letter from the Department, a copy of which I understand is in your possession, informing him that an amount of \$1,000.00 may be made available for repairs and equipment at St. Mary's Indian Residential School, for the present year.

I am enclosing a letter received today, from the Reverend Principal, requesting repairs and installations which he wishes to undertake against the above amount, and totalling \$1,040.00.

As materials and labour are very difficult to arrange, he requests that permission be given him to proceed with this work up to a given amount, and on its completion purchase orders to cover will be applied for to cover the accounts.

With the scarcity of materials, it will be necessary to shop around, and, therefore, almost impossible to take out purchase orders in the first instance.

I would, therefore, recommend that his request be granted, and that authority be given to undertake the work, as requested in his letter.

A.O.N. Daunt,
Indian Agent.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B. C.

October 23rd, 1944.

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I have received a letter from Mr. Hoey of the Indian Department, authorizing \$1000 for repairs and equipment for the St. Mary's Indian Residential School for the present year. I am listing below the different items, upon which this amount is proposed to be spent:

<u>Repairs and new equipment in laundry, consisting of</u>	
<u>six new stationary wash tubs.....</u>	\$200
<u>Installation of heating system in men's building;</u>	
<u>this was listed last year but could not be</u>	
<u>completed owing to material shortages.....</u>	\$350
<u>New washroom and fixtures off girls' playhall;</u>	
<u>This is needed badly as our present ac-</u>	
<u>commodations are very limited.....</u>	\$220
<u>Potato peeler; urgently needed for kitchen, as</u>	
<u>present one is completely worn out and</u>	
<u>can not be repaired.....</u>	\$270

This amount comes to slightly more than the authorized grant. However we will either curtail some of the work or make up the difference out of school funds. I have already made plans for some of this work to commence at once, so I would appreciate an early reply.

Very sincerely,

A. H. Fleury

With reference to your letter of the 25th instant, it is noted that the repairs and improvements requested by the Principal of the St. Mary's Mission Residential School amount to \$1040. This is a Church-owned school for which a specific amount is provided in our appropriation. Consequently, as stated in my letter of September 27, we can only allow an amount of \$1000. You may authorize the Principal to arrange for the necessary improvements as outlined in Agent Daunt's letter of October 24 and the Principal's letter of October 23.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

MISSION, B. C.

January 22nd, 1945.

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith quotation of Mr. W. Swan on the construction and equipping of a toilet room as an addition to the girls' building. I need hardly say how necessary this addition is, as it has been the subject of correspondence for some time. I feel very fortunate in having Mr. Swan ready to do the work as he has always proven himself to be an honest and reliable contractor.

His quotation is very reasonable. You will note that the amount is \$810.00. This amount added to the \$235.00 already allocated towards the purchase of a potato peeler (letter of November 14th) exceeds by \$45.00 the amount authorized by the Department, which was \$1000.00. We are prepared to pay the extra \$45.00, if the Department cannot see their way to do so.

This proposed construction therefore, uses up all the money allotted, so the other repairs etc. will have to wait, although they too are needed urgently. I had not thought the toilet addition would be so costly; apparently I had based my figures on a pre-war basis. However I am very glad that at last this long-deferred improvement will be made. It is of the utmost importance that we receive the authorization of the Department as quickly as possible. Therefore I ask your kind co-operation in expediting the matter.

Very sincerely,

A. H. Fleury, O.M.I.

A.H. Fleury, O.M.I. Principal.

Your File 153-1-5

With reference to Mr. Hoey's letter of October 31st regarding repairs and improvements requested by the Principal of St. Mary's Mission Residential School, I enclose herewith Mr. Indian Agent Daunt's letter of January 23rd and enclosures referred to therein with respect to a proposed addition to the school building to provide toilet facilities at the girls' section, at a cost of \$810.

1000
235
765

The Contractor, Mr. Swan has not supplied a great deal of information and it would be difficult to determine from his tender if the Department were receiving full value for the expenditure. In any case as the expenditure exceeds \$500.00 I could not issue a Purchase Order from this office. The matter is, therefore, referred to you for such action as seems fit.

I may say that Purchase Order No. 15371-A covering the supply of one potato peeler at a cost of \$235.00 was issued from this office as a charge against the \$1000.00 allowed for the school, leaving a balance of \$765.00.

AIR MAIL

Ottawa, February 1, 1945.

Major D. M. MacKay, Indian Commissioner for B.C.,
Box 70, Vancouver, B. C.

I have your letter of the 25th ultimo, submitting a quotation from Mr. W. Swan, for \$810.00, for constructing and equipping a toilet room as an addition to the girls' building at the St. Mary's Mission Indian Residential School.

The Department approves the acceptance of this tender and it is hoped that Mr. Swan can carry out the work immediately, in order that our share of its cost can be paid from the current year's appropriation.

As you state, we can allow only an amount of \$765.00 towards the total cost of the contract, which is \$810.00. As this is a church-owned school, we can expend only the amount specifically provided in the current year's appropriation, and as an amount of \$235.00 has already been spent, the balance is \$765.00.

With reference to Mr. Phelan's letter of February 1st regarding improvements to the St. Mary's Mission Residential School, and in particular to the proposed expenditure of \$235.00 for the purchase of a potato peeler, I would advise that as this equipment is not available the amount has been spent for the purchase of shingles.

New Westminster voucher No. 770 in the amount of \$235.00 in favour of the Valley Lumber Yards Limited, is enclosed herewith.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Phelan;

Could you please advise me as to what amount has been allowed by the Department for repairs and equipment at the St. Mary's Indian Residential School for the current year.

In my estimates for this year, I had requested various repairs to buildings, which were in poor condition. The amount totalled \$2150.00. I did not list any equipment, which was greatly needed, because the estimates were compiled last year, and with the war still on, I had given up hope of obtaining what was needed until hostilities ceased. The other day our cold storage and refrigeration system finally gave up the ghost. It was a second-hand system, installed about twelve years ago by Father Gillen. We had been nursing it along for the past years, but now after its recent breakdown, we have been advised that it is in hopeless condition. You can well appreciate the difficulties this condition has imposed upon the school. It is absolutely necessary that we have proper facilities for storing our large quantities of meat, dairy produce etc. I have been very fortunate in securing the necessary replacements, subject to authorization by the Department. I am to-day, forwarding quotations for such, in the amount of \$695.00, to Mr. Daunt. It is very important that this matter be given favorable and speedy consideration by the Department, firstly, because we cannot get along without a cold storage system and secondly, because the supplier cannot guarantee holding it for us too long. The price is very low and the equipment extremely sound and efficient. Please do all you can to help me in this matter.

Indian Affairs (RG 10 Volume 6470, file 890-5, part 6)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

POOR COPY

(Page 2)

Last year the Department placed an order for a potato peeler for the school, but as delivery could not be made, the order was cancelled. We still need this equipment quite urgently and I have been advised by the manufacturers that they are now in a position to supply one to us. I intend to apply for this through Mr. Daunt, but thought it advisable to advise you of the circumstances.

I am at present trying to secure quotations for the repairing of certain floor areas in the school. It has been quite difficult to obtain materials for this work, but I am glad to say that I have at last contacted a firm, the Tremco Co., who distribute a mastic preparation, which is ideal for our purpose. This item of repairs was listed on our estimates of last year. Another item, namely, painting of some buildings, is also in process of quotation and the results will be forwarded within a few days.

I trust that you will understand why there is a variance between our estimates of last year and the actual quotations now being submitted. It was impossible to secure equipment last year, so we planned repairs, for which we judged the materials might be more obtainable. Now the situation is almost reversed; lumber is at a premium, while equipment is starting to come on the market. To climax it all, our cold storage system is completely gone and the old potato peeler likewise. Consequently we are in urgent need of the pieces of equipment and plan to carry out also the item of repairs to the floors and the painting. Just how far we will be able to go in this plan depends on the Departmental allowance, that has been granted.

Will you kindly advise me of our position in this regard.

Very sincerely,

A. H. Fleury, O.M.I.

Major D.M. MacKay, Indian Commissioner for B.C.,
P.O. Box 70, Vancouver, B.C.

In the current year's appropriation
an amount of \$1,350.00 was included for repairs,
improvements and purchase of new equipment at the
St. Mary's Indian Residential School.

I thought you would like to have
this information as I understand from the Principal
that he is making certain requests to your office.

Philip Phelan,
Chief, Training Division.

MISSION, B. C.

September 18th, 1945.

Mr. A.O'N. Daunt,
Indian Agent,
New Westminster, B.C.

Dear Mr. Daunt;

I am enclosing herewith four copies of quotation, submitted by W.J. Windebank of Mission, B.C., who is the representative of the Western Agencies of Vancouver, dealers in refrigeration equipment.

Our cold storage and refrigeration system has completely broken down at the school. It is an old system, installed second-hand many years ago by Father Gillen. For a long time it has given us much trouble, but we managed to keep it going. The last break was very serious and we have been advised that it is impossible to repair it. I do not need to tell you of the urgency of this matter. We have large quantities of food, such as meat, dairy produce etc. to be conserved and protected and without a cold storage system we are sadly handicapped. Because of our extreme need and by a very fortunate chance, I have secured a quotation for immediate installation, on a very sound and economical system. The price is \$695.00 installed. Please do your utmost to bring this matter to the attention of the Department as our need is great and the equipment cannot be reserved for us too long. Urgency is of the utmost importance in this matter.

I will be writing you again in a few days with regard to other items of repairs and equipment for the current year. I wished, however to get this present item through as quickly as possible, as it is a special emergency.

Very sincerely,

A.H. Fleury, O.M.I.

A.H. Fleury, O.M.I. Principal.

PLEASE QUOTE
FILE 1-8-A.

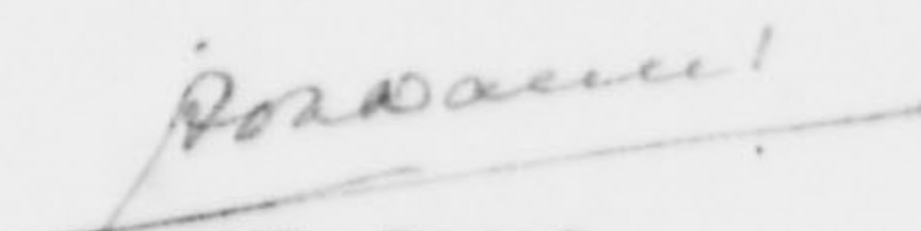

NEW WESTMINSTER, B.C.
September 22nd, 1945.

Major D.M. MacKay, Indian Commissioner, Vancouver, B.C.

I beg to forward you, in triplicate, an Estimate from Mr. W.J. Windebank of Mission, to the amount of \$695.00, covering the installation of a new refrigerating system at the St. Mary's Indian Residential School. A letter, also in triplicate, from the Reverend Principal explaining fully the need of this equipment, is also enclosed, and does not need elaboration.

I have explained to the Reverend Principal that as this item was not included in the Estimates submitted for the current fiscal year, the charge involved will have to be applied against the amount the Department has been able to set aside for this School, and he will have to drop such items as are necessary to cover this expense.

In view of the great necessity for adequate refrigeration in an Institution of this kind, I would recommend that authority be given to have this work put in hand at the earliest possible moment.

A.O.N. Daunt,
Indian Agent.

I enclose herewith Mr. Indian Agent Daunt's letter of September 22nd and enclosures referred to therein in connection with the proposed installation of a new refrigeration system at the St. Mary's Indian Residential School.

From the information available, it would appear that this new installation is necessary and as the Principal apparently is agreeable to the cost being met from the funds provided for repairs and improvements to the school during the current fiscal year it is recommended that the Department approve the installation and issue a purchase order in favour of Mr. W.J. Windebank in accordance with his tender.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

January 17th, 1946. MISSION, B. C.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Phelan:

Under date of October 3rd, 1945, the Department issued a purchase order #5768 to W.J. Windebank of Mission, B.C. for the installation of refrigerating equipment at the St. Mary's Indian Residential School. The cost, as originally quoted by the supplier was to be \$695.00. I was in Ottawa while this equipment was being installed and a few days before leaving, I was advised from the School, that due to an error, certain essential parts of the kitchen refrigerator had not been allowed on the quotation or purchase order. I could not get in immediate touch with you to remedy this emergency, as you were out of town. I advised the supplier by wire to install what was necessary as it was the only thing to do.

The extra installation, which consists of an ice-making machine, valves and fittings amounts to \$134.70, making a total for the whole refrigerating system of \$829.70. It is unfortunate, of course, that this was not included in the original quotation and purchase order. However in view of the circumstances, I would ask you to kindly arrange to take care of this extra amount. In case another purchase order is required the extra items are as follows:

- 1- Ice making coil \$65.00; 1- Temperature valve \$21.60;
- 1- Expansion Valve \$19.75; 1- Check valve \$5.00;

Labour of installation complete with fittings, methyl chloride \$23.35. Total \$134.70.

I mentioned to you, while I was in Ottawa, that we had great need of an automatic coal-feeding system for our kitchen range. You suggested that quite probably this could be purchased out of the grant for repairs, as long as the total cost did not exceed \$500.00. I have been

Indian Affairs (RG 10 Volume 6470, file 890-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

page 2.

very fortunate in securing an excellent automatic feeder, completely installed at a total cost of \$395.00. The description of this feeder is as follows:

- 1- L20 Iron Fireman Stoker, completely installed with controls \$395.00.

Would you please advise as to what I should do to have this item paid for out of the grant for repairs. The supplier is W.J. Windebank, Mission, B.C.

I would be very pleased if you reply to this letter as soon as possible, as I am anxious to have these bills paid. In each case the work has been all completed and is giving entire satisfaction. I believe also that the combined amount of these bills is within the amount allowed by the Department for equipment and repairs at the St. Mary's School for the current year.

Very sincerely,

A. H. Fleury, O.M.I.

St. Mary's Indian Residential School

UNDER THE DIRECTION OF THE OBLATE FATHERS

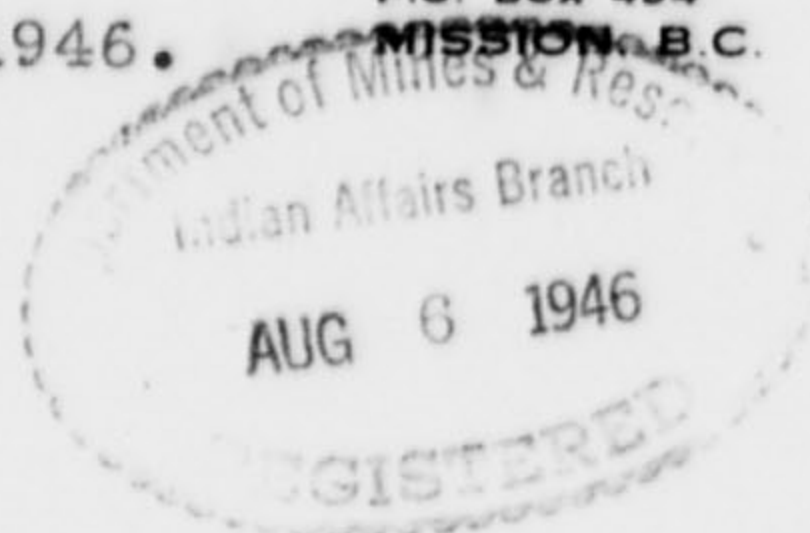

†

August 3rd, 1946.

P.O. BOX 494

MISSION, B.C.

Mr. J. Gillett,
Indian Agent,
New Westminster, B.C.

Dear Mr. Gillett;

As I mentioned in my letter dated July 20th, many of the repairs and improvements, planned for this year, have had to be postponed as we are unable to get materials. However I was fortunate enough to secure quotations on the painting and repairing of our main building. This building is badly in need of painting as the stucco walls are beginning to crack, due to the lack of a protecting coating. The slate roof is in poor condition and gives a very shabby appearance to the building.

I have secured two quotations as enclosed. The one of M.A. Girard and Sons seems quite high, whereas the other of Webster Bros. appears to be very reasonable. Moreover they live in this district and have a good reputation as painting contractors.

I would be very pleased if you would take the necessary steps to have this work completed out of the Departmental allotment for the current year for St. Mary's School.

There are several other badly needed repairs in regard to which I will write you later. There is also the possibility that the materials which are at present holding up work, listed on last years estimates, may be procurable within a few months.

Very sincerely,

A. H. Fleury O.M.I.

FILE 1-8-A

New Westminster, B. C.,
August 6th, 1946.

Major D. M. MacKay, Indian Commissioner, Vancouver, B. C.

Attached is a letter in duplicate from Father Fleury, outlining repairs which are required at St. Mary's Indian Residential School.

I consider that the repairs are needed, and if funds are available, I recommend that that the work be authorized, so that it can be completed before the school opens in September.

Tenders in duplicate are enclosed from two firms, and I recommend that Webster Brothers be given the contract for \$1065.00.

J. Gillett,
Indian Agent.

AIRMAIL

Indian Affairs Branch, Dept. of Mines & Resources,
Ottawa.

I am forwarding Mr. Indian Agent Gillett's letter of August 6th and enclosures referred to therein in connection with repairs required at St. Mary's Indian Residential School. It will be appreciated if you would advise what funds have been provided for this school during the current fiscal year and if consideration could be given to having the work recommended by Father Fleury and quoted on by Webster Brothers and M.A. Giroird and Sons carried out.

Although both Mr. Gillett and the Reverend Principal recommended acceptance of Webster Brothers' tender it is considered that before arriving at a decision further information should be secured with respect to the work they are prepared to do and the quality of materials they intend to use, along the lines of the tender submitted by Messrs. M. A. Giroird & Sons.

Major D. M. MacKay, Indian Commissioner for B.C.,
P.O. Box 70, Vancouver, British Columbia.

I have your letter of the 7th instant, with
reference to repairs required at the St. Mary's Mission
Indian Residential School.

In the current year's appropriation we included
an amount of \$1,500.00 for necessary repairs. In view of
the last paragraph of your letter, we will await another
communication from you before making a final decision.

Philip Phelan,
Chief, Training Division.

Dear Sir:

In further reference to our quotation of
June 14th, our estimate and specifications are as follows:

Stucco walls: One coat of Bapco Surface
Seal to be applied; followed by second coat
of Baproc finish coat. Walls to be
thoroughly cleaned before paint is applied.

Trim: Two coats of exterior Bapco paint
to be applied on all trim and exterior wood
surface. Doors to be cleaned, sanded and
varnished.

One heavy coat of Bapco shingoline paint to
be applied on shingled roof.

Tile roof to be thoroughly cleaned, broken
tiles replaced and one coat of special Tremco tile
paint to be applied.

Our estimate for materials and labour on
this work is \$1065.00. We trust that we may be of service
to you in this regard.

Yours very truly,

(Sgd) J. Albert Webster.

Ottawa, September 3, 1946.

Memorandum:

THE DEPUTY MINISTER.

Re: St. Mary's Indian Residential School,
Mission, British Columbia.

MS
The Principal of the above mentioned school reports that the building is badly in need of painting as the stucco walls are beginning to crack, due to the lack of a protecting coating. The slate roof is also in poor condition. The Indian Commissioner agrees with the Principal and he has submitted quotations from Webster Brothers, Abbotsford, British Columbia and from M.A. Girard and Sons, New Westminster, British Columbia. The quotations of Webster Brothers for material and labour is \$1065.00 and is much less than the quotation received from the other firm. The Indian Commissioner recommends the acceptance of the quotation received from Webster Brothers and I would appreciate it if the Minister would give his approval so that the work may be done in the near future.

This is a church-owned school and funds were provided in the current years' appropriation.

I enclose for your information the quotations mentioned above.
